

CT (Lux) Global Smaller Cap Equity

Share Class I Acc GBP

29-Feb-24 | For qualified investors only

Fund manager

Catherine Stanley

Fund objective and policy

The Fund aims to achieve a long-term increase in the value of your investment. The Fund is actively managed. It is not constrained by its comparator benchmark, the MSCI World Small Cap NR Index, and has significant freedom to invest in a portfolio that is materially different to the benchmark's own composition. The Fund aims to achieve its objective by investing in the equities of global small and medium sized companies (companies with a maximum stock exchange capitalisation of US \$10 billion at the time of initial purchase).

Risk warning

The value of investments and any income derived from them can go down as well as up as a result of market or currency movements and investors may not get back the original amount invested. Investments in smaller companies carry a higher degree of risk as their shares may be less liquid and investment values can be volatile. An investment concerns the acquisition of units or shares in a fund, and not underlying assets such as buildings or shares of a company, as these are only the underlying assets owned by the fund. The decision to invest in the promoted fund should also take into account all the characteristics or objectives of the promoted fund as described in the prospectus. Full list of relevant risks can be found in the KIID/KID and prospectus.

Glossary

Active Engagement Report

We define engagement as dialogue between investors and companies with a focus on encouraging companies to address strategic issues including environmental, social and governance factors. The objective of such dialogue with companies is to reduce risk and support long-term performance. The table sets out, for the fund, the number of companies we have engaged with; the number of countries covered and the individual engagement themes.
