

29 February 2024

OEIC

SCOTTISH WIDOWS

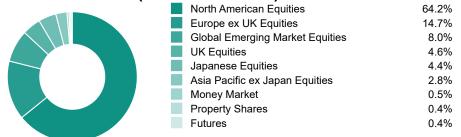

Fund Objective

To provide capital growth through investment in a broad portfolio, investing in shares of companies across the world, including the UK. The benchmark index for the Fund is the MSCI All Country World (MSCI ACWI) Index (the "Index"). The Fund seeks to outperform the Index by 1.25%* on a rolling 3 year basis, before deduction of fees. The MSCI All Country World (MSCI ACWI) Index has been selected as an appropriate benchmark as it provides a representation of the returns of securities in the equities market worldwide. For further information on this fund's policy and objectives, please refer to the Key Investor Information Document or the Prospectus. These documents can be accessed via the following link:

Quarterly Fund Manager Review

It was a strong quarter for global shares as the US Federal Reserve signalled that interest rate cuts may be on the way for 2024. Developed markets outperformed emerging markets amid ongoing worries over China's real estate sector. Crude oil prices fell despite some output cuts. US shares registered strong gains in the final quarter of the year, buoyed by expectations that interest rate cuts may be approaching. The S&P 500 index ended the year just short of its record high set in early 2022. The final quarter of the year was also a strong one for eurozone shares, boosted by expectations that there may be no further interest rate rises. The MSCI EMU index advanced 7.8%. UK equities also rose over the quarter. UK small and mid-cap indices outperformed the broader market as domestically focused stocks performed very strongly. Despite some weakness in October and December, gains in November meant the Japanese equity market ended the quarter in positive territory. In October, worries that US interest rates may remain higher for longer given still strong inflation weighed on market sentiment. However, investor sentiment improved, primarily due to weaker-than-expected macroeconomic figures in the US leading to expectation of US rate cuts. Asia ex Japan equities gained in the fourth quarter. Hopes that US interest rates may have peaked led to renewed investor appetite for risk assets across the region. All markets in the MSCI AC Asia ex Japan index ended the quarter in positive territory apart from China, where shares fell due to investor concerns over weaker economic growth. There were fears that stimulus measures by the Chinese government may not be sufficient to spur growth in the world's second-largest economy. The ongoing real estate crisis and uncertainty over China's regulatory regime also weakened sentiment towards Chinese stocks. Despite pressure early in the quarter, when rising bond yields and conflict in the Middle East weighed on emerging market (EM) returns, overall EM equities were strong in Q4 2023, alb
