

# 7IM European (ex UK) Equity Value Fund

As at 31 March 2020

**SEVEN**   
Investment Management

## INVESTMENT OBJECTIVE

The objective of the fund is to achieve long term capital growth (at least 5 years) through investing in a portfolio of the shares of the European Economic Area (EEA) and Swiss companies and also companies listed on exchanges in the EEA (excluding the UK) and Switzerland.

## INVESTMENT PROCESS

As their names suggest, each fund within the Equity Value range has been designed, and is managed, to meet differing investment aspirations based upon an investor's geographic preference.

The fund uses a systematic investment process to identify profitable and growing companies which are assessed as trading below their intrinsic value.

## WHAT YOU NEED TO CONSIDER

Prior to investing, you need to consider the level of risk you are prepared to take, how much growth you want to achieve, and over what time period. If you have a long time to grow your investments you might be able to ride out market ups and downs better than someone who needs their money in just 5 years. You should regularly reassess the suitability of your investments to ensure that they continue to meet your investment goals and suit your time horizon. You should be aware that there can be no guarantees. The value of investments may go up and down and you may get back less than you invested originally.

## TARGET MARKET

7IM European (ex UK) Equity Value Fund may be suitable for those investors seeking to achieve long-term capital growth through investing predominantly in a portfolio of equities of companies that are incorporated in, have their head office in and/or are domiciled in the European Economic Area (excluding the UK) and Switzerland and/or have a significant part of their operations in the European Economic Area (excluding the UK) and Switzerland. The Fund may also invest in other companies that are listed in the European Economic Area (excluding the UK) and Switzerland.

## REFERENCE BENCHMARK

The MSCI Europe Ex. UK Index may therefore be used as a means of judging the effectiveness of the fund's performance and strategy over the long term. The Manager maintains a high degree of flexibility, having the ability to invest outside the Index, in significantly fewer assets than those which constitute the Index and in weightings that are different.

## FUND AVAILABILITY

The 7IM funds are available via the majority of the major wraps, platforms and life and pension wrappers. If you would like further information please call us on 020 7760 8777.
