

## Baillie Gifford Investment Grade Long Bond Fund

### 31 October 2023

#### Fund Objective

To outperform (after deduction of costs) the ICE BofA Sterling Non-Gilt over 10 Years Index by +0.5% per annum over rolling three-year periods.

The manager believes this is an appropriate target given the investment policy of the Fund and the approach taken by the manager when investing. In addition, the manager believes an appropriate performance comparison for this Fund is the Investment Association Sterling Corporate Bond Sector.

There is no guarantee that this objective will be achieved over any time period and actual investment returns may differ from this objective, particularly over shorter time periods.

#### Investment Proposition

The Fund seeks to maximise total return relative to an index comprised of sterling investment grade bonds with a maturity greater than 10 years. Performance is driven by stock selection. Ideas are sourced primarily from investment grade bonds and are driven by fundamental, bottom-up stock analysis. Our portfolio is well diversified, with exposure to between 50-90 companies typically. Holdings are sized according to our level of conviction in their prospects and the risks they pose.

## Key Terms

**Periodic Performance** is a method of evaluating how a fund is doing over time. It compares a fund's performance in each period to its performance in past periods. It also looks at the performance of the fund to the performance of an index or its peers.

**Discrete Performance** is a method of evaluating the degree to which a fund performs compared against its benchmark on a given date.

**Hedging** is a strategy used to reduce or limit investment exposure to a particular risk. It involves taking an offsetting position in another asset to balance the risk associated with the original investment.

**Distribution Yield** reflects the annualised income of the Fund (calculated in accordance with relevant accounting standards) as a percentage of the mid-market share price of the Fund (excluding tax) as at the date shown. It is based on a snapshot of the portfolio on that day.

**Underlying Yield** reflects the annualised income net of expenses of the Fund (calculated in accordance with relevant accounting standards) as a percentage of the mid-market share price of the Fund (excluding tax) as at the date shown. It is based on a snapshot of the portfolio on that day.

**Duration** is a measure of how sensitive the price of a bond (or other debt instrument) is to a change in interest rates. In general, the higher the duration, the more a bond's price will drop in response to a rise in interest rates.

## Geographical allocation

	Fund (%)
1 United Kingdom	62.5
2 United States	9.6
3 France	7.0
4 Germany	4.9
5 Supranational	3.4
6 Mexico	2.3
7 Italy	2.3
8 Others	6.1
9 Cash & Derivatives	1.9

## Additional Fund Information

The Distribution yield is higher than the Underlying Yield because the Fund's expenses are charged to capital. This has the effect of increasing distributions and constraining the Fund's capital performance.

The ongoing charges figure is based on the expenses for the financial year and may vary from year to year. It excludes the cost of buying and selling assets for the Fund although custodian transaction costs are included. Further explanation of all the charges and costs relating to this Fund can be found in the Enhanced Disclosure of Fund Charges and Costs document which is available through our website, [bailliegifford.com](http://bailliegifford.com). Where the share class has been launched during the financial period and / or expenses during the period are not representative, an estimate of expenses may have been used instead. All figures are rounded, so any totals may not sum.

## Target Market

This Fund is suitable for all investors seeking a Fund that aims to deliver income over a medium- or long-term investment horizon. The investor should be prepared to bear losses. This Fund is compatible for mass market distribution. This Fund may not be suitable for investors seeking capital growth, capital protection and investing for less than three years.

## Risk Warnings

Investment markets can go down as well as up and market conditions can change rapidly. The value of an investment in the Fund, and any income from it, can fall as well as rise and investors may not get back the amount invested.

The specific risks associated with the Fund include:

- Market values for illiquid securities which are difficult to trade may not be readily available and there can be no assurance that any value assigned to such securities will accurately reflect the price the Fund might receive upon their sale. In certain circumstances it can be difficult to buy or sell the Fund's holdings and even small purchases or sales can cause their prices to move significantly, affecting the value of the Fund and the price of shares in the Fund.
- Custody of assets involves a risk of loss if a custodian becomes insolvent or breaches duties of care.
- Bonds issued by companies and governments may be adversely affected by changes in interest rates, expectations of inflation and a decline in the creditworthiness of the bond issuer. The issuers of bonds in which the Fund invests may not be able to pay the bond income as promised or could fail to repay the capital amount.
- The Fund's concentrated portfolio relative to similar funds may result in large movements in the share price in the short term.
- Derivatives may be used to obtain, increase or reduce exposure to assets and may result in the Fund being leveraged. This may result in greater movements (down or up) in the price of shares in the Fund. It is not our intention that the use of derivatives will significantly alter the overall risk profile of the Fund.
- The Fund's share price can be volatile due to movements in the prices of the underlying holdings and the basis on which the Fund is priced.
- The manager can charge some, or all, expenses to the Fund's capital, reducing its value. This amount can vary from year to year.
- More than 35% of scheme property may be invested in securities issued or guaranteed by Governments and / or other organisations worldwide. For further details please see the Prospectus.

Further details of the risks associated with investing in the Fund can be found in the Key Investor Information Document or the Prospectus, copies of which are available at [bailliegifford.com](http://bailliegifford.com).
