OBJECTIVE

The investment objective of The VT Woodhill UK Equity Strategic Fund is to provide a positive capital return over a 12 month period, regardless of market conditions, with a lower level of volatility returns than the UK equity markets on average. Capital is at risk and there is no guarantee that a positive return will be achieved over a 12 month, or any, period.

The fund comprises of an equity portfolio which can, at times, be fully hedged and thereby protected for the most part from the downside risk. We assess overall market risk using a selection of economic, fundamental and market related data sets. Through this method we intend to protect investors' capital when the market falls, and add value as it rises.
