# Man Stockmarket Managed Fund

#### MONTHLY SUMMARY REPORT: 31 MAY 2022

### FUND DESCRIPTION

The Fund seeks to provide capital growth over the long term (over 5 year rolling periods) by investing at least 70% of its assets in a range of investment funds) which are operated, managed or advised by Man Fund Management UK Limited or any of its associates. Eligible investment funds are selected by considering their return potential, diversification benefits, volatility and their relative performance on a risk adjusted basis. The Fund may have direct exposure or indirect exposure to a diverse range of asset classes, including equities, corporate bonds, convertible preference shares, asset backed securities, cash, cash-like instruments and warrants, money market instruments, deposits, immovable property and commodities. The Fund is actively managed.

#### A complete description of fund aims is set out in the fund's prospectus.

### FUND RISKS

The value of your investment and the income from it may rise as well as fall and you may not get back the amount originally invested. Prior to investing in the Fund investors should carefully consider the risks associated with investing, whether the Fund suits their investment requirements and whether they have sufficient resources to bear any losses which may result from an investment in the Fund. Investors should only invest if they understand the terms on which the Fund is offered. Investors should consider the following risks and where appropriate seek professional advice before investing: **Investment Objective Risk, Market Risk, Counterparty Risk, Currency Risk, Liquidity Risk, Financial Derivatives Instruments, Leverage Risk**. More details can be found in the risk glossary. **Prior to making investments investors should read and consider the fund's offering documents.**

Performance is represented by the lead unbundled class Man Stockmarket Managed Fund Professional Acc from 11/10/2012 and by the bundled class Man Stockmarket Managed Fund Retail Acc prior to 10/10/2012 in accordance to the Retail Distribution Review (RDR) track record extension. Performance shown is based on Net Asset Values (NAV) pricing at noon.

The Investment Association's Flexible Investment sector (a sector of funds grouped based on having broadly similar characteristics) is a comparator benchmark. The Authorised Corporate Director considers that it provides an appropriate comparison for performance purposes given the Fund's investment objective and policy.

Past Performance is not indicative of future performance. Returns may increase or decrease as a result of currency fluctuations. Performance data is shown net of the reporting class Ongoing Charge Figure (or TER), performance fees and transaction costs and gross of taxes with gross dividend income reinvested, and does not take into account sales and redemption charges where such costs are applicable. Other share classes may charge different fees. This is a marketing communication.

#### **RISK GLOSSARY**

Investment Objective Risk - There is no guarantee that the Fund will achieve its investment objective.

Market Risk - The Fund is subject to normal market fluctuations and the risks associated with investing in international securities markets. Therefore, the value of your investment and the income from it may rise as well as fall and you may not get back the amount originally invested.

**Counterparty Risk** - The Fund will be exposed to credit risk on counterparties with which it trades in relation to on-exchange traded instruments such as futures and options and where applicable, 'over-the-counter' ("OTC", "non-exchange") transactions. OTC instruments may also be less liquid and are not afforded the same protections that may apply to participants trading instruments on an organised exchange. **Currency Risk** - The value of investments designated in another currency may rise and fall due to exchange rate fluctuations. Adverse movements in currency exchange rates may result in a decrease in return and a loss of capital. It may not be possible or practicable to successfully hedge against the currency risk exposure

in all circumstances.

Liquidity Risk - The Fund may make investments or hold trading positions in markets that are volatile and which may become illiquid. Timely and cost efficient

sale of trading positions can be impaired by decreased trading volume and/or increased price volatility. **Financial Derivatives Instruments** - The Fund will invest financial derivative instruments ("FDI") (instruments whose prices are dependent on one or more underlying asset) to achieve its investment objective. The use of FDI involves additional risks such as high sensitivity to price movements of the asset on which it

is based. The extensive use of FDI may significantly multiply the gains or losses. **Leverage Risk** - The Fund's use of FDI may result in increased leverage which may lead to significant losses.

#### Important information

This material is of a promotional nature.

The fund is a sub-fund of Man Managed Fund ICVC, an investment company with variable capital domiciled in the United Kingdom and registered with The Financial Conduct Authority. Full details of the Fund objectives, investment policy and risks are located in the Prospectus which is available with the Key Investor Information Document (KIID) and the Report and Accounts of the NURS in English. The Fund's documentation is available free of charge from the local information/paying agent, from authorised distributors and from www.man.com/ documents.

The value of an investment and any income derived from it can go down as well as up and investors may not get back their original amount invested. Alternative investments can involve significant additional risks.

This material is for information purposes only and does not constitute an offer or invitation to invest in any product for which any Man Group plc affiliate provides investment advisory or any other services. It is not contractually binding nor does it represent any information required by any legislative provision. Prior to making any investment decisions, investors should read and consider the fund's offering documents.

Opinions expressed are those of the author as of the date of their publication, and are subject to change.

Some statements contained in these materials concerning goals, strategies, outlook or other non-historical matters may be "forward-looking statements" and are based on current indicators and expectations at the date of their publication. We undertake no obligation to update or revise them. Forward-looking statements are subject to risks and uncertainties that may cause actual results to differ materially from those implied in the statements.

Distribution of this material and the offer of shares may be restricted and the minimum subscription amount may be higher in certain jurisdictions. The product(s) mentioned within this material (i) may not be registered for distribution in your jurisdiction, and (ii) may only be available to professional or otherwise qualified investors or entities. It is important that distributors and/or potential investors are able to ensure compliance with local regulations prior to making a subscription. Please refer to the offering documentation for additional information.

Unless stated otherwise the source of all information is Man Group plc and its affiliates as of the date on the first page of this material.

Prepared by Man Solutions Limited ("Investment Adviser / Investment Manager") (company number 03385362). The Fund's Authorised Corporate Director is Man Fund Management UK Limited (company number 03418585). The companies are registered in England and Wales at Riverbank House, 2 Swan Lane, London, EC4R 3AD. Authorised and regulated in the UK by the Financial Conduct Authority.
