

CT Corporate Bond Fund

Share Class C Inc

30-Nov-22

Fund manager
EMEA Credit Team

Fund objective and policy

The Fund aims to achieve income returns. The Fund is actively managed. It is not constrained by its comparator benchmark, the IA £ Corporate Bond sector median, and has significant freedom to invest in a portfolio that is materially different to the benchmark's own composition. The Fund seeks to achieve its objective by investing primarily in investment grade corporate bonds denominated in any combination of sterling, US dollar and/or euro. Non-sterling exposure will normally be hedged back to sterling. The investment manager selects the corporate bonds in which the Fund invests with the intention of achieving a wide degree of diversification across issuers and sectors while managing exposure to credit risk. The Fund may also invest in high yield corporate bonds and government bonds.

Risk warning

The value of your investments and any income from them can go down as well as up and you may not get back the original amount invested. The income and capital due from bonds is dependent upon the issuer's ability to pay and any default will adversely affect the value of your investment. Changes in interest rates can affect the value of fixed interest holdings and may adversely affect the value of your investment. An investment concerns the acquisition of units or shares in a fund, and not underlying assets such as buildings or shares of a company, as these are only the underlying assets owned by the fund. The decision to invest in the promoted fund should also take into account all the characteristics or objectives of the promoted fund as described in the prospectus. Full list of relevant risks can be found in the KIID/KID and prospectus.

Fund details
