COMPANY OVERVIEW

Type of Company:

VT Cantab Funds ICVC ("the Company") is an authorised open-ended investment company with variable capital ("ICVC") further to a Financial Conduct Authority ("FCA") authorisation order dated 27 June 2018. The Company is incorporated under registration number IC0011114. It is a UCITS scheme complying with the investment and borrowing powers rules in the Collective Investment Schemes Sourcebook ("COLL") issued by the FCA.

The Company has been set up as an umbrella company. The Company has currently three Sub-funds available for investment, VT Cantab Moderate, VT Cantab Balanced and VT Cantab Sustainable Global Equity Fund. Each Sub-fund would be a UCITS scheme if it had a separate authorisation order.

The shareholders are not liable for the debts of the Company.

Other changes to the Sub-fund

On 01 November 2024, the Sub-fund name changed from VT Cantab Sustainable Global Equity Fund to VT Cantab Global Equity Fund.

STATEMENT OF THE AUTHORISED FUND MANAGER'S (AFM's) RESPONSIBILITIES

The rules of the Financial Conduct Authority's Collective Investment Schemes Sourcebook require the Authorised Fund Manager to prepare financial statements for each accounting period which give a true and fair view of the financial position of the Company at the end of the financial period and its net revenue and net capital gains for the period. In preparing these financial statements the Authorised Fund Manager is required to:

- > comply with the Prospectus, the Statement of Recommended Practice for Authorised Funds issued by the Investment Association in May 2014, the Instrument of Incorporation, generally accepted accounting principles and applicable accounting standards, subject to any material departures which are required to be disclosed and explained in the financial statements.
- > select suitable accounting policies and then apply them consistently.
- > make judgements and estimates that are reasonable and prudent.
- > prepare the financial statements on a going concern basis unless it is inappropriate to presume that the Company will continue in operation for the foreseeable future.

The Authorised Fund Manager is required to keep proper accounting records and to manage the Company in accordance with the COLL regulations, the Instrument of Incorporation and the Prospectus. The Authorised Fund Manager is responsible for taking reasonable steps for the prevention and detection of fraud and other irregularities.

AUTHORISED FUND MANAGER'S STATEMENT

In accordance	with th	e requirements	of the	Financial	Conduct Authority's	Collective	Investment	Scheme's	Sourcebook,	we
hereby certify t	the inter	im report.

Date:

SUB-FUND OVERVIEW

Investment objective and policy

Name of Sub-fund VT Cantab Moderate

Size of Sub-fund £68,589,817

Launch date 03 September 2018

the medium term (3 -5 years).

The Sub-fund aims to achieve its objective by investing at least 80% in collective investment funds (which may include those managed and/or operated by the AFM) which provide exposure to a diversified portfolio of investments, including equities, bonds and alternative assets (such as commodities, property and infrastructure). It is expected that the exposure to equities will typically be between 40% and 75%.

The investment objective of the Sub-fund is to provide income and capital growth over

The Sub-fund may also invest directly in equities, fixed income, money market instruments, deposits, cash and near cash.

The Sub-fund has no particular emphasis on any geographical areas or any industrial or economic sector.

Performance Comparator: The Sub-fund is not managed to or constrained by a benchmark, and nor does the AFM

use a benchmark in order to assess performance.

However, many funds sold in the UK are grouped into sectors by the Investment Association (the "IA") (the trade body that represents UK investment managers), to help investors to compare funds with broadly similar characteristics.

In order to assess the Sub-fund's performance, investors may find it useful to compare the Sub-fund against the performance of the IA Mixed Investment 40-85% Shares, which serves as a method of comparing the Sub-fund's performance with other funds which have broadly similar characteristics (and risk/return objectives).

Further information In constructing the portfolio an assessment of the overall risk on a scale of 0 (ultracautious) to 10 (very risky) is undertaken. On this scale, the Sub-fund is expected to be

5 given the weighting of lower risk assets such as cash and fixed income and higher risk

assets such as equities (to which there is a preference).

DerivativesThe Sub-fund may use derivatives only for efficient portfolio management purposes. It

is not intended that the use of derivatives for efficient portfolio management purposes

will increase the risk profile of the Sub-fund.

Authorised Fund Manager (AFM) Valu-Trac Investment Management Limited

Ex-distribution dates 31 January and 31 July

Distribution dates 31 March and 30 September

Individual Savings Account (ISA) The Sub-fund is a qualifying investment for inclusion in an ISA.

Ex-distribution dates 31 January and 31 July

Individual Savings Account (ISA) The Sub-fund is a qualifying investment for inclusion in an ISA.

SUB-FUND OVERVIEW (Continued)

Minimum investment[^]

Lump sum subscription: A Income/Accumulation = £1,000

C Income/Accumulation* = £1,000

Top-up: A Income/Accumulation = £100

C Income/Accumulation* = £100

Holding: A Income/Accumulation = £1,000

C Income/Accumulation* = £1,000

Redemption: A Income/Accumulation = N/A (provided minimum holding is maintained)

C Income/Accumulation* = N/A (provided minimum holding is maintained)

Switching: A Income/Accumulation = N/A (provided minimum holding is maintained)

C Income/Accumulation* = N/A (provided minimum holding is maintained)

*C shares are only available to customers of the investment manager's financial planning

business.

Nil

Initial, redemption and switching

charges^

^The AFM may waive the minimum levels (and initial charge and redemption charge) at its discretion.

Annual management charges

The annual management charge is comprised of a fixed element which is retained by the AFM for its own account and a variable element which is paid by the AFM to the investment manager.

The fixed element is equal to £27,417 per annum, which shall rise annually in line with the rate of inflation (calculated in accordance with the Consumer Prices Index) on 1 January each year. In the event of negative inflation, the fixed element of the fee will remain unchanged.

The variable charges: A Income/Accumulation = 0.50%

C Income/Accumulation = 0.30%

The above percentages being percentages of the net asset value of the Sub-fund attributable to the relevant class (plus VAT if applicable).

INVESTMENT MANAGER'S REVIEW

Fund Performance

In the 6 months to 31 January 2025, the C Accumulation share class delivered a return of 5.99%, broadly in line with the IA Mixed Investment 40-85% Shares of 5.68%*. Equity exposure in the fund during the period ranged from 50-60%.

Investment Review

The last six months presented an easier ride for investors. Both equities and bonds were positively impacted by improving economic data, stabilising inflation and interest rate cuts.

We reduced the weighting to UK equity in favour of US equity. With the growth of passive investment and narrowness of market performance in recent years, the weighting of US Large Cap in a global context has increased. Although we retain a modest home bias relative to a global equity index, we feel it appropriate to ensure that clients have exposure that more closely represents the wider index. This move also reduced underlying holding cost – we prefer index exposure in the US given the challenges for active managers in a highly concentrated and efficient market.

Our patience in waiting for a recovery in Infrastructure assets was rewarded, with Foresight Global Real Infrastructure the top performing fund in the portfolio over six months at the time of selling. We have now taken the opportunity to trim infrastructure, adding a small position in Healthcare and Pharmaceuticals.

In fixed income, we shifted away from strategic bond funds into more targeted strategies. Strategic bond funds have had mixed success in navigating the uncertainty of recent bond market turbulence, and it has been challenging to be clear on the implications of their evolving positioning.

Investment Outlook

It is encouraging to see improved performance for the fund during this period. Looking forward, the environment looks positive as central banks navigate the turn in the interest rate cycle, albeit geopolitical uncertainty persists. We retain a tilt towards Quality across both Equity and Fixed Income holdings and continue to see opportunities across markets

We expect a more uncertain outlook to persist through 2025, compared to 2024. Geopolitical and economic uncertainty is likely to lead to heightened volatility in markets. We remain cautiously optimistic that this volatility will lead to opportunities for patient investors with long-term horizons to prosper

PERFORMANCE RECORD (Continued)

- 1. The operating charges per share figure is calculated by applying the operating charges percentage to the average net asset valuation per share throughout the period.
- 2. The operating charges percentage is based on the expenses incurred during the period annualised, as a proportion of the average net asset value of the Sub-fund together with the ongoing charges included within the underlying Open Ended Investment Companies held within the Sub-fund's holdings.

Risk Profile

Based on past data, the Sub-fund is ranked a '4' on the synthetic risk and reward indicator scale (of 1 to 7) as described fully in the Key Investor Information Document (31 July 2024: ranked 4). The Sub-fund is ranked '5' because monthly historical performance data indicates that relatively high rises and falls in market prices would have occurred historically.

Accounting policies

The accounting policies applied are consistent with those of the financial statements for the year ended 31 July 2024 and are described in those financial statements.

The financial statements have been prepared in compliance with FRS 102 and in accordance with the Statement of Recommended Practice for Authorised Funds (SORP) issued by the Investment Association (IA) in May 2014 and to the amendments to the SORP issued by the IA in June 2017.

SUB-FUND OVERVIEW

Performance Comparator

Further information

Derivatives

Name of Sub-fund VT Cantab Balanced

Size of Sub-fund £70,473,495

Launch date 03 September 2018

growth over the medium term (3-5 years).

The Sub-fund aims to achieve its objective by investing at least 80% in collective investment funds (which may include those managed and/or operated by the AFM) which provide exposure to a diversified portfolio of investments, including equities, bonds and alternative assets (such as commodities, property and infrastructure). It is expected that the exposure to equities will typically be between 50% and 85%.

The Sub-fund may also invest directly in equities, fixed income, money market instruments, deposits, cash and near cash.

The Sub-fund has no particular emphasis on any geographical areas or any industrial or economic sector.

The Sub-fund is not managed to or constrained by a benchmark, and nor does the AFM use a benchmark in order to assess performance.

However, many funds sold in the UK are grouped into sectors by the Investment Association (the "IA") (the trade body that represents UK investment managers), to help investors to compare funds with broadly similar characteristics.

In order to assess the Sub-fund's performance, investors may find it useful to compare the Sub-fund against the performance of the IA Mixed Investment 40-85% Shares, which serves as a method of comparing the Sub-fund's performance with other funds which have broadly similar characteristics (and risk/return objectives).

In constructing the portfolio an assessment of the overall risk on a scale of 0 (ultra-cautious) to 10 (very risky) is undertaken. On this scale, the Sub-fund is expected to be 6 given a preference towards higher risk assets such as equities as compared with lower risk assets such as cash and fixed income.

The Sub-fund may use derivatives only for efficient portfolio management purposes. It is not intended that the use of derivatives for efficient portfolio management purposes will increase the risk profile of the Sub-fund.

Authorised Fund Manager (AFM) Valu-Trac Investment Management Limited

Ex-distribution dates 31 January and 31 July

Distribution dates 31 March and 30 September

Individual Savings Account (ISA)

The Sub-fund is a qualifying investment for inclusion in an ISA.

SUB-FUND OVERVIEW (Continued)

Minimum investment[^]

Lump sum subscription: A Income/Accumulation = £1,000

C Income/Accumulation* = £1,000

Top-up: A Income/Accumulation = £100

C Income/Accumulation* = £100

Holding: A Income/Accumulation = £1,000

C Income/Accumulation* = £1,000

Redemption: A Income/Accumulation = N/A (provided minimum holding is maintained)

C Income/Accumulation* = N/A (provided minimum holding is maintained)

Switching: A Income/Accumulation = N/A (provided minimum holding is maintained)

C Income/Accumulation* = N/A (provided minimum holding is maintained)

*C shares are only available to customers of the investment manager's financial

planning business.

Initial, redemption and switching charges[^] N

^The AFM may waive the minimum levels (and initial charge and redemption charge) at its discretion.

Annual management charges

The annual management charge is comprised of a fixed element which is retained by the AFM for its own account and a variable element which is paid by the AFM to the investment manager.

The fixed element is equal to £27,417 per annum, which shall rise annually in line with the rate of inflation (calculated in accordance with the Consumer Prices Index) on 1 January each year. In the event of negative inflation, the fixed element of the fee will remain unchanged.

The variable charges: A Income/Accumulation = 0.50%

C Income/Accumulation = 0.30%

The above percentages being percentages of the net asset value of the Sub-fund attributable to the relevant class (plus VAT if applicable).

INVESTMENT MANAGER'S REVIEW

Fund Performance

In the 6 months to 31 January 2025, the C Accumulation share class a return of 7.27%, ahead of the IA Mixed Investment 40-85% Shares of 5.68%*. Equity exposure in the fund during the period ranged from 60-70%.

Investment Review

The last six months presented an easier ride for investors. Both equities and bonds were positively impacted by improving economic data, stabilising inflation and interest rate cuts.

We reduced the weighting to UK equity in favour of US equity. With the growth of passive investment and narrowness of market performance in recent years, the weighting of US Large Cap in a global context has increased. Although we retain a modest home bias relative to a global equity index, we feel it appropriate to ensure that clients have exposure that more closely represents the wider index. This move also reduced underlying holding cost – we prefer index exposure in the US given the challenges for active managers in a highly concentrated and efficient market.

Our patience in waiting for a recovery in Infrastructure assets was rewarded, with Foresight Global Real Infrastructure the top performing fund in the portfolio over six months at the time of selling. We have now taken the opportunity to trim infrastructure, adding a small position in Healthcare and Pharmaceuticals.

In fixed income, we shifted away from strategic bond funds into more targeted strategies. Strategic bond funds have had mixed success in navigating the uncertainty of recent bond market turbulence, and it has been challenging to be clear on the implications of their evolving positioning.

Investment Outlook

It is encouraging to see improved performance for the fund during this period. Looking forward, the environment looks positive as central banks navigate the turn in the interest rate cycle, albeit geopolitical uncertainty persists. We retain a tilt towards Quality across both Equity and Fixed Income holdings and continue to see opportunities across markets.

We expect a more uncertain outlook to persist through 2025, compared to 2024. Geopolitical and economic uncertainty is likely to lead to heightened volatility in markets. We remain cautiously optimistic that this volatility will lead to opportunities for patient investors with long-term horizons to prosper.

PERFORMANCE RECORD (Continued)

- 1. The operating charges per share figure is calculated by applying the operating charges percentage to the average net asset valuation per share throughout the period.
- 2. The operating charges percentage is based on the expenses incurred during the period annualised, as a proportion of the average net asset value of the Sub-fund together with the ongoing charges included within the underlying Open Ended Investment Companies held within the Sub-fund's holdings.

Risk Profile

Based on past data, the Sub-fund is ranked a '5' on the synthetic risk and reward indicator scale (of 1 to 7) as described fully in the Key Investor Information Document (31 July 2024: ranked 5). The Sub-fund is ranked '5' because monthly historical performance data indicates that relatively high rises and falls in market prices would have occurred historically.

Accounting policies

The accounting policies applied are consistent with those of the financial statements for the year ended 31 July 2024 and are described in those financial statements.

The financial statements have been prepared in compliance with FRS 102 and in accordance with the Statement of Recommended Practice for Authorised Funds (SORP) issued by the Investment Association (IA) in May 2014 and to the amendments to the SORP issued by the IA in June 2017.

SUB-FUND OVERVIEW

VT Cantab Global Equity Fund Name of Sub-fund

Size of Sub-fund £43,938,152

Launch date 17 December 2019

October 2024

Investment objective and policy to 31 The investment objective of the Sub-fund is to provide income and capital growth over the long term (5 years +) by gaining exposure to a diversified portfolio of global equities.

> The Sub-fund may also invest in other transferable securities, collective investment schemes (including those managed or operated by the AFM), money market instruments, deposits, cash and near cash.

It is expected that the portfolio will be relatively concentrated.

A key element in portfolio construction is an assessment of investee companies' approach to environmental, social and governance (ESG) issues (e.g. whether they pay due attention and consideration to ESG concerns and demonstrate this through ESG policies and practice). Investments will only be made in companies which the Investment Manager considers make a positive contribution to environmental, social and/or governance matters and so help in the development of a sustainable global economy. Companies involved in industries such as the production of fossil fuels, alcohol and tobacco, gambling or controversial weapons are automatically excluded from the investment universe.

The Investment Manager will consider emissions when assessing potential investee companies, but will not use a science-based emissions target in this Save as noted above, the Sub-fund has no particular emphasis on any geographical areas or any industrial or economic sector.

November 2024

Investment objective and policy from 01 The investment objective of the Sub-fund is to provide income and capital growth over the long term (5 years +).

> The Sub-fund aims to achieve this objective by investing at least 80% in a diversified portfolio of shares in companies in any geographical location. The Sub-fund may also invest in other transferable securities such as government bonds and corporate bonds, collective investment schemes (including those managed or operated by the ACD), money market instruments, deposits, cash and near cash. Derivatives (that is sophisticated investments linked to the rise and fall of one or more underlying assets) may be used for efficient portfolio management purposes.

> It is expected that the portfolio will be relatively concentrated (typically around 30-

The Sub-fund seeks to generate income and capital growth with a robust and disciplined investment process that focuses on investing in companies typically offering an attractive combination of growth, profitability and stability and holding them for the long term (5 years +). Companies involved in industries such as the production of fossil fuels, alcohol and tobacco, gambling or armaments are excluded from the investment universe.

SUB-FUND OVERVIEW (Continued)

Performance Comparator: The Sub-fund is not managed to or constrained by a benchmark, and nor does

the AFM use a benchmark in order to assess performance.

However, the performance of the Sub-fund can be compared against the Refinitiv Global Index (the "Index"). This Index has been selected as it is considered that this index most closely reflects the investments which the Sub-fund will make (and its risk/return objectives). For the avoidance of doubt, the Investment Manager is not bound or influenced by the index when making its decisions and

can make investments that are not included in the index.

Derivatives The Sub-fund may use derivatives only for efficient portfolio management

purposes. It is not intended that the use of derivatives for efficient portfolio

management purposes will increase the risk profile of the Sub-fund.

Investment Restrictions The Sub-fund may not invest more than 10% of its value in other collective

investment schemes.

Authorised Fund Manager (AFM) Valu-Trac Investment Management Limited

Ex-distribution dates 31 January and 31 July

Distribution dates 31 March and 30 September

Individual Savings Account (ISA) The Sub-fund is a qualifying investment for inclusion in an ISA.

Share classes A (Income, Accumulation)

C (Income, Accumulation)*
Z (Income, Accumulation)**

Minimum investment[^]

Lump sum subscription: Class A = £1,000

Class C = £5,000,000 Class Z = £10,000,000

Top-up: Class A = £100

Class C = £5,000 Class Z = £10,000

Holding: Class A= £1,000

Class C = £5,000,000 Class Z = £10,000,000

Redemption & Switching: All share classes = N/A (provided minimum holding is maintained)

Initial, redemption and switching

charges^

Nil

^{*}C shares will only available to customers of the investment manager's financial planning business as well as institutional

^{**}Z shares will only be available to institutions at the AFM's discretion. Z Accumulation not launched.

[^]The AFM may waive the minimum levels (and initial charge and redemption charge) at its discretion.

SUB-FUND OVERVIEW (Continued)

Annual management charge £26,853^^ per annum plus:

Class A = 0.75% Class C = 0.50%

Class Z = 0.00%

The above percentages being percentages of the net asset value of the Sub-fund attributable to the relevant class (plus VAT if applicable).

^^The fixed element of the fee shall rise annually in line with the rate of inflation (calculated in accordance with the Consumer Prices Index) on 1 January each year. In the event of negative inflation, the fixed element of the fee will remain unchanged. At 31 July 2024, the fixed element was £30,859 per annum.

Other changes to the Sub-fund

On 01 November 2024, the Sub-fund name changed from VT Cantab Sustainable Global Equity Fund to VT Cantab Global Equity Fund.

Fund Performance

In the six months to the end of January 2025, the fund returned +10.6%, versus +10.6% for the FR Global Index (C Acc. (source: FE Analytics). While the fund has performed very well against its peer group in recent times, as has been well documented it has been a tough period for active strategies in general, with 2024 being particularly brutal. Nevertheless, over the past three years the fund has just managed to keep up with its global equity benchmark, returning +37.6% versus +37.5% (source: Eikon). Furthermore, from the market peak in November 2021 to the market peak in December 2024 (in my humble opinion a more useful time period), the fund is also ahead of comparator. Not by much but, given 'active' has become a dirty word in investment circles, every little helps!

Investment Review

Turning to recent winners and losers in the fund, PayPal Holdings was the fund's top contributor to relative performance in the period under review, as early signs emerged that the relatively new management team's strategy might yield results. Clearly, competition for digital wallet volume is intense, but PayPal's branded checkout offering continues to grow, albeit at a slower pace than the rest of the group. The Investor Day in February provided opportunity for the company to shed further light on its plans for the future, although investor sentiment towards the company's turnaround prospects remains guarded.

Trend Micro, the Japanese security software business, was also up sharply in the period under review, on suspicion it may have become a takeover target. No bids have emerged thus far, but we continue to believe the stock represents relatively fair value, so long as one believes there will be a continued need to guard against cyber attacks. Ralph Lauren's shares have also travelled extremely well but, unlike, say, PayPal or Trend Micro, its relative valuation is now looking historically stretched and we have reduced the position. Any investment decision must always aim to marry the likely future performance

Novo-Nordisk was the standout detractor to performance during the period, principally due to a very poorly received clinical trial result. The CarigSema trial results showed weight loss of 20.4%, well ahead of the company's Wegovy drug, broadly in line with competitor Eli Lilly's Zepbound, but not as good as investors were hoping for. Rather curiously, the trial allowed for a flexible dosing protocol which resulted in only 57% of patients reaching the highest dose — this will almost certainly have limited CarigSema's efficacy, but new trials will need to be conducted to prove this.

We reduced the fund's position in Novo-Nordisk in late 2023, our main issue being not whether it was a high-quality company with what appeared to be excellent growth prospects, but whether this was already being discounted in the current valuation. At the time, the stock's forward sales multiple was 7x that of the market; recently it was as low as 3.5x, lower than at any time since the world became aware of the potential of Novo-Nordisk's portfolio in the fight against weight loss. Now, unlike then, investors are taking a far more balanced view as to the potential size of the opportunity, including issues such as tolerability, long-term use, competition and pricing, to name a few. Having reduced exposure to the stock in 2023, we bought back in in December, sadly just before the CarigSema trial result rather than just after it. Still, we believe there is room in the portfolio for a company that holds out the promise for supernormal growth now trading on an historically undemanding valuation.

In terms of activity over the period, we took new positions in ASML Holding and Nike; added to existing positions in Smith & Nephew, Nestle and Novo Nordisk; reduced exposure to Ralph Lauren; and sold out of Umicore, Omnicom Group and Schneider Electric.

Investment Outlook

As bottom-up, fundamental stock-pickers, we are less interested in the macro-economic or geo-political landscape, and more concerned with the operational quality and valuation of the businesses we invest in. With the US administration's actions currently creating heightened levels of investor anxiety, sticking to our knitting will, we hope, prove as valuable as ever

Cantab Asset Management Limited Investment Manager to the Fund 29 February 2024

Risk Profile

Based on past data, the Sub-fund is ranked a '5' on the synthetic risk and reward indicator scale (of 1 to 7) as described fully in the Key Investor Information Document (31 July 2024: ranked 5). The Sub-fund is ranked '5' because monthly historical performance data indicates that relatively high rises and falls in market prices would have occurred historically.

^{1.} The operating charges per share figure is calculated by applying the operating charges percentage to the average net asset valuation per share throughout the period.

^{2.} The operating charges percentage is based on the expenses incurred during the period annualised, as a proportion of the average net asset value of the Sub-fund plus the costs of the open-ended funds the Sub-fund holds.

Accounting policies

The accounting policies applied are consistent with those of the financial statements for the year ended 31 July 2024 and are described in those financial statements.

The financial statements have been prepared in compliance with FRS 102 and in accordance with the Statement of Recommended Practice for Authorised Funds (SORP) issued by the Investment Association (IA) in May 2014 and to the amendments to the SORP issued by the IA in June 2017.

Group 2	0.5730p	0.3882p	0.9612p	0.9221p

Distribution

Distributions of the revenue of the Sub-funds will be made to shareholders on or before 30 September each year and interim allocations of revenue on or before 31 March.

Individual shareholders

Income tax: Tax-free annual dividend allowance now standing at £500 (2024/2025). UK resident shareholders are now subject to new, higher rates of tax on dividend income in excess of the annual allowance. UK resident shareholders are subject to tax on dividend income in excess of the annual allowance.

Capital gains tax: Individual shareholders resident in the UK for tax purposes may be liable to capital gains tax on realisation of their shares as with other chargeable assets. The first £3,000 (2024/2025) of gains each year are presently tax free for individuals. Gains in excess of that amount are charged at the rate of tax applicable to the individual tax payer.

Taxation

The Company will pay no corporation tax on its profits for the period to 31 January 2025 and capital gains within the Company will not be taxed.

Debts of the ICVC fund

Shareholders of the ICVC are not liable for the debts of the ICVC.

Corporate shareholders

Companies resident for tax purposes in the UK which hold shares should note that OEIC distributions are streamed into both franked and unfranked income. The unfranked income element will be treated as an annual payment which has been subject to income tax at prevailing rates and will be liable to tax accordingly. On realisation of their shares, UK resident companies may be liable to pay corporation tax on any capital gains.

The above information on taxation is only a general summary, and shareholders should consult their own tax advisors in relation to their own circumstances. Shareholders should also note that the position as outlined may change to reflect future changes in tax legislation.

Issue and redemption of shares

Valu-Trac Investment Management Limited is the AFM and Registrar. Valu-Trac Investment Management Limited will receive requests for the purchase or sale of shares at any time during normal business hours (9:00am to 5.00pm). Instructions may be given by email to (cantab@valu-trac.com) or by sending an application form to the Registrar. Application forms are available from the Registrar.

The price of shares will be determined by reference to a valuation of the Company's net assets at 12 noon on each dealing day.

The AFM has the right to reject, on reasonable grounds relating to the circumstances of the applicant, any application for shares in whole or part, and in this event the AFM will return any money sent, or the balance of such monies, at the risk of the applicant

Any subscription monies remaining after a whole number of shares has been issued will not be returned to the applicant. Instead, smaller denomination shares will be issued in such circumstances.

A contract note giving details of the shares purchased and the price used will be issued by the Registrar by the end of the business day following the valuation point by reference to which the purchase price is determined. Settlement is due by the purchaser on the fourth business day from the date of the contract note and should be made to the Authorised Fund Manager's dealing account.

Ownership of shares will be evidenced by an entry on the Company's Register of Shareholders. Certificates will not be issued. Statements in respect of periodic distributions of revenue will show the number of shares held by the recipient in respect of which the distribution is made. Individual statements of a shareholder's shares will also be issued at any time on request by the registered holder.

Where shares are redeemed, payment will be made not later than the close of business on the fourth business day following the next valuation point after receipt by the AFM of a request for redemption. The minimum value of shares that a shareholder may hold varies per sub-fund and share class. The AFM may at its discretion accept subscriptions lower than the minimum amount.

The most recent issue and redemption prices are available from the AFM.

Task Force on Climate-related Financial Disclosures ("TCFD") reports

The AFM is required to prepare and publish a product TCFD report for each Sub-fund along with an entity level TCFD report. The latest reports can be obtained from https://www.valu-trac.com/administration-services/tcfd reports.
