FUND OBJECTIVE AND POLICY

The Fund's objective is to provide a combination of capital growth and income over 5+ years. It will also aim to outperform (after fees) the Target Benchmark over a rolling 3 year period. Average outperformance will typically not exceed 0.25% per annum (not guaranteed).

The Fund is actively managed and invests at least 95% in bonds. At least 80% will be bonds issued by non-sovereign bodies (typically at least 75% in bonds issued by companies) and up to 20% can be in government bonds (typically UK). The Fund invests globally (up to 5% in non-developed markets) but at least 95% of its assets must be in/hedged to Sterling. The Fund invests in investment grade bonds. It may also invest in sub-investment grade bonds (up to 10%), unrated bonds (up to 5%), non-standard bonds (up to 30%), or asset/mortgage backed securities (up to 10%). Up to 5% can be in cash/cash like instruments. Derivatives will be used regularly for investment purposes, and efficient portfolio management (inc. hedging).

A Sub-Investment Manager has been appointed to actively manage the Fund, selecting bonds it believes are attractively priced and will outperform the Benchmark. It considers credit risk/interest rate changes, and assesses: industry attractiveness, competitive position, management quality and financial position. The Fund is managed with a Tracking Error (deviation from Benchmark) of up to 2%. The Target Benchmark has been selected as it is representative of the Fund's investment policy.
