

Fund aim

The investment objective of the Fund is to achieve returns in excess of the MSCI AC World NR through investment in a focused selection of equities on a global basis.

Investment style

The Fund seeks to identify competitively advantaged businesses which can grow cash flows for shareholders in the long term. Position sizes are allocated on a conviction basis and while being aware of the relative exposure versus the MSCI All Country World Index by style factor, region and sector, the portfolio's construction is benchmark agnostic. The Fund will be populated by a concentrated list of high conviction global best ideas.
