The Index features capping with an aim to ensure UCITS compliance, and excludes futures linked to livestock and agriculture.
- and agricultus. 2-2021 target weights were: Energy: 45%, Industrial Metals: 31.3%, Precious Metals: 23.7% Additional information on the index, selection and weighting methodology is available at www.bloomberg.com

Kev Risks

- —The value of your investment may go down as well as up and past performance does not predict future returns. Investor capital may be at risk up to a total loss.
- —The Fund provides exposure to commodities. Commodity prices react, among other things, to economic factors such as changing supply and demand relationships, weather conditions and other natural events, the agricultural, trade, fiscal, monetary, and other policies of governments and other unforeseeable events all of which may affect your investment.
- The Fund will enter into a derivative with a counterparty. If the counterparty fails to make payments (for example, it becomes insolvent) this may result in your investment suffering a loss.
