FUND RATINGS

Ratings should not be used for making an investment decision and do not constitute a recommendation or advice in the selection of a specific investment or class of investments.

INVESTMENT OBJECTIVE

To achieve capital growth and potential for income over the long term (5 years or more) while being managed to a predefined level of risk. The Fund will aim to maintain a risk profile classification of 3 from a scale of 1 (lowest) to 10 (highest) which is assessed against the risk ratings scale provided by an external third party risk rating agency.

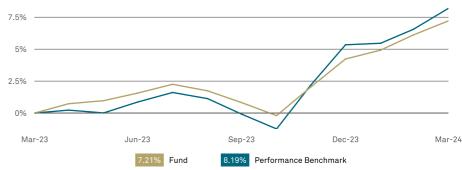

PERFORMANCE DISCLOSURE

Past performance is not a guide to future performance. The value of investments can fall. Investors may not get back the amount invested. Income from investments may vary and is not guaranteed.

PERFORMANCE BENCHMARK

The Fund is actively managed without benchmark related constraints. The Fund uses a composite index, comprising 15% SONIA GBP, 55% ICE BofAML Global Broad Index GBP Hedged and 30% MSCI ACWI GBP NR as a point of reference (comparator) against which the ACD invites Shareholders to compare the Fund's performance. The ACD considers the composite index to be an appropriate comparator because it includes a broad representation of the asset classes, sectors and geographical areas in which the Fund predominantly invests.

Source for all performance: Lipper as at 31 March 2024. Fund Performance for the Institutional Shares W (Accumulation) calculated as total return, including reinvested income net of UK tax and charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available upon request.

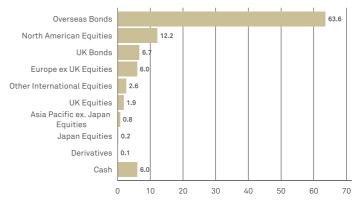

The BNY Mellon FutureLegacy funds are actively managed typically by using forward-looking expectations of volatility. In doing so, the Investment Manager uses its own internal risk model, whilst also considering external independent risk profiling methodologies. Based on a risk profile scale of 1 (lowest) to 10 (highest), this fund targets a risk profile of 3 but this is not guaranteed. This risk profile is not the same as the risk and reward category shown in the [fund's/funds'] Key Investor Information Document(s). The risk profiles of the fund is currently assessed against the risk ratings scale provided by Dynamic Planner, but is subject to change at the ACD's discretion.
