

C Accumulation EUR | Data as at 31.07.2023

### Fund objectives and investment policy

The fund aims to provide capital growth in excess of the MSCI Europe (Net TR) Index after fees have been deducted over a three to five year period by investing in equities and equity related securities of European companies.

**Above is the Investment Objective of the fund. For details on the full fund's Investment Policy please see the KIID.**

The Fund has the objective of sustainable investment (within the meaning of Article 9 SFDR).

This means that the fund invests at least 75% of its assets in sustainable investments within the meaning of SFDR.

**Relevant risks associated with an investment in this fund are shown below and should be carefully considered before making any investment. Past Performance is not a guide to future performance and may not be repeated. The value of investments and the income from them may go down as well as up and investors may not get back the amounts originally invested. Exchange rate changes may cause the value of investments to fall as well as rise. Performance data does not take into account any commissions and costs, if any, charged when units or shares of any fund, as applicable, are issued and redeemed.**

### 10 year return of EUR 10,000

The chart is for illustrative purposes only and does not reflect an actual return on any investment.

Returns are calculated bid to bid (which means performance does not include the effect of any initial charges), net income reinvested, net of fees.

### Risk considerations

**Capital risk / distribution policy:** As the fund intends to pay dividends regardless of its performance, a dividend may represent a return of part of the amount you invested.

**Concentration risk:** The fund may be concentrated in a limited number of geographical regions, industry sectors, markets and/or individual positions. This may result in large changes in the value of the fund, both up or down.

**Counterparty risk:** The fund may have contractual agreements with counterparties. If a counterparty is unable to fulfil their obligations, the sum that they owe to the fund may be lost in part or in whole.

**Currency risk:** The fund may lose value as a result of movements in foreign exchange rates, otherwise known as currency rates.

**Derivatives risk:** Derivatives, which are financial instruments deriving their value from an underlying asset, may be used to manage the portfolio efficiently. The fund may also materially invest in derivatives including using short selling and leverage techniques with the aim of making a return. A derivative may not perform as expected, may create losses greater than the cost of the derivative and may result in losses to the fund.

**Higher volatility risk:** The price of this fund may be volatile as it may take higher risks in search of higher rewards, meaning the price may go up and down to a greater extent.

**IBOR risk:** The transition of the financial markets away from the use of interbank offered rates (IBORs) to alternative reference interest rates may impact the valuation of certain holdings and disrupt liquidity in certain instruments. This may impact the investment performance of the fund.

**Liquidity risk:** In difficult market conditions, the fund may not be able to sell a security for full value or at all. This could affect performance and could cause the fund to defer or suspend redemptions of its shares, meaning investors may not be able to have immediate access to their holdings.

**Market risk:** The value of investments can go up and down and an investor may not get back the amount initially invested.

**Operational risk:** Operational processes, including those related to the safekeeping of assets, may fail. This may result in losses to the fund.

**Performance risk:** Investment objectives express an intended result but there is no guarantee that such a result will be achieved. Depending on market conditions and the macro economic environment, investment objectives may become more difficult to achieve.

**Sustainability risk:** The fund has environmental and/or social characteristics. This means it may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the investment manager. The fund may invest in companies that do not reflect the beliefs and values of any particular investor.

### Climate dashboard

#### Carbon Metrics

● Fund ● Benchmark

#### Energy Exposure

● Fund ● Benchmark

Source: MSCI. The graphs above include the Weighted Average Carbon Intensity (WACI), carbon footprint and energy exposure of the fund and its benchmark, where applicable. WACI and carbon footprint are based on Scope 1, 2 and 3 emissions. WACI measures the carbon-intensity of the portfolio by assessing the ratio of emissions to revenue generated from underlying investee companies. Carbon footprint normalises the total carbon emissions of the portfolio to its market value. When calculating carbon metrics, Schroders will exclude neutral assets (such as cash) and other non-eligible assets. This means that Schroders aggregates company-level GHG emissions based on the portfolio's eligible assets only (which are listed equity and credit holdings, where applicable). The energy exposure metrics are calculated based on the revenue generated from these activities by the underlying investee companies and weighted by the fund's holdings. Fund exposure to 'Coal' represents Thermal Coal mining and reflects investments in companies whose coal-related revenues are below the accepted threshold. Please refer to the fund sustainability disclosures for more details on exclusions. All metrics use reported company data. Where data may not be available, then MSCI may use estimates. Benchmark used is the MSCI Europe (Net TR).

C Accumulation EUR | Data as at 31.07.2023

### Adverse Impacts

The table below shows some adverse impacts of this fund and its benchmark, where applicable. The indicators referred to below aim to show the negative effects that investment decisions, made in respect of the fund's portfolio, have on certain sustainability factors, such as environmental, social and employee matters. We also identify the coverage, which refers to the percentage of indicator data available at month-end for the underlying holdings of the fund and the benchmark, where applicable.

Category	Indicator	Description	Units	Fund	Benchmark
People	Board Gender Diversity	Average ratio of female to male board members in investee companies	Ratio (%)	<b>77.9%</b> Coverage*: 95.0%	<b>72.6%</b> Coverage*: 99.5%
	UNGC and OECD principle policies	Share of investment in companies without policies to monitor compliance with UNGC and OECD principles	Ratio (%)	<b>46.1%</b> Coverage*: 95.0%	<b>19.6%</b> Coverage*: 99.5%
	UNGC and OECD principle violators	Share of investments in companies that have been involved in violations of UNGC and OECD principles	Ratio (%)	<b>0.0%</b> Coverage*: 95.0%	<b>1.2%</b> Coverage*: 99.5%
Planet	Non-renewable energy exposure	Share of non-renewable energy consumption and production	Ratio (%)	<b>61.1%</b> Coverage*: 82.1%	<b>68.2%</b> Coverage*: 95.0%
	Exposure to companies without carbon emissions reduction initiatives	Investing in companies without carbon emission reduction initiatives aligned with the Paris Agreement	Ratio (%)	<b>50.5%</b> Coverage*: 95.0%	<b>24.5%</b> Coverage*: 98.7%

### Information relating to changes in fund manager, investment objective, benchmark and corporate action information

Some performance differences between the fund and the benchmark may arise because the fund performance is calculated at a different valuation point from the benchmark. The fund's performance should be assessed against its target benchmark being to exceed the MSCI Europe (Net TR) index, and compared against the Morningstar Europe Flex Cap Equity Category. The fund's investment universe is expected to overlap materially with the components of the target benchmark. The comparator benchmark is only included for performance comparison purposes and does not have any bearing on how the investment manager invests the fund's assets. The investment manager invests on a discretionary basis and there are no restrictions on the extent to which the fund's portfolio and performance may deviate from the target benchmark. The investment manager will invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities. The target benchmark has been selected because it is representative of the type of investments in which the fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the fund aims to provide. The comparator benchmark has been selected because the investment manager believes that the benchmark is a suitable comparison for performance purposes given the fund's investment objective and policy. The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the fund. On 04.07.2018 Schroder ISF European Equity (Ex UK) merged into Schroder ISF European Alpha Focus. Leon Howard-Spink and Paul Griffin replaced James Sym and James Rutland as Fund Managers for this fund on 23.04.2020.

#### Benchmarks:

Benchmark names in this document may be abbreviated. Please refer to the funds' legal documents for the full benchmark name. The investment manager invests on a discretionary basis and there are no restrictions on the extent to which the fund's portfolio and performance may deviate from the benchmark. The investment manager will invest in companies or sectors not included in the benchmark in order to take advantage of specific investment opportunities. On 21.06.2021 Schroder ISF European Alpha Focus changed its name to Schroder ISF European Innovators.

### Source and ratings information

**Morningstar Sustainability Rating:** The Sustainability Rating is stated as of “reporting date”. Sustainalytics provides company-level analysis used in the calculation of Morningstar’s Sustainability Rating [Historical Sustainability Score]. © 2023 Morningstar. All rights reserved. The rating of the fund: (1) is proprietary to Morningstar and/or its content providers; (2) may not be copied or distributed; and (3) is not warranted to be accurate, complete or timely. Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of the rating. Past performance is no guarantee of future results.

**MSCI ESG Research rating:** Produced by MSCI ESG Research as of the “reporting date”. MSCI ESG Research LLC’s (“MSCI ESG”) Fund Metrics and Ratings (the “Information”) provide environmental, social and governance data with respect to underlying securities within more than 31,000 multi-asset class mutual funds and ETFs globally. MSCI ESG is a registered investment adviser under the U.S. Investment Advisers Act of 1940. MSCI ESG materials have not been submitted to, nor received approval from, the U.S. Securities and Exchange Commission or any other regulatory body. None of the Information constitutes an offer to buy or sell, or a promotion or recommendation of, any security, financial instrument or product or trading strategy, nor should it be taken as an indication or guarantee of any future performance, analysis, forecast or prediction. The Information should not be used to determine which securities to buy or sell or when to buy or sell them. The Information is provided “as is” and the user of the Information assumes the entire risk of any use it may make or permit to be made of the Information.

**Schroders' Proprietary tools:**, including SustainEx, may not cover all of the fund's holdings from time to time, in which case Schroders may use a range of alternative methods to assess the relevant holding. In addition, certain types of assets (such as cash and certain equivalent securities) are treated as neutral and are therefore not considered by our proprietary tools. Other types of assets such as equity indices and index derivatives may not be considered by our proprietary tools and in such case would be excluded from a product's sustainability score.

Aggregated SustainEx metric definitions are: Carbon emissions: Environmental and societal cost of carbon emissions (scope 1,2 and 3). Water consumption: Environmental and societal cost of companies' and countries' freshwater withdrawal. Assigned based on reported water usage. Avoided carbon emissions: Environmental and societal benefits of activities and technologies that enable system-wide reductions in carbon emissions, including companies' products and services and country investments in clean energy. Fair pay: Societal benefits or costs of companies over- or under-paying staff relative to local living wages (for regions in which they operate). Alcohol: Societal cost of alcohol consumption (assigned to alcohol producers). Tobacco: Societal cost of smoking (assigned to tobacco producers).

Energy exposure definitions are: Coal exposure: Measures the weight of the portfolio exposed to companies deriving revenue from the mining of thermal coal (including lignite, bituminous, anthracite and steam coal) and its sale to external parties. It excludes: revenue from metallurgical coal; coal mined for internal power generation (e.g. in the case of vertically integrated power producers); intra-company sales of mined thermal coal; and revenue from coal trading. Tar sands exposure: Measures the weight of the portfolio exposed to companies deriving revenue from oil sands extraction for a set of companies that own oil sands reserves and disclose evidence of deriving revenue from oil sands extraction. This factor does not include revenue from non-extraction activities (e.g. exploration, surveying, processing, refining); ownership of oil sands reserves with no associated extraction revenues; revenue from intra-company sales.

\*Coverage, which refers to the percentage of indicator data available at month-end for the underlying holdings of the fund and the benchmark, where applicable.

Source of all performance data, unless otherwise stated: Morningstar, bid to bid, net income reinvested, net of fees.

### Important information

---

#### Costs:

Certain costs associated with your investment in the fund may be incurred in a different currency to that of your investment. These costs may increase or decrease as a result of currency and exchange rate fluctuations.

If a performance fee is applicable to this fund, details of the performance fee model and its computation methodology can be found in the fund's prospectus. This includes a description of the performance fee calculation methodology, the dates on which the performance fee is paid and details of how the performance fee is calculated in relation to the fund's performance fee benchmark, which may differ from the benchmark in the fund's investment objective or investment policy.

For further information regarding the costs and charges associated with your investment, please consult the funds' offering documents and annual report.

#### General:

This document does not constitute an offer to subscribe for shares of Schroder International Selection Fund (the "Company"). Nothing in this document should be construed as advice or a recommendation to buy or sell shares. Subscriptions for shares of the Company can only be made on the basis of its latest Key Information Document and prospectus, together with the latest audited annual report (and subsequent unaudited semi-annual report, if published), copies of which can be obtained, free of charge, from Schroder Investment Management (Europe) S.A. The Company is a Luxembourg-registered UCITS recognised in the UK under Section 264 of the Financial Services and Markets Act 2000. An investment in the Company entails risks, which are fully described in the prospectus. Issued by Schroder Investment Management (Europe) S.A., 5, rue Höhenhof, L-1736 Senningerberg, Luxembourg. Registered No. B 37.799. Approved for issue in the UK by Schroder Investment Management Limited, 1, London Wall Place, London EC2Y 5AU. Authorised and regulated by the Financial Conduct Authority. The fund has the objective of sustainable investment within the meaning of Article 9 of Regulation (EU) 2019/2088 on sustainability-related disclosures in the Financial Services Sector (the "SFDR"). For information on sustainability-related aspects of this fund please go to [www.Schroders.com](http://www.Schroders.com). Schroders will be a data controller in respect of your personal data.
