Key risks: Past performance is not a guide to future performance. The portfolio is invested in smaller companies - these stocks may be less liquid and the price swings greater than those in, for example, larger companies. The Fund holds a concentrated portfolio of stocks, if the price of one of these stocks should move significantly, this may have a notable effect on the value of the portfolio.

Charges

Initial charge	0.00%
Ongoing Charges Figure*	1.04%
Included within the OCF is the Annual Management Charge**	0.75%

*The Ongoing Charges Figure (OCF) covers all aspects of operating a fund during the course of its financial year. These include the annual charge for managing the fund, administration and independent oversight functions, such as trustee, depository, custody, legal and audit fees. The OCF **excludes** portfolio transaction costs except for an entry/exit charge paid by the Fund when buying or selling units in another fund. This will have an impact on the realisable value of the investment, particularly in the short term. **These are the annual costs of running and managing the Fund.
