# JPM Global (ex-UK) Bond Fund

Class: JPM Global (ex-UK) Bond Fund A - Gross Accumulation

## Fund overview

ISIN GB0030877327	Sedol 3087732	Bloomberg JPGXBAA LN	Reuters GB0030877327.LUF
----------------------	------------------	-------------------------	-----------------------------

**Investment objective:** To provide income with the prospect of capital growth from investment anywhere in the world, including emerging markets, in non-Sterling denominated bonds in any economic sector.

### Investment approach

- Uses a globally integrated research driven investment process that focuses on analysing fundamental, quantitative and technical factors across countries, sectors and issuers.
- Targets diversified sources of portfolio return – including duration management, yield curve positioning, inflation and cross markets trades.
- Invests primarily in non-sterling denominated bonds in any economic sector.

### BENCHMARK USES

The Fund is actively managed. The Benchmark is a Performance Comparator and the Fund will bear some resemblance to its benchmark. The Benchmark has been chosen as it reflects the main investment universe and strategy for the Fund.

Shareholders could lose some or all of their money.	Shares of the Fund will fluctuate in value.	

## General Disclosures

**Before investing, obtain and review the current Prospectus, Key Investor Information Document (KIID) and the Key Features Document/Terms & Conditions for this fund which are available in English from JPMorgan Asset Management (UK) Limited or at <https://am.jpmorgan.com>.**

This material should not be considered as advice or an investment recommendation. Fund holdings and performance are likely to have changed since the report date. No provider of information presented here, including index and ratings information, is liable for damages or losses of any type arising from use of their information. No warranty of accuracy is given and no liability in respect of any error or omission is accepted.

To the extent permitted by applicable law, we may record telephone calls and monitor electronic communications to comply with our legal and regulatory obligations and internal policies. Personal data will be collected, stored and processed by J.P. Morgan Asset Management in accordance with our EMEA Privacy Policy [www.jpmorgan.com/emea-privacy-policy](http://www.jpmorgan.com/emea-privacy-policy)

For additional information on the fund's target market please refer to the Prospectus.

**Synthetic risk and reward indicator** Based on share class volatility for the past 5 years. See Key Investor Information Document (KIID) for details.

As at 15/04/18 the investment objective of the Sub-Fund was changed.

## Performance information

Source: J.P.Morgan Asset Management. As at 02/07/17 share class performance shown is based on the quoted price of the share class, assumes any gross income was reinvested, and includes ongoing charges but not any entry or exit fees. Prior to this date the quoted price of the share class, assumed any net income was reinvested. Indices do not include fees or operating expenses and you cannot invest in them.

The Yield reflects the gross amount that may be distributed over the next 12 months as a percentage of the quoted price at the date shown. It is calculated from current market information and is provided to shareholders as an estimate but should not be taken as a guaranteed yield. The Yield calculation does not include the impact of any Entry charge that may be paid or that investors may be subject to tax on income distributions. Where a portion of the fund's

expenses are charged to capital this has the effect of increasing the distribution for the year and constraining the fund's capital performance to an equivalent extent.

## Holdings information

Maturity Date refers to the maturity/reset date of the security. For those securities whose reference coupon rate is adjusted at least every 397 days, the date of the next coupon rate adjustment is shown.

Unrated onshore Chinese bond issues may be deemed investment grade to the extent that their issuers hold an international investment grade rating by at least one independent international rating agency.

VaR is a means of measuring the potential loss to a Sub-Fund due to market risk and is expressed as the maximum potential loss at a 99% confidence level over a one month time horizon. The holding period for the purpose of calculating global exposure is one month.

## Information Sources

Fund information, including performance calculations and other data, is provided by J.P. Morgan Asset Management (the marketing name for the asset management businesses of JPMorgan Chase & Co and its affiliates worldwide).

## Issuer

JPMorgan Asset Management (UK) Limited Registered address: 25 Bank Street, Canary Wharf, London E14 5JP, United Kingdom. Authorised and regulated by the Financial Conduct Authority. Registered in England No. 01161446.

## Definitions

**NAV** Net Asset Value of a fund's assets less its liabilities per Share.

**Quoted Price** The single price at which all client orders are executed.

**FE Crown rating** are quantitative ratings ranging from one to five designed to help investors identify funds which have displayed superior performance in terms of stockpicking, consistency and risk control.

FE Crown Fund Ratings are however purely quantitative and backward looking, and, as such, cannot offer any certainty about the future.

FE Trustnet crown rating as at 31 July 2022.

**Correlation** measures the relationship between the movement of the fund and its benchmark. A correlation of 1.00 indicates that the fund perfectly matched its benchmark.

**Alpha (%)** a measure of excess return generated by a manager compared to the benchmark. An alpha of 1.00 indicates that a fund has outperformed its benchmark by 1%.

**Beta** a measure of a fund's sensitivity to market movements (as represented by the fund's benchmark). A beta of 1.10 suggests the fund could perform 10% better than the benchmark in up markets and 10% worse in down markets, assuming all other factors remain constant.

**Annualised volatility (%)** an absolute measure of volatility and measures the extent to which returns vary up and down over a given period. High volatility means that the returns have been more variable over time. The measure is expressed as an annualised value.

**Sharpe ratio** measures the performance of an investment adjusting for the amount of risk taken (compared a risk-free investment). The higher the Sharpe ratio the better the returns compared to the risk taken.

**Tracking error (%)** measures how much a fund's returns deviate from those of the benchmark. The lower the number the closer the fund's historic performance has followed its benchmark.

**Information ratio (IR)** measures if a manager is outperforming or underperforming the benchmark and accounts for the risk taken to achieve the returns. A manager who outperforms a benchmark by

2% p.a. will have a higher IR than a manager with the same outperformance but who takes more risk.
