Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this fund included:

- **Positive tilt:**

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, the securities it holds had a better environmental, social and governance (ESG) profile than the reference index. The FTSE WBG All Maturities index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- **Norms- and values-based exclusions:**

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

#### Company Exclusions based on Controversial Activities and Revenue thresholds

| Activity                | Revenue thresholds |
|-------------------------|--------------------|
| <b>Energy</b>           |                    |
| Thermal Coal Extraction | 25%                |

#### Company Exclusions based on Controversial Activities and Revenue thresholds

|   |          |
|---|----------|
| Thermal Coal Power Generation                       | 25%      |
| Oil Sands Extraction                                | 25%      |
| Shale Energy Extraction                             | 25%      |
| Off-shore Arctic Oil & Gas Exploration              | 10%      |
| <b>Weapons</b>                                      |          |
| Production of controversial weapons[1]              | Excluded |
| Military Contracting Weapons                        | 10%      |
| Small Arms Civilian Customers (Assault Weapons)     | 10%      |
| Small Arms Civilian Customers (Non-Assault Weapons) | 10%      |
| Small Arms Military/Law Enforcement Customers       | 25%      |
| Small Arms Key Components                           | 25%      |
| <b>Addictive Products</b>                           |          |
| Tobacco Products Production                         | 10%      |
| Adult Entertainment Production                      | 10%      |
| Gambling Operations                                 | 10%      |

#### Company Exclusions based on Breaches of International Norms

|   |          |
|---|----------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded |
|---|----------|

#### Country Exclusions

|   |              |
|---|--------------|
| Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs) | Excluded[3]  |
| Countries (i) listed under “high alert” or “very high alert” in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank   | Excluded[3]  |
| Countries (i) listed under “alert” on the Fragile State Index or (ii) subject to export related sanctions by the EU   | Watchlist[4] |

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] “State Sponsors of Terrorism” is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management’s Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund engaged with the management of selected companies on material ESG issues.

#### ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

##### • Overall ESG profile

The fund’s weighted average ESG score was better than that of the reference index.

The fund’s weighted average ESG score was 6.82 against 6.58 for the reference index. A higher score means a lower risk. Scores range from 0 to 10, 10 being the best.

##### • Principle Adverse Impact (PAI)

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management’s Responsible Investment policy.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 1.00     | 0.00                |
| Weapons                         | 0.00     | 0.00                |
| Other controversial activities  | 0.02     | 0.00                |
| Eligible:                       | 20.31    | 0.00                |
| Covered:                        | 93.01    | 100.00              |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*  
Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Engagement

The fund engaged with 8 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

| <b>Engagement</b>   | 10     |                 | 8      |                 |  |

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 33.76%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 1.53%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors

relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts were addressed through a combination of:

(i) portfolio management decisions

The investment team assessed its corporate holdings according to an analysis of Environmental, Social & Governance risks as part of the fund's investment framework. Investment managers, informed by internal and third-party research, including quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's analysis was a key component of the compartment's portfolio construction process, determining target weights in the portfolio to achieve a positive tilt in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls in collaboration with other investment teams and external third parties. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons or (iii) countries subject to international sanctions see also detailed information on exclusions in Pictet Asset Management's Responsible Investment policy.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS                     | SECTOR     | % ASSETS | COUNTRY                  |

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

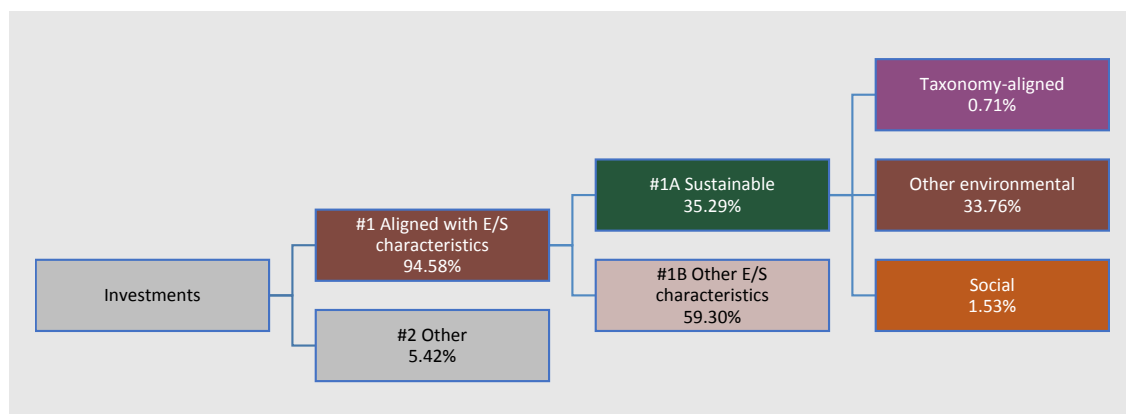

## What was the proportion of sustainability-related investments?

35.29%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 94.58% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 5.42% invested in Other (#2 Other). 35.29% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

## To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

### Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

☒ Yes:

☐ In fossil gas ☒ In nuclear energy

☐ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 28.11% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: 0.10%
- Enabling activities: 0.48%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 0.32% versus 0.71% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

33.76%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

1.53%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- exclusions of countries subject to international sanctions
- a better ESG profile than the investment universe
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 8 companies as of 30.09.2024.

#### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

#### ● How did the reference benchmark differ from a broad market index?

Not applicable.

#### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

#### ● How did this financial product perform compared with the reference benchmark?

Not applicable.

#### ● How did this financial product perform compared with the broad market index?

Not applicable.

In addition to the terms and conditions of any license agreement for MSCI information, services or products ("MSCI Products") entered into with MSCI Inc. and/or its affiliates ("MSCI") by customers ("Customer(s)"), each Customer must comply with the terms and conditions required by third party suppliers ("Supplier(s)") regarding Customer's use of Supplier content, data, software and other materials ("Materials") within MSCI Products. Customers may also be required to pay additional fees associated with Supplier Materials. If a Customer does not comply with a Supplier's terms, a Supplier may enforce such terms and/or require MSCI to terminate Customer's access to that Supplier's Materials, without any remedy to Customer.

Additional terms and conditions required by Suppliers with respect to its Materials are provided in the expanders below. If Customer receives Materials from a Supplier not listed below via MSCI Products, additional terms and conditions related to such Materials may apply. Notwithstanding anything to the contrary set forth below, none of the additional terms and conditions of MSCI Suppliers shall supersede (nor shall MSCI waive) any MSCI proprietary and/or intellectual property rights in MSCI Products.

21.03.2024 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - USD Short Mid-Term Bonds**

Legal entity identifier: **549300X18HRZWYSVCX65**

**ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?  |  |
|--|--|
| <input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> Yes                           | <input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No  |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- Positive tilt:  
The fund increased the weight of corporate issuers with low sustainability risks and/or decreased the weight of corporate issuers with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The ICE BofA 1-3 Year US Corporate Index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- Norms- and values-based exclusions:  
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

| Company Exclusions based on Controversial Activities and Revenue thresholds |                    |
|---|--------------------|
| Activity  | Revenue thresholds |
| Energy  |                    |
| Thermal Coal Extraction   | 25%                |

#### Company Exclusions based on Controversial Activities and Revenue thresholds

|   |          |
|---|----------|
| Thermal Coal Power Generation                       | 25%      |
| Oil Sands Extraction                                | 25%      |
| Shale Energy Extraction                             | 25%      |
| Off-shore Arctic Oil & Gas Exploration              | 10%      |
| <b>Weapons</b>                                      |          |
| Production of controversial weapons[1]              | Excluded |
| Military Contracting Weapons                        | 10%      |
| Small Arms Civilian Customers (Assault Weapons)     | 10%      |
| Small Arms Civilian Customers (Non-Assault Weapons) | 10%      |
| Small Arms Military/Law Enforcement Customers       | 25%      |
| Small Arms Key Components                           | 25%      |
| <b>Addictive Products</b>                           |          |
| Tobacco Products Production                         | 10%      |
| Adult Entertainment Production                      | 10%      |
| Gambling Operations                                 | 10%      |

#### Company Exclusions based on Breaches of International Norms

|   |          |
|---|----------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded |
|---|----------|

#### Country Exclusions

|   |              |
|---|--------------|
| Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs) | Excluded[3]  |
| Countries (i) listed under "high alert" or "very high alert" in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank   | Excluded[3]  |
| Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU   | Watchlist[4] |

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund engaged with the management of selected companies on material ESG issues.

#### ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- **The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:**

49.20%

- **Exposure to green and/or social labelled bond**

During the reference period, the fund had 1.46% exposure to labelled bonds.

Labelled bonds include environmental, social and sustainability bonds. Classification of labelled bonds is provided by the bond issuer and may not reflect our internal view

- **Overall ESG profile**

The fund's weighted average ESG score of corporate bonds was better than that of the reference index.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

The fund's weighted average ESG score was 8.27 against 7.72 for the reference index. A higher score means a lower risk. Scores range from 0 to 10, 10 being the best.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 0.02     | 0.00                |
| Weapons                         | 0.03     | 0.00                |
| Other controversial activities  | 0.00     | 0.00                |
| Eligible:                       | 43.66    | 0.00                |
| Covered:                        | 97.37    | 100.00              |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **Engagement**

The fund engaged with 6 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

Source: Pictet Asset Management, Sustainalytics.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

- **...and compared to previous periods?**

Not applicable.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 44.02%.

#### Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 5.18%.

#### ● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-party providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

#### ● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

#### ● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions and collaborative institutional investor initiatives.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons or (iii) countries subject to international sanctions see also detailed information on exclusions in Pictet Asset Management's responsible investment policy.

## What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 21.03.2024 - 30.09.2024

| LARGEST INVESTMENTS                          | SECTOR                 | % ASSETS | COUNTRY                  |

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

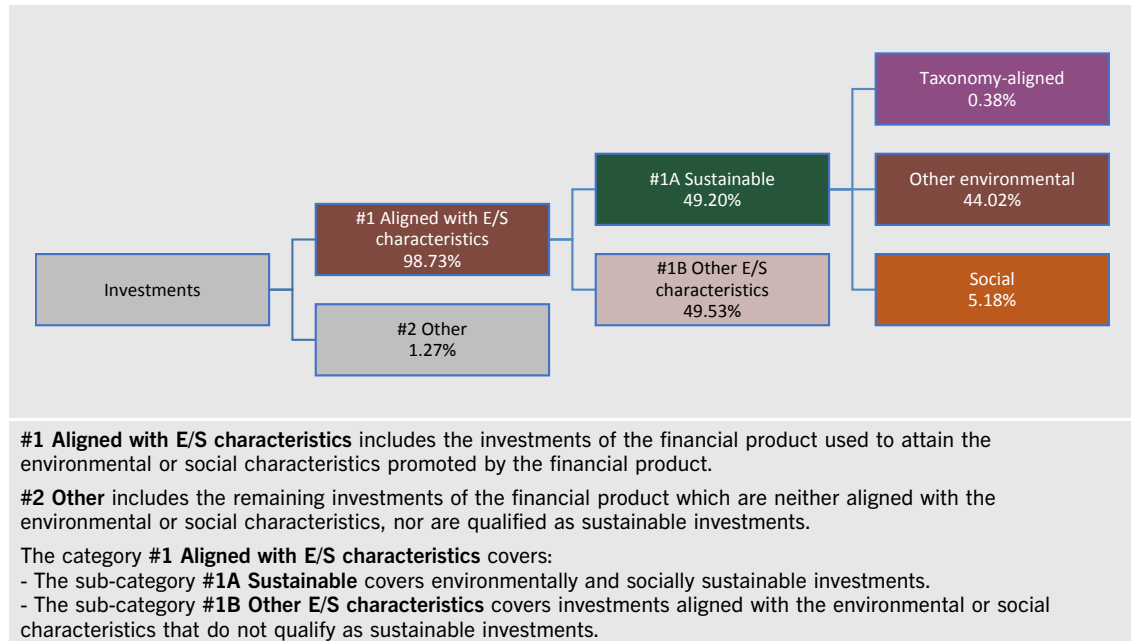

## What was the proportion of sustainability-related investments?

49.20%

### What was the asset allocation?

The fund was 98.73% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 1.27% invested in Other (#2 Other). 49.20% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

- Pictet Asset Management used a proprietary framework to define sustainable investments. "1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

### In which economic sectors were the investments made?

| SECTOR LEVEL 1        | %<br>ASSETS |
|-----------------------|-------------|
| Automobile            | 0.46        |
| Basic Industries      | 3.70        |
| Capital Goods         | 3.77        |
| Consumer Cyclical     | 0.17        |
| Consumer Non-Cyclical | 5.96        |
| Financial             | 22.50       |
| Government            | 53.36       |

|                        |      |
|------------------------|------|
| Information Technology | 7.95 |
| Supranational          | 0.08 |
| Telecommunication      | 0.48 |
| Utilities              | 0.29 |

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

### ● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

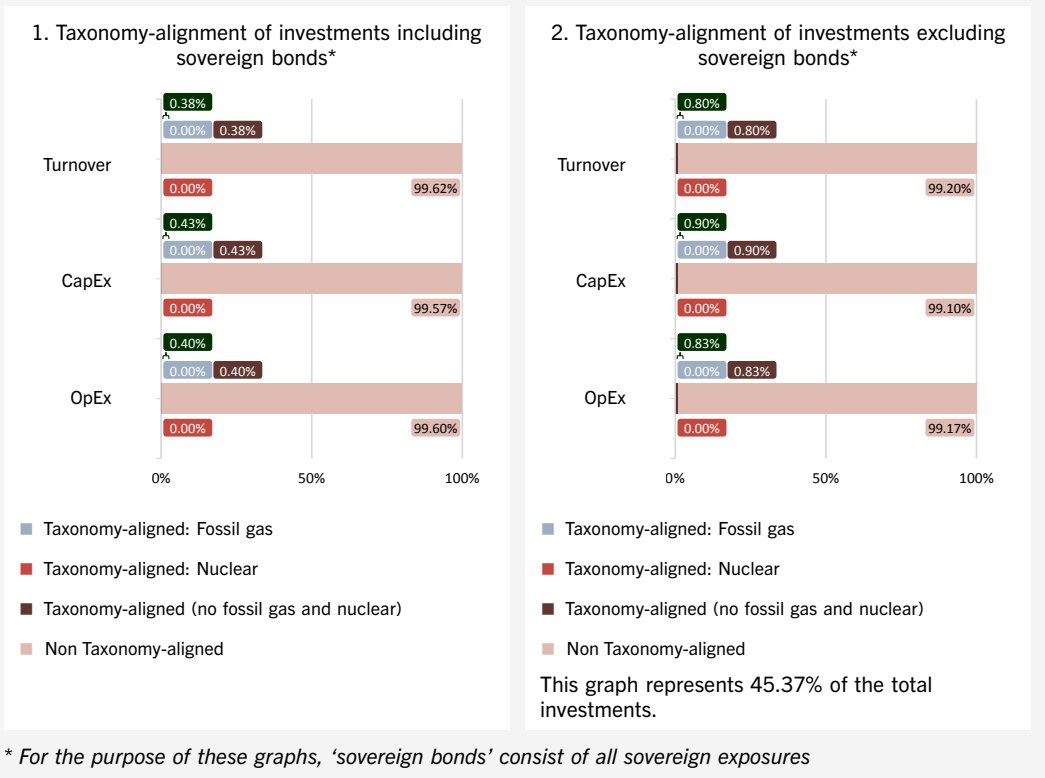

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Source: Pictet Asset Management, MSCI.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● What was the share of investments made in transitional and enabling activities?

- The share of investments made in:
- Transitional activities: 0.01%
  - Enabling activities: 0.21%

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

44.02%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental

objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

5.18%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- exclusions of countries subject to international sanctions
- a better ESG profile than the corporate reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 6 companies as of 30.09.2024.

**How did this financial product perform compared to the reference benchmark?**

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

**How did the reference benchmark differ from a broad market index?**

Not applicable.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**  
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**  
Not applicable.
- **How did this financial product perform compared with the broad market index?**  
Not applicable.

In addition to the terms and conditions of any license agreement for MSCI information, services or products ("MSCI Products") entered into with MSCI Inc. and/or its affiliates ("MSCI") by customers ("Customer(s)"), each Customer must comply with the terms and conditions required by third party suppliers ("Supplier(s)") regarding Customer's use of Supplier content, data, software and other materials ("Materials") within MSCI Products. Customers may also be required to pay additional fees associated with Supplier Materials. If a Customer does not comply with a Supplier's terms, a Supplier may enforce such terms and/or require MSCI to terminate Customer's access to that Supplier's Materials, without any remedy to Customer.

Additional terms and conditions required by Suppliers with respect to its Materials are provided in the expanders below. If Customer receives Materials from a Supplier not listed below via MSCI Products, additional terms and conditions related to such Materials may apply. Notwithstanding anything to the contrary set forth below, none of the additional terms and conditions of MSCI Suppliers shall supersede (nor shall MSCI waive) any MSCI proprietary and/or intellectual property rights in MSCI Products.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - CHF Bonds**

Legal entity identifier: **54930064ORZPBDXPBN65**

**ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?   |  |
|---|--|
| <input checked="" type="radio"/> <input type="radio"/> Yes  | <input checked="" type="radio"/> <input type="radio"/> No  |
| <input type="checkbox"/> It made <b>sustainable investments with an environmental objective: ____%</b><br><br><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy<br><br><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy | <input checked="" type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of <b>23.43%</b> of sustainable investments<br><br><input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy<br><br><input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy<br><br><input checked="" type="checkbox"/> with a social objective |
| <input type="checkbox"/> It made <b>sustainable investments with a social objective: ____%</b>  | <input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>  |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- **Positive tilt:**  
The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The Swiss Bond Index Foreign AAA-BBB was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- **Norms- and values-based exclusions:**  
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

| Company Exclusions based on Controversial Activities and Revenue thresholds |                    |
|---|--------------------|
| Activity  | Revenue thresholds |
| Energy  |                    |
| Thermal Coal Extraction   | 25%                |

#### Company Exclusions based on Controversial Activities and Revenue thresholds

|   |          |
|---|----------|
| Thermal Coal Power Generation                       | 25%      |
| Oil Sands Extraction                                | 25%      |
| Shale Energy Extraction                             | 25%      |
| Off-shore Arctic Oil & Gas Exploration              | 10%      |
| <b>Weapons</b>                                      |          |
| Production of controversial weapons[1]              | Excluded |
| Military Contracting Weapons                        | 10%      |
| Small Arms Civilian Customers (Assault Weapons)     | 10%      |
| Small Arms Civilian Customers (Non-Assault Weapons) | 10%      |
| Small Arms Military/Law Enforcement Customers       | 25%      |
| Small Arms Key Components                           | 25%      |
| <b>Addictive Products</b>                           |          |
| Tobacco Products Production                         | 10%      |
| Adult Entertainment Production                      | 10%      |
| Gambling Operations                                 | 10%      |

#### Company Exclusions based on Breaches of International Norms

|   |          |
|---|----------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded |
|---|----------|

#### Country Exclusions

|   |              |
|---|--------------|
| Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs) | Excluded[3]  |
| Countries (i) listed under “high alert” or “very high alert” in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank   | Excluded[3]  |
| Countries (i) listed under “alert” on the Fragile State Index or (ii) subject to export related sanctions by the EU   | Watchlist[4] |

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] “State Sponsors of Terrorism” is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management’s Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund engaged with the management of selected companies on material ESG issues.

#### ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

##### • Overall ESG profile

The fund’s weighted average ESG score was better than that of the reference index.

The fund’s weighted average ESG score was 8.19 against 8.16 for the reference index. A higher score means a lower risk. Scores range from 0 to 10, 10 being the best.

##### • Principle Adverse Impact (PAI)

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management’s Responsible Investment policy.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 1.01     | 1.44                |
| Weapons                         | 0.01     | 0.01                |
| Other controversial activities  | 0.00     | 0.22                |
| Eligible:                       | 91.11    | 95.88               |
| Covered:                        | 90.41    | 95.61               |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.  
Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Engagement

The fund engaged with 12 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

Source: Pictet Asset Management, Sustainalytics.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

#### ● ...and compared to previous periods?

Comparison of the sustainability indicators to previous period:

| Sustainability indicators  | 01.10.2022 - 30.09.2023                                 |                        | 01.10.2023 - 30.09.2024                                 |                        | Commitments 01.10.2022 - 30.09.2023                  | Commitments 01.10.2023 - 30.09.2024                  |
|--|---|------------------------|---|------------------------|--|--|
| <b>Overall ESG profile</b>   | Fund ESG score: 8.11<br>Reference index ESG score: 8.06 |                        | Fund ESG score: 8.19<br>Reference index ESG score: 8.16 |                        | Higher fund's score than that of the reference index | Higher fund's score than that of the reference index |

| <i>Eligible (**):</i>   | 94.25% | 96.03%          | 91.11% | 95.88%          |  |
| <i>Covered (**):</i>  | 88.39% | 93.72%          | 90.41% | 95.61%          |  |
| <b>Engagement</b>   | 17     |                 | 12     |                 |  |

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 13.20%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 10.23%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors

relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS                           | SECTOR        | % ASSETS | COUNTRY                  |
|---|---------------|----------|--------------------------|

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

## What was the proportion of sustainability-related investments?

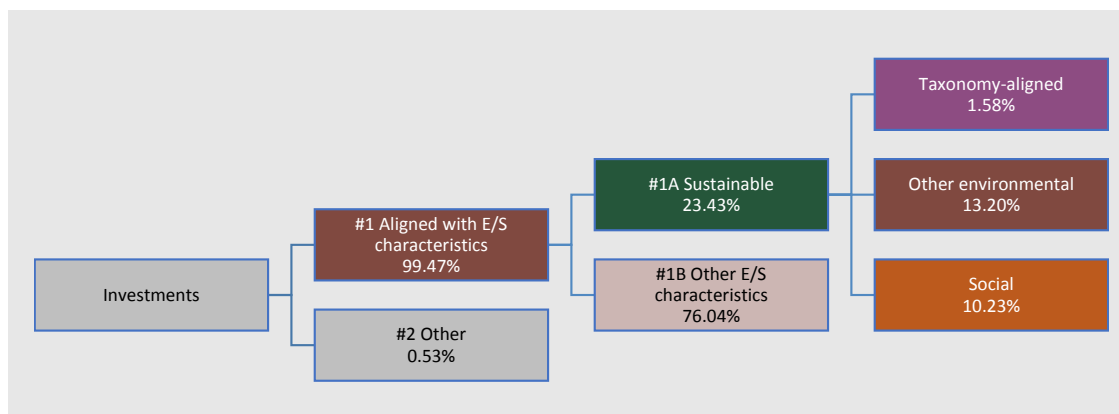

23.43%

### ● What was the asset allocation?

The fund was 99.47% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 0.53% invested in Other (#2 Other). 23.43% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

**Asset allocation** describes the share of investments in specific assets.

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

Source: Pictet Asset Management, Sustainability, Factset RBICS, MSCI.

Comparison of the asset allocation to previous period:

| Asset allocation                    | 01.10.2022 - 30.09.2023 | 01.10.2023 - 30.09.2024 |
|-------------------------------------|-------------------------|-------------------------|
| #1 Aligned with E/S characteristics | 98.86%                  | 99.47%                  |
| #2 Other                            | 1.14%                   | 0.53%                   |
| #1A Sustainable                     | 24.74%                  | 23.43%                  |
| #1B Other E/S characteristics       | 74.12%                  | 76.04%                  |
| Taxonomy-aligned                    | 0.23%                   | 1.58%                   |
| Other environmental                 | 10.53%                  | 13.20%                  |
| Social                              | 14.21%                  | 10.23%                  |

#### ● In which economic sectors were the investments made?

| SECTOR LEVEL 1     | SECTOR LEVEL 4 | % ASSETS |

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

### ● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

☒ Yes:

☐ In fossil gas ☒ In nuclear energy

☐ No

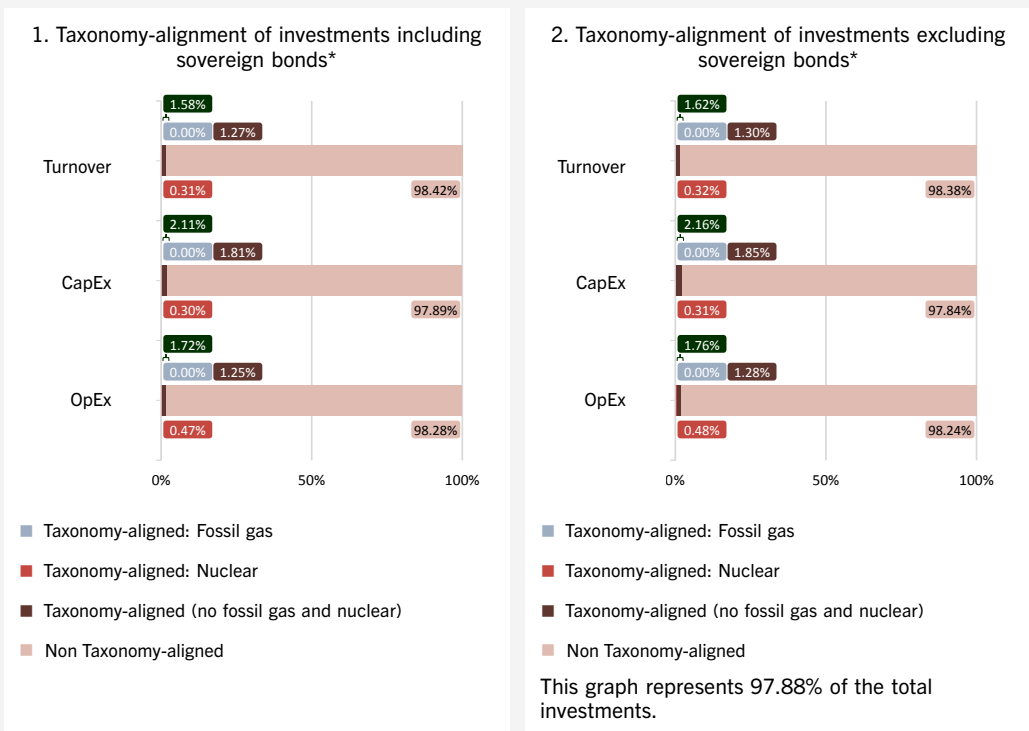

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Source: Pictet Asset Management, MSCI.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: 0.36%
- Enabling activities: 0.44%

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 0.23% versus 1.58% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

13.20%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

10.23%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management’s Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 12 companies as of 30.09.2024.

**How did this financial product perform compared to the reference benchmark?**

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

**How did the reference benchmark differ from a broad market index?**

Not applicable.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**  
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**  
Not applicable.
- **How did this financial product perform compared with the broad market index?**  
Not applicable.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Emerging Local Currency Debt**

Legal entity identifier: **549300YGHOSBCB47SV89**

**ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?  |  |
|--|--|
| <input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> Yes                           | <input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No  |

| <input type="checkbox"/> It made <b>sustainable investments with a social objective</b> : ____%                          | <input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>  |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- **Best-in-class / best effort:**  
The fund invested in securities of issuers with low and/or decreasing sustainability risks while avoiding those with high and/or increasing sustainability risk, reducing the investment universe by at least 20%. The investment universe is composed of sovereign and corporate bonds from emerging countries. No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- **Labelled bonds:**  
The fund partially invested in environmental and/or social labelled bonds.
- **Norms- and values-based exclusions:**  
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

## Company Exclusions based on Controversial Activities and Revenue thresholds

| Activity  | Revenue thresholds |
|---|--------------------|
| <b>Energy</b>   |                    |
| Thermal Coal Extraction   | 25%                |
| Thermal Coal Power Generation   | 25%                |
| Oil Sands Extraction  | 25%                |
| Shale Energy Extraction   | 25%                |
| Off-shore Arctic Oil & Gas Exploration  | 10%                |
| <b>Weapons</b>  |                    |
| Production of controversial weapons[1]  | Excluded           |
| Military Contracting Weapons  | 10%                |
| Small Arms Civilian Customers (Assault Weapons)   | 10%                |
| Small Arms Civilian Customers (Non-Assault Weapons)   | 10%                |
| Small Arms Military/Law Enforcement Customers   | 25%                |
| Small Arms Key Components   | 25%                |
| <b>Addictive Products</b>   |                    |
| Tobacco Products Production   | 10%                |
| Adult Entertainment Production  | 10%                |
| Gambling Operations   | 10%                |
| <b>Company Exclusions based on Breaches of International Norms</b>  |                    |
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises   | Excluded           |
| <b>Country Exclusions</b>   |                    |
| Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs) | Excluded[3]        |
| Countries (i) listed under "high alert" or "very high alert" in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank   | Excluded[3]        |
| Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU   | Watchlist[4]       |

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund engaged with selected sovereigns on ESG topics over the reference period.

## ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- **The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:**

21.51%

- **Exposure to green and/or social labelled bond**

During the reference period, the fund had 8.30% exposure to labelled bonds.

Labelled bonds include environmental, social and sustainability bonds. Classification of labelled bonds is provided by the bond issuer and may not reflect our internal view

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

- **Reduction of the investment universe based on ESG factors**

The fund reduced its investment universe by removing at least 20% of issuers with the highest sustainability risks and/or principle adverse impacts on society or the environment.

Sustainability risks are ESG related risk or conditions that could cause a material negative impact on the value of investments if they were to occur. Sustainability risks included but were not limited to the following: climate transition risk, climate physical risk, environmental risk, social risk, governance risk. Periodic reviews and risk controls are in place to monitor implementation.

Principal adverse impacts are negative, material, or likely to be material effects on sustainability factors that are caused, compounded by, or directly linked to investment decisions and advices. Such principle adverse impacts included among others, GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/ radioactive waste, social & employee matters and corruption & bribery.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

The fund mainly invests in government bonds during the reference period. In case of investments in non-sovereign bonds and in line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment Policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 0.00     | 0.00                |
| Weapons                         | 0.00     | 0.00                |
| Other controversial activities  | 0.00     | 0.00                |
| Eligible:                       | 0.49     | 0.00                |
| Covered:                        | 100.00   | 100.00              |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **Engagement**

The fund engaged with 3 sovereigns on ESG topics (data as of 30.09.2024).

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 18.59%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 2.92%.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-party providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

- *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## **How did this financial product consider principal adverse impacts on sustainability factors?**

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

- (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including

data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions and collaborative institutional investor initiatives.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons or (iii) countries subject to international sanctions see also detailed information on exclusions in Pictet Asset Management's responsible investment policy.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS                     | SECTOR     | % ASSETS | COUNTRY      |

## What was the proportion of sustainability-related investments?

21.51%

### What was the asset allocation?

The fund was 98.54% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 1.46% invested in Other (#2 Other). 21.51% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

Asset allocation describes the share of investments in specific assets.

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.

Source: Pictet Asset Management, Sustainability, Factset RBICS.

Comparison of the asset allocation to previous period:

| Asset allocation                    | 01.10.2022 - 30.09.2023 | 01.10.2023 - 30.09.2024 |
|-------------------------------------|-------------------------|-------------------------|
| #1 Aligned with E/S characteristics | 97.17%                  | 98.54%                  |
| #2 Other                            | 2.83%                   | 1.46%                   |
| #1A Sustainable                     | 5.42%                   | 21.51%                  |
| #1B Other E/S characteristics       | 91.75%                  | 77.04%                  |
| Taxonomy-aligned                    | 0.00%                   | 0.00%                   |
| Other environmental                 | 3.00%                   | 18.59%                  |
| Social                              | 2.42%                   | 2.92%                   |

## ● In which economic sectors were the investments made?

| SECTOR LEVEL 1 | %<br>ASSETS |
|----------------|-------------|
| Financial      | 0.19        |
| Government     | 92.80       |
| Sovereign      | 4.00        |
| Supranational  | 0.31        |

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

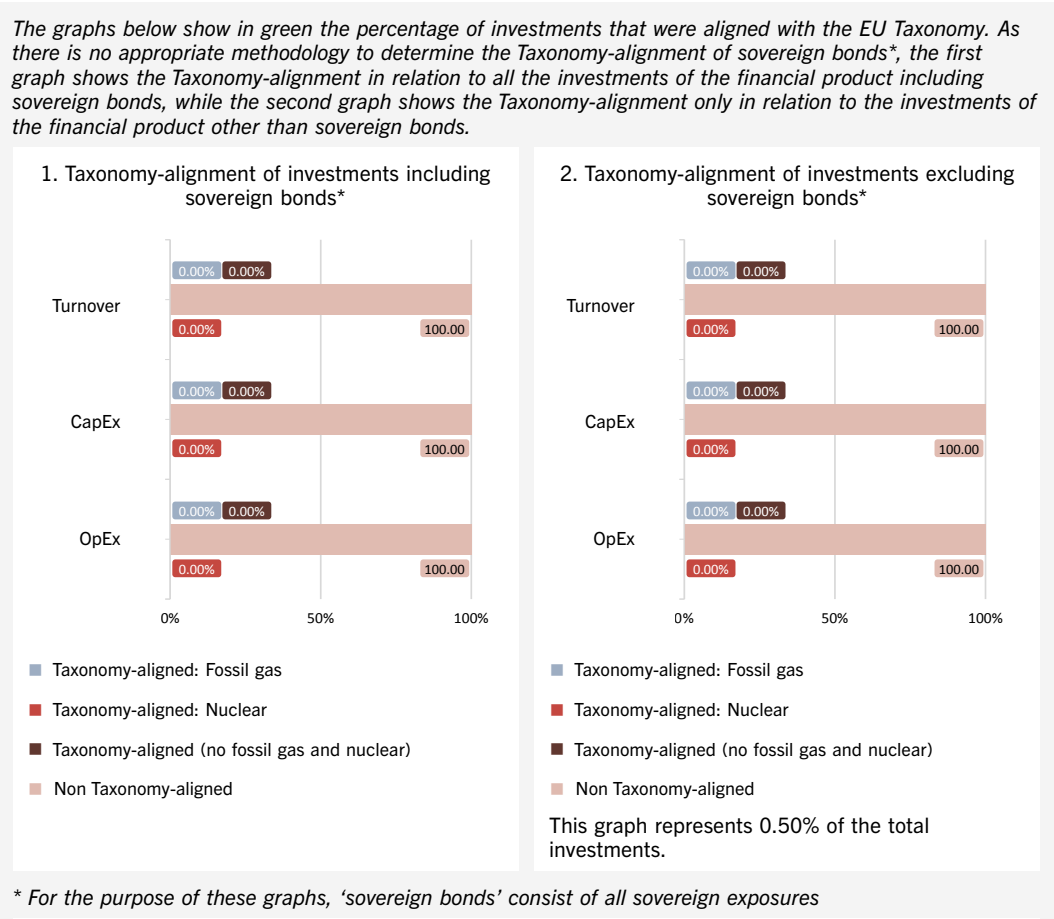

Not applicable.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

- **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**
- ☐ Yes:
- ☐ In fossil gas    ☐ In nuclear energy
- ☒ No

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

- **What was the share of investments made in transitional and enabling activities?**
- Not applicable.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

18.59%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

2.92%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- exclusions of countries subject to international sanctions
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

The fund engaged with 3 sovereigns on ESG topics (data as 30.09.2024).

## How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- **How did the reference benchmark differ from a broad market index?**

Not applicable.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

- **How did this financial product perform compared with the reference benchmark?**

Not applicable.

- **How did this financial product perform compared with the broad market index?**

Not applicable.

Product name: **Pictet - Global High Yield**

Legal entity identifier: **549300SQCEGXVG3EIP06**

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?   |  |
|---|--|
| <input checked="" type="radio"/> <input checked="" type="radio"/> Yes   | <input checked="" type="radio"/> <input type="radio"/> No  |
| <input type="checkbox"/> It made <b>sustainable investments with an environmental objective: ____%</b><br><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy<br><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy | <input checked="" type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of <b>38.24%</b> of sustainable investments<br><input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy<br><input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy<br><input checked="" type="checkbox"/> with a social objective |
| <input type="checkbox"/> It made <b>sustainable investments with a social objective: ____%</b>  | <input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>  |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this fund included:

- **Positive tilt:**

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The ICE BofA Developed Markets High Yield index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- **Norms- and values-based exclusions:**

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

#### Company Exclusions based on Controversial Activities and Revenue thresholds

| Activity                | Revenue thresholds |
|-------------------------|--------------------|
| <b>Energy</b>           |                    |
| Thermal Coal Extraction | 25%                |

#### Company Exclusions based on Controversial Activities and Revenue thresholds

|   |          |
|---|----------|
| Thermal Coal Power Generation                       | 25%      |
| Oil Sands Extraction                                | 25%      |
| Shale Energy Extraction                             | 25%      |
| Off-shore Arctic Oil & Gas Exploration              | 10%      |
| <b>Weapons</b>                                      |          |
| Production of controversial weapons[1]              | Excluded |
| Military Contracting Weapons                        | 10%      |
| Small Arms Civilian Customers (Assault Weapons)     | 10%      |
| Small Arms Civilian Customers (Non-Assault Weapons) | 10%      |

|---|----------|

#### Country Exclusions

|   |              |
|---|--------------|
| Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs) | Excluded[3]  |
| Countries (i) listed under “high alert” or “very high alert” in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank   | Excluded[3]  |
| Countries (i) listed under “alert” on the Fragile State Index or (ii) subject to export related sanctions by the EU   | Watchlist[4] |

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] “State Sponsors of Terrorism” is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management’s Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund engaged with the management of selected companies on material ESG issues.

#### ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

##### • Overall ESG profile

The fund’s weighted average ESG score was better than that of the reference index.

The fund’s weighted average ESG score was 7.99 against 7.89 for the reference index. A higher score means a lower risk. Scores range from 0 to 10, 10 being the best.

##### • Principle Adverse Impact (PAI)

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management’s Responsible Investment policy.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 4.78     | 3.98                |
| Weapons                         | 0.62     | 0.52                |
| Other controversial activities  | 0.13     | 2.17                |
| Eligible:                       | 98.68    | 99.82               |
| Covered:                        | 93.07    | 91.55               |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*  
Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Engagement

The fund engaged with 6 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 9.23%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 29.01%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors

relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS                          | SECTOR                 | % ASSETS | COUNTRY                  |

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

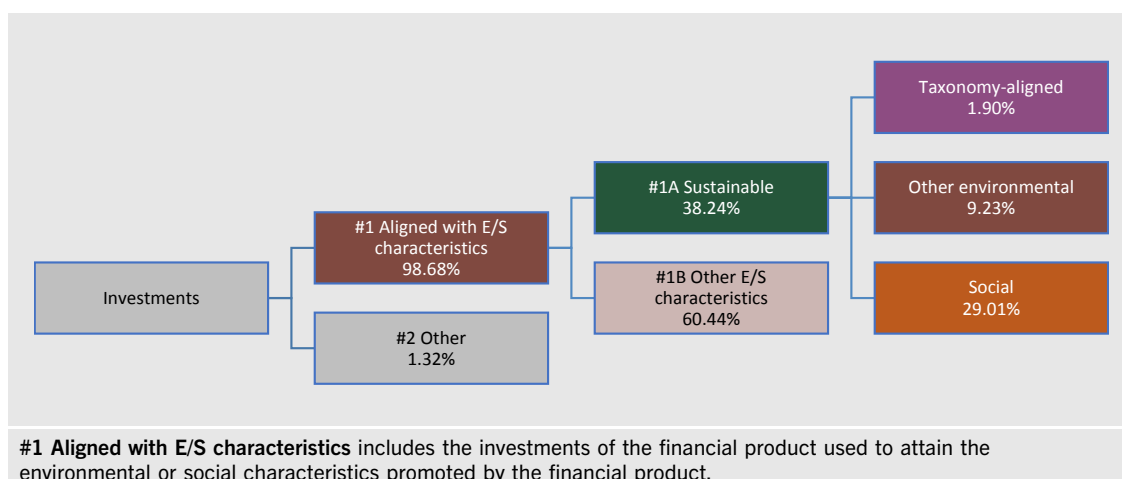

## What was the proportion of sustainability-related investments?

38.24%

### What was the asset allocation?

The fund was 98.68% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 1.32% invested in Other (#2 Other). 38.24% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

## To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

### Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

☒ Yes:

☐ In fossil gas ☒ In nuclear energy

☐ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 98.68% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: 0.21%
- Enabling activities: 0.55%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 1.42% versus 1.90% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

9.23%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

29.01%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 6 companies as of 30.09.2024.

### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

#### ● How did the reference benchmark differ from a broad market index?

Not applicable.

#### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

#### ● How did this financial product perform compared with the reference benchmark?

Not applicable.

#### ● How did this financial product perform compared with the broad market index?

Not applicable.

In addition to the terms and conditions of any license agreement for MSCI information, services or products ("MSCI Products") entered into with MSCI Inc. and/or its affiliates ("MSCI") by customers ("Customer(s)"), each Customer must comply with the terms and conditions required by third party suppliers ("Supplier(s)") regarding Customer's use of Supplier content, data, software and other materials ("Materials") within MSCI Products. Customers may also be required to pay additional fees associated with Supplier Materials. If a Customer does not comply with a Supplier's terms, a Supplier may enforce such terms and/or require MSCI to terminate Customer's access to that Supplier's Materials, without any remedy to Customer.

Additional terms and conditions required by Suppliers with respect to its Materials are provided in the expanders below. If Customer receives Materials from a Supplier not listed below via MSCI Products, additional terms and conditions related to such Materials may apply. Notwithstanding anything to the contrary set forth below, none of the additional terms and conditions of MSCI Suppliers shall supersede (nor shall MSCI waive) any MSCI proprietary and/or intellectual property rights in MSCI Products.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Global Sustainable Credit**

Legal entity identifier: **549300B370SRF8QQ7T62**

## SUSTAINABLE INVESTMENT OBJECTIVE

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?   |   |
|---|---|
| <input checked="" type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> <b>Yes</b>                    | <input checked="" type="radio"/> <input type="radio"/> <input type="checkbox"/> <b>No</b>   |
| <input checked="" type="checkbox"/> It made <b>sustainable investments with an environmental objective: 42.73%</b>                  | <input type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments |

|   | <input type="checkbox"/> with a social objective  |
| <input checked="" type="checkbox"/> It made <b>sustainable investments with a social objective: 53.90%</b>                          | <input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>   |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

### To what extent was the sustainable investment objective of this financial product met?

Main ways in which the fund achieved its sustainable objective:

- **Positive impact:**

The fund achieved a positive environmental and/or social impact, by investing mainly in

(i) companies whose significant proportion of their activities are related to products and services supporting the energy transition, circular economy, energy efficiency, water quality and supply, healthcare and social integration

(ii) ESG Labelled Bonds, including but not limited to, Green and/or Social Bonds

(iii) companies with a low environmental footprint with consideration of, but not limited to, carbon intensity.

No reference index has been designated for the purpose of attaining the sustainable investment objective.

Eligible securities included:

(i) securities issued by companies with a significant proportion of activities (as measured by revenue, EBIT, enterprise value or similar metrics) derived from such economic activities

(ii) where relevant, green and/or social labelled bonds issued by companies or countries whose use of proceeds are financing such economic activities.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

#### Company Exclusions based on Controversial Activities and Revenue thresholds

| Activity  | Revenue thresholds |
|---|--------------------|
| <b>Energy</b>   |                    |
| Thermal Coal Extraction   | 10%                |
| Thermal Coal Power Generation                                     | 10%                |
| Oil & Gas Production  | 10%                |
| Oil Sands Extraction  | 10%                |
| Shale Energy Extraction   | 10%                |
| Off-shore Arctic Oil & Gas Exploration                            | 10%                |
| Nuclear Power Generation  | 50%                |
| <b>Weapons</b>  |                    |
| Production of controversial weapons[1]                            | Excluded           |
| Production of nuclear weapons from countries signatory to the NPT | Excluded           |
| Military Contracting Weapons                                      | 10%                |
| Military Contracting Weapon-Related Products and/or Services      | 10%                |
| Small Arms Civilian Customers (Assault Weapons)                   | 10%                |
| Small Arms Civilian Customers (Non-Assault Weapons)               | 10%                |
| Small Arms Military/Law Enforcement Customers                     | 10%                |
| Small Arms Key Components   | 10%                |
| <b>Addictive Products</b>   |                    |
| Alcoholic Beverages Production                                    | 10%                |
| Tobacco Products Production                                       | 10%                |
| Adult Entertainment Production                                    | 10%                |
| Gambling Operations   | 10%                |
| Gambling Specialised Equipment                                    | 10%                |
| <b>Agriculture</b>  |                    |
| Genetically Modified Plants and Seeds Development                 | 10%                |
| Genetically Modified Plants and Seeds Growth                      | 10%                |
| Pesticides Production   | 10%                |
| Pesticides Retail   | 10%                |
| Palm Oil Production and Distribution                              | 10%                |

#### Company Exclusions based on Breaches of International Norms

|   |             |
|---|-------------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded    |
| High controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises                   | Excluded[2] |

#### Country Exclusions

|   |             |
|---|-------------|
| Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[3] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs) | Excluded[4] |
| Countries (i) listed under “high alert” or “very high alert” in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank   | Excluded[4] |
| Countries (i) listed under “alert” on the Fragile State Index or (ii) subject to export related sanctions by the EU   | Excluded    |

## Company Exclusions based on Controversial Activities and Revenue thresholds

Countries subject to social violations as referred to in international treaties and conventions, United Nations principles and, where applicable, national law Excluded

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] Applies only to Sustainable Investments.

[3] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[4] Exclusions also apply to companies if the headquarter is located in an excluded country.

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- **Labelled bonds:**

The fund invested partially in environmental and/or social labelled bonds.

- **Carbon intensity:**

The fund invested in companies with a low carbon footprint with consideration of, but not limited to, carbon intensity.

- **Active ownership:**

The fund engaged with the management of selected companies on material ESG issues.

- **Sustainable Investments:**

Pictet Asset Management used a proprietary framework as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

### Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 42.73%.

### Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 53.90%.

- **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:**

96.63%

- **Exposure to green and/or social labelled bond**

During the reference period, the fund had 39.16% exposure to labelled bonds.

Labelled bonds include environmental, social and sustainability bonds. Classification of labelled bonds is provided by the bond issuer and may not reflect our internal view

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

**Sustainability indicators** measure how the sustainable objectives of this financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment as detailed below:

Controversial activities (weighted average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 0.17     | 5.38                |
| Weapons                         | 0.02     | 0.88                |
| Other controversial activities  | 0.01     | 1.25                |
| Eligible:                       | 87.00    | 99.99               |
| Covered:                        | 99.34    | 98.27               |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.  
Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Engagement

The fund engaged with 20 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

| <i>Eligible (**):</i>   | 79.54% | 99.30%          | 87.00% | 99.99%          |     |
| <i>Covered (**):</i>  | 97.63% | 97.45%          | 99.34% | 98.27%          |     |
| <b>Engagement</b>   | 25     |                 | 20     |                 |     |

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

## ● How did the sustainable investments not cause significant harm to any sustainable investment objective?

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were excluded.

Information were obtained from third-party providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

## ● How were the indicators for adverse impacts on sustainability factors taken into account?

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

## ● Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

### (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as well as the exposure to sustainable investments as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

### (ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers to address either significant ESG concerns, improve companies' sustainability practices or engage on positive impact topics to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

### (iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS                         | SECTOR                 | % ASSETS | COUNTRY                  |

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

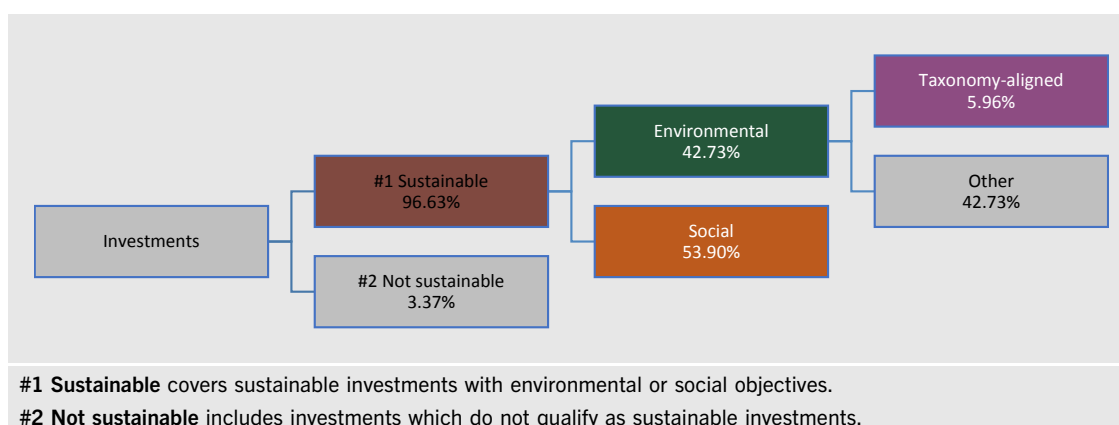

## What was the proportion of sustainability-related investments?

96.63%

### What was the asset allocation?

The fund allocated 96.63% of its assets to Sustainable investments (#1 Sustainable) and 3.37% to Not sustainable investments (#2 Not sustainable). 42.73% of its assets is allocated to environmental objectives and 53.90% to social objectives.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

☒ Yes:

☒ In fossil gas ☐ In nuclear energy

☐ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Source: Pictet Asset Management, MSCI.

● **What was the share of investments made in transitional and enabling activities?**

- The share of investments made in:
- Transitional activities: 0.05%
  - Enabling activities: 2.10%

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 4.55% versus 5.96% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

42.73%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

**What was the share of socially sustainable investments?**

53.90%

**What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “not sustainable” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to attain the sustainable investment objective during the reference period?**

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- investments in companies that have a significant proportion of their activities related to, but not limited to products and services supporting the energy transition, circular economy, energy efficiency, water quality and supply, healthcare and social integration (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- min exposure of 80% to sustainable investments, including but not limited to, environmental and/or social labelled bonds
- lower carbon footprint than the reference index
- exclusion of issuers that:
  - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons and nuclear weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and extraction, conventional oil and gas production, nuclear power generation, military contracting weapons, weapon-related products and services, small arms, alcoholic beverages, tobacco production, adult entertainment production, gambling operations and specialised equipment, genetically modified organisms development and growth, pesticides production and retail, and palm oil production and distribution. Please refer to Pictet Asset Management's Responsible Investment policy for further details on excluded sectors and exclusion thresholds
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 20 companies as of 30.09.2024.

**How did this financial product perform compared to the reference benchmark?**

No reference index has been designated for the purpose of attaining the sustainable investment objective.

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective

- **How did the reference benchmark differ from a broad market index?**  
Not applicable.
- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**  
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**  
Not applicable.
- **How did this financial product perform compared with the broad market index?**  
Not applicable.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - EUR Short Term High Yield**

Legal entity identifier: **5493001BLDF0NBC83W95**

**ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?   |  |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- **Positive tilt:**  
The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the investment index. The ICE BofA Euro High Yield Ex Financial BB-B 1-3 Years Constrained index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- **Norms- and values-based exclusions:**  
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

**Company Exclusions based on Controversial Activities and Revenue thresholds**

| Activity                | Revenue thresholds |
|-------------------------|--------------------|
| Energy                  |                    |
| Thermal Coal Extraction | 25%                |

#### Company Exclusions based on Controversial Activities and Revenue thresholds

|   |          |
|---|----------|
| Thermal Coal Power Generation                       | 25%      |
| Oil Sands Extraction                                | 25%      |
| Shale Energy Extraction                             | 25%      |
| Off-shore Arctic Oil & Gas Exploration              | 10%      |
| <b>Weapons</b>                                      |          |
| Production of controversial weapons[1]              | Excluded |
| Military Contracting Weapons                        | 10%      |
| Small Arms Civilian Customers (Assault Weapons)     | 10%      |
| Small Arms Civilian Customers (Non-Assault Weapons) | 10%      |
| Small Arms Military/Law Enforcement Customers       | 25%      |
| Small Arms Key Components                           | 25%      |
| <b>Addictive Products</b>                           |          |

| Adult Entertainment Production                      | 10%      |
| Gambling Operations                                 | 10%      |

#### Company Exclusions based on Breaches of International Norms

|   |          |
|---|----------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded |
|---|----------|

#### Country Exclusions

|   |              |
|---|--------------|
| Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs) | Excluded[3]  |
| Countries (i) listed under “high alert” or “very high alert” in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank   | Excluded[3]  |
| Countries (i) listed under “alert” on the Fragile State Index or (ii) subject to export related sanctions by the EU   | Watchlist[4] |

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] “State Sponsors of Terrorism” is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management’s Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund engaged with the management of selected companies on material ESG issues.

#### ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

##### • Overall ESG profile

The fund’s weighted average ESG score was better than that of the reference index.

The fund’s weighted average ESG score was 7.94 against 7.90 for the reference index. A higher score means a lower risk. Scores range from 0 to 10, 10 being the best.

##### • Principle Adverse Impact (PAI)

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management’s Responsible Investment policy.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 0.89     | 2.19                |
| Weapons                         | 0.04     | 0.19                |
| Other controversial activities  | 0.08     | 2.54                |
| Eligible:                       | 93.97    | 99.84               |
| Covered:                        | 73.01    | 79.01               |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.  
Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Engagement

The fund engaged with 5 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

| Principle Adverse Impact (PAI) - Controversial activities (weighted average company revenues, in %) (**): | Fund   | Reference Index | Fund   | Reference Index |  |
|---|--------|-----------------|--------|-----------------|--|
| <i>Eligible (**):</i>   | 98.62% | 99.93%          | 93.97% | 99.84%          |  |
| <i>Covered (**):</i>  | 70.55% | 81.02%          | 73.01% | 79.01%          |  |
| <b>Engagement</b>   | 7      |                 | 5      |                 |  |

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 12.36%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 16.17%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors

relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS                          | SECTOR                 | % ASSETS | COUNTRY                  |
|--|------------------------|----------|--------------------------|
| Zf Finance 3% 21.09.2025 'Emtn' Sr           | Automobile             | 1.30     | Germany                  |

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

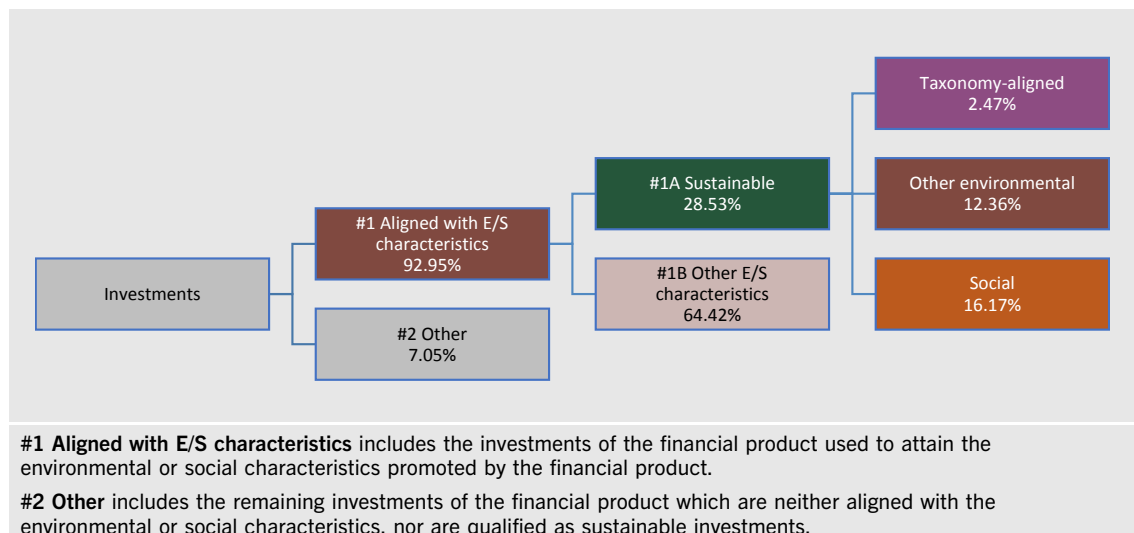

## What was the proportion of sustainability-related investments?

28.53%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 92.95% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 7.05% invested in Other (#2 Other). 28.53% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

Source: Pictet Asset Management, Sustainalytics, Factset RBICS, MSCI.

Comparison of the asset allocation to previous period:

| Asset allocation                    | 01.10.2022 - 30.09.2023 | 01.10.2023 - 30.09.2024 |
|-------------------------------------|-------------------------|-------------------------|
| #1 Aligned with E/S characteristics | 87.90%                  | 92.95%                  |
| #2 Other                            | 12.10%                  | 7.05%                   |
| #1A Sustainable                     | 25.31%                  | 28.53%                  |
| #1B Other E/S characteristics       | 62.58%                  | 64.42%                  |
| Taxonomy-aligned                    | 1.45%                   | 2.47%                   |
| Other environmental                 | 8.67%                   | 12.36%                  |
| Social                              | 16.64%                  | 16.17%                  |

#### ● In which economic sectors were the investments made?

| SECTOR LEVEL 1         | SECTOR LEVEL 4                 | %<br>ASSETS |
|------------------------|--------------------------------|-------------|
| Automobile             |                                | 12.05       |
| Basic Industries       |                                | 8.07        |

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

## To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

### Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

☒ Yes:

☐ In fossil gas ☒ In nuclear energy

☐ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 92.95% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: 0.10%
- Enabling activities: 1.12%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 1.45% versus 2.47% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

12.36%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

16.17%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 5 companies as of 30.09.2024.

### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

#### ● How did the reference benchmark differ from a broad market index?

Not applicable.

#### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

#### ● How did this financial product perform compared with the reference benchmark?

Not applicable.

#### ● How did this financial product perform compared with the broad market index?

Not applicable.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - EUR Short Term Corporate Bonds**

Legal entity identifier: **54930064KZHCJX80KV24**

**ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE? |  |   |  |  |    |
|---|--|---|--|--|----|
| <input checked="" type="radio"/> <input checked="" type="radio"/>   | <input type="checkbox"/>   | Yes   | <input checked="" type="radio"/> <input type="radio"/> | <input checked="" type="checkbox"/>  | No |
| <input type="checkbox"/>  | It made <b>sustainable investments with an environmental objective</b> : ____% |   | <input checked="" type="checkbox"/>                    | It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of <b>37.16%</b> of sustainable investments |    |
|   | <input type="checkbox"/>   | in economic activities that qualify as environmentally sustainable under the EU Taxonomy        | <input checked="" type="checkbox"/>                    | with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy   |    |
|   | <input type="checkbox"/>   | in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy | <input checked="" type="checkbox"/>                    | with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy  |    |
|   |  |   | <input checked="" type="checkbox"/>                    | with a social objective  |    |
| <input type="checkbox"/>  | It made <b>sustainable investments with a social objective</b> : ____%         |   | <input type="checkbox"/>                               | It promoted E/S characteristics, but <b>did not make any sustainable investments</b>   |    |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- Positive tilt:  
The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The Bloomberg Euro-Aggregate Corporate 1-3 Years A-BBB index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- Norms- and values-based exclusions:  
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

| Company Exclusions based on Controversial Activities and Revenue thresholds |                    |
|---|--------------------|
| Activity  | Revenue thresholds |
| Energy  |                    |
| Thermal Coal Extraction   | 25%                |

#### Company Exclusions based on Controversial Activities and Revenue thresholds

|   |          |
|---|----------|
| Thermal Coal Power Generation                       | 25%      |
| Oil Sands Extraction                                | 25%      |

#### Company Exclusions based on Breaches of International Norms

|   |          |
|---|----------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded |
|---|----------|

#### Country Exclusions

|   |              |
|---|--------------|
| Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs) | Excluded[3]  |
| Countries (i) listed under “high alert” or “very high alert” in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank   | Excluded[3]  |
| Countries (i) listed under “alert” on the Fragile State Index or (ii) subject to export related sanctions by the EU   | Watchlist[4] |

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] “State Sponsors of Terrorism” is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management’s Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund engaged with the management of selected companies on material ESG issues.

#### ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

##### • Overall ESG profile

The fund’s weighted average ESG score was better than that of the reference index.

The fund’s weighted average ESG score was 8.14 against 8.06 for the reference index. A higher score means a lower risk. Scores range from 0 to 10, 10 being the best.

##### • Principle Adverse Impact (PAI)

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management’s Responsible Investment policy.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 2.45     | 2.81                |
| Weapons                         | 0.04     | 0.33                |
| Other controversial activities  | 0.03     | 1.13                |
| Eligible:                       | 91.84    | 100.00              |
| Covered:                        | 98.85    | 99.60               |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.  
Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Engagement

The fund engaged with 18 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 18.50%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 18.66%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors

relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS                           | SECTOR                 | % ASSETS | COUNTRY                  |

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

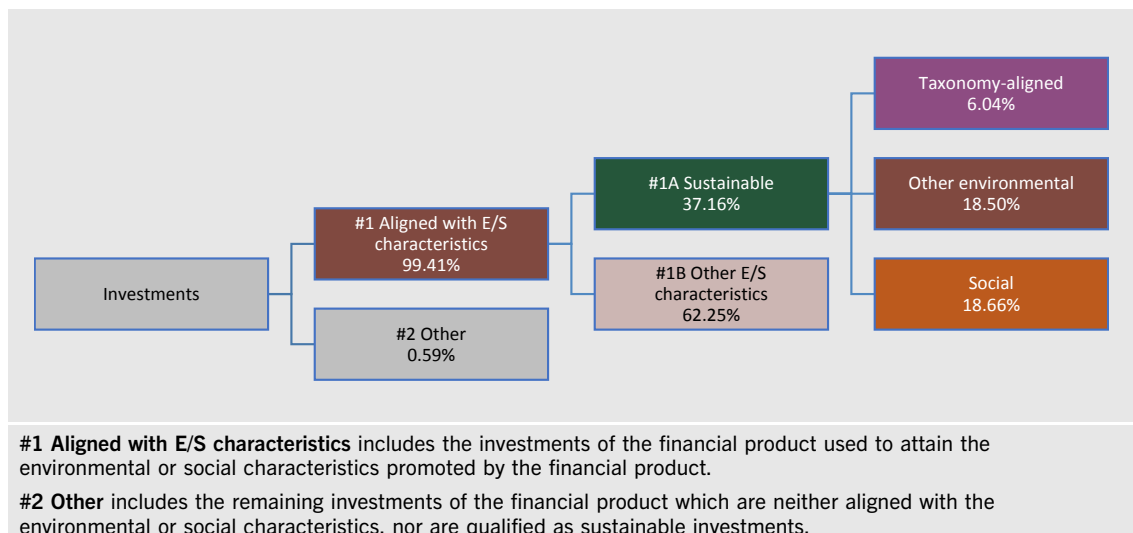

## What was the proportion of sustainability-related investments?

37.16%

### What was the asset allocation?

The fund was 99.41% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 0.59% invested in Other (#2 Other). 37.16% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

## To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

### Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

☒ Yes:

☒ In fossil gas ☒ In nuclear energy

☐ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 99.41% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: 0.37%
- Enabling activities: 3.29%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 2.80% versus 6.04% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

18.50%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

18.66%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 18 companies as of 30.09.2024.

### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

#### ● How did the reference benchmark differ from a broad market index?

Not applicable.

#### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

#### ● How did this financial product perform compared with the reference benchmark?

Not applicable.

#### ● How did this financial product perform compared with the broad market index?

Not applicable.

In addition to the terms and conditions of any license agreement for MSCI information, services or products ("MSCI Products") entered into with MSCI Inc. and/or its affiliates ("MSCI") by customers ("Customer(s)"), each Customer must comply with the terms and conditions required by third party suppliers ("Supplier(s)") regarding Customer's use of Supplier content, data, software and other materials ("Materials") within MSCI Products. Customers may also be required to pay additional fees associated with Supplier Materials. If a Customer does not comply with a Supplier's terms, a Supplier may enforce such terms and/or require MSCI to terminate Customer's access to that Supplier's Materials, without any remedy to Customer.

Additional terms and conditions required by Suppliers with respect to its Materials are provided in the expanders below. If Customer receives Materials from a Supplier not listed below via MSCI Products, additional terms and conditions related to such Materials may apply. Notwithstanding anything to the contrary set forth below, none of the additional terms and conditions of MSCI Suppliers shall supersede (nor shall MSCI waive) any MSCI proprietary and/or intellectual property rights in MSCI Products.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Short Term Emerging Corporate Bonds**

Legal entity identifier: **5493009K8UKDUDN85D74**

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?   |  |
|---|--|
| <input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> Yes  | <input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No  |
| <input type="checkbox"/> It made <b>sustainable investments with an environmental objective: ____%</b><br><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy<br><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy | <input checked="" type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of <b>17.70%</b> of sustainable investments<br><input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy<br><input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy<br><input checked="" type="checkbox"/> with a social objective |
| <input type="checkbox"/> It made <b>sustainable investments with a social objective: ____%</b>  | <input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>  |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this fund included:

- **Positive tilt:**

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The JP Morgan CEMBI Broad Diversified 1-3 Years index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- **Norms- and values-based exclusions:**

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

#### Company Exclusions based on Controversial Activities and Revenue thresholds

| Activity                | Revenue thresholds |
|-------------------------|--------------------|
| <b>Energy</b>           |                    |
| Thermal Coal Extraction | 25%                |

#### Company Exclusions based on Controversial Activities and Revenue thresholds

|   |          |
|---|----------|
| Thermal Coal Power Generation                       | 25%      |
| Oil Sands Extraction                                | 25%      |
| Shale Energy Extraction                             | 25%      |
| Off-shore Arctic Oil & Gas Exploration              | 10%      |
| <b>Weapons</b>                                      |          |
| Production of controversial weapons[1]              | Excluded |
| Military Contracting Weapons                        | 10%      |
| Small Arms Civilian Customers (Assault Weapons)     | 10%      |
| Small Arms Civilian Customers (Non-Assault Weapons) | 10%      |
| Small Arms Military/Law Enforcement Customers       | 25%      |
| Small Arms Key Components                           | 25%      |
| <b>Addictive Products</b>                           |          |
| Tobacco Products Production                         | 10%      |
| Adult Entertainment Production                      | 10%      |
| Gambling Operations                                 | 10%      |

#### Company Exclusions based on Breaches of International Norms

|   |          |
|---|----------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded |
|---|----------|

#### Country Exclusions

|   |              |
|---|--------------|
| Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs) | Excluded[3]  |
| Countries (i) listed under “high alert” or “very high alert” in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank   | Excluded[3]  |
| Countries (i) listed under “alert” on the Fragile State Index or (ii) subject to export related sanctions by the EU   | Watchlist[4] |

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] “State Sponsors of Terrorism” is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management’s Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund engaged with the management of selected companies on material ESG issues.

#### ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

##### • Overall ESG profile

The fund’s weighted average ESG score was better than that of the reference index.

The fund’s weighted average ESG score was 7.39 against 7.33 for the reference index. A higher score means a lower risk. Scores range from 0 to 10, 10 being the best.

##### • Principle Adverse Impact (PAI)

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management’s Responsible Investment policy.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 9.19     | 11.19               |
| Weapons                         | 0.00     | 0.24                |
| Other controversial activities  | 0.05     | 3.73                |
| Eligible:                       | 95.07    | 100.00              |
| Covered:                        | 95.19    | 99.35               |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.  
Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Engagement

The fund engaged with 14 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

| <i>Eligible (**):</i>   | 97.55% | 99.68%          | 95.07% | 100.00%         |  |
| <i>Covered (**):</i>  | 96.56% | 98.36%          | 95.19% | 99.35%          |  |
| <b>Engagement</b>   | 6      |                 | 14     |                 |  |

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 6.84%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 10.86%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors

relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS                          | SECTOR                 | % ASSETS | COUNTRY      |
|--|------------------------|----------|--------------|
| Santander Mexico 5.375% 17.04.2025 'Regs' Sr | Financial              | 1.63     | Mexico       |
| Banco De Bogota 6.25% 12.05.2026 'Regs' Sub  | Financial              | 1.54     | Colombia     |
| Teva Pharmaceuci 3.15% 01.10.2026 Sr         | Consumer Non-Cyclicals | 1.48     | Israel       |

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

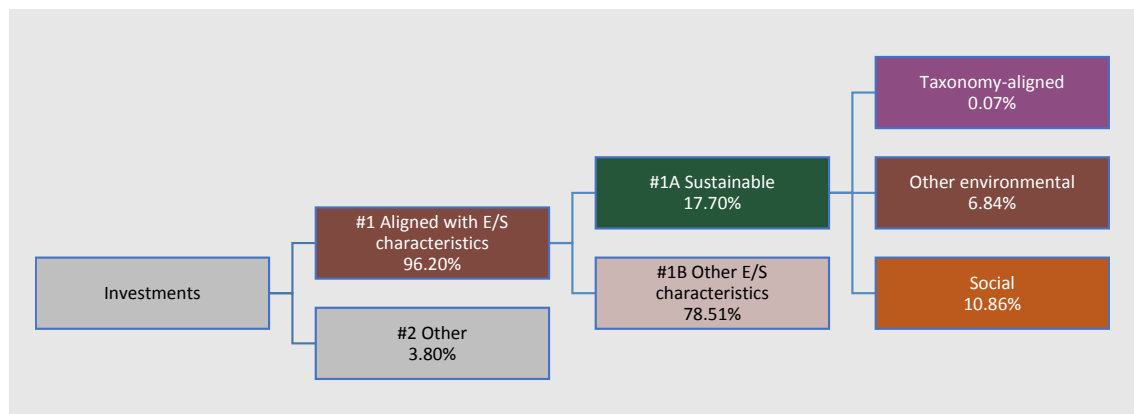

## What was the proportion of sustainability-related investments?

17.70%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 96.20% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 3.80% invested in Other (#2 Other). 17.70% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

### ● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Source: Pictet Asset Management, MSCI.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: 0.01%
- Enabling activities: 0.01%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 0.00% versus 0.07% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

6.84%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

10.86%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management’s Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 14 companies as of 30.09.2024.

**How did this financial product perform compared to the reference benchmark?**

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

**How did the reference benchmark differ from a broad market index?**

Not applicable.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**  
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**  
Not applicable.
- **How did this financial product perform compared with the broad market index?**  
Not applicable.

Notwithstanding anything to the contrary set forth below, none of the additional terms and conditions of MSCI Suppliers shall supersede (nor shall MSCI waive) any MSCI proprietary and/or intellectual property rights in MSCI Products.

21.03.2024 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Chinese Local Currency Debt**

Legal entity identifier: **549300KZ68000ZEEP423**

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?   |   |
|---|---|
| <input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> Yes  | <input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No   |
| <input type="checkbox"/> It made <b>sustainable investments with an environmental objective: ____%</b><br><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy<br><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy | <input checked="" type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of <b>8.35%</b> of sustainable investments<br><input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy<br><input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy<br><input checked="" type="checkbox"/> with a social objective |
| <input type="checkbox"/> It made <b>sustainable investments with a social objective: ____%</b>  | <input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>   |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this fund included:

- **Positive tilt:**

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The Bloomberg China Composite index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- **Norms- and values-based exclusions:**

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

#### Company Exclusions based on Controversial Activities and Revenue thresholds

| Activity                | Revenue thresholds |
|-------------------------|--------------------|
| <b>Energy</b>           |                    |
| Thermal Coal Extraction | 25%                |

#### Company Exclusions based on Controversial Activities and Revenue thresholds

|   |          |
|---|----------|
| Thermal Coal Power Generation                       | 25%      |
| Oil Sands Extraction                                | 25%      |
| Shale Energy Extraction                             | 25%      |
| Off-shore Arctic Oil & Gas Exploration              | 10%      |
| <b>Weapons</b>                                      |          |
| Production of controversial weapons[1]              | Excluded |
| Military Contracting Weapons                        | 10%      |
| Small Arms Civilian Customers (Assault Weapons)     | 10%      |
| Small Arms Civilian Customers (Non-Assault Weapons) | 10%      |
| Small Arms Military/Law Enforcement Customers       | 25%      |
| Small Arms Key Components                           | 25%      |
| <b>Addictive Products</b>                           |          |
| Tobacco Products Production                         | 10%      |
| Adult Entertainment Production                      | 10%      |
| Gambling Operations                                 | 10%      |

#### Company Exclusions based on Breaches of International Norms

|   |          |
|---|----------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded |
|---|----------|

#### Country Exclusions

|   |              |
|---|--------------|
| Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs) | Excluded[3]  |
| Countries (i) listed under “high alert” or “very high alert” in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank   | Excluded[3]  |
| Countries (i) listed under “alert” on the Fragile State Index or (ii) subject to export related sanctions by the EU   | Watchlist[4] |

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] “State Sponsors of Terrorism” is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management’s Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund engaged with the management of selected companies on material ESG issues.

#### ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

##### • Overall ESG profile

The fund’s weighted average ESG score was better than that of the reference index.

The fund’s weighted average ESG score was 6.62 against 6.20 for the reference index. A higher score means a lower risk. Scores range from 0 to 10, 10 being the best.

##### • Principle Adverse Impact (PAI)

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management’s Responsible Investment policy.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 0.19     | 0.21                |
| Weapons                         | 0.00     | 0.00                |
| Other controversial activities  | 0.00     | 0.00                |
| Eligible:                       | 78.95    | 71.44               |
| Covered:                        | 78.22    | 77.90               |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.  
Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Engagement

The fund engaged with 5 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

Source: Pictet Asset Management, Sustainalytics.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

#### ● ...and compared to previous periods?

Not applicable.

#### ● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

##### Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 6.41%.

##### Social

- Healthy Life
- Water, Sanitation & Housing

- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 1.94%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-party providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions and collaborative institutional investor initiatives.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons or (iii) countries subject to international sanctions see also detailed information on exclusions in Pictet Asset Management's responsible investment policy.

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

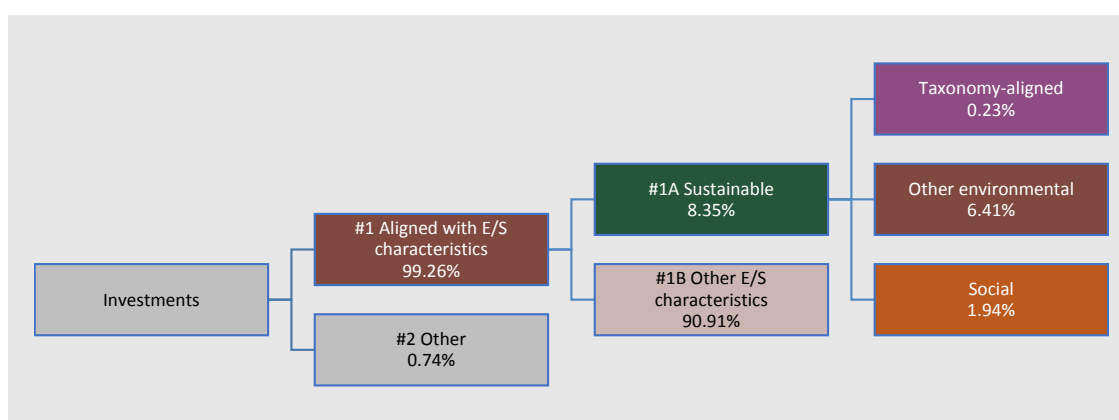

## What was the proportion of sustainability-related investments?

8.35%

### What was the asset allocation?

The fund was 99.26% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 0.74% invested in Other (#2 Other). 8.35% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

#### ● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

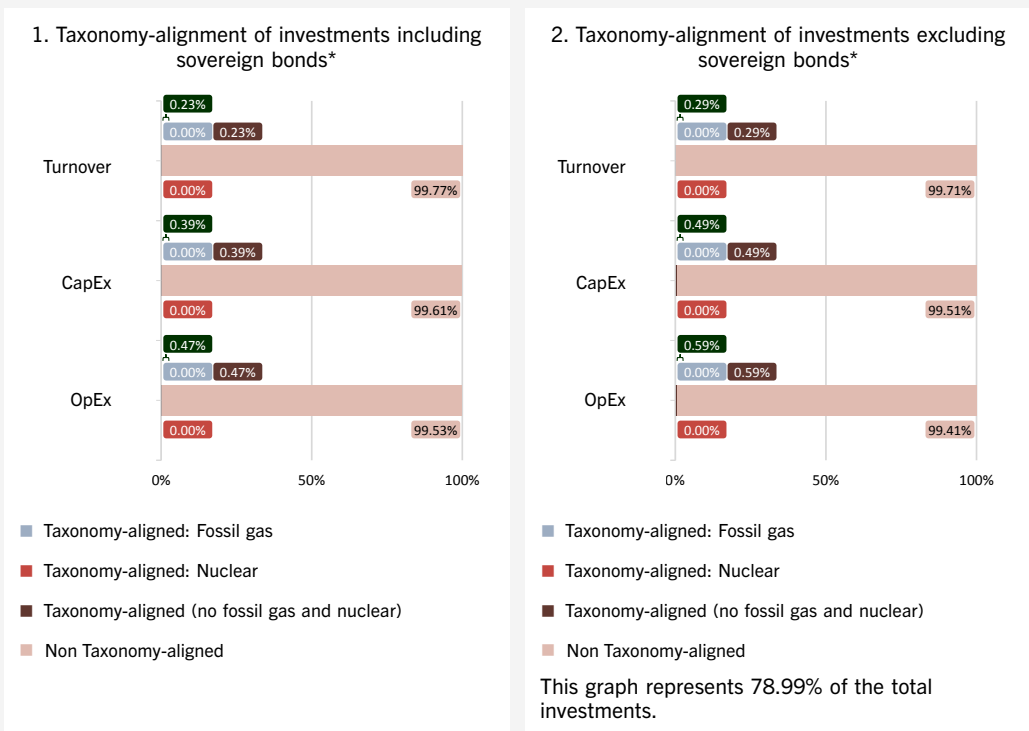

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

\* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: 0.00%
- Enabling activities: 0.22%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

6.41%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not**

**What was the share of socially sustainable investments?**

1.94%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management’s Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- exclusions of countries subject to international sanctions
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 5 companies as of 30.09.2024.

**How did this financial product perform compared to the reference benchmark?**

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

**How did the reference benchmark differ from a broad market index?**

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**  
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**  
Not applicable.
- **How did this financial product perform compared with the broad market index?**  
Not applicable.

Customers may also be required to pay additional fees associated with Supplier Materials. If a Customer does not comply with a Supplier's terms, a Supplier may enforce such terms and/or require MSCI to terminate Customer's access to that Supplier's Materials, without any remedy to Customer.

Additional terms and conditions required by Suppliers with respect to its Materials are provided in the expanders below. If Customer receives Materials from a Supplier not listed below via MSCI Products, additional terms and conditions related to such Materials may apply. Notwithstanding anything to the contrary set forth below, none of the additional terms and conditions of MSCI Suppliers shall supersede (nor shall MSCI waive) any MSCI proprietary and/or intellectual property rights in MSCI Products.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Absolute Return Fixed Income**

Legal entity identifier: **549300UVU2ZEG8T8ZH17**

**ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?   |  |
|---|--|
| <input checked="" type="radio"/> <input checked="" type="radio"/> Yes   | <input checked="" type="radio"/> <input type="radio"/> No  |
| <input type="checkbox"/> It made <b>sustainable investments with an environmental objective: ____%</b><br><br><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy<br><br><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy | <input checked="" type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of <b>27.76%</b> of sustainable investments<br><br><input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy<br><br><input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy<br><br><input checked="" type="checkbox"/> with a social objective |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- Positive tilt:  
The fund increased the weight of corporate bonds with low sustainability risks and/or decreased the weight of corporate bonds with high sustainability risks and, as a result, the corporate bonds it holds had a better ESG profile than the corporate bonds of the investment universe.  
No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- Norms- and values-based exclusions:  
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

**Company Exclusions based on Controversial Activities and Revenue thresholds**

| Activity                | Revenue thresholds |
|-------------------------|--------------------|
| Energy                  |                    |
| Thermal Coal Extraction | 25%                |

#### Company Exclusions based on Controversial Activities and Revenue thresholds

|   |          |
|---|----------|
| Thermal Coal Power Generation                       | 25%      |
| Oil Sands Extraction                                | 25%      |
| Shale Energy Extraction                             | 25%      |
| Off-shore Arctic Oil & Gas Exploration              | 10%      |
| <b>Weapons</b>                                      |          |
| Production of controversial weapons[1]              | Excluded |
| Military Contracting Weapons                        | 10%      |
| Small Arms Civilian Customers (Assault Weapons)     | 10%      |
| Small Arms Civilian Customers (Non-Assault Weapons) | 10%      |
| Small Arms Military/Law Enforcement Customers       | 25%      |
| Small Arms Key Components                           | 25%      |

| Adult Entertainment Production                      | 10%      |
| Gambling Operations                                 | 10%      |

#### Company Exclusions based on Breaches of International Norms

|   |          |
|---|----------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded |
|---|----------|

#### Country Exclusions

|   |              |
|---|--------------|
| Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs) | Excluded[3]  |
| Countries (i) listed under “high alert” or “very high alert” in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank   | Excluded[3]  |
| Countries (i) listed under “alert” on the Fragile State Index or (ii) subject to export related sanctions by the EU   | Watchlist[4] |

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] “State Sponsors of Terrorism” is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management’s Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund engaged with the management of selected companies on material ESG issues.

#### ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

##### • Overall ESG profile

The fund’s weighted average ESG score of corporate bonds was better than that of corporate bonds of the investment universe.

The fund’s weighted average ESG score was 22.03 against 25.82 for the investment universe. A lower score means a lower risk. Scores range from 0 to 100, 0 being the best.

##### • Principle Adverse Impact (PAI)

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management’s Responsible Investment policy.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 1.73     | N/A                 |
| Weapons                         | 0.01     | N/A                 |
| Other controversial activities  | 0.03     | N/A                 |
| Eligible:                       | 28.95    | N/A                 |
| Covered:                        | 94.99    | N/A                 |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.  
Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Engagement

The fund engaged with 8 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 25.38%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 2.38%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors

relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts were addressed through a combination of:

(i) portfolio management decisions

The investment team assessed its corporate holdings according to an analysis of Environmental, Social & Governance risks as part of the fund's investment framework. Investment managers, informed by internal and third-party research, including quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's analysis was a key component of the compartment's portfolio construction process, determining target weights in the portfolio to achieve a positive tilt in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls in collaboration with other investment teams and external third parties. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons or (iii) countries subject to international sanctions see also detailed information on exclusions in Pictet Asset Management's Responsible Investment policy.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS                         | SECTOR     | % ASSETS | COUNTRY                  |

## What was the proportion of sustainability-related investments?

27.76%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 95.27% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 4.73% invested in Other (#2 Other). 27.76% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

Source: Pictet Asset Management, Sustainalytics, Factset RBICS, MSCI.

Comparison of the asset allocation to previous period:

| Asset allocation                    | 01.10.2022 - 30.09.2023 | 01.10.2023 - 30.09.2024 |
|-------------------------------------|-------------------------|-------------------------|
| #1 Aligned with E/S characteristics | 93.50%                  | 95.27%                  |
| #2 Other                            | 6.50%                   | 4.73%                   |
| #1A Sustainable                     | 15.11%                  | 27.76%                  |
| #1B Other E/S characteristics       | 78.39%                  | 67.51%                  |
| Taxonomy-aligned                    | 0.64%                   | 1.39%                   |
| Other environmental                 | 12.37%                  | 25.38%                  |
| Social                              | 2.74%                   | 2.38%                   |

#### ● In which economic sectors were the investments made?

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

### ● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

☒ Yes:

☐ In fossil gas ☒ In nuclear energy

☐ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

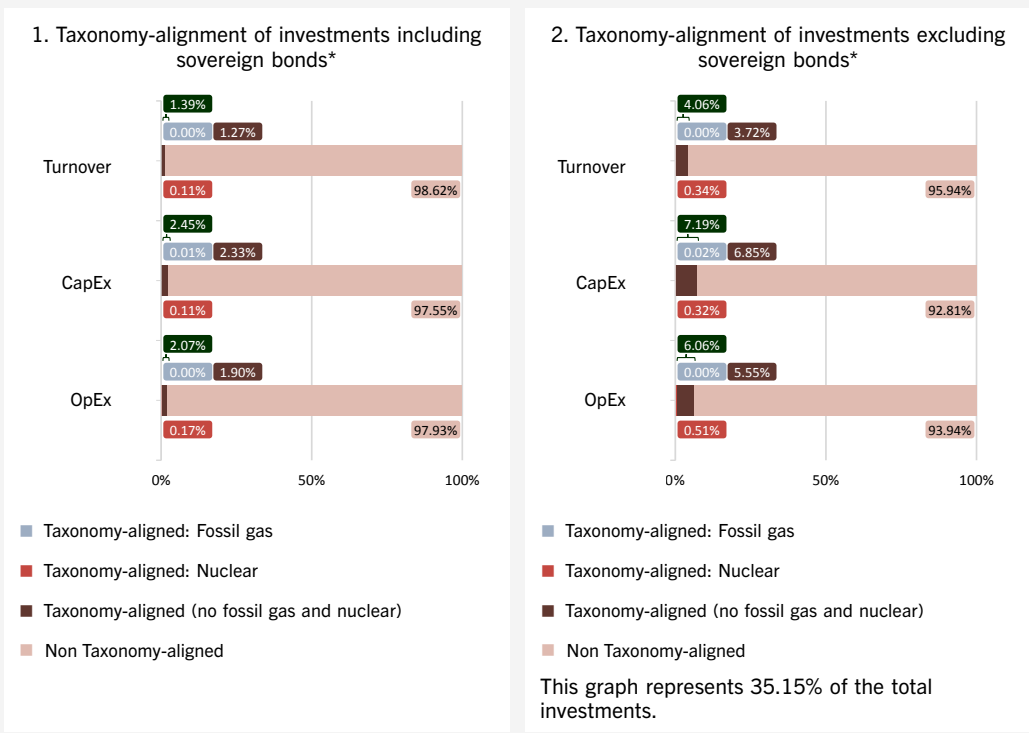

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Source: Pictet Asset Management, MSCI.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: 0.17%
- Enabling activities: 0.97%

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 0.64% versus 1.39% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

25.38%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

2.38%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management’s Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- exclusions of countries subject to international sanctions
- a better ESG profile than the investment universe
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 8 companies as of 30.09.2024.

**How did this financial product perform compared to the reference benchmark?**

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- **How did the reference benchmark differ from a broad market index?**  
Not applicable.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**  
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**  
Not applicable.
- **How did this financial product perform compared with the broad market index?**  
Not applicable.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Emerging Debt Blend**

Legal entity identifier: **549300X7BFFQ66LK0H18**

**ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?   |  |
|---|--|
| <input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> Yes  | <input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No  |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- **Best-in-class / best effort:**  
The fund invested in securities of issuers with low and/or decreasing sustainability risks while avoiding those with high and/or increasing sustainability risk, reducing the investment universe by at least 20%. The investment universe is composed of sovereign and corporate bonds from emerging countries. No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- **Labelled bonds:**  
The fund partially invested in environmental and/or social labelled bonds.
- **Norms- and values-based exclusions:**  
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

## Company Exclusions based on Controversial Activities and Revenue thresholds

| Activity  | Revenue thresholds |
|---|--------------------|
| <b>Energy</b>   |                    |
| Thermal Coal Extraction   | 25%                |
| Thermal Coal Power Generation   | 25%                |
| Oil Sands Extraction  | 25%                |
| Shale Energy Extraction   | 25%                |
| Off-shore Arctic Oil & Gas Exploration  | 10%                |
| <b>Weapons</b>  |                    |
| Production of controversial weapons[1]  | Excluded           |
| Military Contracting Weapons  | 10%                |
| Small Arms Civilian Customers (Assault Weapons)   | 10%                |
| Small Arms Civilian Customers (Non-Assault Weapons)   | 10%                |
| Small Arms Military/Law Enforcement Customers   | 25%                |
| Small Arms Key Components   | 25%                |
| <b>Addictive Products</b>   |                    |
| Tobacco Products Production   | 10%                |
| Adult Entertainment Production  | 10%                |
| Gambling Operations   | 10%                |
| <b>Company Exclusions based on Breaches of International Norms</b>  |                    |
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises   | Excluded           |
| <b>Country Exclusions</b>   |                    |
| Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs) | Excluded[3]        |
| Countries (i) listed under "high alert" or "very high alert" in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank   | Excluded[3]        |
| Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU   | Watchlist[4]       |

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund engaged with selected sovereigns on ESG topics over the reference period.

## ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- **The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:**

21.90%

- **Exposure to green and/or social labelled bond**

During the reference period, the fund had 13.27% exposure to labelled bonds.

Labelled bonds include environmental, social and sustainability bonds. Classification of labelled bonds is provided by the bond issuer and may not reflect our internal view

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

- **Reduction of the investment universe based on ESG factors**

The fund reduced its investment universe by removing at least 20% of issuers with the highest sustainability risks and/or principle adverse impacts on society or the environment.

Sustainability risks are ESG related risk or conditions that could cause a material negative impact on the value of investments if they were to occur. Sustainability risks included but were not limited to the following: climate transition risk, climate physical risk, environmental risk, social risk, governance risk. Periodic reviews and risk controls are in place to monitor implementation.

Principal adverse impacts are negative, material, or likely to be material effects on sustainability factors that are caused, compounded by, or directly linked to investment decisions and advices. Such principle adverse impacts included among others, GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/ radioactive waste, social & employee matters and corruption & bribery.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

The fund mainly invests in government bonds during the reference period. In case of investments in non-sovereign bonds and in line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment Policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 0.07     | 2.34                |
| Weapons                         | 0.00     | 0.01                |
| Other controversial activities  | 0.00     | 0.02                |
| Eligible:                       | 8.87     | 8.16                |
| Covered:                        | 76.84    | 99.41               |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **Engagement**

The fund engaged with 3 sovereigns on ESG topics (data as of 30.09.2024).

| <b>Engagement</b>  | 6                       |                        | 3                       |                        |                                     |                                     |

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 18.57%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 3.32%.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-party providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

- *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## **How did this financial product consider principal adverse impacts on sustainability factors?**

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

- (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including

data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions and collaborative institutional investor initiatives.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons or (iii) countries subject to international sanctions see also detailed information on exclusions in Pictet Asset Management's responsible investment policy.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS                       | SECTOR     | % ASSETS | COUNTRY      |

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

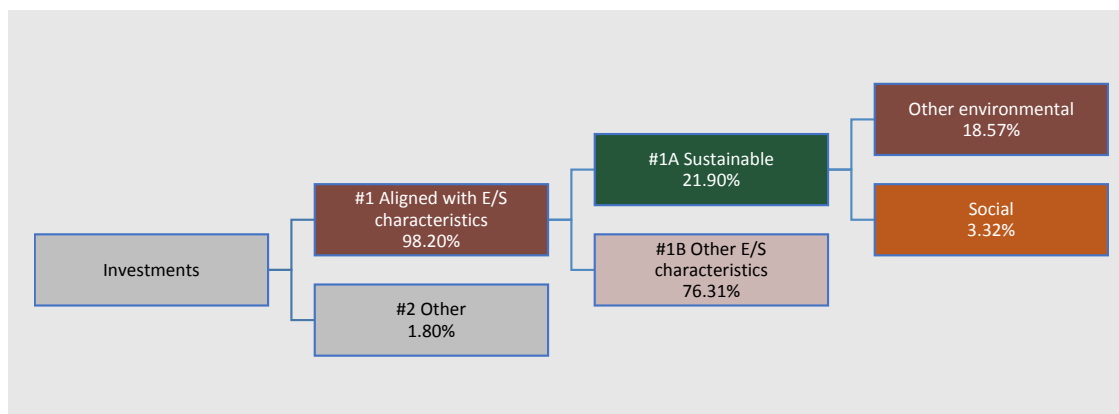

## What was the proportion of sustainability-related investments?

21.90%

### What was the asset allocation?

The fund was 98.20% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 1.80% invested in Other (#2 Other). 21.90% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

**Asset allocation** describes the share of investments in specific assets.

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments. The fund had EU taxonomy alignment based on Capex.

### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. The fund had EU taxonomy alignment based on Capex.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

### ● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Source: Pictet Asset Management, MSCI.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

- **What was the share of investments made in transitional and enabling activities?**  
Not applicable.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**  
Not applicable.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

18.57%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not**

**What was the share of socially sustainable investments?**

3.32%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management’s Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- exclusions of countries subject to international sanctions
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

The fund engaged with 3 sovereigns on ESG topics (data as 30.09.2024).

**How did this financial product perform compared to the reference benchmark?**

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

**How did the reference benchmark differ from a broad market index?**

Not applicable.

**How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did this financial product perform compared with the reference benchmark?**  
Not applicable.
- **How did this financial product perform compared with the broad market index?**  
Not applicable.

In addition to the terms and conditions of any license agreement for MSCI information, services or products (“MSCI Products”) entered into with MSCI Inc. and/or its affiliates (“MSCI”) by customers (“Customer(s)”), each Customer must comply with the terms and conditions required by third party suppliers (“Supplier(s)”) regarding Customer’s use of Supplier content, data, software and other materials (“Materials”) within MSCI Products. Customers may also be required to pay additional fees associated with Supplier Materials. If a Customer does not comply with a Supplier’s terms, a Supplier may enforce such terms and/or require MSCI to terminate Customer’s access to that Supplier’s Materials, without any remedy to Customer.

Additional terms and conditions required by Suppliers with respect to its Materials are provided in the expanders below. If Customer receives Materials from a Supplier not listed below via MSCI Products, additional terms and conditions related to such Materials may apply. Notwithstanding anything to the contrary set forth below, none of the additional terms and conditions of MSCI Suppliers shall supersede (nor shall MSCI waive) any MSCI proprietary and/or intellectual property rights in MSCI Products.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Climate Government Bonds**

Legal entity identifier: **213800YGY2GACS3I3720**

## SUSTAINABLE INVESTMENT OBJECTIVE

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?   |   |
|---|---|
| <input checked="" type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> <b>Yes</b>                    | <input checked="" type="radio"/> <input type="radio"/> <input type="checkbox"/> <b>No</b>   |
| <input checked="" type="checkbox"/> It made <b>sustainable investments with an environmental objective: 96.20%</b>                  | <input type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

### To what extent was the sustainable investment objective of this financial product met?

Main ways in which the fund achieved its sustainable objective:

- **Positive impact:**

The fund achieved a positive environmental impact by investing in countries that have a low carbon emission exposure in view of supporting the long-term global warming objectives of the Paris Agreement (and adopted under the United Nations Framework Convention on Climate Change seeking to limit global warming).

No reference index has been designated for the purpose of attaining the sustainable investment objective.

The fund invested mainly in bonds and other debt securities:

- issued or guaranteed by governments or by regional or local governments having a minimum credit rating at the time of acquisition, equivalent to "B-" as defined by Standard & Poor's or an equivalent credit rating from other recognized rating agencies. When there is no official rating system, the Managers acquired transferable securities with identical quality criteria;
- of countries which are reducing their greenhouse gas emissions and carbon intensity (net of land and forestry management); or

- of countries which are, in the opinion of the manager, in the process of implementing policies that may lead to a meaningful improvement in reducing CO2 emissions, for example, a country legislating on their carbon policies which not yet represented in the data

The above-mentioned investments include ESG Labelled Bonds.

Eligible securities included:

- (i) securities issued by countries which are reducing their greenhouse gas emissions and carbon intensity (net of land and forestry management) or are in the process of implementing such policies
- (ii) where relevant, green and/or social labelled bonds issued by companies or countries whose use of proceeds are financing such economic activities.

- Inclusion:

The fund invested partially in environmental labelled bonds.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

#### Company Exclusions based on Controversial Activities and Revenue thresholds

| Activity  | Revenue thresholds |
|---|--------------------|
| <b>Energy</b>   |                    |
| Thermal Coal Extraction   | 10%                |
| Thermal Coal Power Generation   | 10%                |
| Oil & Gas Production  | 10%                |
| Oil Sands Extraction  | 10%                |
| Shale Energy Extraction   | 10%                |
| Off-shore Arctic Oil & Gas Exploration  | 10%                |
| Nuclear Power Generation  | 50%                |
| <b>Weapons</b>  |                    |
| Production of controversial weapons[1]  | Excluded           |
| Production of nuclear weapons from countries signatory to the NPT   | Excluded           |
| Military Contracting Weapons  | 10%                |
| Military Contracting Weapon-Related Products and/or Services  | 10%                |
| Small Arms Civilian Customers (Assault Weapons)   | 10%                |
| Small Arms Civilian Customers (Non-Assault Weapons)   | 10%                |
| Small Arms Military/Law Enforcement Customers   | 10%                |
| Small Arms Key Components   | 10%                |
| <b>Addictive Products</b>   |                    |
| Alcoholic Beverages Production  | 10%                |
| Tobacco Products Production   | 10%                |
| Adult Entertainment Production  | 10%                |
| Gambling Operations   | 10%                |
| Gambling Specialised Equipment  | 10%                |
| <b>Agriculture</b>  |                    |
| Genetically Modified Plants and Seeds Development   | 10%                |
| Genetically Modified Plants and Seeds Growth  | 10%                |
| Pesticides Production   | 10%                |
| Pesticides Retail   | 10%                |
| Palm Oil Production and Distribution  | 10%                |
| <b>Company Exclusions based on Breaches of International Norms</b>  |                    |
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded           |

## Company Exclusions based on Controversial Activities and Revenue thresholds

|   |             |
|---|-------------|
| High controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises   | Excluded[2] |
| <b>Country Exclusions</b>   |             |
| Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[3] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs) | Excluded[4] |
| Countries (i) listed under “high alert” or “very high alert” in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank   | Excluded[4] |
| Countries (i) listed under “alert” on the Fragile State Index or (ii) subject to export related sanctions by the EU   | Excluded    |
| Countries subject to social violations as referred to in international treaties and conventions, United Nations principles and, where applicable, national law  | Excluded    |

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] Applies only to Sustainable Investments.

[3] “State Sponsors of Terrorism” is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[4] Exclusions also apply to companies if the headquarter is located in an excluded country.

For further details please refer to Pictet Asset Management’s Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- **Active ownership:**

Over the reference period there was no engagement activity with sovereign issuers on ESG topics.

- **Sustainable Investments:**

Pictet Asset Management used a proprietary framework as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

### Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 96.20%.

### Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 0.35%.

- **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Exposure to green and/or social labelled bond**

During the reference period, the fund had 38.53% exposure to labelled bonds.

Labelled bonds include environmental, social and sustainability bonds. Classification of labelled bonds is provided by the bond issuer and may not reflect our internal view.

- **Average carbon footprint at the portfolio level, both in terms of total carbon emissions and carbon emissions by GDP, incorporating Land Management (LULUCF) contribution in our measurement of emissions**

0.23 KtCo2e/GDP EUR

As measured by a reduction in country’s total CO2 emissions in kilotons over the past 4 years and improving CO2 efficiency i.e. total CO2 emissions in kilotons per billion USD of GDP over the past 4 years.

**Sustainability indicators** measure how the sustainable objectives of this financial product are attained.

Source: Pictet Asset Management, based on data from EDGAR and FAOSTAT

● **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

The fund mainly invests in government bonds during the reference period. In case of investments in non-sovereign bonds and in line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment as detailed below:

Controversial activities (weighted average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 0.00     | 0.00                |
| Weapons                         | 0.00     | 0.00                |
| Other controversial activities  | 0.00     | 0.00                |
| Eligible:                       | 1.74     | 0.00                |
| Covered:                        | 100.00   | 100.00              |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● **...and compared to previous periods?**

Comparison of the sustainability indicators to previous period:

| Sustainability indicators   | 01.10.2022 - 30.09.2023 |                  | 01.10.2023 - 30.09.2024 |                  | Commitments 01.10.2022 - 30.09.2023 | Commitments 01.10.2023 - 30.09.2024 |
|---|-------------------------|------------------|-------------------------|------------------|-------------------------------------|-------------------------------------|
| Exposure to green and/or social labelled bond   | 37.18%                  |                  | 38.53%                  |                  |                                     |                                     |
| Average carbon footprint at the portfolio level, both in terms of total carbon emissions and carbon emissions by GDP, incorporating Land Management (LULUCF) contribution in our measurement of emissions | 0.21                    |                  | 0.23                    |                  |                                     |                                     |

| <i>Eligible (**):</i>   | 3.20%  | 0.00%           | 1.74%   | 0.00%           |     |
| <i>Covered (**):</i>  | 92.17% | 100.00%         | 100.00% | 100.00%         |     |

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

### ● How did the sustainable investments not cause significant harm to any sustainable investment objective?

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

(i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.

(ii) Issuers associated with high and severe controversies were excluded.

Information were obtained from third-party providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

### ● How were the indicators for adverse impacts on sustainability factors taken into account?

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

### ● Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?

The fund mainly invests in government bonds during the reference period.

In case of investments in non-sovereign bonds, the fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental Risks as part of the fund's scoring framework. Scores are determined on a quantitative screen based on carbon emissions data and qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data, primarily carbon emissions - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons or (iii) countries subject to international sanctions see also detailed information on exclusions in Pictet Asset Management's responsible investment policy.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS                        | SECTOR     | % ASSETS | COUNTRY        |

## What was the proportion of sustainability-related investments?

96.55%

### What was the asset allocation?

The fund allocated 96.55% of its assets to Sustainable investments (#1 Sustainable) and 3.45% to Not sustainable investments (#2 Not sustainable). 96.20% of its assets is allocated to environmental objectives and 0.35% to social objectives.

Asset allocation describes the share of investments in specific assets.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.

Source: Pictet Asset Management, Factset RBICS.

Comparison of the asset allocation to previous period:

| Asset allocation   | 01.10.2022 - 30.09.2023 | 01.10.2023 - 30.09.2024 |
|--------------------|-------------------------|-------------------------|
| #1 Sustainable     | 93.44%                  | 96.55%                  |
| #2 Not sustainable | 6.56%                   | 3.45%                   |
| Environmental      | 93.44%                  | 96.20%                  |
| Social             | 0.00%                   | 0.35%                   |

## To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

### ● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

■ Taxonomy-aligned: Fossil gas  
■ Taxonomy-aligned: Nuclear  
■ Taxonomy-aligned (no fossil gas and nuclear)  
■ Non Taxonomy-aligned

2. Taxonomy-alignment of investments excluding sovereign bonds\*

■ Taxonomy-aligned: Fossil gas  
■ Taxonomy-aligned: Nuclear  
■ Taxonomy-aligned (no fossil gas and nuclear)  
■ Non Taxonomy-aligned

This graph represents 2.16% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

### ● What was the share of investments made in transitional and enabling activities?

Not applicable.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

among others have greenhouse gas emission levels corresponding to the best performance.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 1.38% versus 0.00% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

96.20%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

**What was the share of socially sustainable investments?**

0.35%

**What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “not sustainable” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to attain the sustainable investment objective during the reference period?**

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- investments in bonds and other debt that:
  - of countries which are reducing their greenhouse gas emissions and carbon intensity (net of land and forestry management); or
  - of countries which are, in the opinion of the manager, in the process of implementing policies that may lead to a meaningful improvement in reducing CO2 emissions, for example, a country legislating on their carbon policies which is not yet represented in the data.
- exclusion of issuers that:
  - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons and nuclear weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and extraction, conventional oil and gas production, nuclear power generation, military contracting weapons, weapon-related products and services, small arms, alcoholic beverages, tobacco production, adult entertainment production, gambling operations and specialised equipment,

genetically modified organisms development and growth, pesticides production and retail, and palm oil production and distribution. Please refer to Pictet Asset Management's Responsible Investment policy for further details on excluded sectors and exclusion thresholds.

- severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- exclusions of countries subject to international sanctions
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

There was no engagement activity with sovereign issuers on ESG topics over the reference period.

#### **How did this financial product perform compared to the reference benchmark?**

No reference index has been designated for the purpose of attaining the sustainable investment objective.

**Reference benchmarks** are indexes to measure whether the financial product attains the sustainable objective

#### ● **How did the reference benchmark differ from a broad market index?**

Not applicable.

#### ● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

#### ● **How did this financial product perform compared with the reference benchmark?**

Not applicable.

#### ● **How did this financial product perform compared with the broad market index?**

Not applicable.

#### **Disclaimers**

This publication includes information and data provided by Sustainalytics. Use of such data is subject to conditions available at <https://www.sustainalytics.com/legal-disclaimers>

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Family**

Legal entity identifier: **549300M1TOB2573YHT17**

**ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?   |  |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- **Positive tilt:**  
The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The MSCI AC World index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- **Norms- and values-based exclusions:**  
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

**Company Exclusions based on Controversial Activities and Revenue thresholds**

| Activity                | Revenue thresholds |
|-------------------------|--------------------|
| Energy                  |                    |
| Thermal Coal Extraction | 25%                |

**Company Exclusions based on Controversial Activities and Revenue thresholds**

|   |          |
|---|----------|
| Thermal Coal Power Generation                       | 25%      |
| Oil Sands Extraction                                | 25%      |
| Shale Energy Extraction                             | 25%      |
| Off-shore Arctic Oil & Gas Exploration              | 10%      |
| <b>Weapons</b>                                      |          |
| Production of controversial weapons[1]              | Excluded |
| Military Contracting Weapons                        | 10%      |
| Small Arms Civilian Customers (Assault Weapons)     | 10%      |
| Small Arms Civilian Customers (Non-Assault Weapons) | 10%      |
| Small Arms Military/Law Enforcement Customers       | 25%      |
| Small Arms Key Components                           | 25%      |
| <b>Addictive Products</b>                           |          |
| Tobacco Products Production                         | 10%      |
| Adult Entertainment Production                      | 10%      |
| Gambling Operations                                 | 10%      |

**Company Exclusions based on Breaches of International Norms**

|   |          |
|---|----------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded |
|---|----------|

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of selected companies on material ESG issues.

- **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:**

43.45%

- **Overall ESG profile**

The fund's weighted average ESG score was better than that of the reference index.

The fund's weighted average ESG score was -0.32 against -0.37 for the reference index. A higher score means a lower risk. Scores range from -2 to 0, 0 being the best.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 0.14     | 3.53                |
| Weapons                         | 0.08     | 0.97                |
| Other controversial activities  | 0.01     | 0.84                |
| Eligible:                       | 98.76    | 100.00              |
| Covered:                        | 99.48    | 99.65               |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.  
Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Voting rights

During the reference period, the fund voted at 45 general assembly meetings out of 45 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 62.22% of meetings.

In respect to Environmental and/or Social issues we voted for 2 out of 2 management resolutions and for 29 out of 44 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

#### • Engagement

The fund engaged with 9 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation

- Efficiency & Circularity
  - Natural Capital Management
- Such investments represented 5.16%.

#### Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 38.29%.

#### ● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-party providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

#### ● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

#### ● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

### (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

### (ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

### (iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

### (iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS         | SECTOR                 | % ASSETS | COUNTRY                  |
|-----------------------------|------------------------|----------|--------------------------|
| Brown & Brown Inc           | Financials             | 3.71     | United States of America |
| Walmart Inc                 | Consumer Staples       | 3.62     | United States of America |
| Hca Healthcare Inc          | Health Care            | 3.58     | United States of America |
| Workday Inc-Class A         | Information Technology | 3.58     | United States of America |

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

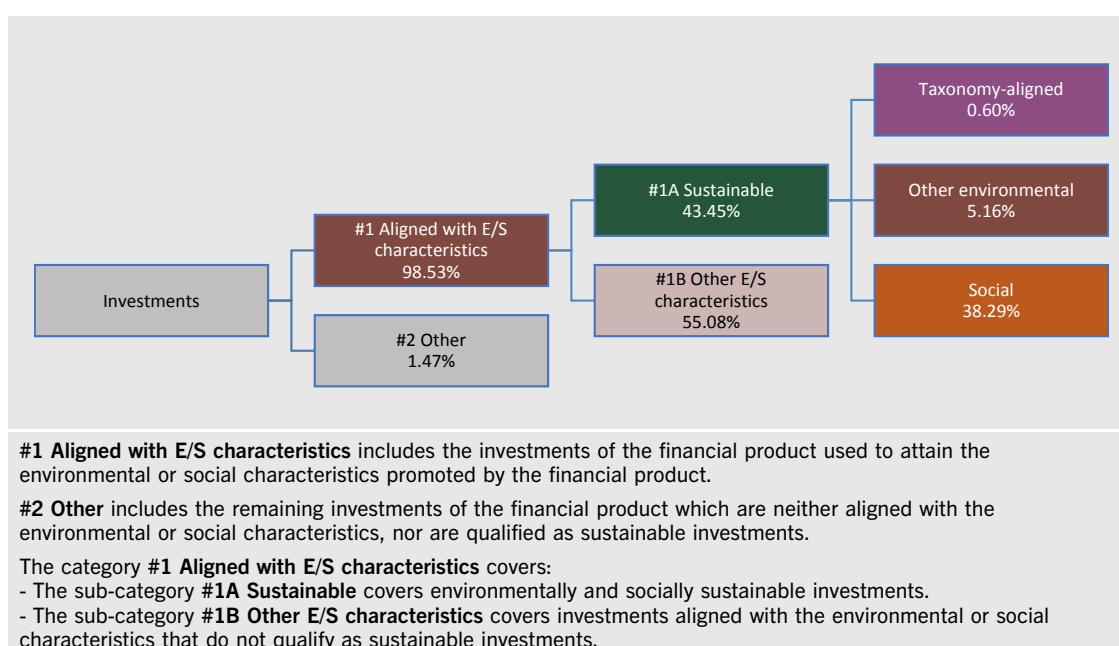

## What was the proportion of sustainability-related investments?

43.45%

### What was the asset allocation?

The fund was 98.53% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 1.47% invested in Other (#2 Other). 43.45% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

- Pictet Asset Management used a proprietary framework to define sustainable investments. "1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

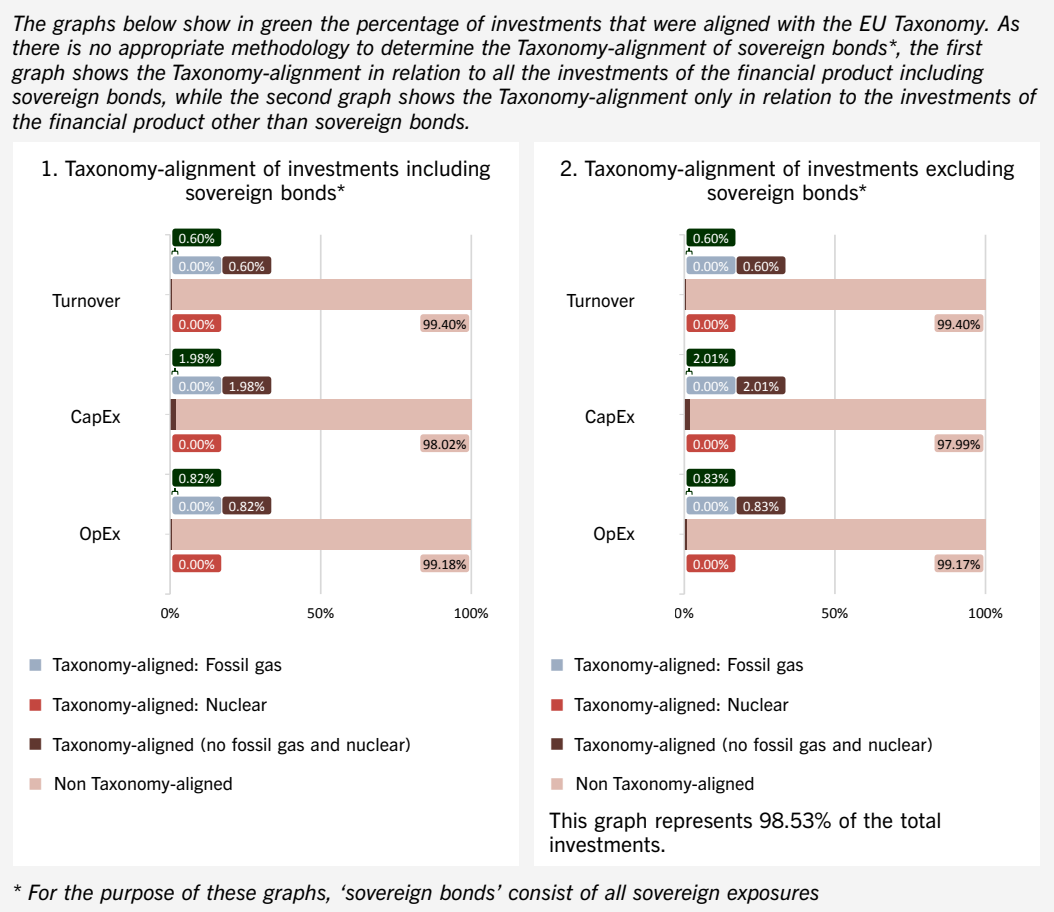

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

- ☐ Yes:
- ☐ In fossil gas    ☐ In nuclear energy
- ☒ No

Source: Pictet Asset Management, MSCI.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

- The share of investments made in:
- Transitional activities: 0.00%
  - Enabling activities: 0.59%

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 0.44% versus 0.60% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

5.16%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

38.29%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 9 companies as of 30.09.2024.

## How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- **How did the reference benchmark differ from a broad market index?**  
Not applicable.
- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**  
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**  
Not applicable.
- **How did this financial product perform compared with the broad market index?**  
Not applicable.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Emerging Markets**

Legal entity identifier: **549300AIDBFR45UK7K91**

**ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE? |  |   |                                     |  |    |
|---|--|---|-------------------------------------|--|----|
| <input checked="" type="radio"/>                                    | <input type="checkbox"/>   | Yes   | <input checked="" type="radio"/>    | <input checked="" type="checkbox"/>  | No |
| <input type="checkbox"/>  | It made <b>sustainable investments with an environmental objective</b> : ____% |   | <input checked="" type="checkbox"/> | It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of <b>32.57%</b> of sustainable investments |    |
|   | <input type="checkbox"/>   | in economic activities that qualify as environmentally sustainable under the EU Taxonomy        | <input checked="" type="checkbox"/> | with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy   |    |
|   | <input type="checkbox"/>   | in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy | <input checked="" type="checkbox"/> | with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy  |    |
|   |  |   | <input checked="" type="checkbox"/> | with a social objective  |    |
| <input type="checkbox"/>  | It made <b>sustainable investments with a social objective</b> : ____%         |   | <input type="checkbox"/>            | It promoted E/S characteristics, but <b>did not make any sustainable investments</b>   |    |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- Positive tilt:  
The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The MSCI EM index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- Norms- and values-based exclusions:  
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

**Company Exclusions based on Controversial Activities and Revenue thresholds**

| Activity                | Revenue thresholds |
|-------------------------|--------------------|
| Energy                  |                    |
| Thermal Coal Extraction | 25%                |

**Company Exclusions based on Controversial Activities and Revenue thresholds**

|   |          |
|---|----------|
| Thermal Coal Power Generation                       | 25%      |
| Oil Sands Extraction                                | 25%      |
| Shale Energy Extraction                             | 25%      |
| Off-shore Arctic Oil & Gas Exploration              | 10%      |

| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded |
|---|----------|

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of selected companies on material ESG issues.

- **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Overall ESG profile**

The fund's weighted average ESG score was better than that of the reference index.

The fund's weighted average ESG score was 7.86 against 7.67 for the reference index. A higher score means a lower risk. Scores range from 0 to 10, 10 being the best.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 2.01     | 0.00                |
| Weapons                         | 0.07     | 0.00                |
| Other controversial activities  | 0.04     | 0.00                |
| Eligible:                       | 96.93    | 100.00              |
| Covered:                        | 98.57    | 99.94               |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.  
Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Voting rights

During the reference period, the fund voted at 82 general assembly meetings out of 82 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 43.90% of meetings.

In respect to Environmental and/or Social issues we voted for 0 out of 1 management resolutions and for 0 out of 0 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

#### • Engagement

The fund engaged with 16 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

**Environmental**

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 15.50%.

**Social**

- Healthy Life
- Water, Sanitation & Housing

- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 17.07%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-party providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

### (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

### (ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

### (iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

### (iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS          | SECTOR                 | % ASSETS | COUNTRY     |

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

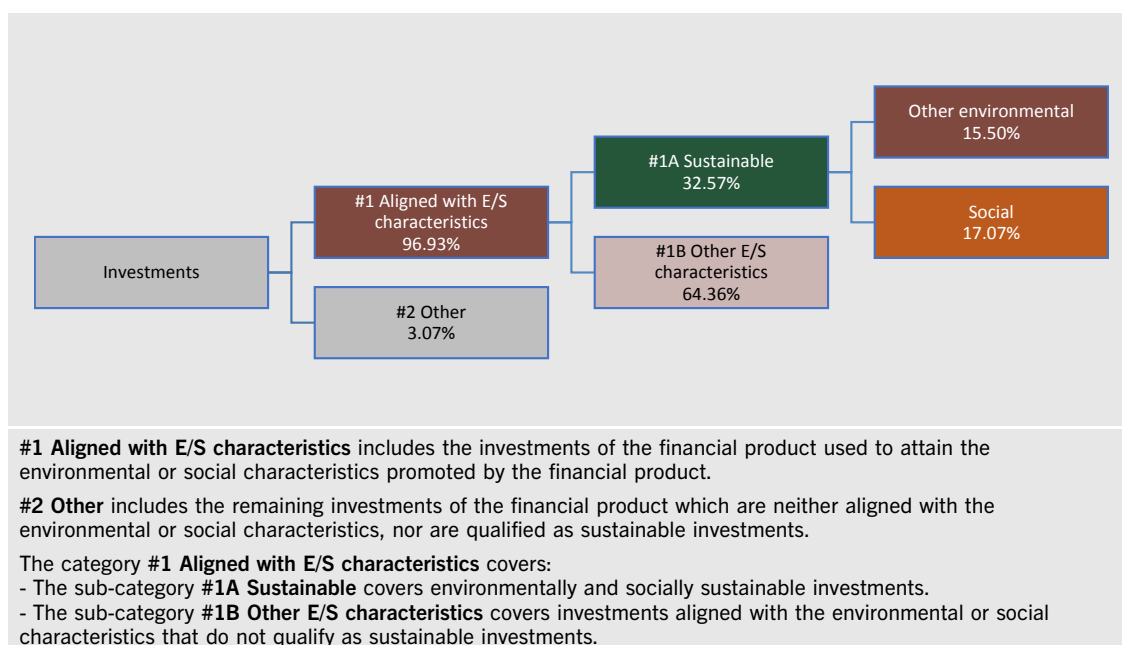

## What was the proportion of sustainability-related investments?

32.57%

### What was the asset allocation?

The fund was 96.93% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 3.07% invested in Other (#2 Other). 32.57% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

- Pictet Asset Management used a proprietary framework to define sustainable investments. "1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments. The fund had EU taxonomy alignment based on Capex.

## To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. The fund had EU taxonomy alignment based on Capex.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

### Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 96.93% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

- **What was the share of investments made in transitional and enabling activities?**  
Not applicable.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**  
Not applicable.

- What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

15.50%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

- What was the share of socially sustainable investments?**

17.07%

- What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

- What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons

- derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
- severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 16 companies as of 30.09.2024.

## How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

### ● How did the reference benchmark differ from a broad market index?

Not applicable.

### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

### ● How did this financial product perform compared with the reference benchmark?

Not applicable.

### ● How did this financial product perform compared with the broad market index?

Not applicable.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Quest Europe Sustainable Equities**

Legal entity identifier: **549300NPMY49SMN5GK24**

**ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?  |  |
|--|--|
| <input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> Yes                           | <input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No  |
| <input type="checkbox"/> It made <b>sustainable investments with an environmental objective</b> : ____%                  | <input checked="" type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of <b>45.69%</b> of sustainable investments |
| <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy        | <input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy   |
| <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy | <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy  |
|  | <input checked="" type="checkbox"/> with a social objective  |
| <input type="checkbox"/> It made <b>sustainable investments with a social objective</b> : ____%                          | <input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>  |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

• **Best-in-class:**

The fund invested in securities of issuers with low sustainability risks while avoiding those with high sustainability risks, reducing the investment universe by at least 20%. The MSCI Europe index was used to measure the universe reduction; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

• **Carbon intensity:**

The fund has a lower carbon intensity than the investment universe.

• **Norms- and values-based exclusions:**

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

## Company Exclusions based on Controversial Activities and Revenue thresholds

| Activity  | Revenue thresholds |
|---|--------------------|
| <b>Energy</b>   |                    |
| Thermal Coal Extraction   | 25%                |
| Thermal Coal Power Generation   | 25%                |
| Oil Sands Extraction  | 25%                |
| Shale Energy Extraction   | 25%                |
| Off-shore Arctic Oil & Gas Exploration  | 10%                |
| <b>Weapons</b>  |                    |
| Production of controversial weapons[1]  | Excluded           |
| Military Contracting Weapons  | 10%                |
| Small Arms Civilian Customers (Assault Weapons)   | 10%                |
| Small Arms Civilian Customers (Non-Assault Weapons)   | 10%                |
| Small Arms Military/Law Enforcement Customers   | 25%                |
| Small Arms Key Components   | 25%                |
| <b>Addictive Products</b>   |                    |
| Tobacco Products Production   | 10%                |
| Adult Entertainment Production  | 10%                |
| Gambling Operations   | 10%                |
| <b>Company Exclusions based on Breaches of International Norms</b>  |                    |
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded           |

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of selected companies on material ESG issues.

### ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- **The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:**

45.69%

- **Reduction of the investment universe based on ESG factors**

The fund reduced its investment universe by removing at least 20% of issuers with the highest sustainability risks and/or principle adverse impacts on society or the environment.

Sustainability risks are ESG related risk or conditions that could cause a material negative impact on the value of investments if they were to occur. Sustainability risks included but were not limited to the following: climate transition risk, climate physical risk, environmental risk, social risk, governance risk. Periodic reviews and risk controls are in place to monitor implementation.

Principal adverse impacts are negative, material, or likely to be material effects on sustainability factors that are caused, compounded by, or directly linked to investment decisions and advices. Such principle adverse impacts included among others, GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/ radioactive waste, social & employee matters and corruption & bribery.

- **Principle Adverse Impact (PAI)**

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 0.00     | 3.86                |
| Weapons                         | 0.04     | 1.30                |
| Other controversial activities  | 0.00     | 1.46                |
| Eligible:                       | 99.80    | 100.00              |
| Covered:                        | 100.00   | 99.95               |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Voting rights

During the reference period, the fund voted at 62 general assembly meetings out of 63 votable meetings (98.41%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 33.33% of meetings.

In respect to Environmental and/or Social issues we voted for 22 out of 22 management resolutions and for 1 out of 6 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

#### • Engagement

The fund engaged with 12 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

#### Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 4.78%.

#### Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 40.91%.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-party providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

*The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.*

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

### (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

### (ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

### (iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

### (iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

| LARGEST INVESTMENTS       | SECTOR           | % ASSETS | COUNTRY        |
|---------------------------|------------------|----------|----------------|
| Novartis Ag-Reg           | Health Care      | 4.39     | Switzerland    |

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

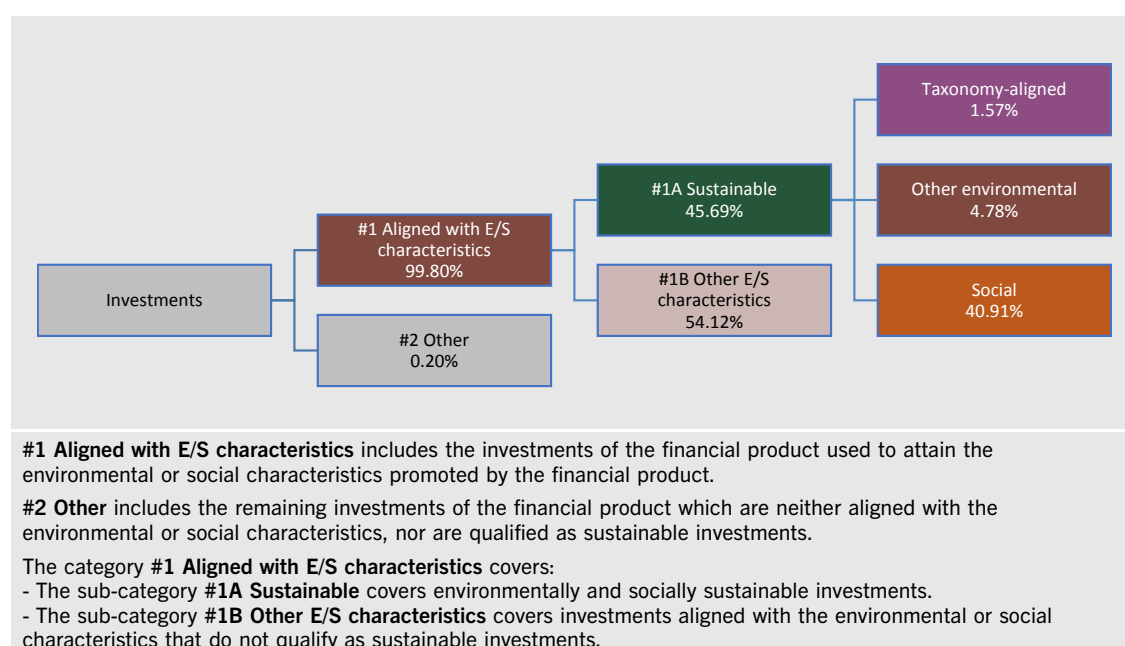

## What was the proportion of sustainability-related investments?

45.69%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 99.80% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 0.20% invested in Other (#2 Other). 45.69% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

- Pictet Asset Management used a proprietary framework to define sustainable investments. "1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by

revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

Source: Pictet Asset Management, Sustainalytics, Factset RBICS, MSCI.

Comparison of the asset allocation to previous period:

| Asset allocation                    | 01.10.2022 - 30.09.2023 | 01.10.2023 - 30.09.2024 |
|-------------------------------------|-------------------------|-------------------------|
| #1 Aligned with E/S characteristics | 99.66%                  | 99.80%                  |
| #2 Other                            | 0.34%                   | 0.20%                   |

### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

☐ Taxonomy-aligned: Fossil gas  
☐ Taxonomy-aligned: Nuclear  
☐ Taxonomy-aligned (no fossil gas and nuclear)  
☐ Non Taxonomy-aligned

2. Taxonomy-alignment of investments excluding sovereign bonds\*

☐ Taxonomy-aligned: Fossil gas  
☐ Taxonomy-aligned: Nuclear  
☐ Taxonomy-aligned (no fossil gas and nuclear)  
☐ Non Taxonomy-aligned

This graph represents 99.80% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: 0.01%
- Enabling activities: 1.40%

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 1.31% versus 1.57% in the current reference period.  
Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

4.78%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

40.91%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.

- severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
  - ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio
- Furthermore, the fund engaged with 12 companies as of 30.09.2024.

#### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

#### ● How did the reference benchmark differ from a broad market index?

Not applicable.

#### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

#### ● How did this financial product perform compared with the reference benchmark?

Not applicable.

#### ● How did this financial product perform compared with the broad market index?

Not applicable.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Digital**

Legal entity identifier: **549300JWHWRPWRWFUMF97**

**ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| <input type="checkbox"/> It made <b>sustainable investments with a social objective: ____%</b>  | <input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>  |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- **Positive tilt:**  
The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The MSCI AC World index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- **Norms- and values-based exclusions:**  
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

**Company Exclusions based on Controversial Activities and Revenue thresholds**

| Activity                | Revenue thresholds |
|-------------------------|--------------------|
| Energy                  |                    |
| Thermal Coal Extraction | 25%                |

**Company Exclusions based on Controversial Activities and Revenue thresholds**

|   |          |
|---|----------|
| Thermal Coal Power Generation                       | 25%      |
| Oil Sands Extraction                                | 25%      |
| Shale Energy Extraction                             | 25%      |
| Off-shore Arctic Oil & Gas Exploration              | 10%      |
| <b>Weapons</b>                                      |          |
| Production of controversial weapons[1]              | Excluded |
| Military Contracting Weapons                        | 10%      |
| Small Arms Civilian Customers (Assault Weapons)     | 10%      |
| Small Arms Civilian Customers (Non-Assault Weapons) | 10%      |
| Small Arms Military/Law Enforcement Customers       | 25%      |
| Small Arms Key Components                           | 25%      |
| <b>Addictive Products</b>                           |          |
| Tobacco Products Production                         | 10%      |
| Adult Entertainment Production                      | 10%      |
| Gambling Operations                                 | 10%      |

**Company Exclusions based on Breaches of International Norms**

|   |          |
|---|----------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded |
|---|----------|

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B). Note that our exclusion framework has been updated during 2024.

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of selected companies on material ESG issues.

## ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- **The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:**

44.82%

- **Overall ESG profile**

The fund's weighted average ESG score was better than that of the reference index.

The fund's weighted average ESG score was -0.31 against -0.37 for the reference index. A higher score means a lower risk. Scores range from -2 to 0, 0 being the best.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 0.00     | 3.53                |
| Weapons                         | 0.10     | 0.97                |
| Other controversial activities  | 0.00     | 0.84                |
| Eligible:                       | 96.52    | 100.00              |
| Covered:                        | 100.00   | 99.65               |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.  
Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Voting rights

During the reference period, the fund voted at 35 general assembly meetings out of 35 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 60.00% of meetings.

In respect to Environmental and/or Social issues we voted for 0 out of 0 management resolutions and for 36 out of 51 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

#### • Engagement

The fund engaged with 9 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation

- Efficiency & Circularity
  - Natural Capital Management
- Such investments represented 29.52%.

#### Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 15.30%.

#### ● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-party providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

#### ● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

#### ● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

### (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

### (ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

### (iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

### (iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS          | SECTOR                 | % ASSETS | COUNTRY                  |
|------------------------------|------------------------|----------|--------------------------|
| Amazon.Com Inc               | Consumer Discretionary | 8.33     | United States of America |
| Meta Platforms Inc-Class A   | Communication Services | 7.63     | United States of America |
| Nvidia Corp                  | Information Technology | 7.15     | United States of America |
| Microsoft Corp               | Information Technology | 6.41     | United States of America |
| Taiwan Semiconductor Manufac | Information Technology | 5.64     | Taiwan                   |
| Alphabet Inc-Cl A            | Communication Services | 5.19     | United States of America |
| Netflix Inc                  | Communication Services | 4.57     | United States of America |
| Mercadolibre Inc             | Consumer Discretionary | 4.00     | Brazil                   |
| Booking Holdings Inc         | Consumer Discretionary | 3.87     | United States of America |

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

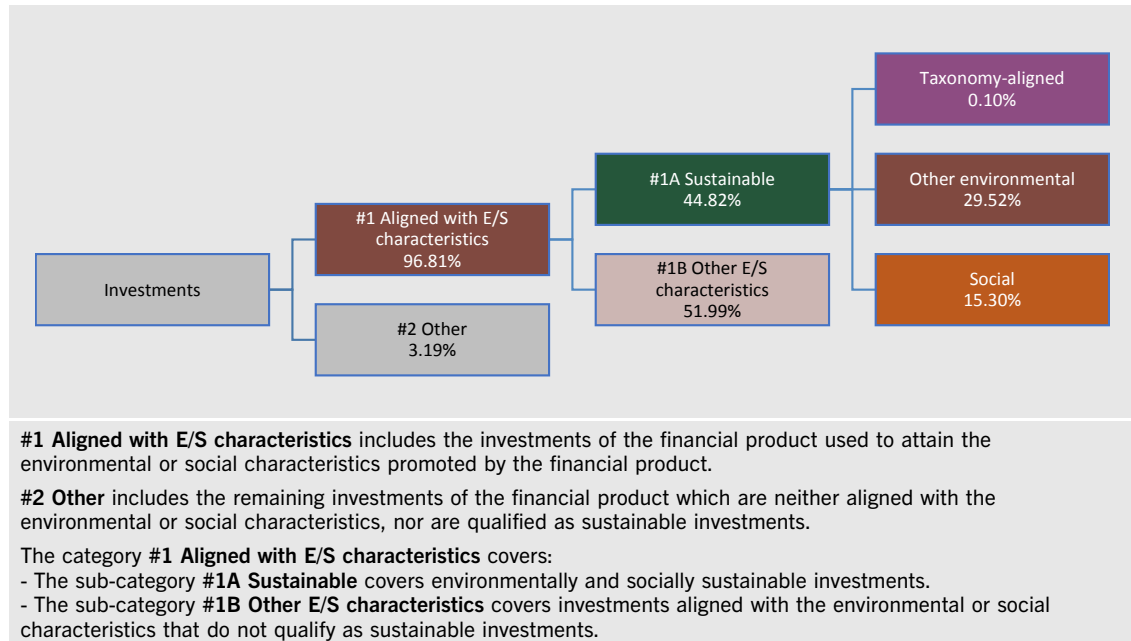

## What was the proportion of sustainability-related investments?

44.82%

### What was the asset allocation?

The fund was 96.81% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 3.19% invested in Other (#2 Other). 44.82% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

- Pictet Asset Management used a proprietary framework to define sustainable investments. "1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

● To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Source: Pictet Asset Management, MSCI.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: 0.00%
- Enabling activities: 0.10%

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 0.05% versus 0.10% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

29.52%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

15.30%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
  - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 9 companies as of 30.09.2024.

**How did this financial product perform compared to the reference benchmark?**

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- **How did the reference benchmark differ from a broad market index?**  
Not applicable.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**  
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**  
Not applicable.
- **How did this financial product perform compared with the broad market index?**  
Not applicable.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Biotech**

Legal entity identifier: **549300HEJK1QY30BWK41**

**SUSTAINABLE INVESTMENT OBJECTIVE**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?  |   |
|--|---|
| <input checked="" type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> Yes                | <input checked="" type="radio"/> <input type="radio"/> No   |
| <input type="checkbox"/> It made <b>sustainable investments with an environmental objective</b> : ____%                  | <input type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments |

| <input checked="" type="checkbox"/> It made <b>sustainable investments with a social objective</b> : 98.67%              | <input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>   |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent was the sustainable investment objective of this financial product met?**

Main ways in which the fund achieved its sustainable objective:

- Positive impact:  
The fund achieved a positive social impact by investing at least two-thirds of its total assets/total wealth in companies supporting the health of people with high innovation capacity. Better therapies can deliver true value to patients and healthcare systems alike. These companies are tackling high unmet medical needs and reduce the pressures on healthcare budgets through the reduction of hospital admissions or symptom management.  
No reference index has been designated for the purpose of attaining the sustainable investment objective.  
The fund invested mainly in companies whose significant proportion of their activities are related to new mechanisms of actions offering potential cures or management of diseases that were hard to treat before, technology platforms, research tools and services in the biotechnology value chain as well as the improvement of therapies or drugs and other relevant economic activities.  
Eligible securities included equities issued by companies with a significant proportion of activities (as measured by revenue, EBIT, enterprise value or similar metrics) derived from such economic activities.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

**Company Exclusions based on Controversial Activities and Revenue thresholds**

| Activity  | Revenue thresholds |
|---|--------------------|
| <b>Energy</b>   |                    |
| Thermal Coal Extraction   | 10%                |
| Thermal Coal Power Generation                                     | 10%                |
| Oil & Gas Production  | 10%                |
| Oil Sands Extraction  | 10%                |
| Shale Energy Extraction   | 10%                |
| Off-shore Arctic Oil & Gas Exploration                            | 10%                |
| Nuclear Power Generation  | 50%                |
| <b>Weapons</b>  |                    |
| Production of controversial weapons[1]                            | Excluded           |
| Production of nuclear weapons from countries signatory to the NPT | Excluded           |
| Military Contracting Weapons                                      | 10%                |
| Military Contracting Weapon-Related Products and/or Services      | 10%                |
| Small Arms Civilian Customers (Assault Weapons)                   | 10%                |
| Small Arms Civilian Customers (Non-Assault Weapons)               | 10%                |
| Small Arms Military/Law Enforcement Customers                     | 10%                |
| Small Arms Key Components   | 10%                |
| <b>Addictive Products</b>   |                    |
| Alcoholic Beverages Production                                    | 10%                |
| Tobacco Products Production                                       | 10%                |
| Adult Entertainment Production                                    | 10%                |
| Gambling Operations   | 10%                |
| Gambling Specialised Equipment                                    | 10%                |
| <b>Agriculture</b>  |                    |
| Genetically Modified Plants and Seeds Development                 | 10%                |
| Genetically Modified Plants and Seeds Growth                      | 10%                |
| Pesticides Production   | 10%                |
| Pesticides Retail   | 10%                |
| Palm Oil Production and Distribution                              | 10%                |

**Company Exclusions based on Breaches of International Norms**

|   |             |
|---|-------------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded    |
| High controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises                   | Excluded[2] |

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] Applies only to Sustainable Investments.

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- Active ownership:

The fund methodically exercised its voting rights. The fund also engaged with the management of selected companies on material ESG issues.

- Sustainable Investments:

Pictet Asset Management used a proprietary framework as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to social objectives such as:

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 98.67%.

## ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- **The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:**

98.67%

- **Overall ESG profile**

The fund's weighted average ESG score was better than that of the reference index.

The fund's weighted average ESG score was 0.79 against 0.02 for the reference index. A higher score means a lower risk. Scores range from -2 to 1, 1 being the best.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment as detailed below:

Controversial activities (weighted average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 0.00     | 3.53                |
| Weapons                         | 0.00     | 0.97                |
| Other controversial activities  | 0.00     | 0.84                |
| Eligible:                       | 98.67    | 100.00              |
| Covered:                        | 98.87    | 99.65               |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **Voting rights**

During the reference period, the fund voted at 61 general assembly meetings out of 61 votable meetings (100.00%). We voted “against” (incl. “abstained” or “withhold”) at least one resolution at 72.13% of meetings.

In respect to Environmental and/or Social issues we voted for 1 out of 1 management resolutions and for 1 out of 2 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

- **Engagement**

The fund engaged with 17 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **How did the sustainable investments not cause significant harm to any sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were excluded.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

### (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as well as the exposure to sustainable investments as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

### (ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

### (iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers to address either significant ESG concerns, improve companies' sustainability practices or engage on positive impact topics to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

### (iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS          | SECTOR      | % ASSETS | COUNTRY                  |
|------------------------------|-------------|----------|--------------------------|
| Argenx Se - Adr              | Health Care | 4.66     | Netherlands              |
| Regeneron Pharmaceuticals    | Health Care | 4.01     | United States of America |
| Alnylam Pharmaceuticals Inc  | Health Care | 3.71     | United States of America |
| Amgen Inc                    | Health Care | 3.52     | United States of America |
| Vertex Pharmaceuticals Inc   | Health Care | 3.48     | United States of America |
| Sarepta Therapeutics Inc     | Health Care | 3.38     | United States of America |
| Blueprint Medicines Corp     | Health Care | 3.24     | United States of America |
| Neurocrine Biosciences Inc   | Health Care | 3.18     | United States of America |
| Biomarin Pharmaceutical Inc  | Health Care | 2.96     | United States of America |
| Cytokinetics Inc             | Health Care | 2.95     | United States of America |
| Intra-Cellular Therapies Inc | Health Care | 2.76     | United States of America |
| Biogen Inc                   | Health Care | 2.73     | United States of America |
| Insmed Inc                   | Health Care | 2.60     | United States of America |

| LARGEST INVESTMENTS       | SECTOR      | % ASSETS | COUNTRY                  |
|---------------------------|-------------|----------|--------------------------|
| Viking Therapeutics Inc   | Health Care | 2.49     | United States of America |
| Ionis Pharmaceuticals Inc | Health Care | 2.41     | United States of America |

## What was the proportion of sustainability-related investments?

98.67%

### What was the asset allocation?

The fund allocated 98.67% of its assets to Sustainable investments (#1 Sustainable) and 1.33% to Not sustainable investments (#2 Not sustainable). 0.00% of its assets is allocated to environmental objectives and 98.67% to social objectives.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "1A Sustainable" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.

Source: Pictet Asset Management, Factset RBICS.

Comparison of the asset allocation to previous period:

| Asset allocation   | 01.10.2022 - 30.09.2023 | 01.10.2023 - 30.09.2024 |
|--------------------|-------------------------|-------------------------|
| #1 Sustainable     | 97.93%                  | 98.67%                  |
| #2 Not sustainable | 2.07%                   | 1.33%                   |
| Environmental      | 0.00%                   | 0.00%                   |
| Social             | 97.93%                  | 98.67%                  |
| Taxonomy-aligned   | 0.00%                   | 0.00%                   |
| Other              | 0.00%                   | 0.00%                   |

### In which economic sectors were the investments made?

| SECTOR LEVEL 1 | SECTOR LEVEL 2                           | % ASSETS |
|----------------|--|----------|
| Health Care    | Pharmaceuticals, Biotech & Life Sciences | 98.67    |

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

## To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

### ● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

■ Taxonomy-aligned: Fossil gas  
■ Taxonomy-aligned: Nuclear  
■ Taxonomy-aligned (no fossil gas and nuclear)  
■ Non Taxonomy-aligned

2. Taxonomy-alignment of investments excluding sovereign bonds\*

■ Taxonomy-aligned: Fossil gas  
■ Taxonomy-aligned: Nuclear  
■ Taxonomy-aligned (no fossil gas and nuclear)  
■ Non Taxonomy-aligned

This graph represents 98.67% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

### ● What was the share of investments made in transitional and enabling activities?

Not applicable.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

among others have greenhouse gas emission levels corresponding to the best performance.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**  
Not applicable.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**  
0.00%

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

**What was the share of socially sustainable investments?**  
98.67%

**What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?**  
The fund’s “not sustainable” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to attain the sustainable investment objective during the reference period?**

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.  
The fund’s binding elements include:

- at least 80% of sustainable investments, i.e. investments in companies that have a significant exposure to activities such as new mechanisms of actions offering potential cures or management of diseases that were hard to treat before, technology platforms, research tools and services in the biotechnology value chain as well as the improvement of therapies or drugs and other relevant economic activities (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- exclusion of issuers that:
  - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and extraction, conventional oil and gas production, nuclear power generation, military contracting weapons, weapon-related products and services, small arms, alcoholic beverages, tobacco production, adult entertainment production, gambling operations and specialised equipment, genetically modified organisms development and growth, pesticides production and retail, and palm oil production and distribution. Please refer to Pictet Asset Management's Responsible Investment policy for further details on excluded sectors and exclusion thresholds

- severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
  - a better ESG profile than the reference index
  - ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio
- Furthermore, the fund engaged with 17 companies as of 30.09.2024.

#### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the sustainable investment objective.

#### ● How did the reference benchmark differ from a broad market index?

Not applicable.

#### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

#### ● How did this financial product perform compared with the reference benchmark?

Not applicable.

#### ● How did this financial product perform compared with the broad market index?

Not applicable.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Premium Brands**

Legal entity identifier: **54930083TCJNE9IFFU75**

**ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?  |  |
|--|--|
| <input checked="" type="radio"/> <input checked="" type="radio"/> Yes  | <input checked="" type="radio"/> <input type="radio"/> No  |
| <input type="checkbox"/> It made <b>sustainable investments with an environmental objective</b> : ____%                  | <input checked="" type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of <b>25.28%</b> of sustainable investments |
| <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy        | <input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy   |
| <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy | <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy  |
|  | <input checked="" type="checkbox"/> with a social objective  |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- **Positive tilt:**  
The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The MSCI AC World index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- **Norms- and values-based exclusions:**  
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

| Company Exclusions based on Controversial Activities and Revenue thresholds |                    |
|---|--------------------|
| Activity  | Revenue thresholds |
| Energy  |                    |
| Thermal Coal Extraction   | 25%                |

**Company Exclusions based on Controversial Activities and Revenue thresholds**

|   |          |
|---|----------|
| Thermal Coal Power Generation                       | 25%      |
| Oil Sands Extraction                                | 25%      |
| Shale Energy Extraction                             | 25%      |
| Off-shore Arctic Oil & Gas Exploration              | 10%      |
| <b>Weapons</b>                                      |          |
| Production of controversial weapons[1]              | Excluded |
| Military Contracting Weapons                        | 10%      |
| Small Arms Civilian Customers (Assault Weapons)     | 10%      |
| Small Arms Civilian Customers (Non-Assault Weapons) | 10%      |
| Small Arms Military/Law Enforcement Customers       | 25%      |
| Small Arms Key Components                           | 25%      |
| <b>Addictive Products</b>                           |          |
| Tobacco Products Production                         | 10%      |
| Adult Entertainment Production                      | 10%      |
| Gambling Operations                                 | 10%      |

**Company Exclusions based on Breaches of International Norms**

|   |          |
|---|----------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded |
|---|----------|

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B). Note that our exclusion framework has been updated during 2024.

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of selected companies on material ESG issues.

## ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- **The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:**

25.28%

- **Overall ESG profile**

The fund's weighted average ESG score was better than that of the reference index.

The fund's weighted average ESG score was -0.32 against -0.37 for the reference index. A higher score means a lower risk. Scores range from -2 to 0, 0 being the best.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 0.00     | 3.53                |
| Weapons                         | 0.04     | 0.97                |
| Other controversial activities  | 0.15     | 0.84                |
| Eligible:                       | 98.15    | 100.00              |
| Covered:                        | 99.19    | 99.65               |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.  
Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Voting rights

During the reference period, the fund voted at 36 general assembly meetings out of 36 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 61.11% of meetings.

In respect to Environmental and/or Social issues we voted for 4 out of 4 management resolutions and for 12 out of 23 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

#### • Engagement

The fund engaged with 12 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation

- Efficiency & Circularity
  - Natural Capital Management
- Such investments represented 1.81%.

#### Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 23.46%.

#### ● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-party providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

#### ● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

#### ● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

### (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

### (ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

### (iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

### (iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS          | SECTOR                 | % ASSETS | COUNTRY                  |

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

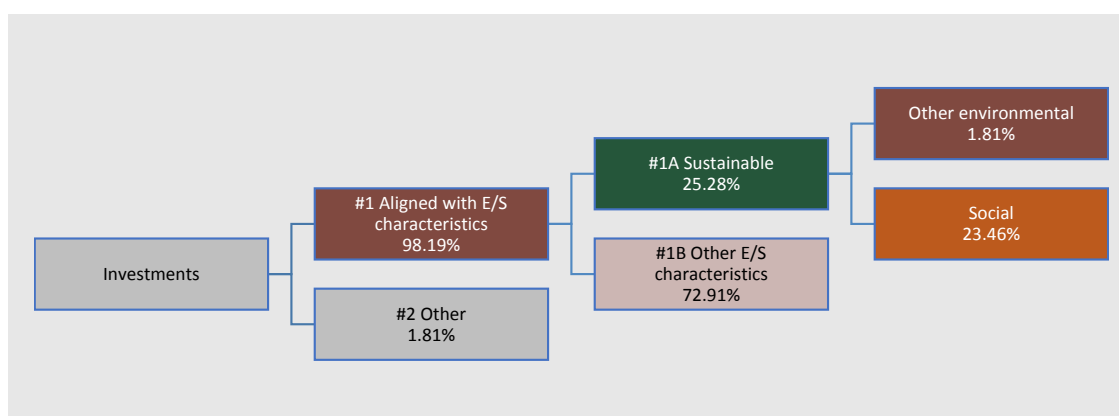

## What was the proportion of sustainability-related investments?

25.28%

### What was the asset allocation?

The fund was 98.19% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 1.81% invested in Other (#2 Other). 25.28% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments. The fund had EU taxonomy alignment based on Capex and Opex.

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. The fund had EU taxonomy alignment based on Capex and Opex.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Source: Pictet Asset Management, MSCI.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

- **What was the share of investments made in transitional and enabling activities?**  
Not applicable.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**  
Not applicable.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

1.81%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not**

**What was the share of socially sustainable investments?**

23.46%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
  - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management’s Responsible Investment policy for further details on exclusion thresholds.
  - severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 12 companies as of 30.09.2024.

**How did this financial product perform compared to the reference benchmark?**

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

**How did the reference benchmark differ from a broad market index?**

Not applicable.

**How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did this financial product perform compared with the reference benchmark?**  
Not applicable.
- **How did this financial product perform compared with the broad market index?**  
Not applicable.

Template periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Water**

Legal entity identifier: **549300750VPZP6MC4674**

**SUSTAINABLE INVESTMENT OBJECTIVE**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent was the sustainable investment objective of this financial product met?**

Main ways in which the fund achieved its sustainable objective:

- Positive impact:  
The fund achieved a positive environmental and/or social impact by investing at least two-thirds of its total assets/total wealth in companies operating in the water sector and providing solutions to global water challenges. The fund targeted companies that are providing technologies to improve water quality, maximize water efficiency or increase the number of households connected to water services.  
No reference index has been designated for the purpose of attaining the sustainable investment objective.  
The fund invested mainly in companies whose significant proportion of their activities are related to, but not limited to, water production water conditioning and desalination, water suppliers, transport and dispatching, collection and treatment of waste water, sewage and solid, liquid and chemical waste, sewage treatment plants and providing water equipment, consulting and engineering services and other relevant economic activities.  
The companies targeted in the air sector include those responsible for inspecting air quality, suppliers of air-filtration equipment and manufacturers of catalytic converters for vehicles.  
Eligible securities included equities issued by companies with a significant proportion of activities (as measured by revenue, EBIT, enterprise value or similar metrics) derived from such economic activities.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

**Company Exclusions based on Controversial Activities and Revenue thresholds**

| Activity  | Revenue thresholds |
|---|--------------------|
| <b>Energy</b>   |                    |
| Thermal Coal Extraction   | 10%                |
| Thermal Coal Power Generation                                     | 10%                |
| Oil & Gas Production  | 10%                |
| Oil Sands Extraction  | 10%                |
| Shale Energy Extraction   | 10%                |
| Off-shore Arctic Oil & Gas Exploration                            | 10%                |
| Nuclear Power Generation  | 50%                |
| <b>Weapons</b>  |                    |
| Production of controversial weapons[1]                            | Excluded           |
| Production of nuclear weapons from countries signatory to the NPT | Excluded           |
| Military Contracting Weapons                                      | 10%                |
| Military Contracting Weapon-Related Products and/or Services      | 10%                |
| Small Arms Civilian Customers (Assault Weapons)                   | 10%                |
| Small Arms Civilian Customers (Non-Assault Weapons)               | 10%                |
| Small Arms Military/Law Enforcement Customers                     | 10%                |
| Small Arms Key Components   | 10%                |
| <b>Addictive Products</b>   |                    |
| Alcoholic Beverages Production                                    | 10%                |
| Tobacco Products Production                                       | 10%                |
| Adult Entertainment Production                                    | 10%                |
| Gambling Operations   | 10%                |
| Gambling Specialised Equipment                                    | 10%                |
| <b>Agriculture</b>  |                    |
| Genetically Modified Plants and Seeds Development                 | 10%                |
| Genetically Modified Plants and Seeds Growth                      | 10%                |
| Pesticides Production   | 10%                |
| Pesticides Retail   | 10%                |
| Palm Oil Production and Distribution                              | 10%                |

**Company Exclusions based on Breaches of International Norms**

|   |             |
|---|-------------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded    |
| High controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises                   | Excluded[2] |

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] Applies only to Sustainable Investments.

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- **Active ownership:**

The fund methodically exercised its voting rights. The fund also engaged with the management of selected companies on material ESG issues.

- **Sustainable Investments:**

Pictet Asset Management used a proprietary framework as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

#### Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 30.99%.

#### Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 67.94%.

#### ● **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:**

98.93%

- **Overall ESG profile**

The fund's weighted average ESG score was better than that of the reference index after removing the bottom 20% of issuers with the weakest ESG scores.

The fund's weighted average ESG score was 0.61 against 0.18 for the reference index . A higher score means a lower ESG risk. Scores range from -2 to 1, 1 being the best.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

**Sustainability indicators** measure how the sustainable objectives of this financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment as detailed below:

Controversial activities (weighted average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 0.04     | 3.53                |
| Weapons                         | 0.19     | 0.97                |
| Other controversial activities  | 0.01     | 0.84                |
| Eligible:                       | 98.93    | 100.00              |
| Covered:                        | 100.00   | 99.65               |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.  
Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Voting rights

During the reference period, the fund voted at 54 general assembly meetings out of 54 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 46.30% of meetings.

In respect to Environmental and/or Social issues we voted for 6 out of 6 management resolutions and for 4 out of 5 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

#### • Engagement

The fund engaged with 22 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

## ● How did the sustainable investments not cause significant harm to any sustainable investment objective?

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were excluded.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in

the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also act as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as well as the exposure to sustainable investments as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers to address either significant ESG concerns, improve companies' sustainability practices or engage on positive impact topics to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS          | SECTOR      | % ASSETS | COUNTRY                  |
|------------------------------|-------------|----------|--------------------------|
| Xylem Inc                    | Industrials | 4.96     | United States of America |
| Republic Services Inc        | Industrials | 4.61     | United States of America |
| Waste Connections Inc        | Industrials | 4.17     | United States of America |
| Thermo Fisher Scientific Inc | Health Care | 4.17     | United States of America |
| Pentair Plc                  | Industrials | 3.68     | United States of America |
| Waste Management Inc         | Industrials | 3.52     | United States of America |
| Ecolab Inc                   | Materials   | 3.47     | United States of America |
| Veolia Environnement         | Utilities   | 3.44     | France                   |
| Ferguson Plc                 | Industrials | 3.39     | United States of America |
| Fortune Brands Innovations I | Industrials | 3.03     | United States of America |
| American Water Works Co Inc  | Utilities   | 3.00     | United States of America |
| Cia Saneamento Basico De Sp  | Utilities   | 2.86     | Brazil                   |
| Agilent Technologies Inc     | Health Care | 2.75     | United States of America |
| Veralto Corp                 | Industrials | 2.70     | United States of America |
| Advanced Drainage Systems In | Industrials | 2.67     | United States of America |

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

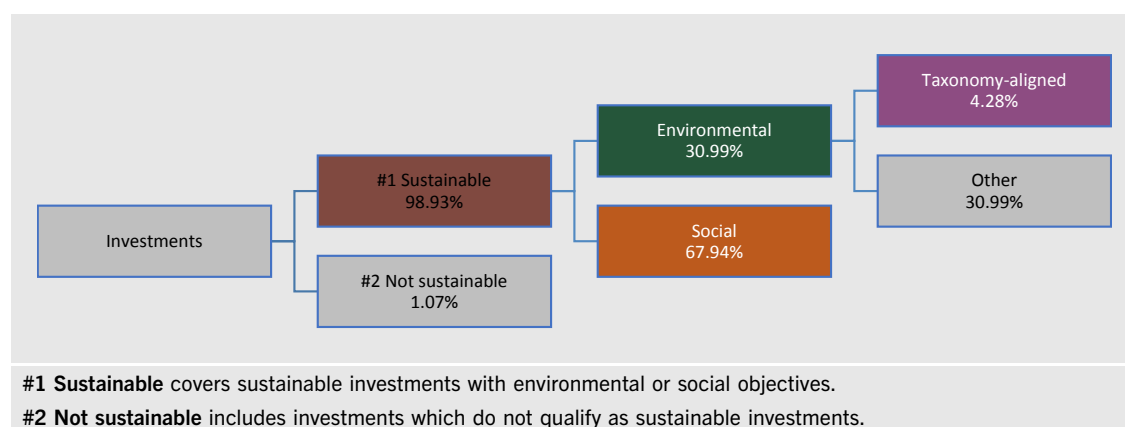

## What was the proportion of sustainability-related investments?

98.93%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund allocated 98.93% of its assets to Sustainable investments (#1 Sustainable) and 1.07% to Not sustainable investments (#2 Not sustainable). 30.99% of its assets is allocated to environmental objectives and 67.94% to social objectives.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

- ☒ Yes:
- ☒ In fossil gas    ☐ In nuclear energy
- ☐ No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Source: Pictet Asset Management, MSCI.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● What was the share of investments made in transitional and enabling activities?

- The share of investments made in:
- Transitional activities: 0.02%
  - Enabling activities: 0.25%

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 3.31% versus 4.28% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

30.99%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

**What was the share of socially sustainable investments?**

67.94%

**What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “not sustainable” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to attain the sustainable investment objective during the reference period?**

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- at least 80% of sustainable investments, i.e. investments in companies that have a significant exposure to activities such as water production water conditioning and desalination, water suppliers, transport and dispatching, treatment of waste water, sewage and solid, liquid and chemical waste, sewage treatment plants and providing water equipment, consulting and engineering services and other relevant economic activities (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- exclusion of issuers that:
  - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and extraction, conventional oil and gas production, nuclear power generation, military contracting weapons, weapon-related products and services, small arms, alcoholic beverages, tobacco production, adult entertainment production, gambling operations and specialised equipment, genetically modified organisms development and growth, pesticides production and retail, and palm oil production and distribution. Please refer to Pictet Asset Management's Responsible Investment policy for further details on excluded sectors and exclusion thresholds
  - severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption

- a better ESG profile than the reference index after removing the bottom 20% of issuers with the weakest ESG characteristics
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 22 companies as of 30.09.2024.

#### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the sustainable investment objective.

- **How did the reference benchmark differ from a broad market index?**

Not applicable.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

- **How did this financial product perform compared with the reference benchmark?**

Not applicable.

- **How did this financial product perform compared with the broad market index?**

Not applicable.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Japanese Equity Opportunities**

Legal entity identifier: **549300P01KPUTAFHD235**

**ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?  |  |
|--|--|
| <input checked="" type="radio"/> <input checked="" type="radio"/> Yes  | <input checked="" type="radio"/> <input type="radio"/> No  |
| <input type="checkbox"/> It made <b>sustainable investments with an environmental objective</b> : ____%                  | <input checked="" type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of <b>48.33%</b> of sustainable investments |
| <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy        | <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy  |
| <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy | <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy  |
|  | <input checked="" type="checkbox"/> with a social objective  |
| <input type="checkbox"/> It made <b>sustainable investments with a social objective</b> : ____%                          | <input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>  |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- Positive tilt:  
The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The Topix index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- Norms- and values-based exclusions:  
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

| Company Exclusions based on Controversial Activities and Revenue thresholds |                    |
|---|--------------------|
| Activity  | Revenue thresholds |
| Energy  |                    |
| Thermal Coal Extraction   | 25%                |

**Company Exclusions based on Controversial Activities and Revenue thresholds**

|   |          |
|---|----------|
| Thermal Coal Power Generation                       | 25%      |
| Oil Sands Extraction                                | 25%      |
| Shale Energy Extraction                             | 25%      |
| Off-shore Arctic Oil & Gas Exploration              | 10%      |
| <b>Weapons</b>                                      |          |
| Production of controversial weapons[1]              | Excluded |
| Military Contracting Weapons                        | 10%      |
| Small Arms Civilian Customers (Assault Weapons)     | 10%      |
| Small Arms Civilian Customers (Non-Assault Weapons) | 10%      |
| Small Arms Military/Law Enforcement Customers       | 25%      |
| Small Arms Key Components                           | 25%      |
| <b>Addictive Products</b>                           |          |
| Tobacco Products Production                         | 10%      |
| Adult Entertainment Production                      | 10%      |
| Gambling Operations                                 | 10%      |

**Company Exclusions based on Breaches of International Norms**

|   |          |
|---|----------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded |
|---|----------|

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of selected companies on material ESG issues.

- **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:**

48.33%

- **Overall ESG profile**

The fund's weighted average ESG score was better than that of the reference index.

The fund's weighted average ESG score was 7.90 against 7.66 for the reference index. A higher score means a lower risk. Scores range from 0 to 10, 10 being the best.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 0.02     | 1.44                |
| Weapons                         | 0.17     | 0.23                |
| Other controversial activities  | 0.15     | 0.70                |
| Eligible:                       | 99.60    | 100.00              |
| Covered:                        | 100.00   | 99.18               |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.  
Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Voting rights

During the reference period, the fund voted at 73 general assembly meetings out of 73 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 17.81% of meetings.

In respect to Environmental and/or Social issues we voted for 0 out of 0 management resolutions and for 4 out of 5 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

#### • Engagement

The fund engaged with 21 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation

- Efficiency & Circularity
  - Natural Capital Management
- Such investments represented 18.35%.

#### Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 29.98%.

#### ● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-party providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

#### ● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

#### ● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

### (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

### (ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

### (iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

### (iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS          | SECTOR                 | % ASSETS | COUNTRY |
|------------------------------|------------------------|----------|---------|
| Toyota Motor Corp            | Consumer Discretionary | 3.95     | Japan   |
| Mitsubishi Ufj Financial Gro | Financials             | 3.81     | Japan   |
| Hitachi Ltd                  | Industrials            | 3.75     | Japan   |
| Sumitomo Mitsui Financial Gr | Financials             | 3.72     | Japan   |
| Sony Group Corp              | Consumer Discretionary | 3.28     | Japan   |
| Recruit Holdings Co Ltd      | Industrials            | 3.00     | Japan   |
| Keyence Corp                 | Information Technology | 2.76     | Japan   |
| Shin-Etsu Chemical Co Ltd    | Materials              | 2.56     | Japan   |
| Orix Corp                    | Financials             | 2.38     | Japan   |

## What was the proportion of sustainability-related investments?

48.33%

### What was the asset allocation?

The fund was 99.60% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 0.40% invested in Other (#2 Other). 48.33% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

- Pictet Asset Management used a proprietary framework to define sustainable investments. "1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.

Source: Pictet Asset Management, Sustainability, Factset RBICS.

Comparison of the asset allocation to previous period:

| Asset allocation                    | 01.10.2022 - 30.09.2023 | 01.10.2023 - 30.09.2024 |
|-------------------------------------|-------------------------|-------------------------|
| #1 Aligned with E/S characteristics | 99.23%                  | 99.60%                  |
| #2 Other                            | 0.77%                   | 0.40%                   |
| #1A Sustainable                     | 38.35%                  | 48.33%                  |
| #1B Other E/S characteristics       | 60.88%                  | 51.27%                  |
| Taxonomy-aligned                    | 0.00%                   | 0.00%                   |
| Other environmental                 | 14.25%                  | 18.35%                  |
| Social                              | 24.10%                  | 29.98%                  |

● In which economic sectors were the investments made?

| SECTOR LEVEL 1         | SECTOR LEVEL 2                               | % ASSETS |
|------------------------|--|----------|
| Communication Services | Media & Entertainment                        | 0.95     |
| Communication Services | Telecommunication Services                   | 2.31     |
| Consumer Discretionary | Automobiles & Components                     | 8.74     |

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

Not applicable.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**  
Not applicable.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**  
Not applicable.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

18.35%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the**

**What was the share of socially sustainable investments?**

29.98%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 21 companies as of 30.09.2024.

**How did this financial product perform compared to the reference benchmark?**

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

**How did the reference benchmark differ from a broad market index?**

Not applicable.

**How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did this financial product perform compared with the reference benchmark?**  
Not applicable.
- **How did this financial product perform compared with the broad market index?**  
Not applicable.

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?   |   |
|---|---|
| <input checked="" type="radio"/> <input checked="" type="radio"/> Yes   | <input checked="" type="radio"/> <input type="radio"/> No   |
| <input type="checkbox"/> It made <b>sustainable investments with an environmental objective: ____%</b><br><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy<br><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy | <input checked="" type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of <b>41.36%</b> of sustainable investments<br><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy<br><input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy<br><input checked="" type="checkbox"/> with a social objective |
| <input type="checkbox"/> It made <b>sustainable investments with a social objective: ____%</b>  | <input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>   |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this fund included:

- **Positive tilt:**

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The MSCI AC Asia ex-Japan index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- **Norms- and values-based exclusions:**

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

#### Company Exclusions based on Controversial Activities and Revenue thresholds

| Activity                | Revenue thresholds |
|-------------------------|--------------------|
| <b>Energy</b>           |                    |
| Thermal Coal Extraction | 25%                |

**Company Exclusions based on Controversial Activities and Revenue thresholds**

|   |          |
|---|----------|
| Thermal Coal Power Generation                       | 25%      |
| Oil Sands Extraction                                | 25%      |
| Shale Energy Extraction                             | 25%      |
| Off-shore Arctic Oil & Gas Exploration              | 10%      |
| <b>Weapons</b>                                      |          |
| Production of controversial weapons[1]              | Excluded |
| Military Contracting Weapons                        | 10%      |
| Small Arms Civilian Customers (Assault Weapons)     | 10%      |
| Small Arms Civilian Customers (Non-Assault Weapons) | 10%      |
| Small Arms Military/Law Enforcement Customers       | 25%      |
| Small Arms Key Components                           | 25%      |
| <b>Addictive Products</b>                           |          |
| Tobacco Products Production                         | 10%      |
| Adult Entertainment Production                      | 10%      |
| Gambling Operations                                 | 10%      |

**Company Exclusions based on Breaches of International Norms**

|   |          |
|---|----------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded |
|---|----------|

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of selected companies on material ESG issues.

- **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Overall ESG profile**

The fund's weighted average ESG score was better than that of the reference index.

The fund's weighted average ESG score was 7.88 against 7.75 for the reference index. A higher score means a lower risk. Scores range from 0 to 10, 10 being the best.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 0.68     | 2.93                |
| Weapons                         | 0.09     | 0.49                |
| Other controversial activities  | 0.03     | 0.57                |
| Eligible:                       | 97.55    | 100.00              |
| Covered:                        | 97.56    | 99.94               |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.  
Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Voting rights

During the reference period, the fund voted at 66 general assembly meetings out of 66 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 33.33% of meetings.

In respect to Environmental and/or Social issues we voted for 0 out of 0 management resolutions and for 0 out of 0 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

#### • Engagement

The fund engaged with 11 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

**Environmental**

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 18.31%.

**Social**

- Healthy Life
- Water, Sanitation & Housing

- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 23.04%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

### (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

### (ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

### (iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

### (iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS          | SECTOR                 | % ASSETS | COUNTRY     |

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

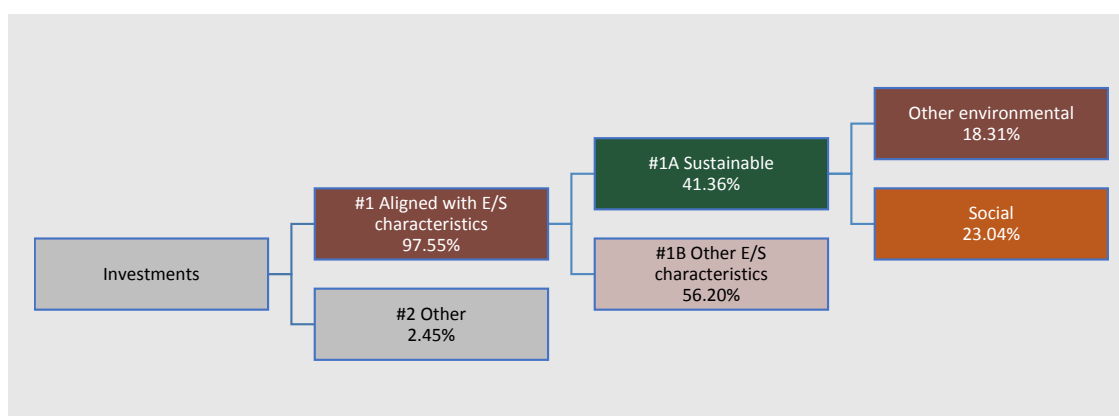

## What was the proportion of sustainability-related investments?

41.36%

### What was the asset allocation?

The fund was 97.55% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 2.45% invested in Other (#2 Other). 41.36% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.

Source: Pictet Asset Management, Sustainability, Factset RBICS.

Comparison of the asset allocation to previous period:

| Asset allocation                    | 01.10.2022 - 30.09.2023 | 01.10.2023 - 30.09.2024 |
|-------------------------------------|-------------------------|-------------------------|
| #1 Aligned with E/S characteristics | 97.02%                  | 97.55%                  |
| #2 Other                            | 2.98%                   | 2.45%                   |
| #1A Sustainable                     | 41.52%                  | 41.36%                  |

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

Not applicable.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**  
Not applicable.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**  
Not applicable.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

18.31%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the**

**What was the share of socially sustainable investments?**

23.04%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 11 companies as of 30.09.2024.

**How did this financial product perform compared to the reference benchmark?**

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

**How did the reference benchmark differ from a broad market index?**

Not applicable.

**How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did this financial product perform compared with the reference benchmark?**  
Not applicable.
- **How did this financial product perform compared with the broad market index?**  
Not applicable.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - China Equities**

Legal entity identifier: **549300B58PJQP3EQCX89**

**ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| <input type="checkbox"/>  | It made <b>sustainable investments with an environmental objective</b> : ____% |   | <input checked="" type="checkbox"/> | It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of <b>32.36%</b> of sustainable investments |   |
|   | <input type="checkbox"/>   | in economic activities that qualify as environmentally sustainable under the EU Taxonomy        |                                     | <input type="checkbox"/>   | with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy        |
|   | <input type="checkbox"/>   | in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy |                                     | <input checked="" type="checkbox"/>  | with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy |
|   |  |   |                                     | <input checked="" type="checkbox"/>  | with a social objective   |
| <input type="checkbox"/>  | It made <b>sustainable investments with a social objective</b> : ____%         |   | <input type="checkbox"/>            | It promoted E/S characteristics, but <b>did not make any sustainable investments</b>   |   |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- **Positive tilt:**  
The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The MSCI China 10/40 index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- **Norms- and values-based exclusions:**  
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

**Company Exclusions based on Controversial Activities and Revenue thresholds**

| Activity                | Revenue thresholds |
|-------------------------|--------------------|
| Energy                  |                    |
| Thermal Coal Extraction | 25%                |

**Company Exclusions based on Controversial Activities and Revenue thresholds**

|   |          |
|---|----------|
| Thermal Coal Power Generation                       | 25%      |
| Oil Sands Extraction                                | 25%      |
| Shale Energy Extraction                             | 25%      |
| Off-shore Arctic Oil & Gas Exploration              | 10%      |
| <b>Weapons</b>                                      |          |
| Production of controversial weapons[1]              | Excluded |
| Military Contracting Weapons                        | 10%      |
| Small Arms Civilian Customers (Assault Weapons)     | 10%      |
| Small Arms Civilian Customers (Non-Assault Weapons) | 10%      |
| Small Arms Military/Law Enforcement Customers       | 25%      |
| Small Arms Key Components                           | 25%      |
| <b>Addictive Products</b>                           |          |
| Tobacco Products Production                         | 10%      |
| Adult Entertainment Production                      | 10%      |
| Gambling Operations                                 | 10%      |

**Company Exclusions based on Breaches of International Norms**

|   |          |
|---|----------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded |
|---|----------|

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of selected companies on material ESG issues.

- **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Overall ESG profile**

The fund's weighted average ESG score was better than that of the reference index.

The fund's weighted average ESG score was 7.62 against 7.38 for the reference index. A higher score means a lower risk. Scores range from 0 to 10, 10 being the best.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 0.06     | 3.27                |
| Weapons                         | 0.00     | 0.04                |
| Other controversial activities  | 0.04     | 0.11                |
| Eligible:                       | 97.69    | 100.00              |
| Covered:                        | 100.00   | 99.94               |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.  
Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Voting rights

During the reference period, the fund voted at 63 general assembly meetings out of 63 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 44.44% of meetings.

In respect to Environmental and/or Social issues we voted for 3 out of 3 management resolutions and for 0 out of 0 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

#### • Engagement

The fund engaged with 10 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

**Environmental**

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 10.91%.

**Social**

- Healthy Life
- Water, Sanitation & Housing

- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 21.45%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-party providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

### (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

### (ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

### (iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

### (iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS          | SECTOR                 | % ASSETS | COUNTRY |
|------------------------------|------------------------|----------|---------|
| Tencent Holdings Ltd         | Communication Services | 9.40     | China   |
| Alibaba Group Holding Ltd    | Consumer Discretionary | 7.01     | China   |
| Pdd Holdings Inc             | Consumer Discretionary | 6.41     | China   |
| Meituan-Class B              | Consumer Discretionary | 4.72     | China   |
| China Construction Bank-H    | Financials             | 4.18     | China   |
| Netease Inc                  | Communication Services | 3.59     | China   |
| Ind & Comm Bk Of China-H     | Financials             | 3.46     | China   |
| Trip.Com Group Ltd           | Consumer Discretionary | 3.34     | China   |
| Ping An Insurance Group Co-H | Financials             | 3.30     | China   |
| Byd Co Ltd-H                 | Consumer Discretionary | 3.25     | China   |
| Kweichow Moutai Co Ltd-A     | Consumer Staples       | 2.68     | China   |

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

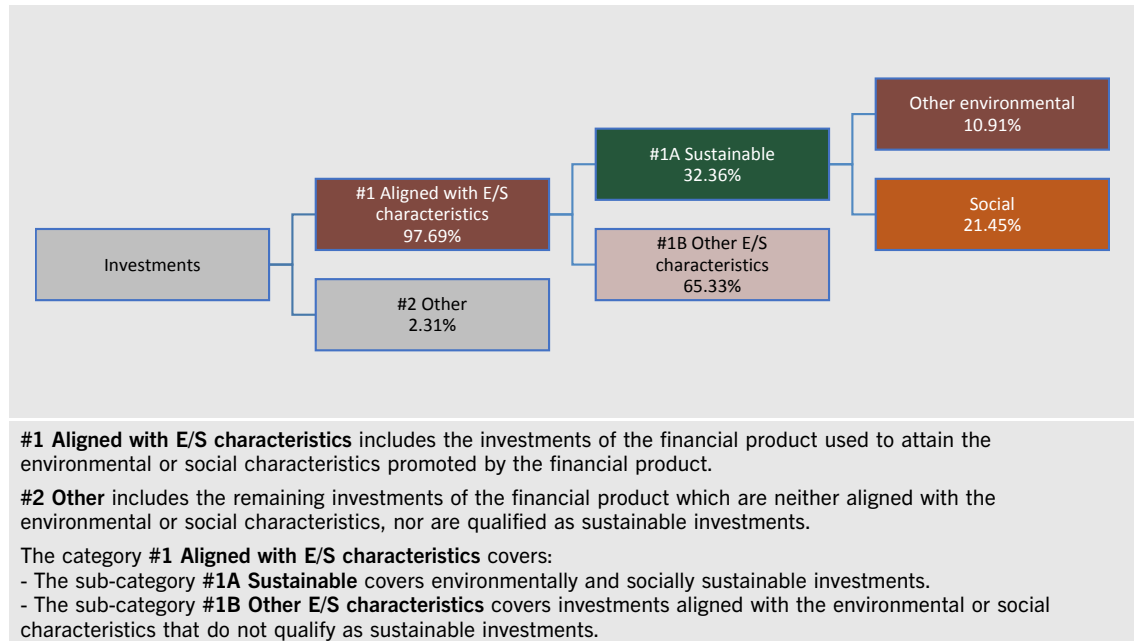

## What was the proportion of sustainability-related investments?

32.36%

### What was the asset allocation?

The fund was 97.69% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 2.31% invested in Other (#2 Other). 32.36% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

- Pictet Asset Management used a proprietary framework to define sustainable investments. "1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

Not applicable.

- **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● What was the share of investments made in transitional and enabling activities?  
Not applicable.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?  
Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

10.91%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the**

**What was the share of socially sustainable investments?**

21.45%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 10 companies as of 30.09.2024.

**How did this financial product perform compared to the reference benchmark?**

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

**How did the reference benchmark differ from a broad market index?**

Not applicable.

**How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did this financial product perform compared with the reference benchmark?**  
Not applicable.
- **How did this financial product perform compared with the broad market index?**  
Not applicable.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Japanese Equity Selection**

Legal entity identifier: **549300B03JBSN81XF771**

**ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- Positive tilt:  
The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The MSCI Japan index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- Norms- and values-based exclusions:  
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

**Company Exclusions based on Controversial Activities and Revenue thresholds**

| Activity                | Revenue thresholds |
|-------------------------|--------------------|
| Energy                  |                    |
| Thermal Coal Extraction | 25%                |

**Company Exclusions based on Controversial Activities and Revenue thresholds**

|   |          |
|---|----------|
| Thermal Coal Power Generation                       | 25%      |
| Oil Sands Extraction                                | 25%      |
| Shale Energy Extraction                             | 25%      |
| Off-shore Arctic Oil & Gas Exploration              | 10%      |
| <b>Weapons</b>                                      |          |
| Production of controversial weapons[1]              | Excluded |
| Military Contracting Weapons                        | 10%      |
| Small Arms Civilian Customers (Assault Weapons)     | 10%      |

| Tobacco Products Production                         | 10%      |
| Adult Entertainment Production                      | 10%      |
| Gambling Operations                                 | 10%      |

**Company Exclusions based on Breaches of International Norms**

|   |          |
|---|----------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded |
|---|----------|

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of selected companies on material ESG issues.

- **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:**

46.21%

- **Overall ESG profile**

The fund's weighted average ESG score was better than that of the reference index.

The fund's weighted average ESG score was 7.86 against 7.76 for the reference index. A higher score means a lower risk. Scores range from 0 to 10, 10 being the best.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 0.03     | 1.45                |
| Weapons                         | 0.22     | 0.24                |
| Other controversial activities  | 0.24     | 0.86                |
| Eligible:                       | 99.44    | 100.00              |
| Covered:                        | 100.00   | 100.00              |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.  
Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Voting rights

During the reference period, the fund voted at 36 general assembly meetings out of 36 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 22.22% of meetings.

In respect to Environmental and/or Social issues we voted for 0 out of 0 management resolutions and for 4 out of 5 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

#### • Engagement

The fund engaged with 12 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation

- Efficiency & Circularity
  - Natural Capital Management
- Such investments represented 18.36%.

#### Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 27.85%.

#### ● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-party providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

#### ● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

#### ● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

### (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

### (ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

### (iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

### (iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS          | SECTOR                 | % ASSETS | COUNTRY |
|------------------------------|------------------------|----------|---------|
| Sony Group Corp              | Consumer Discretionary | 4.27     | Japan   |
| Hitachi Ltd                  | Industrials            | 4.15     | Japan   |
| Toyota Motor Corp            | Consumer Discretionary | 4.01     | Japan   |
| Sumitomo Mitsui Financial Gr | Financials             | 4.00     | Japan   |
| Recruit Holdings Co Ltd      | Industrials            | 3.99     | Japan   |
| Keyence Corp                 | Information Technology | 3.56     | Japan   |
| Mitsubishi Ufj Financial Gro | Financials             | 3.46     | Japan   |
| Orix Corp                    | Financials             | 3.41     | Japan   |
| Shin-Etsu Chemical Co Ltd    | Materials              | 3.02     | Japan   |
| Suzuki Motor Corp            | Consumer Discretionary | 2.91     | Japan   |

## What was the proportion of sustainability-related investments?

46.21%

### What was the asset allocation?

The fund was 99.44% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 0.56% invested in Other (#2 Other). 46.21% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

- Pictet Asset Management used a proprietary framework to define sustainable investments. "1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

Not applicable.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● What was the share of investments made in transitional and enabling activities?  
Not applicable.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?  
Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

18.36%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not** take into account the

**What was the share of socially sustainable investments?**

27.85%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 12 companies as of 30.09.2024.

**How did this financial product perform compared to the reference benchmark?**

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

**How did the reference benchmark differ from a broad market index?**

Not applicable.

**How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did this financial product perform compared with the reference benchmark?**  
Not applicable.
- **How did this financial product perform compared with the broad market index?**  
Not applicable.

Template periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Health**

Legal entity identifier: **549300PIUSJV81WDAH03**

**SUSTAINABLE INVESTMENT OBJECTIVE**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent was the sustainable investment objective of this financial product met?**

Main ways in which the fund achieved its sustainable objective:

- **Positive impact:**  
The fund achieved a positive social impact by investing mainly in companies supporting the health of people. To safeguard the future of the world's health services, better prevention and more effective treatments are necessary. These companies help to stem health care costs growth and maximize productivity.

No reference index has been designated for the purpose of attaining the sustainable investment objective.

The fund invested mainly in companies whose significant proportion of their activities are related to increasing the health span of people (the time an individual spends in generally good health), preserving the health of individuals through promoting active lives or healthy environments, restoring health or improving the quality of life, financing health and helping to improve the efficiency of the health care system and other relevant economic activities.

Eligible securities included equities issued by companies with a significant proportion of activities (as measured by revenue, EBIT, enterprise value or similar metrics) derived from such economic activities.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

**Company Exclusions based on Controversial Activities and Revenue thresholds**

| Activity  | Revenue thresholds |
|---|--------------------|
| <b>Energy</b>   |                    |
| Thermal Coal Extraction   | 10%                |
| Thermal Coal Power Generation                                     | 10%                |
| Oil & Gas Production  | 10%                |
| Oil Sands Extraction  | 10%                |
| Shale Energy Extraction   | 10%                |
| Off-shore Arctic Oil & Gas Exploration                            | 10%                |
| Nuclear Power Generation  | 50%                |
| <b>Weapons</b>  |                    |
| Production of controversial weapons[1]                            | Excluded           |
| Production of nuclear weapons from countries signatory to the NPT | Excluded           |

| Palm Oil Production and Distribution                              | 10%                |

**Company Exclusions based on Breaches of International Norms**

|   |             |
|---|-------------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded    |
| High controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises                   | Excluded[2] |

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] Applies only to Sustainable Investments.

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- **Active ownership:**

The fund methodically exercised its voting rights. The fund also engaged with the management of selected companies on material ESG issues.

- **Sustainable Investments:**

Pictet Asset Management used a proprietary framework as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

#### Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 3.97%.

#### Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 94.16%.

#### ● **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:**

98.13%

- **Overall ESG profile**

The fund's weighted average ESG score was better than that of the reference index.

The fund's weighted average ESG score was 0.67 against 0.02 for the reference index. A higher score means a lower risk. Scores range from -2 to 1, 1 being the best.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

**Sustainability indicators** measure how the sustainable objectives of this financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment as detailed below:

Controversial activities (weighted average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 0.00     | 3.53                |
| Weapons                         | 0.03     | 0.96                |
| Other controversial activities  | 0.11     | 0.84                |
| Eligible:                       | 98.13    | 100.00              |
| Covered:                        | 98.90    | 99.65               |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.  
Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Voting rights

During the reference period, the fund voted at 47 general assembly meetings out of 47 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 31.91% of meetings.

In respect to Environmental and/or Social issues we voted for 9 out of 9 management resolutions and for 10 out of 11 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

#### • Engagement

The fund engaged with 19 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

## ● How did the sustainable investments not cause significant harm to any sustainable investment objective?

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were excluded.

Information were obtained from third-party providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in

the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also act as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as well as the exposure to sustainable investments as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers to address either significant ESG concerns, improve companies' sustainability practices or engage on positive impact topics to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS          | SECTOR                 | % ASSETS | COUNTRY                  |
|------------------------------|------------------------|----------|--------------------------|
| Eli Lilly & Co               | Health Care            | 5.73     | United States of America |
| Novo Nordisk A/S-B           | Health Care            | 5.57     | Denmark                  |
| Thermo Fisher Scientific Inc | Health Care            | 5.35     | United States of America |
| Boston Scientific Corp       | Health Care            | 4.85     | United States of America |
| Intuitive Surgical Inc       | Health Care            | 4.20     | United States of America |
| Unitedhealth Group Inc       | Health Care            | 4.09     | United States of America |
| Garmin Ltd                   | Consumer Discretionary | 3.70     | United States of America |
| Steris Plc                   | Health Care            | 3.53     | United States of America |
| Lonza Group Ag-Reg           | Health Care            | 3.36     | Switzerland              |
| Astrazeneca Plc              | Health Care            | 3.30     | United Kingdom           |
| Lululemon Athletica Inc      | Consumer Discretionary | 3.19     | United States of America |
| Danaher Corp                 | Health Care            | 3.05     | United States of America |
| Dexcom Inc                   | Health Care            | 2.96     | United States of America |

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

## What was the proportion of sustainability-related investments?

98.13%

Asset allocation describes the share of investments in specific assets.

### What was the asset allocation?

The fund allocated 98.13% of its assets to Sustainable investments (#1 Sustainable) and 1.87% to Not sustainable investments (#2 Not sustainable). 3.97% of its assets is allocated to environmental objectives and 94.16% to social objectives.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented

policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.

- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

Comparison of the asset allocation to previous period:

| Asset allocation   | 01.10.2022 - 30.09.2023 | 01.10.2023 - 30.09.2024 |
|--------------------|-------------------------|-------------------------|
| #1 Sustainable     | 97.04%                  | 98.13%                  |
| #2 Not sustainable | 2.96%                   | 1.87%                   |
| Environmental      | 3.66%                   | 3.97%                   |
| Social             | 93.38%                  | 94.16%                  |
| Taxonomy-aligned   | 0.00%                   | 0.13%                   |
| Other              | 3.66%                   | 3.97%                   |

## ● In which economic sectors were the investments made?

| SECTOR LEVEL 1         | SECTOR LEVEL 2                           | % ASSETS |
|------------------------|--|----------|
| Consumer Discretionary | Consumer Durables & Apparel              | 10.69    |
| Consumer Discretionary | Consumer Services                        | 2.39     |
| Consumer Staples       | Consumer Staples Distribution & Retail   | 1.47     |
| Consumer Staples       | Food, Beverage & Tobacco                 | 1.30     |
| Consumer Staples       | Household & Personal Products            | 2.95     |
| Health Care            | Health Care Equipment & Services         | 32.78    |
| Health Care            | Pharmaceuticals, Biotech & Life Sciences | 36.79    |
| Industrials            | Capital Goods                            | 1.24     |
| Industrials            | Commercial & Professional Services       | 0.24     |
| Information Technology | Technology Hardware & Equipment          | 1.56     |
| Materials              | Materials                                | 6.72     |

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

## To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

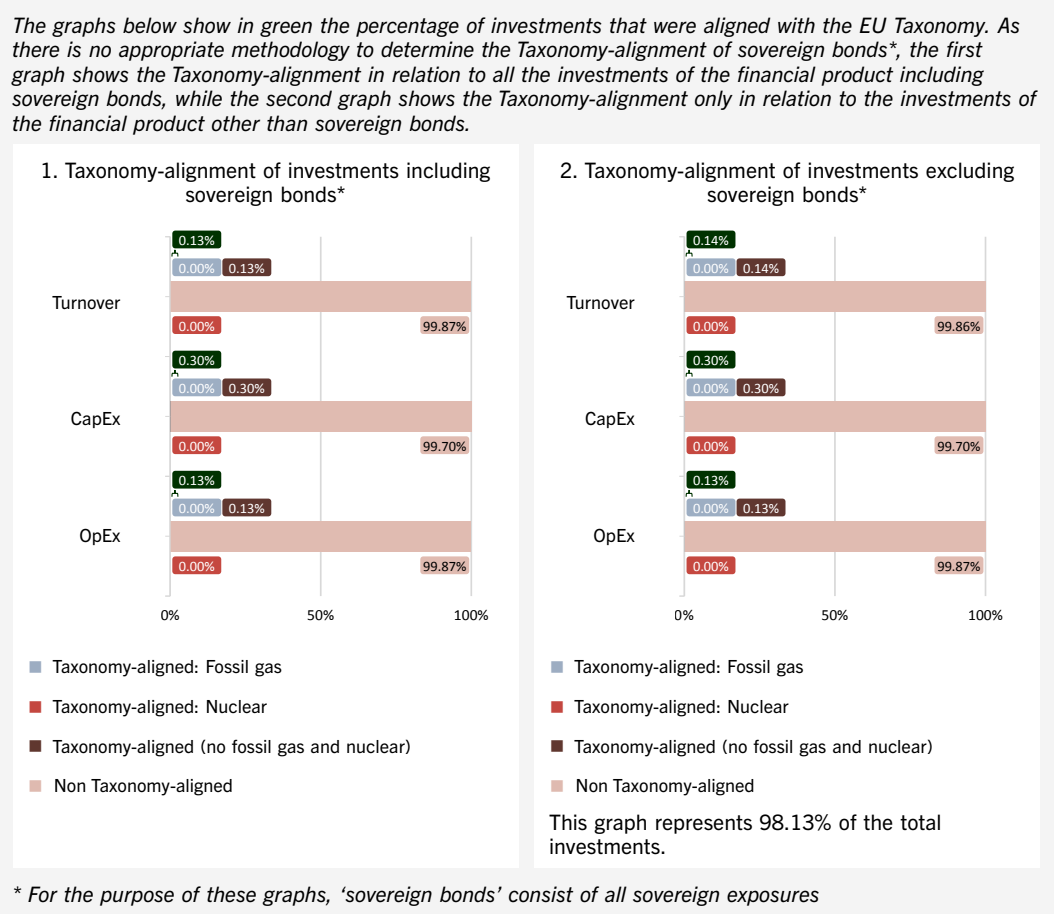

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

- ☐ Yes:
- ☐ In fossil gas    ☐ In nuclear energy
- ☒ No

Source: Pictet Asset Management, MSCI.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

- The share of investments made in:
- Transitional activities: 0.00%
  - Enabling activities: 0.11%

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 0.00% versus 0.13% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

3.97%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

**What was the share of socially sustainable investments?**

94.16%

**What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “not sustainable” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to attain the sustainable investment objective during the reference period?**

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- at least 80% of sustainable investments, i.e. investments in companies that have a significant exposure to activities such as increasing the health span of people (the time an individual spends in generally good health), preserving the health of individuals through promoting active lives or healthy environments, restoring health or improving the quality of life, financing health and helping to improve the efficiency of the health care system and other relevant economic activities (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- exclusion of issuers that:
  - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and extraction, conventional oil and gas production, nuclear power generation, military contracting weapons, weapon-related products and services, small arms, alcoholic beverages, tobacco production, adult entertainment production, gambling operations and specialised equipment, genetically modified organisms development and growth, pesticides production and retail, and palm oil production and distribution. Please refer to Pictet Asset Management's Responsible Investment policy for further details on excluded sectors and exclusion thresholds
  - severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index

- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 19 companies as of 30.09.2024.

#### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the sustainable investment objective.

- **How did the reference benchmark differ from a broad market index?**

Not applicable.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

- **How did this financial product perform compared with the reference benchmark?**

Not applicable.

- **How did this financial product perform compared with the broad market index?**

Not applicable.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Security**

Legal entity identifier: **549300V8FZYMGQ1ITR48**

**ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?   |   |
|---|---|
| <input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> Yes  | <input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No   |

| <input type="checkbox"/> It made <b>sustainable investments with a social objective: ____%</b>  | <input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>   |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- **Positive impact:**  
The fund achieved a positive environmental and/or social impact by investing mainly in companies that help maintain the integrity, health, safety and protection of individuals, enterprises and governments (excluding defense).  
This included security services across the physical and digital world, IT network security and identification solutions, as well as physical security solutions and tools that help to protect people, vehicles, and buildings in both personal and professional settings.  
The fund invested at least two-thirds of its total assets/total wealth in equities issued by companies operating in this sector.  
The fund invested mainly in companies whose significant proportion of their activities are related to, but not limited to, internet security, software, telecommunications and computer hardware security, physical safety and health protection, access and identification security, traffic security, workplace security, and other relevant economic activities.  
No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

**Company Exclusions based on Controversial Activities and Revenue thresholds**

| Activity  | Revenue thresholds |
|---|--------------------|
| <b>Energy</b>   |                    |
| Thermal Coal Extraction   | 10%                |
| Thermal Coal Power Generation                                     | 10%                |
| Oil & Gas Production  | 10%                |
| Oil Sands Extraction  | 10%                |
| Shale Energy Extraction   | 10%                |
| Off-shore Arctic Oil & Gas Exploration                            | 10%                |
| Nuclear Power Generation  | 50%                |
| <b>Weapons</b>  |                    |
| Production of controversial weapons[1]                            | Excluded           |
| Production of nuclear weapons from countries signatory to the NPT | Excluded           |
| Military Contracting Weapons                                      | 10%                |
| Military Contracting Weapon-Related Products and/or Services      | 10%                |
| Small Arms Civilian Customers (Assault Weapons)                   | 10%                |
| Small Arms Civilian Customers (Non-Assault Weapons)               | 10%                |
| Small Arms Military/Law Enforcement Customers                     | 10%                |
| Small Arms Key Components   | 10%                |
| <b>Addictive Products</b>   |                    |
| Alcoholic Beverages Production                                    | 10%                |
| Tobacco Products Production                                       | 10%                |
| Adult Entertainment Production                                    | 10%                |
| Gambling Operations   | 10%                |
| Gambling Specialised Equipment                                    | 10%                |
| <b>Agriculture</b>  |                    |
| Genetically Modified Plants and Seeds Development                 | 10%                |
| Genetically Modified Plants and Seeds Growth                      | 10%                |
| Pesticides Production   | 10%                |
| Pesticides Retail   | 10%                |
| Palm Oil Production and Distribution                              | 10%                |

**Company Exclusions based on Breaches of International Norms**

|   |             |
|---|-------------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded    |
| High controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises                   | Excluded[2] |

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] Applies only to Sustainable Investments.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B). Note that our exclusion framework has been updated during 2024.

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of selected companies on material ESG issues.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

## ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- **The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:**

97.93%

- **Overall ESG profile**

The fund's weighted average ESG score was better than that of the reference index.

The fund's weighted average ESG score was 0.40 against -0.08 for the reference index. A higher score means a lower risk. Scores range from -2 to 1, 1 being the best.

Note that the fund has been classified Article 8 positive impact during 2024 (previously Article 8 positive tilt).

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 0.00     | 3.53                |
| Weapons                         | 0.03     | 0.97                |
| Other controversial activities  | 0.01     | 0.84                |
| Eligible:                       | 99.08    | 100.00              |
| Covered:                        | 100.00   | 99.65               |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainability.

In addition, the fund excluded issuers that had exposure to:

(i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.

(ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **Voting rights**

During the reference period, the fund voted at 40 general assembly meetings out of 40 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 27.50% of meetings.

In respect to Environmental and/or Social issues we voted for 0 out of 0 management resolutions and for 3 out of 3 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

- **Engagement**

The fund engaged with 14 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 37.01%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 60.92%.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS          | SECTOR                 | % ASSETS | COUNTRY                  |
|------------------------------|------------------------|----------|--------------------------|
| Kla Corp                     | Information Technology | 4.72     | United States of America |
| Palo Alto Networks Inc       | Information Technology | 4.56     | United States of America |
| Equinix Inc                  | Real Estate            | 4.43     | United States of America |
| Crowdstrike Holdings Inc - A | Information Technology | 4.23     | United States of America |
| Digital Realty Trust Inc     | Real Estate            | 4.09     | United States of America |
| Thermo Fisher Scientific Inc | Health Care            | 4.06     | United States of America |
| Fiserv Inc                   | Financials             | 3.99     | United States of America |
| Ecolab Inc                   | Materials              | 3.98     | United States of America |
| Synopsys Inc                 | Information Technology | 3.90     | United States of America |

## What was the proportion of sustainability-related investments?

97.93%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 99.13% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 0.87% invested in Other (#2 Other). 97.93% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.

## To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

## ● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

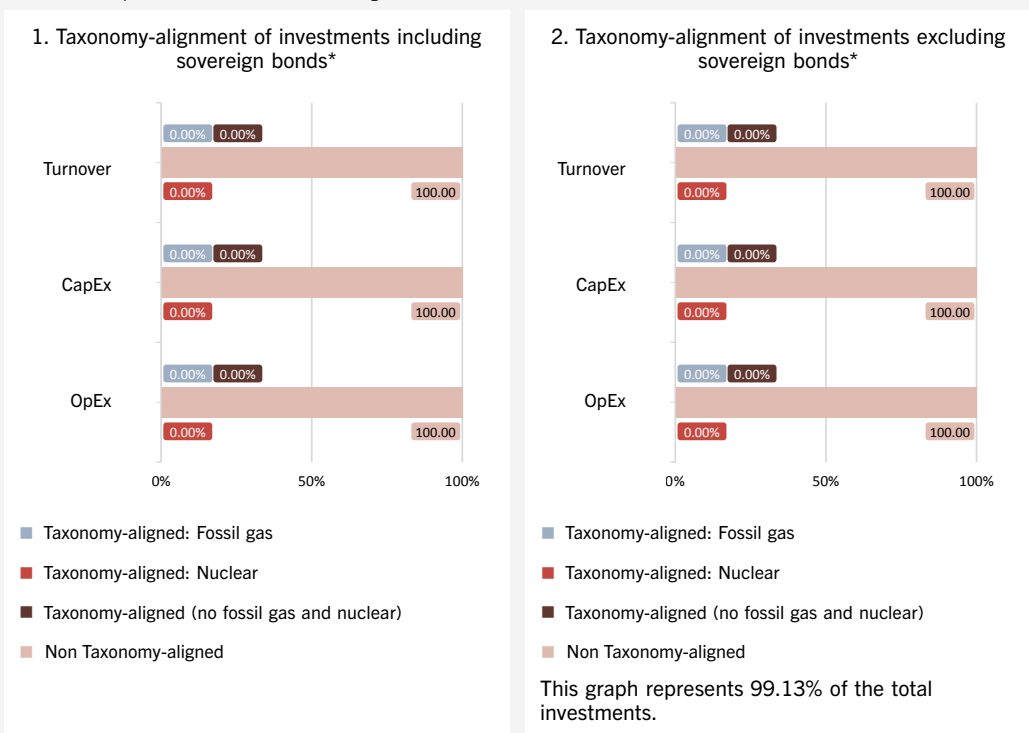

comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

\* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**  
Not applicable.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**  
The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 0.05% versus 0.00% in the current reference period.  
Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

37.01%

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

**What was the share of socially sustainable investments?**

60.92%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- at least 51% of sustainable investments, i.e. investments in companies that contribute to providing safety and security products for systems, people or organisations (as measured by revenue, enterprise value, earnings before interest and tax, or similar).
- exclusion of issuers that:
  - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and extraction, conventional oil and gas production, nuclear power generation, military contracting weapons, weapon-related products and services, small arms, alcoholic beverages, tobacco production, adult entertainment production, gambling operations and specialised equipment, genetically modified organisms development and growth, pesticides production and retail, and palm oil production and distribution. Please refer to Pictet Asset Management's Responsible Investment policy for further details on excluded sectors and exclusion thresholds.
  - severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 14 companies as of 30.09.2024.

**How did this financial product perform compared to the reference benchmark?**

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

**How did the reference benchmark differ from a broad market index?**

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**  
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**  
Not applicable.
- **How did this financial product perform compared with the broad market index?**  
Not applicable.

Template periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Clean Energy Transition**

Legal entity identifier: **549300RO1K3C2PFOGH13**

**SUSTAINABLE INVESTMENT OBJECTIVE**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?   |   |
|---|---|
| <input checked="" type="checkbox"/> <input checked="" type="radio"/> Yes  | <input type="checkbox"/> <input checked="" type="radio"/> No  |

| <input checked="" type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy | <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy  |
|   | <input type="checkbox"/> with a social objective  |
| <input checked="" type="checkbox"/> It made <b>sustainable investments with a social objective: 14.62%</b>                          | <input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>   |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent was the sustainable investment objective of this financial product met?**

Main ways in which the fund achieved its sustainable objective:

- **Positive impact:**  
The fund achieved a positive environmental impact by investing at least two-thirds of its total assets/total wealth in shares issued by companies that support the structural change towards a sustainable, low-carbon economy, helping to reduce greenhouse gas emissions and air pollution.  
No reference index has been designated for the purpose of attaining the sustainable investment objective.  
The fund invested mainly in companies whose significant proportion of their activities are related to, but not limited to, renewable energy, technologies that reduce CO2 emissions or energy consumption in areas such as industry, buildings or transportation, and enabling technologies and infrastructure that are critical preconditions for the transition to a low carbon economy, such as energy storage, power semiconductors, investments into the power grid and other relevant economic activities.  
Eligible securities included equities issued by companies with a significant proportion of activities (as measured by revenue, EBIT, enterprise value or similar metrics) derived from such economic activities.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

**Company Exclusions based on Controversial Activities and Revenue thresholds**

| Activity  | Revenue thresholds |
|---|--------------------|
| <b>Energy</b>   |                    |
| Thermal Coal Extraction   | 10%                |
| Thermal Coal Power Generation                                     | 10%                |
| Oil & Gas Production  | 10%                |
| Oil Sands Extraction  | 10%                |
| Shale Energy Extraction   | 10%                |
| Off-shore Arctic Oil & Gas Exploration                            | 10%                |
| Nuclear Power Generation  | 50%                |
| <b>Weapons</b>  |                    |
| Production of controversial weapons[1]                            | Excluded           |
| Production of nuclear weapons from countries signatory to the NPT | Excluded           |
| Military Contracting Weapons                                      | 10%                |
| Military Contracting Weapon-Related Products and/or Services      | 10%                |
| Small Arms Civilian Customers (Assault Weapons)                   | 10%                |
| Small Arms Civilian Customers (Non-Assault Weapons)               | 10%                |
| Small Arms Military/Law Enforcement Customers                     | 10%                |
| Small Arms Key Components   | 10%                |
| <b>Addictive Products</b>   |                    |
| Alcoholic Beverages Production                                    | 10%                |
| Tobacco Products Production                                       | 10%                |
| Adult Entertainment Production                                    | 10%                |
| Gambling Operations   | 10%                |
| Gambling Specialised Equipment                                    | 10%                |
| <b>Agriculture</b>  |                    |
| Genetically Modified Plants and Seeds Development                 | 10%                |
| Genetically Modified Plants and Seeds Growth                      | 10%                |
| Pesticides Production   | 10%                |
| Pesticides Retail   | 10%                |
| Palm Oil Production and Distribution                              | 10%                |

**Company Exclusions based on Breaches of International Norms**

|   |             |
|---|-------------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded    |
| High controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises                   | Excluded[2] |

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] Applies only to Sustainable Investments.

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- **Active ownership:**

The fund methodically exercised its voting rights. The fund also engaged with the management of selected companies on material ESG issues.

- **Sustainable Investments:**

Pictet Asset Management used a proprietary framework as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

#### Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 83.40%.

#### Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 14.62%.

#### ● **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:**

98.03%

- **The percentage of the financial product's portfolio aligned with the EU Taxonomy:**

7.83%

- **Overall ESG profile**

The fund's weighted average ESG score was better than that of the reference index after removing the bottom 20% of issuers with the weakest ESG scores.

The fund's weighted average ESG score was 0.42 against 0.18 for the reference index . A higher score means a lower ESG risk. Scores range from -2 to 1, 1 being the best.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

**Sustainability indicators** measure how the sustainable objectives of this financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment as detailed below:

Controversial activities (weighted average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 1.52     | 3.53                |
| Weapons                         | 0.36     | 0.96                |
| Other controversial activities  | 0.00     | 0.84                |
| Eligible:                       | 98.02    | 100.00              |
| Covered:                        | 100.00   | 99.65               |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.  
Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Voting rights

During the reference period, the fund voted at 44 general assembly meetings out of 45 votable meetings (97.78%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 35.56% of meetings.

In respect to Environmental and/or Social issues we voted for 2 out of 2 management resolutions and for 5 out of 9 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

#### • Engagement

The fund engaged with 14 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

## ● How did the sustainable investments not cause significant harm to any sustainable investment objective?

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were excluded.

Information were obtained from third-party providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as well as the exposure to sustainable investments as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers to address either significant ESG concerns, improve companies' sustainability practices or engage on positive impact topics to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS    | SECTOR                 | % ASSETS | COUNTRY                  |
|------------------------|------------------------|----------|--------------------------|
| Nextera Energy Inc     | Utilities              | 5.55     | United States of America |
| Trane Technologies Plc | Industrials            | 5.25     | United States of America |
| Broadcom Inc           | Information Technology | 5.05     | United States of America |
| Nxp Semiconductors Nv  | Information Technology | 5.02     | China                    |
| On Semiconductor       | Information Technology | 4.78     | United States of America |
| Marvell Technology Inc | Information Technology | 4.77     | United States of America |
| Linde Plc              | Materials              | 4.62     | United States of America |
| Topbuild Corp          | Consumer Discretionary | 4.61     | United States of America |
| Applied Materials Inc  | Information Technology | 4.27     | United States of America |
| Iberdrola Sa           | Utilities              | 3.81     | Spain                    |
| Eaton Corp Plc         | Industrials            | 3.20     | United States of America |

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

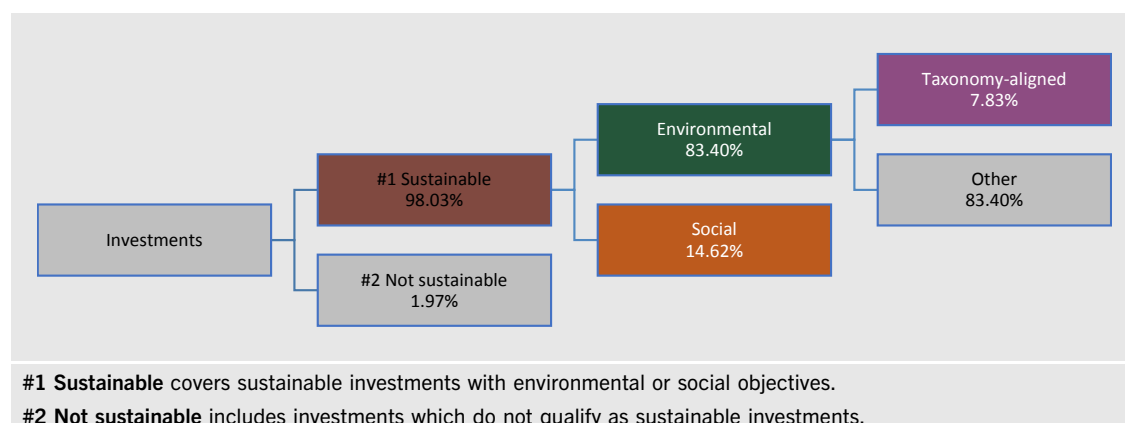

## What was the proportion of sustainability-related investments?

98.03%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund allocated 98.03% of its assets to Sustainable investments (#1 Sustainable) and 1.97% to Not sustainable investments (#2 Not sustainable). 83.40% of its assets is allocated to environmental objectives and 14.62% to social objectives.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.

- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

Source: Pictet Asset Management, Factset RBICS, MSCI.

Comparison of the asset allocation to previous period:

| Asset allocation   | 01.10.2022 - 30.09.2023 | 01.10.2023 - 30.09.2024 |
|--------------------|-------------------------|-------------------------|
| #1 Sustainable     | 98.54%                  | 98.03%                  |
| #2 Not sustainable | 1.46%                   | 1.97%                   |
| Environmental      | 88.08%                  | 83.40%                  |
| Social             | 10.46%                  | 14.62%                  |
| Taxonomy-aligned   | 9.27%                   | 7.83%                   |
| Other              | 88.08%                  | 83.40%                  |

#### ● In which economic sectors were the investments made?

| SECTOR LEVEL 1         | SECTOR LEVEL 2                               | % ASSETS |
|------------------------|--|----------|
| Consumer Discretionary | Automobiles & Components                     | 1.85     |
| Consumer Discretionary | Consumer Discretionary Distribution & Retail | 0.09     |
| Consumer Discretionary | Consumer Durables & Apparel                  | 4.61     |
| Industrials            | Capital Goods                                | 14.43    |
| Information Technology | Semiconductors & Semiconductor Equipment     | 37.17    |
| Information Technology | Software & Services                          | 12.10    |
| Information Technology | Technology Hardware & Equipment              | 1.91     |
| Materials              | Materials                                    | 8.47     |
| Real Estate            | Equity Real Estate Investment Trusts (Reits) | 0.67     |
| Utilities              | Utilities                                    | 16.72    |

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

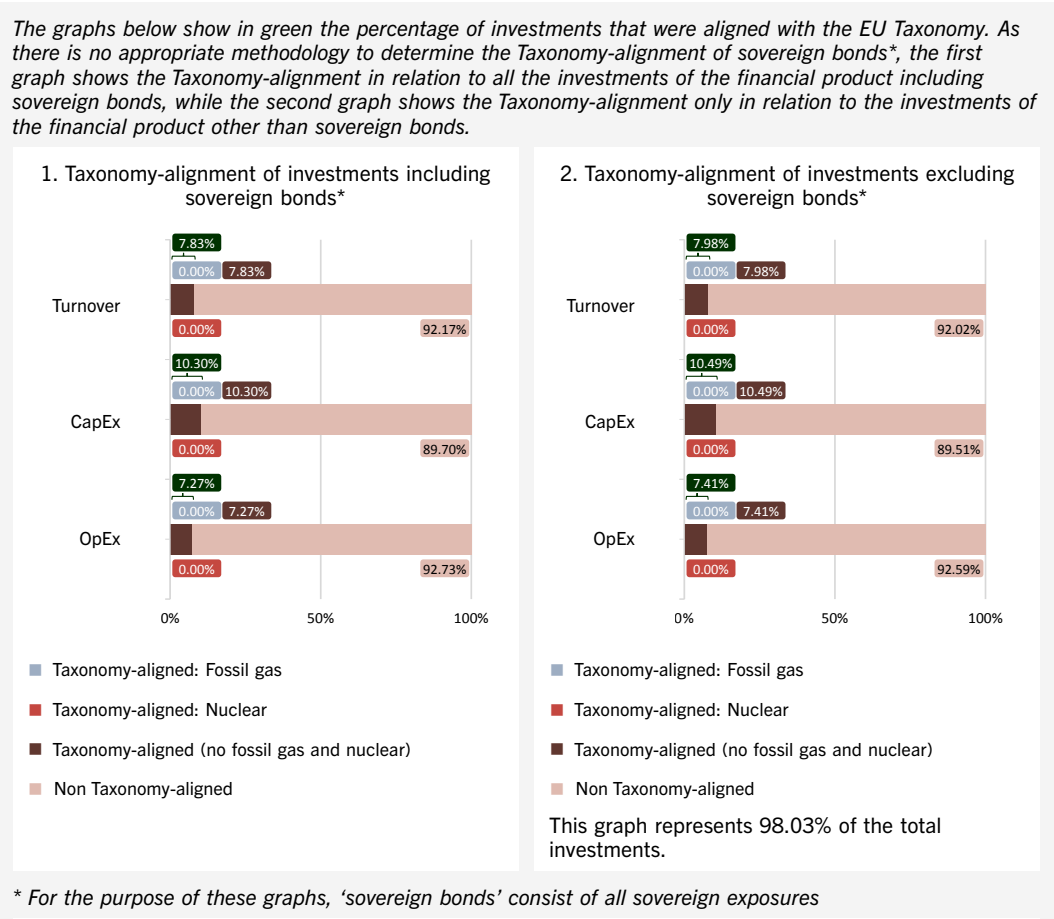

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

- **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**
  - ☐ Yes:
    - ☐ In fossil gas
    - ☐ In nuclear energy
  - ☒ No

Source: Pictet Asset Management, MSCI.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

- **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

  - Transitional activities: 0.00%
  - Enabling activities: 3.57%

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 9.27% versus 7.83% in the current reference period.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

83.40%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

**What was the share of socially sustainable investments?**

14.62%

**What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund's “not sustainable” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund's investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to attain the sustainable investment objective during the reference period?**

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- at least 80% of sustainable investments, i.e. investments in companies that have a significant exposure to activities such as renewable energy, technologies that reduce CO2 emissions or energy consumption in areas such as industry, buildings or transportation, and enabling technologies and infrastructure that are critical preconditions for the transition to a low carbon economy, such as energy storage, power semiconductors and investments into the power grid and other relevant economic activities (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- exclusion of issuers that:
  - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and extraction, conventional oil and gas production, nuclear power generation, military contracting weapons, weapon-related products and services, small arms, alcoholic beverages, tobacco production, adult entertainment production, gambling operations and specialised equipment, genetically modified organisms development and growth, pesticides production and retail, and palm oil production and distribution. Please refer to Pictet Asset Management's Responsible Investment policy for further details on excluded sectors and exclusion thresholds.
  - severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption

- a better ESG profile than the reference index after removing the bottom 20% of issuers with the weakest ESG characteristics
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 14 companies as of 30.09.2024.

#### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the sustainable investment objective.

#### ● How did the reference benchmark differ from a broad market index?

Not applicable.

#### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

#### ● How did this financial product perform compared with the reference benchmark?

Not applicable.

#### ● How did this financial product perform compared with the broad market index?

Not applicable.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Timber**

Legal entity identifier: **5493007Y7JCK1EBOLJ63**

**SUSTAINABLE INVESTMENT OBJECTIVE**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?   |  |
|---|--|
| <input checked="" type="checkbox"/> <input checked="" type="radio"/> Yes  | <input type="checkbox"/> <input checked="" type="radio"/> No   |
| <input checked="" type="checkbox"/> It made <b>sustainable investments with an environmental objective: 70.42%</b><br><br><input checked="" type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy<br><br><input checked="" type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy | <input type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments<br><br><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy<br><br><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy<br><br><input type="checkbox"/> with a social objective |
| <input checked="" type="checkbox"/> It made <b>sustainable investments with a social objective: 27.00%</b>  | <input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>  |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent was the sustainable investment objective of this financial product met?**

Main ways in which the fund achieved its sustainable objective:

• **Positive impact:**

The fund achieved a positive environmental and/or social impact by investing at least two-thirds of its total assets / total wealth in companies that contribute to solving global environmental challenges through sustainable forest management and wood-based materials. Sustainable management of forestland and the wood fibre value chain play a vital role in the sequestration of atmospheric carbon (CO2). Sustainably managed forests are also reservoirs of biodiversity and help to safeguard soil and water resources. Timber is the raw material for a growing variety of bio-based material that can substitute plastics and other non- biodegradable materials and are essential in a circular economy model.

No reference index has been designated for the purpose of attaining the sustainable investment objective.

The fund invested in companies whose significant proportion of their activities are related to, but not limited to, financing, planting, and management of forests and wooded areas and/or in the processing, production and distribution of wood and wood fibre based materials, products and related services along the entire forest value chain and other relevant economic activities.

Eligible securities included equities issued by companies with a significant proportion of activities (as measured by revenue, EBIT, enterprise value or similar metrics) derived from such economic activities.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

**Company Exclusions based on Controversial Activities and Revenue thresholds**

| Activity  | Revenue thresholds |
|---|--------------------|
| <b>Energy</b>   |                    |
| Thermal Coal Extraction   | 10%                |
| Thermal Coal Power Generation                                     | 10%                |
| Oil & Gas Production  | 10%                |
| Oil Sands Extraction  | 10%                |
| Shale Energy Extraction   | 10%                |
| Off-shore Arctic Oil & Gas Exploration                            | 10%                |
| Nuclear Power Generation  | 50%                |
| <b>Weapons</b>  |                    |
| Production of controversial weapons[1]                            | Excluded           |
| Production of nuclear weapons from countries signatory to the NPT | Excluded           |
| Military Contracting Weapons                                      | 10%                |
| Military Contracting Weapon-Related Products and/or Services      | 10%                |

| Genetically Modified Plants and Seeds Growth                      | 10%                |
| Pesticides Production   | 10%                |
| Pesticides Retail   | 10%                |
| Palm Oil Production and Distribution                              | 10%                |

**Company Exclusions based on Breaches of International Norms**

|   |             |
|---|-------------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded    |
| High controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises                   | Excluded[2] |

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] Applies only to Sustainable Investments.

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- **Active ownership:**

The fund methodically exercised its voting rights. The fund also engaged with the management of selected companies on material ESG issues.

- **Sustainable Investments:**

Pictet Asset Management used a proprietary framework as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

#### Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 70.42%.

#### Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 27.00%.

#### ● **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:**

97.42%

- **Overall ESG profile**

The fund's weighted average ESG score was better than that of the reference index after removing the bottom 20% of issuers with the weakest ESG scores.

The fund's weighted average ESG score was 0.65 against 0.18 for the reference index . A higher score means a lower ESG risk. Scores range from -2 to 1, 1 being the best.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

**Sustainability indicators** measure how the sustainable objectives of this financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment as detailed below:

Controversial activities (weighted average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 0.09     | 3.53                |
| Weapons                         | 0.00     | 0.97                |
| Other controversial activities  | 0.05     | 0.84                |
| Eligible:                       | 97.27    | 100.00              |
| Covered:                        | 99.02    | 99.65               |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.  
Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Voting rights

During the reference period, the fund voted at 71 general assembly meetings out of 72 votable meetings (98.61%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 34.72% of meetings.

In respect to Environmental and/or Social issues we voted for 2 out of 2 management resolutions and for 9 out of 14 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

#### • Engagement

The fund engaged with 9 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

## ● How did the sustainable investments not cause significant harm to any sustainable investment objective?

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were excluded.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in

the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also act as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as well as the exposure to sustainable investments as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers to address either significant ESG concerns, improve companies' sustainability practices or engage on positive impact topics to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS          | SECTOR           | % ASSETS | COUNTRY                  |
|------------------------------|------------------|----------|--------------------------|
| Weyerhaeuser Co              | Real Estate      | 5.83     | United States of America |
| Rayonier Inc                 | Real Estate      | 5.47     | United States of America |
| Potlatchdeltic Corp          | Real Estate      | 4.64     | United States of America |
| West Fraser Timber Co Ltd    | Materials        | 4.21     | Canada                   |
| Svenska Cellulosa Ab Sca-B   | Materials        | 3.55     | Sweden                   |
| Stora Enso Oyj-R Shs         | Materials        | 3.24     | Finland                  |
| Packaging Corp Of America    | Materials        | 2.73     | United States of America |
| International Paper Co       | Materials        | 2.63     | United States of America |
| Graphic Packaging Holding Co | Materials        | 2.50     | United States of America |
| Essity Aktiebolag-B          | Consumer Staples | 2.40     | Sweden                   |
| Ufp Industries Inc           | Industrials      | 2.36     | United States of America |
| Kimberly-Clark Corp          | Consumer Staples | 2.34     | United States of America |
| Smurfit Kappa Group Plc      | Materials        | 2.27     | Ireland                  |
| Ds Smith Plc                 | Materials        | 2.22     | United Kingdom           |
| Upm-Kymmene Oyj              | Materials        | 2.04     | Finland                  |

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

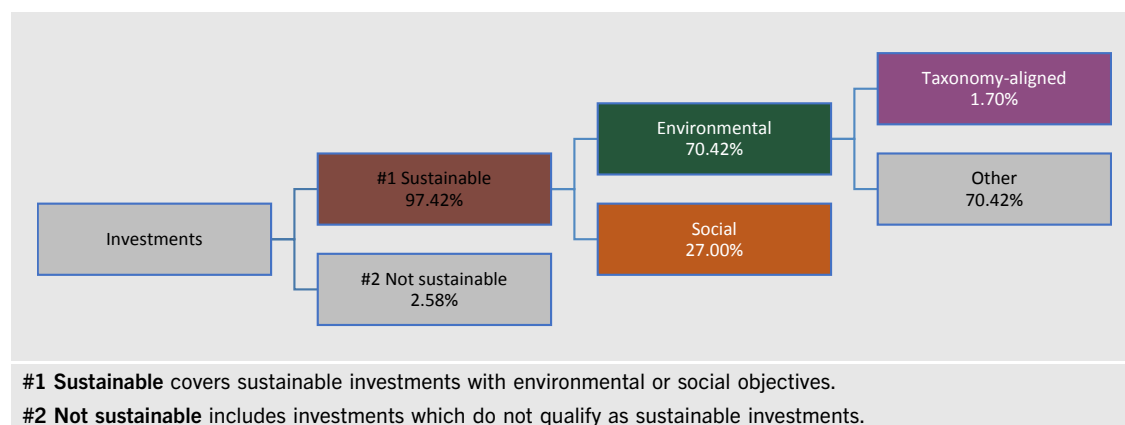

## What was the proportion of sustainability-related investments?

97.42%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund allocated 97.42% of its assets to Sustainable investments (#1 Sustainable) and 2.58% to Not sustainable investments (#2 Not sustainable). 70.42% of its assets is allocated to environmental objectives and 27.00% to social objectives.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

Source: Pictet Asset Management, Factset RBICS, MSCI.

Comparison of the asset allocation to previous period:

| Asset allocation   | 01.10.2022 - 30.09.2023 | 01.10.2023 - 30.09.2024 |
|--------------------|-------------------------|-------------------------|
| #1 Sustainable     | 97.30%                  | 97.42%                  |
| #2 Not sustainable | 2.7%                    | 2.58%                   |
| Environmental      | 69.36%                  | 70.42%                  |
| Social             | 27.95%                  | 27.00%                  |
| Taxonomy-aligned   | 1.11%                   | 1.70%                   |
| Other              | 69.36%                  | 70.42%                  |

#### ● In which economic sectors were the investments made?

| SECTOR LEVEL 1         | SECTOR LEVEL 2                               | % ASSETS |
|------------------------|--|----------|
| Consumer Discretionary | Consumer Discretionary Distribution & Retail | 3.12     |
| Consumer Discretionary | Consumer Durables & Apparel                  | 10.14    |
| Consumer Staples       | Household & Personal Products                | 7.91     |
| Industrials            | Capital Goods                                | 7.67     |
| Materials              | Materials                                    | 52.62    |
| Real Estate            | Equity Real Estate Investment Trusts (Reits) | 15.95    |

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

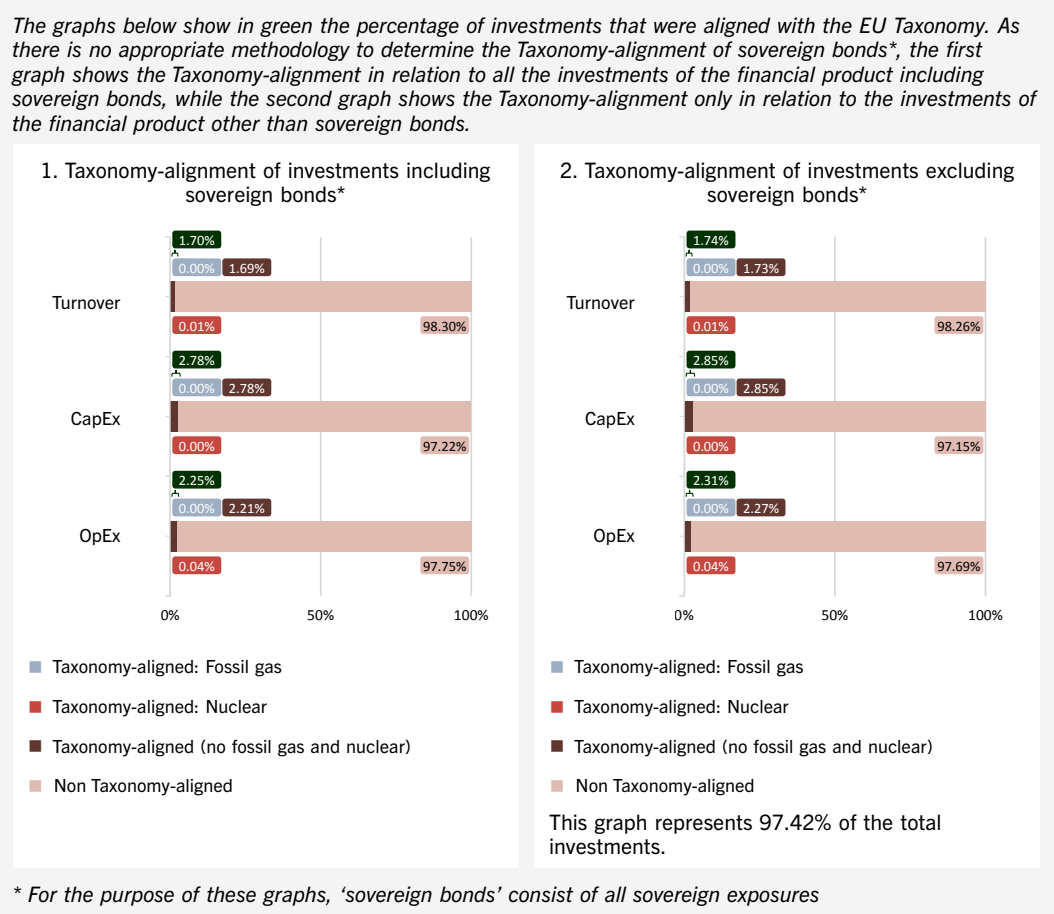

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

- ☒ Yes:
- ☐ In fossil gas    ☒ In nuclear energy
- ☐ No

Source: Pictet Asset Management, MSCI.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

- The share of investments made in:
- Transitional activities: 0.00%
  - Enabling activities: 0.61%

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 1.11% versus 1.70% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

70.42%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

**What was the share of socially sustainable investments?**

27.00%

**What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “not sustainable” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to attain the sustainable investment objective during the reference period?**

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- at least 80% of sustainable investments, i.e. investments in companies that have a significant exposure to activities such as financing, planting, and management of forests and wooded areas and/or in the processing, production and distribution of wood and wood fibre based materials, products and related services along the entire forest value chain and other relevant economic activities (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- exclusion of issuers that:
  - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and extraction, conventional oil and gas production, nuclear power generation, military contracting weapons, weapon-related products and services, small arms, alcoholic beverages, tobacco production, adult entertainment production, gambling operations and specialised equipment, genetically modified organisms development and growth, pesticides production and retail, and palm oil production and distribution. Please refer to Pictet Asset Management's Responsible Investment policy for further details on excluded sectors and exclusion thresholds
  - severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index after removing the bottom 20% of issuers with the weakest ESG characteristics

- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 9 companies as of 30.09.2024.

#### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the sustainable investment objective.

#### ● How did the reference benchmark differ from a broad market index?

Not applicable.

#### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

#### ● How did this financial product perform compared with the reference benchmark?

Not applicable.

#### ● How did this financial product perform compared with the broad market index?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Nutrition**

Legal entity identifier: **549300MD1R2NMU6B8J09**

**SUSTAINABLE INVESTMENT OBJECTIVE**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?   |   |
|---|---|
| <input checked="" type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> Yes                           | <input checked="" type="radio"/> <input type="radio"/> <input type="checkbox"/> No  |
| <input checked="" type="checkbox"/> It made <b>sustainable investments with an environmental objective: 40.09%</b>                  | <input type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments |
| <input checked="" type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy        | <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy   |
| <input checked="" type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy | <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy  |
|   | <input type="checkbox"/> with a social objective  |
| <input checked="" type="checkbox"/> It made <b>sustainable investments with a social objective: 59.04%</b>                          | <input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>   |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent was the sustainable investment objective of this financial product met?**

Main ways in which the fund achieved its sustainable objective:

- Positive impact:  
The fund achieved a positive social and/or environmental impact by investing mainly in companies contributing to and/or benefiting from the nutrition value chain, in particular the quality of nutrition, access to nutrition, and sustainability of food production. These companies help to secure food supplies and improve human and planetary health by contributing to positive dietary shifts and global food security. They also help reducing negative environmental impacts compared to traditional agriculture as well as reducing food waste.

No reference index has been designated for the purpose of attaining the sustainable investment objective.

The fund invested mainly in companies whose significant proportion of their activities are related to agricultural technology, sustainable agriculture or aquaculture, food products, ingredients and supplements, food logistics such as distribution, food waste solutions, food safety and other relevant economic activities.

Eligible securities included equities issued by companies with a significant proportion of activities (as measured by revenue, EBIT, enterprise value or similar metrics) derived from such economic activities.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

**Company Exclusions based on Controversial Activities and Revenue thresholds**

| Activity  | Revenue thresholds |
|---|--------------------|
| <b>Energy</b>   |                    |
| Thermal Coal Extraction   | 10%                |
| Thermal Coal Power Generation                                     | 10%                |
| Oil & Gas Production  | 10%                |
| Oil Sands Extraction  | 10%                |
| Shale Energy Extraction   | 10%                |
| Off-shore Arctic Oil & Gas Exploration                            | 10%                |
| Nuclear Power Generation  | 50%                |
| <b>Weapons</b>  |                    |
| Production of controversial weapons[1]                            | Excluded           |
| Production of nuclear weapons from countries signatory to the NPT | Excluded           |
| Military Contracting Weapons                                      | 10%                |
| Military Contracting Weapon-Related Products and/or Services      | 10%                |
| Small Arms Civilian Customers (Assault Weapons)                   | 10%                |
| Small Arms Civilian Customers (Non-Assault Weapons)               | 10%                |
| Small Arms Military/Law Enforcement Customers                     | 10%                |
| Small Arms Key Components   | 10%                |
| <b>Addictive Products</b>   |                    |
| Alcoholic Beverages Production                                    | 10%                |
| Tobacco Products Production                                       | 10%                |
| Adult Entertainment Production                                    | 10%                |
| Gambling Operations   | 10%                |
| Gambling Specialised Equipment                                    | 10%                |
| <b>Agriculture</b>  |                    |
| Genetically Modified Plants and Seeds Development                 | 10%                |
| Genetically Modified Plants and Seeds Growth                      | 10%                |
| Pesticides Production   | 10%                |
| Pesticides Retail   | 10%                |
| Palm Oil Production and Distribution                              | 10%                |

**Company Exclusions based on Breaches of International Norms**

|   |             |
|---|-------------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded    |
| High controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises                   | Excluded[2] |

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] Applies only to Sustainable Investments.

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- **Active ownership:**

The fund methodically exercised its voting rights. The fund also engaged with the management of selected companies on material ESG issues.

- **Sustainable Investments:**

Pictet Asset Management used a proprietary framework as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

#### Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 40.09%.

#### Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 59.04%.

#### ● **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:**

99.14%

- **Overall ESG profile**

The fund's weighted average ESG score was better than that of the reference index after removing the bottom 20% of issuers with the weakest ESG scores.

The fund's weighted average ESG score was 0.57 against 0.18 for the reference index . A higher score means a lower ESG risk. Scores range from -2 to 1, 1 being the best.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

**Sustainability indicators** measure how the sustainable objectives of this financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment as detailed below:

Controversial activities (weighted average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 0.00     | 3.53                |
| Weapons                         | 0.00     | 0.97                |
| Other controversial activities  | 0.26     | 0.84                |
| Eligible:                       | 98.96    | 100.00              |
| Covered:                        | 99.98    | 99.65               |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.  
Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Voting rights

During the reference period, the fund voted at 41 general assembly meetings out of 41 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 39.02% of meetings.

In respect to Environmental and/or Social issues we voted for 8 out of 8 management resolutions and for 2 out of 6 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

#### • Engagement

The fund engaged with 20 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

## ● How did the sustainable investments not cause significant harm to any sustainable investment objective?

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were excluded.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in

the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also act as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as well as the exposure to sustainable investments as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers to address either significant ESG concerns, improve companies' sustainability practices or engage on positive impact topics to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS         | SECTOR                 | % ASSETS | COUNTRY                  |
|-----------------------------|------------------------|----------|--------------------------|
| Dsm-Firmenich Ag            | Materials              | 5.66     | Switzerland              |
| Intl Flavors & Fragrances   | Materials              | 5.47     | United States of America |
| Ecolab Inc                  | Materials              | 4.72     | United States of America |
| Danone                      | Consumer Staples       | 4.67     | France                   |
| Compass Group Plc           | Consumer Discretionary | 4.50     | United Kingdom           |
| Zoetis Inc                  | Health Care            | 3.93     | United States of America |
| Novonosis (Novozymes) B     | Materials              | 3.77     | Denmark                  |
| Edenred                     | Financials             | 3.37     | France                   |
| Givaudan-Reg                | Materials              | 3.32     | Switzerland              |
| Sysco Corp                  | Consumer Staples       | 3.26     | United States of America |
| Mccormick & Co-Non Vtg Shrs | Consumer Staples       | 3.22     | United States of America |
| Symrise Ag                  | Materials              | 3.02     | Germany                  |
| Mowi Asa                    | Consumer Staples       | 3.00     | Norway                   |

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

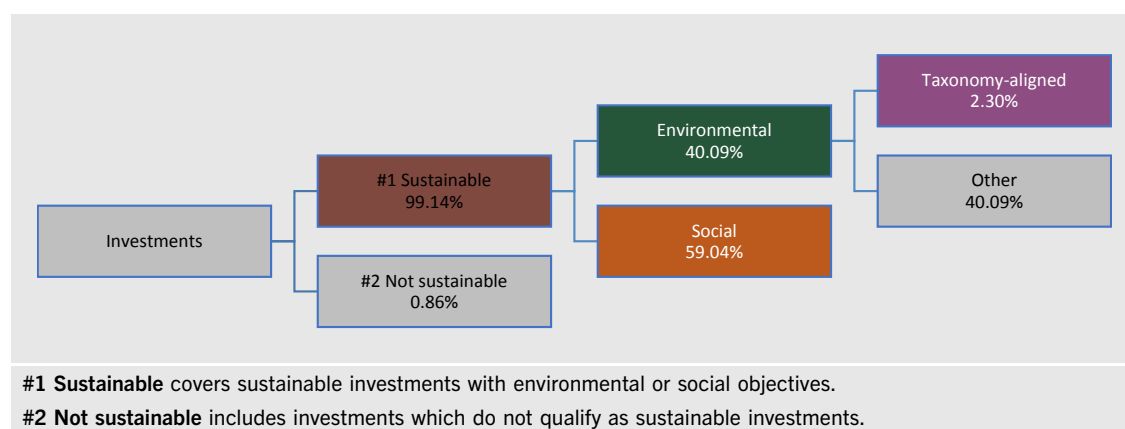

## What was the proportion of sustainability-related investments?

99.14%

Asset allocation describes the share of investments in specific assets.

### What was the asset allocation?

The fund allocated 99.14% of its assets to Sustainable investments (#1 Sustainable) and 0.86% to Not sustainable investments (#2 Not sustainable). 40.09% of its assets is allocated to environmental objectives and 59.04% to social objectives.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented

policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.

- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

Source: Pictet Asset Management, Factset RBICS, MSCI.

Comparison of the asset allocation to previous period:

| Asset allocation   | 01.10.2022 - 30.09.2023 | 01.10.2023 - 30.09.2024 |
|--------------------|-------------------------|-------------------------|
| #1 Sustainable     | 98.18%                  | 99.14%                  |
| #2 Not sustainable | 1.82%                   | 0.86%                   |
| Environmental      | 42.83%                  | 40.09%                  |
| Social             | 55.34%                  | 59.04%                  |
| Taxonomy-aligned   | 1.37%                   | 2.30%                   |
| Other              | 42.83%                  | 40.09%                  |

#### ● In which economic sectors were the investments made?

| SECTOR LEVEL 1         | SECTOR LEVEL 2                               | % ASSETS |
|------------------------|--|----------|
| Consumer Discretionary | Consumer Discretionary Distribution & Retail | 0.51     |
| Consumer Discretionary | Consumer Services                            | 4.78     |
| Consumer Staples       | Consumer Staples Distribution & Retail       | 3.72     |
| Consumer Staples       | Food, Beverage & Tobacco                     | 26.37    |
| Consumer Staples       | Household & Personal Products                | 2.49     |
| Financials             | Financial Services                           | 3.37     |
| Health Care            | Health Care Equipment & Services             | 1.40     |
| Health Care            | Pharmaceuticals, Biotech & Life Sciences     | 8.92     |
| Industrials            | Capital Goods                                | 3.99     |
| Industrials            | Commercial & Professional Services           | 9.86     |
| Information Technology | Technology Hardware & Equipment              | 1.17     |
| Materials              | Materials                                    | 30.69    |
| Real Estate            | Equity Real Estate Investment Trusts (Reits) | 1.86     |

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 99.14% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: 0.00%
- Enabling activities: 0.02%

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 1.37% versus 2.30% in the current reference period.  
Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

40.09%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

**What was the share of socially sustainable investments?**

59.04%

**What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “not sustainable” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to attain the sustainable investment objective during the reference period?**

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- at least 80% of sustainable investments, i.e. investments in companies that have a significant exposure to activities such as agricultural technology, sustainable agriculture or aquaculture, food products, ingredients and supplements, food logistics such as distribution, food waste solutions, food safety and other relevant economic activities (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- exclusion of issuers that:
  - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and extraction, conventional oil and gas production, nuclear power generation, military contracting weapons, weapon-related products and services, small arms, alcoholic beverages, tobacco production, adult entertainment production, gambling operations and specialised equipment,

genetically modified organisms development and growth, pesticides production and retail, and palm oil production and distribution. Please refer to Pictet Asset Management's Responsible Investment policy for further details on excluded sectors and exclusion thresholds

- severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index after removing the bottom 20% of issuers with the weakest ESG characteristics
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 20 companies as of 30.09.2024.

## How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the sustainable investment objective.

### ● How did the reference benchmark differ from a broad market index?

Not applicable.

### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

### ● How did this financial product perform compared with the reference benchmark?

Not applicable.

### ● How did this financial product perform compared with the broad market index?

Not applicable.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Global Megatrend Selection**

Legal entity identifier: **549300HMJRYVBYQOZ025**

**ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?   |  |
|---|--|
| <input checked="" type="radio"/> <input type="radio"/> Yes  | <input checked="" type="radio"/> <input type="radio"/> No  |
| <input type="checkbox"/> It made <b>sustainable investments with an environmental objective: ____%</b><br><br><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy<br><br><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy | <input checked="" type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of <b>83.06%</b> of sustainable investments<br><br><input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy<br><br><input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy<br><br><input checked="" type="checkbox"/> with a social objective |
| <input type="checkbox"/> It made <b>sustainable investments with a social objective: ____%</b>  | <input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>  |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- **Positive impact:**  
The fund achieved a positive environmental and/or social impact by investing at least two-thirds of its total assets in securities that may benefit from global megatrends, i.e. long-term market trends resulting from secular changes in economic, social and environmental factors such as demographics, lifestyle or regulations.  
The fund invested mainly in companies whose significant proportion of their activities are related to products and services supporting the energy transition, circular economy, energy efficiency, water quality and supply, sustainable forestry, sustainable cities, nutrition, human health and therapeutics, personal self-fulfilment and security and other relevant economic activities.  
No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

**Company Exclusions based on Controversial Activities and Revenue thresholds**

| Activity  | Revenue thresholds |
|---|--------------------|
| <b>Energy</b>   |                    |
| Thermal Coal Extraction   | 10%                |
| Thermal Coal Power Generation                                     | 10%                |
| Oil & Gas Production  | 10%                |
| Oil Sands Extraction  | 10%                |
| Shale Energy Extraction   | 10%                |
| Off-shore Arctic Oil & Gas Exploration                            | 10%                |
| Nuclear Power Generation  | 50%                |
| <b>Weapons</b>  |                    |
| Production of controversial weapons[1]                            | Excluded           |
| Production of nuclear weapons from countries signatory to the NPT | Excluded           |
| Military Contracting Weapons                                      | 10%                |
| Military Contracting Weapon-Related Products and/or Services      | 10%                |
| Small Arms Civilian Customers (Assault Weapons)                   | 10%                |
| Small Arms Civilian Customers (Non-Assault Weapons)               | 10%                |
| Small Arms Military/Law Enforcement Customers                     | 10%                |
| Small Arms Key Components   | 10%                |
| <b>Addictive Products</b>   |                    |
| Alcoholic Beverages Production                                    | 10%                |
| Tobacco Products Production                                       | 10%                |
| Adult Entertainment Production                                    | 10%                |
| Gambling Operations   | 10%                |
| Gambling Specialised Equipment                                    | 10%                |
| <b>Agriculture</b>  |                    |
| Genetically Modified Plants and Seeds Development                 | 10%                |
| Genetically Modified Plants and Seeds Growth                      | 10%                |
| Pesticides Production   | 10%                |
| Pesticides Retail   | 10%                |
| Palm Oil Production and Distribution                              | 10%                |

**Company Exclusions based on Breaches of International Norms**

|   |             |
|---|-------------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded    |
| High controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises                   | Excluded[2] |

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] Applies only to Sustainable Investments.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B). Note that our exclusion framework has been updated during 2024.

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of selected companies on material ESG issues.

## ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- **The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:**

83.06%

- **Overall ESG profile**

The fund's weighted average ESG score was better than that of the reference index.

The fund's weighted average ESG score was 0.48 against 0.02 for the reference index. A higher score means a lower risk. Scores range from -2 to 1, 1 being the best.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 0.14     | 3.53                |
| Weapons                         | 0.08     | 0.97                |
| Other controversial activities  | 0.06     | 0.84                |
| Eligible:                       | 97.89    | 100.00              |
| Covered:                        | 99.70    | 99.65               |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.  
Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **Voting rights**

During the reference period, the fund voted at 438 general assembly meetings out of 439 votable meetings (99.77%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 44.42% of meetings.

In respect to Environmental and/or Social issues we voted for 28 out of 28 management resolutions and for 81 out of 128 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

- **Engagement**

The fund engaged with 122 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 33.11%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 49.96%.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for

human rights, anti-corruption and anti-bribery matters.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS          | SECTOR                 | % ASSETS | COUNTRY                  |
|------------------------------|------------------------|----------|--------------------------|
| Thermo Fisher Scientific Inc | Health Care            | 1.35     | United States of America |
| Ecolab Inc                   | Materials              | 1.21     | United States of America |

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

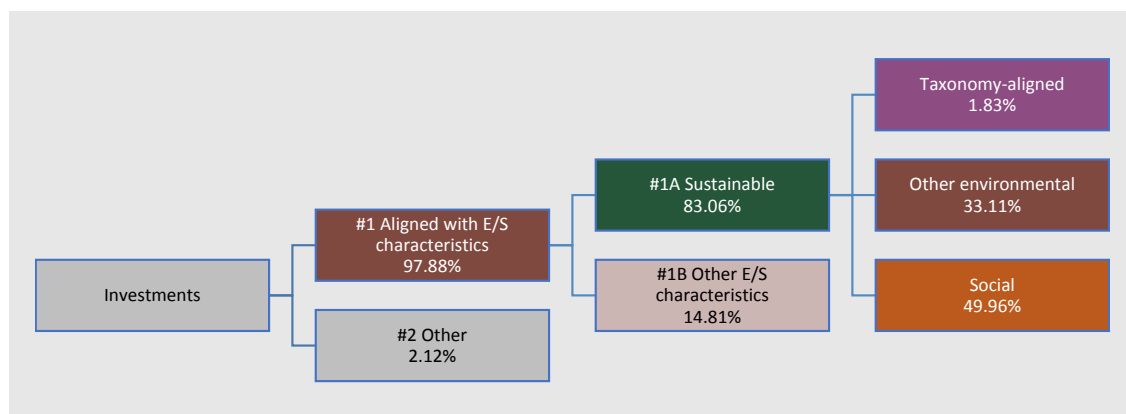

## What was the proportion of sustainability-related investments?

83.06%

Asset allocation describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 97.88% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 2.12% invested in Other (#2 Other). 83.06% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

### ● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

☒ Yes:

☒ In fossil gas ☒ In nuclear energy

☐ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Source: Pictet Asset Management, MSCI.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● What was the share of investments made in transitional and enabling activities?

The share of investments made in:

- Transitional activities: 0.00%
- Enabling activities: 0.60%

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 1.66% versus 1.83% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

33.11%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

49.96%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- at least 51% of sustainable investments, i.e. investments in companies that have a significant exposure to activities such as products and services supporting the energy transition, circular economy, energy efficiency, water quality and supply, sustainable forestry, sustainable cities, nutrition, human health and therapeutics, personal self-fulfilment and security and other relevant economic activities (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- exclusion of issuers that:
  - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and extraction, conventional oil and gas production, nuclear power generation, military contracting weapons, weapon-related products and services, small arms, alcoholic beverages, tobacco production, adult entertainment production, gambling operations and specialised equipment, genetically modified organisms development and growth, pesticides production and retail, and palm oil production and distribution. Please refer to Pictet Asset Management's Responsible Investment policy for further details on excluded sectors and exclusion thresholds.
  - severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 122 companies as of 30.09.2024.

**How did this financial product perform compared to the reference benchmark?**

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did the reference benchmark differ from a broad market index?**  
Not applicable.
- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**  
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**  
Not applicable.
- **How did this financial product perform compared with the broad market index?**  
Not applicable.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Global Environmental Opportunities**

Legal entity identifier: **549300NZP1SIONC13983**

**SUSTAINABLE INVESTMENT OBJECTIVE**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?   |   |
|---|---|
| <input checked="" type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> Yes                           | <input checked="" type="radio"/> <input type="radio"/> <input type="checkbox"/> No  |
| <input checked="" type="checkbox"/> It made <b>sustainable investments with an environmental objective: 72.91%</b>                  | <input type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments |

| <input checked="" type="checkbox"/> It made <b>sustainable investments with a social objective: 25.83%</b>                          | <input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>   |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent was the sustainable investment objective of this financial product met?**

Main ways in which the fund achieved its sustainable objective:

- **Positive impact:**  
This fund achieved a positive environmental and/or social impact by investing mainly in companies with a low environmental footprint that contribute to solving global environmental challenges by providing products and services in the environmental value chain. These products and services are needed to support the transition towards a lower carbon economy, a circular economy model, monitor and prevent pollution or for example protect scarce resources such as water.  
No reference index has been designated for the purpose of attaining the sustainable investment objective.  
The fund invested mainly in companies whose significant proportion of their activities are related to, but not limited to, energy efficiency, renewable energy, pollution control, water supply & technology, waste management & recycling, sustainable agriculture & forestry, dematerialized economy and other relevant economic activities.  
Eligible securities included equities issued by companies with a significant proportion of activities (as measured by revenue, EBIT, enterprise value or similar metrics) derived from such economic activities.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

**Company Exclusions based on Controversial Activities and Revenue thresholds**

| Activity  | Revenue thresholds |
|---|--------------------|
| <b>Energy</b>   |                    |
| Thermal Coal Extraction   | 10%                |
| Thermal Coal Power Generation                                     | 10%                |
| Oil & Gas Production  | 10%                |
| Oil Sands Extraction  | 10%                |
| Shale Energy Extraction   | 10%                |
| Off-shore Arctic Oil & Gas Exploration                            | 10%                |
| Nuclear Power Generation  | 50%                |
| <b>Weapons</b>  |                    |
| Production of controversial weapons[1]                            | Excluded           |
| Production of nuclear weapons from countries signatory to the NPT | Excluded           |
| Military Contracting Weapons                                      | 10%                |
| Military Contracting Weapon-Related Products and/or Services      | 10%                |
| Small Arms Civilian Customers (Assault Weapons)                   | 10%                |
| Small Arms Civilian Customers (Non-Assault Weapons)               | 10%                |
| Small Arms Military/Law Enforcement Customers                     | 10%                |
| Small Arms Key Components   | 10%                |
| <b>Addictive Products</b>   |                    |
| Alcoholic Beverages Production                                    | 10%                |
| Tobacco Products Production                                       | 10%                |
| Adult Entertainment Production                                    | 10%                |
| Gambling Operations   | 10%                |
| Gambling Specialised Equipment                                    | 10%                |
| <b>Agriculture</b>  |                    |
| Genetically Modified Plants and Seeds Development                 | 10%                |
| Genetically Modified Plants and Seeds Growth                      | 10%                |
| Pesticides Production   | 10%                |
| Pesticides Retail   | 10%                |
| Palm Oil Production and Distribution                              | 10%                |

**Company Exclusions based on Breaches of International Norms**

|   |             |
|---|-------------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded    |
| High controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises                   | Excluded[2] |

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] Applies only to Sustainable Investments.

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- Active ownership:

The fund methodically exercised its voting rights. The fund also engaged with the management of selected companies on material ESG issues.

- Sustainable Investments:

Pictet Asset Management used a proprietary framework as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

#### Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 72.91%.

#### Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 25.83%.

#### ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- **The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:**

98.74%

- **Overall ESG profile**

The fund's weighted average ESG score was better than that of the reference index after removing the bottom 20% of issuers with the weakest ESG scores.

The fund's weighted average ESG score was 0.56 against 0.18 for the reference index . A higher score means a lower ESG risk. Scores range from -2 to 1, 1 being the best.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

**Sustainability indicators** measure how the sustainable objectives of this financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment as detailed below:

Controversial activities (weighted average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 0.01     | 3.53                |
| Weapons                         | 0.27     | 0.97                |
| Other controversial activities  | 0.01     | 0.84                |
| Eligible:                       | 98.68    | 100.00              |
| Covered:                        | 100.00   | 99.65               |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.  
Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Voting rights

During the reference period, the fund voted at 46 general assembly meetings out of 46 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 28.26% of meetings.

In respect to Environmental and/or Social issues we voted for 2 out of 2 management resolutions and for 3 out of 4 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

#### • Engagement

The fund engaged with 17 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

## ● How did the sustainable investments not cause significant harm to any sustainable investment objective?

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were excluded.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in

the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also act as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as well as the exposure to sustainable investments as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers to address either significant ESG concerns, improve companies' sustainability practices or engage on positive impact topics to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS          | SECTOR                 | % ASSETS | COUNTRY                  |
|------------------------------|------------------------|----------|--------------------------|
| Republic Services Inc        | Industrials            | 4.10     | United States of America |
| Waste Connections Inc        | Industrials            | 3.87     | United States of America |
| Synopsys Inc                 | Information Technology | 3.81     | United States of America |
| Eaton Corp Plc               | Industrials            | 3.54     | United States of America |
| Agilent Technologies Inc     | Health Care            | 3.48     | United States of America |
| Xylem Inc                    | Industrials            | 3.22     | United States of America |
| Schneider Electric Se        | Industrials            | 3.16     | France                   |
| Ptc Inc                      | Information Technology | 3.13     | United States of America |
| Waste Management Inc         | Industrials            | 3.01     | United States of America |
| Applied Materials Inc        | Information Technology | 2.93     | United States of America |
| Ansys Inc                    | Information Technology | 2.92     | United States of America |
| Cadence Design Sys Inc       | Information Technology | 2.88     | United States of America |
| Thermo Fisher Scientific Inc | Health Care            | 2.88     | United States of America |
| Equinix Inc                  | Real Estate            | 2.86     | United States of America |
| Tetra Tech Inc               | Industrials            | 2.85     | United States of America |

## What was the proportion of sustainability-related investments?

98.74%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund allocated 98.74% of its assets to Sustainable investments (#1 Sustainable) and 1.26% to Not sustainable investments (#2 Not sustainable). 72.91% of its assets is allocated to environmental objectives and 25.83% to social objectives.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

Source: Pictet Asset Management, Factset RBICS, MSCI.

Comparison of the asset allocation to previous period:

| Asset allocation   | 01.10.2022 - 30.09.2023 | 01.10.2023 - 30.09.2024 |
|--------------------|-------------------------|-------------------------|
| #1 Sustainable     | 97.71%                  | 98.74%                  |
| #2 Not sustainable | 2.29%                   | 1.26%                   |
| Environmental      | 71.18%                  | 72.91%                  |
| Social             | 26.53%                  | 25.83%                  |
| Taxonomy-aligned   | 3.08%                   | 6.17%                   |
| Other              | 71.18%                  | 72.91%                  |

#### ● In which economic sectors were the investments made?

| SECTOR LEVEL 1         | SECTOR LEVEL 2                               | %<br>ASSETS |
|------------------------|--|-------------|
| Consumer Discretionary | Automobiles & Components                     | 0.18        |
| Consumer Discretionary | Consumer Durables & Apparel                  | 0.24        |
| Health Care            | Pharmaceuticals, Biotech & Life Sciences     | 6.36        |
| Industrials            | Capital Goods                                | 27.11       |
| Industrials            | Commercial & Professional Services           | 15.41       |
| Information Technology | Semiconductors & Semiconductor Equipment     | 11.32       |
| Information Technology | Software & Services                          | 17.36       |
| Information Technology | Technology Hardware & Equipment              | 3.59        |
| Materials              | Materials                                    | 8.80        |
| Real Estate            | Equity Real Estate Investment Trusts (Reits) | 3.36        |
| Utilities              | Utilities                                    | 5.01        |

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

☒ Yes:

☒ In fossil gas   ☐ In nuclear energy

☐ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

☐ Taxonomy-aligned: Fossil gas  
☐ Taxonomy-aligned: Nuclear  
☐ Taxonomy-aligned (no fossil gas and nuclear)  
☐ Non Taxonomy-aligned

2. Taxonomy-alignment of investments excluding sovereign bonds\*

☐ Taxonomy-aligned: Fossil gas  
☐ Taxonomy-aligned: Nuclear  
☐ Taxonomy-aligned (no fossil gas and nuclear)  
☐ Non Taxonomy-aligned

This graph represents 98.74% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: 0.00%
- Enabling activities: 3.28%

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 3.08% versus 6.17% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

72.91%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

**What was the share of socially sustainable investments?**

25.83%

**What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “not sustainable” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to attain the sustainable investment objective during the reference period?**

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- at least 80% of sustainable investments, i.e. investments in companies that have a significant exposure to activities that provide solutions to environmental challenges such as energy efficiency, renewable energy, pollution control, water supply and technology, waste management and recycling, sustainable agriculture and forestry and other relevant economic activities (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- exclusion of issuers that:
  - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and extraction, conventional oil and gas production, nuclear power generation, military contracting weapons, weapon-related products and services, small arms, alcoholic beverages, tobacco production, adult entertainment production, gambling operations and specialised equipment,

genetically modified organisms development and growth, pesticides production and retail, and palm oil production and distribution. Please refer to Pictet Asset Management's Responsible Investment policy for further details on excluded sectors and exclusion thresholds

- severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index after removing the bottom 20% of issuers with the weakest ESG characteristics
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 17 companies as of 30.09.2024.

## How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the sustainable investment objective.

### ● How did the reference benchmark differ from a broad market index?

Not applicable.

### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

### ● How did this financial product perform compared with the reference benchmark?

Not applicable.

### ● How did this financial product perform compared with the broad market index?

Not applicable.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - SmartCity**

Legal entity identifier: **549300H4DRA43I4QJ174**

**ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?  |  |
|--|--|
| <input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> Yes                           | <input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No  |
| <input type="checkbox"/> It made <b>sustainable investments with an environmental objective</b> : ____%                  | <input checked="" type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of <b>96.57%</b> of sustainable investments |
| <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy        | <input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy   |
| <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy | <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy  |
|  | <input checked="" type="checkbox"/> with a social objective  |
| <input type="checkbox"/> It made <b>sustainable investments with a social objective</b> : ____%                          | <input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>  |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- **Positive impact:**  
The fund achieved a positive environmental and/or social impact by investing mainly in companies providing smarter solutions to the challenges of urbanization and improving the quality of life of city residents, in particular in the areas of the environment, safety, health, education, employment, community or mobility.  
The fund invested mainly in companies whose significant proportion of their activities are related to, but not limited to, mobility and transportation, infrastructure, real estate, sustainable resources management (such as energy efficiency or waste management) as well as enabling technologies and services supporting the development of smart and sustainable cities and other relevant economic activities.  
No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

**Company Exclusions based on Controversial Activities and Revenue thresholds**

| Activity  | Revenue thresholds |
|---|--------------------|
| <b>Energy</b>   |                    |
| Thermal Coal Extraction   | 10%                |
| Thermal Coal Power Generation                                     | 10%                |
| Oil & Gas Production  | 10%                |
| Oil Sands Extraction  | 10%                |
| Shale Energy Extraction   | 10%                |
| Off-shore Arctic Oil & Gas Exploration                            | 10%                |
| Nuclear Power Generation  | 50%                |
| <b>Weapons</b>  |                    |
| Production of controversial weapons[1]                            | Excluded           |
| Production of nuclear weapons from countries signatory to the NPT | Excluded           |
| Military Contracting Weapons                                      | 10%                |
| Military Contracting Weapon-Related Products and/or Services      | 10%                |
| Small Arms Civilian Customers (Assault Weapons)                   | 10%                |
| Small Arms Civilian Customers (Non-Assault Weapons)               | 10%                |
| Small Arms Military/Law Enforcement Customers                     | 10%                |
| Small Arms Key Components   | 10%                |
| <b>Addictive Products</b>   |                    |
| Alcoholic Beverages Production                                    | 10%                |
| Tobacco Products Production                                       | 10%                |
| Adult Entertainment Production                                    | 10%                |
| Gambling Operations   | 10%                |
| Gambling Specialised Equipment                                    | 10%                |
| <b>Agriculture</b>  |                    |
| Genetically Modified Plants and Seeds Development                 | 10%                |
| Genetically Modified Plants and Seeds Growth                      | 10%                |
| Pesticides Production   | 10%                |
| Pesticides Retail   | 10%                |
| Palm Oil Production and Distribution                              | 10%                |

**Company Exclusions based on Breaches of International Norms**

|   |             |
|---|-------------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded    |
| High controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises                   | Excluded[2] |

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] Applies only to Sustainable Investments.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B). Note that our exclusion framework has been updated during 2024.

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of selected companies on material ESG issues.

## ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- **The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:**

96.57%

- **Overall ESG profile**

The fund's weighted average ESG score was better than that of the reference index.

The fund's weighted average ESG score was 0.62 against 0.02 for the reference index. A higher score means a lower risk. Scores range from -2 to 1, 1 being the best.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 0.00     | 3.53                |
| Weapons                         | 0.05     | 0.97                |
| Other controversial activities  | 0.00     | 0.84                |
| Eligible:                       | 98.83    | 100.00              |
| Covered:                        | 99.91    | 99.65               |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.  
Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **Voting rights**

During the reference period, the fund voted at 40 general assembly meetings out of 40 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 32.50% of meetings.

In respect to Environmental and/or Social issues we voted for 3 out of 3 management resolutions and for 5 out of 12 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

- **Engagement**

The fund engaged with 12 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 32.52%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 64.05%.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for

human rights, anti-corruption and anti-bribery matters.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS     | SECTOR                 | % ASSETS | COUNTRY                  |
|-------------------------|------------------------|----------|--------------------------|
| Visa Inc-Class A Shares | Financials             | 4.68     | United States of America |
| Prologis Inc            | Real Estate            | 4.67     | United States of America |
| Mastercard Inc - A      | Financials             | 4.31     | United States of America |
| Schneider Electric Se   | Industrials            | 4.21     | France                   |
| Waste Connections Inc   | Industrials            | 3.80     | United States of America |
| Segro Plc               | Real Estate            | 3.78     | United Kingdom           |
| Otis Worldwide Corp     | Industrials            | 3.67     | United States of America |
| Lowe's Cos Inc          | Consumer Discretionary | 3.52     | United States of America |
| Autodesk Inc            | Information Technology | 3.49     | United States of America |
| Equinix Inc             | Real Estate            | 3.40     | United States of America |

| Ecolab Inc              | Materials              | 3.02     | United States of America |

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

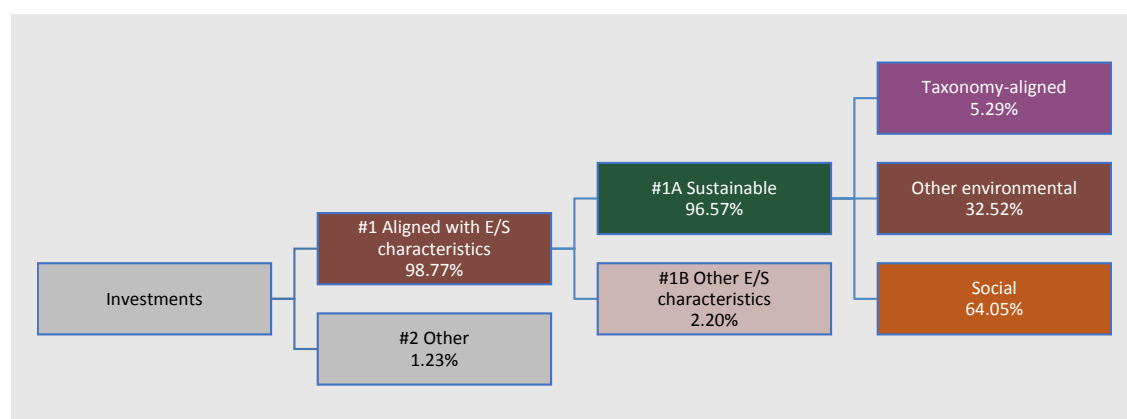

## What was the proportion of sustainability-related investments?

96.57%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 98.77% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 1.23% invested in Other (#2 Other). 96.57% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

Source: Pictet Asset Management, Sustainalytics, Factset RBICS, MSCI.

Comparison of the asset allocation to previous period:

| Asset allocation                    | 01.10.2022 - 30.09.2023 | 01.10.2023 - 30.09.2024 |
|-------------------------------------|-------------------------|-------------------------|
| #1 Aligned with E/S characteristics | 99.38%                  | 98.77%                  |
| #2 Other                            | 0.62%                   | 1.23%                   |
| #1A Sustainable                     | 99.28%                  | 96.57%                  |

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 98.77% of the total investments.

\* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: 0.00%
- Enabling activities: 2.10%

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

**Transitional activities**  
are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 3.68% versus 5.29% in the current reference period.  
Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

32.52%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

64.05%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- at least 51% of sustainable investments, i.e. investments in companies that have a significant exposure to activities such as smarter solutions to the challenges of urbanization and improving the quality of life of city residents, in particular in the areas of the environment, safety, health, education, employment, community or mobility (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- exclusion of issuers that:
  - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium

- derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and extraction, conventional oil and gas production, nuclear power generation, military contracting weapons, weapon-related products and services, small arms, alcoholic beverages, tobacco production, adult entertainment production, gambling operations and specialised equipment, genetically modified organisms development and growth, pesticides production and retail, and palm oil production and distribution. Please refer to Pictet Asset Management's Responsible Investment policy for further details on excluded sectors and exclusion thresholds.
- severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 12 companies as of 30.09.2024.

### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

#### ● How did the reference benchmark differ from a broad market index?

Not applicable.

#### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

#### ● How did this financial product perform compared with the reference benchmark?

Not applicable.

#### ● How did this financial product perform compared with the broad market index?

Not applicable.

MSCI has established an information barrier between index research and certain Information. None of the Information in and of itself can be used to determine which securities to buy or sell or when to buy or sell them. The Information is provided "as is" and the user assumes the entire risk of any use it may make or permit to be made of the Information. No MSCI Party warrants or guarantees the originality, accuracy and/or completeness of the Information and each expressly disclaims all express or implied warranties. No MSCI Party shall have any liability for any errors or omissions in connection with any Information herein, or any liability for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages.

In addition to the terms and conditions of any license agreement for MSCI information, services or products ("MSCI Products") entered into with MSCI Inc. and/or its affiliates ("MSCI") by customers ("Customer(s)"), each Customer must comply with the terms and conditions required by third party suppliers ("Supplier(s)") regarding Customer's use of Supplier content, data, software and other materials ("Materials") within MSCI Products. Customers may also be required to pay additional fees associated with Supplier Materials. If a Customer does not comply with a Supplier's terms, a Supplier may enforce such terms and/or require MSCI to terminate Customer's access to that Supplier's Materials, without any remedy to Customer.

Additional terms and conditions required by Suppliers with respect to its Materials are provided in the expanders below. If Customer receives Materials from a Supplier not listed below via MSCI Products, additional terms and conditions related to such Materials may apply. Notwithstanding anything to the contrary set forth below, none of the additional terms and conditions of MSCI Suppliers shall supersede (nor shall MSCI waive) any MSCI proprietary and/or intellectual property rights in MSCI Products.

The Global Industry Classification Standard ("GICS") was developed by and is the exclusive property and a service mark of Morgan Stanley Capital International Inc. ("MSCI") and Standard & Poor's, a division of The McGraw-Hill Companies, Inc. ("S&P") and is licensed for use by [Licensee]. Neither MSCI, S&P nor any third party involved in making or compiling the GICS or any GICS classifications makes any express or implied warranties or representations with respect to such standard or classification (or the results to be obtained by the use thereof), and all such parties hereby expressly disclaim all warranties of originality, accuracy, completeness, merchantability and fitness for a particular purpose with respect to any of such standard or classification. Without limiting any of the foregoing, in no event shall MSCI, S&P, any of their affiliates or any third party involved in making or compiling the GICS or any GICS classifications have any liability for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Quest Global Sustainable Equities**

Legal entity identifier: **549300TUK050NDNPS715**

**ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?  |  |
|--|--|
| <input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> Yes                           | <input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No  |
| <input type="checkbox"/> It made <b>sustainable investments with an environmental objective</b> : ____%                  | <input checked="" type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of <b>49.49%</b> of sustainable investments |

|  | <input checked="" type="checkbox"/> with a social objective  |
| <input type="checkbox"/> It made <b>sustainable investments with a social objective</b> : ____%                          | <input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>  |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- **Best-in-class:**  
The fund invested in securities of issuers with low sustainability risks while avoiding those with high sustainability risks, reducing the investment universe by at least 20%. The MSCI World index was used to measure the universe reduction; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- **Carbon intensity:**  
The fund has a lower carbon intensity than the investment universe.
- **Norms- and values-based exclusions:**  
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

## Company Exclusions based on Controversial Activities and Revenue thresholds

| Activity  | Revenue thresholds |
|---|--------------------|
| <b>Energy</b>                                       |                    |
| Thermal Coal Extraction                             | 25%                |
| Thermal Coal Power Generation                       | 25%                |
| Oil Sands Extraction                                | 25%                |
| Shale Energy Extraction                             | 25%                |
| Off-shore Arctic Oil & Gas Exploration              | 10%                |
| <b>Weapons</b>                                      |                    |
| Production of controversial weapons[1]              | Excluded           |
| Military Contracting Weapons                        | 10%                |
| Small Arms Civilian Customers (Assault Weapons)     | 10%                |
| Small Arms Civilian Customers (Non-Assault Weapons) | 10%                |
| Small Arms Military/Law Enforcement Customers       | 25%                |
| Small Arms Key Components                           | 25%                |
| <b>Addictive Products</b>                           |                    |
| Tobacco Products Production                         | 10%                |
| Adult Entertainment Production                      | 10%                |
| Gambling Operations                                 | 10%                |

## Company Exclusions based on Breaches of International Norms

|   |          |
|---|----------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded |
|---|----------|

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of selected companies on material ESG issues.

## ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- **The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:**

49.49%

- **Reduction of the investment universe based on ESG factors**

The fund reduced its investment universe by removing at least 20% of issuers with the highest sustainability risks and/or principle adverse impacts on society or the environment.

Sustainability risks are ESG related risk or conditions that could cause a material negative impact on the value of investments if they were to occur. Sustainability risks included but were not limited to the following: climate transition risk, climate physical risk, environmental risk, social risk, governance risk. Periodic reviews and risk controls are in place to monitor implementation.

Principal adverse impacts are negative, material, or likely to be material effects on sustainability factors that are caused, compounded by, or directly linked to investment decisions and advices. Such principle adverse impacts included among others, GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/ radioactive waste, social & employee matters and corruption & bribery.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 0.01     | 3.51                |
| Weapons                         | 0.10     | 1.03                |
| Other controversial activities  | 0.00     | 0.89                |
| Eligible:                       | 99.74    | 100.00              |
| Covered:                        | 100.00   | 99.62               |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **Voting rights**

During the reference period, the fund voted at 129 general assembly meetings out of 129 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 30.23% of meetings.

In respect to Environmental and/or Social issues we voted for 11 out of 11 management resolutions and for 46 out of 76 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

- **Engagement**

The fund engaged with 21 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

#### Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 9.13%.

#### Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 40.36%.

### ● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-party providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

### ● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

### ● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

*The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.*

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

### (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

### (ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

### (iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

### (iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

| LARGEST INVESTMENTS     | SECTOR                 | % ASSETS | COUNTRY                  |
|-------------------------|------------------------|----------|--------------------------|
| Apple Inc               | Information Technology | 6.37     | United States of America |
| Microsoft Corp          | Information Technology | 4.99     | United States of America |

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

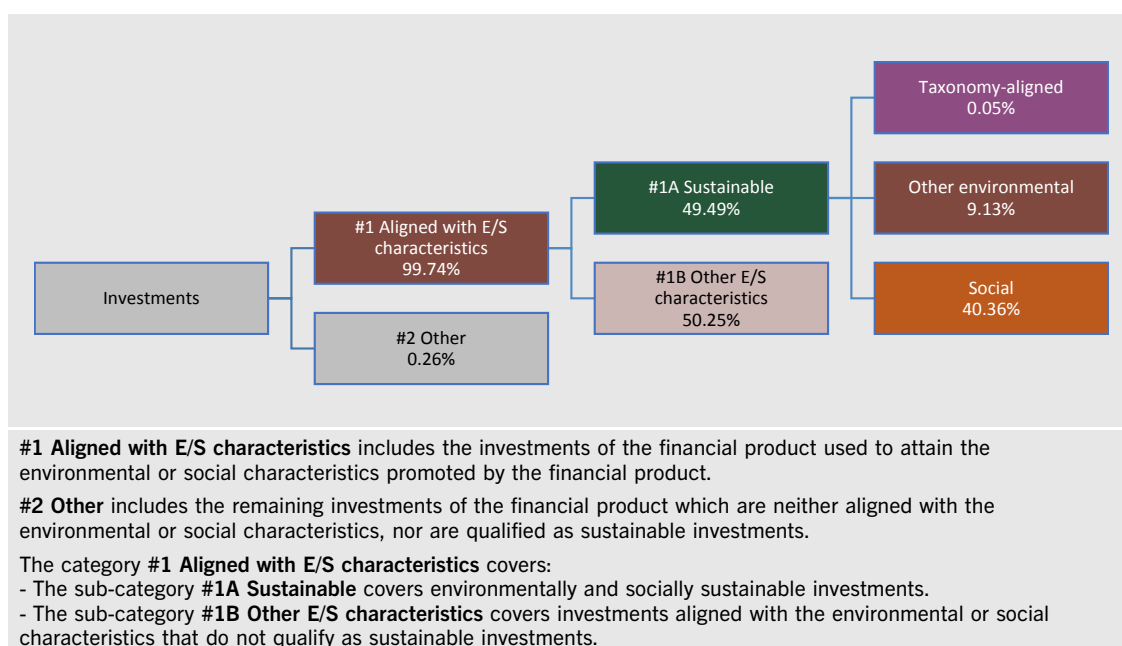

## What was the proportion of sustainability-related investments?

49.49%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 99.74% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 0.26% invested in Other (#2 Other). 49.49% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

- Pictet Asset Management used a proprietary framework to define sustainable investments. "1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by

revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 99.74% of the total investments.

\* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: 0.00%
- Enabling activities: 0.05%

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 0.06% versus 0.05% in the current reference period.  
Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

9.13%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

40.36%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.

- severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
  - ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio
- Furthermore, the fund engaged with 21 companies as of 30.09.2024.

#### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

#### ● How did the reference benchmark differ from a broad market index?

Not applicable.

#### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

#### ● How did this financial product perform compared with the reference benchmark?

Not applicable.

#### ● How did this financial product perform compared with the broad market index?

Not applicable.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Robotics**

Legal entity identifier: **549300SVYNI470IC3C69**

**ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?  |  |
|--|--|
| <input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> Yes                           | <input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No  |
| <input type="checkbox"/> It made <b>sustainable investments with an environmental objective</b> : ____%                  | <input checked="" type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of <b>75.12%</b> of sustainable investments |
| <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy        | <input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy   |

|  | <input checked="" type="checkbox"/> with a social objective  |
| <input type="checkbox"/> It made <b>sustainable investments with a social objective</b> : ____%                          | <input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>  |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- **Positive impact:**  
The fund achieved a positive environmental and/or social impact by investing mainly in companies providing robotic applications, automation solutions or enabling technologies.  
The fund invested mainly in companies whose significant proportion of their activities are related to products and services contributing to sustainable economic growth by improving companies' use of resources, improving the quality of their goods and services, reducing their environmental impact, and helping companies to compensate for the loss of productivity due to population ageing, in particular in the areas of, but not limited to, robotics applications and components, automation, autonomous systems, sensors, microcontrollers, 3D printing, data processing, actuation technology as well as image, motion or voice recognition and other enabling technologies and software, and other relevant economic activities.  
No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

**Company Exclusions based on Controversial Activities and Revenue thresholds**

| Activity  | Revenue thresholds |
|---|--------------------|
| <b>Energy</b>   |                    |
| Thermal Coal Extraction   | 10%                |
| Thermal Coal Power Generation                                     | 10%                |

| <b>Agriculture</b>  |                    |
| Genetically Modified Plants and Seeds Development                 | 10%                |
| Genetically Modified Plants and Seeds Growth                      | 10%                |
| Pesticides Production   | 10%                |
| Pesticides Retail   | 10%                |
| Palm Oil Production and Distribution                              | 10%                |

**Company Exclusions based on Breaches of International Norms**

|   |             |
|---|-------------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded    |
| High controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises                   | Excluded[2] |

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] Applies only to Sustainable Investments.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B). Note that our exclusion framework has been updated during 2024.

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of selected companies on material ESG issues.

## ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- **The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:**

75.12%

- **Overall ESG profile**

The fund's weighted average ESG score was better than that of the reference index.

The fund's weighted average ESG score was 0.23 against -0.08 for the reference index. A higher score means a lower risk. Scores range from -2 to 1, 1 being the best.

Note that the fund has been classified Article 8 positive impact during 2024 (previously Article 8 positive tilt).

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 0.00     | 3.53                |
| Weapons                         | 0.19     | 0.97                |
| Other controversial activities  | 0.00     | 0.84                |
| Eligible:                       | 96.33    | 100.00              |
| Covered:                        | 100.00   | 99.65               |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainability.

In addition, the fund excluded issuers that had exposure to:

(i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.

(ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **Voting rights**

During the reference period, the fund voted at 36 general assembly meetings out of 36 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 38.89% of meetings.

In respect to Environmental and/or Social issues we voted for 0 out of 0 management resolutions and for 1 out of 3 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

- **Engagement**

The fund engaged with 11 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 62.11%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 13.01%.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for

human rights, anti-corruption and anti-bribery matters.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS          | SECTOR                 | % ASSETS | COUNTRY                  |
|------------------------------|------------------------|----------|--------------------------|
| Salesforce Inc               | Information Technology | 6.31     | United States of America |
| Taiwan Semiconductor Manufac | Information Technology | 5.62     | Taiwan                   |
| Advanced Micro Devices       | Information Technology | 4.66     | United States of America |
| Nvidia Corp                  | Information Technology | 4.00     | United States of America |
| Infineon Technologies Ag     | Information Technology | 3.88     | Germany                  |
| Siemens Ag-Reg               | Industrials            | 3.49     | Germany                  |
| Workday Inc-Class A          | Information Technology | 3.47     | United States of America |
| Marvell Technology Inc       | Information Technology | 3.40     | United States of America |
| Kla Corp                     | Information Technology | 3.39     | United States of America |
| Alphabet Inc-CI C            | Communication Services | 3.34     | United States of America |

| Alphabet Inc-CI A            | Communication Services | 2.96     | United States of America |

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

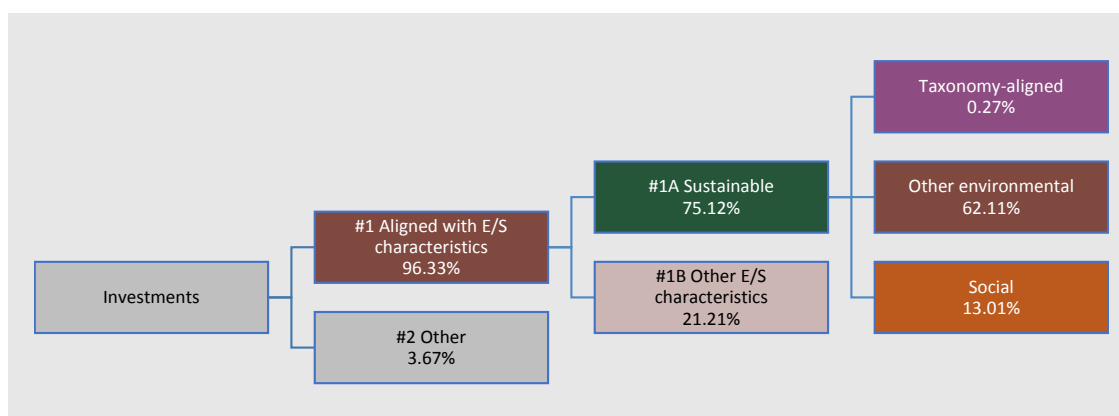

## What was the proportion of sustainability-related investments?

75.12%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 96.33% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 3.67% invested in Other (#2 Other). 75.12% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

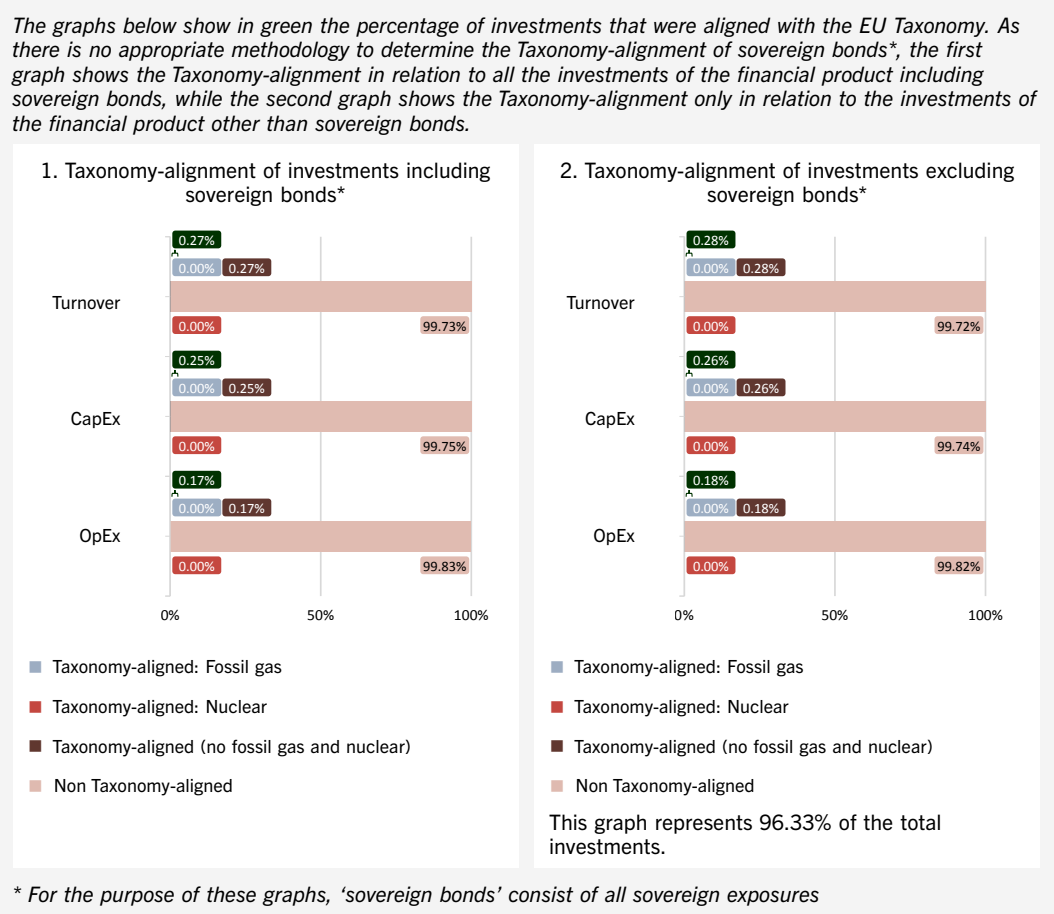

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

- **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**
  - ☐ Yes:
    - ☐ In fossil gas    ☐ In nuclear energy
  - ☒ No

Source: Pictet Asset Management, MSCI.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

- **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

  - Transitional activities: 0.00%
  - Enabling activities: 0.28%

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 0.00% versus 0.27% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

62.11%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

13.01%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- at least 51% of sustainable investments, i.e. investments in companies that have a significant exposure to activities that contribute to sustainable economic growth through automation, robotics systems and enabling technologies (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- exclusion of issuers that:
  - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and extraction, conventional oil and gas production, nuclear power generation, military contracting weapons, weapon-related products and services, small arms, alcoholic beverages, tobacco production, adult entertainment production, gambling operations and specialised equipment, genetically modified organisms development and growth, pesticides production and retail, and palm oil production and distribution. Please refer to Pictet Asset Management's Responsible Investment policy for further details on excluded sectors and exclusion thresholds.
  - severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index

- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 11 companies as of 30.09.2024.

#### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- **How did the reference benchmark differ from a broad market index?**

Not applicable.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

- **How did this financial product perform compared with the reference benchmark?**

Not applicable.

- **How did this financial product perform compared with the broad market index?**

Not applicable.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Global Thematic Opportunities**

Legal entity identifier: **54930047FQRZRSMWPH67**

**ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?  |  |
|--|--|
| <input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> Yes                           | <input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No  |
| <input type="checkbox"/> It made <b>sustainable investments with an environmental objective</b> : ____%                  | <input checked="" type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of <b>82.22%</b> of sustainable investments |

|  | <input checked="" type="checkbox"/> with a social objective  |
| <input type="checkbox"/> It made <b>sustainable investments with a social objective</b> : ____%                          | <input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>  |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- **Positive impact:**  
The fund achieved a positive environmental and/or social impact by investing mainly in companies that may benefit from global long-term themes resulting from secular changes in economic, social and environmental factors such as demographics, lifestyle or regulations.  
The fund invested mainly in companies whose significant proportion of their activities are related to products and services supporting the energy transition, circular economy, energy efficiency, water quality and supply, sustainable forestry, sustainable cities, nutrition, human health and therapeutics, personal self-fulfilment and security and other relevant economic activities.  
No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

**Company Exclusions based on Controversial Activities and Revenue thresholds**

| Activity  | Revenue thresholds |
|---|--------------------|
| <b>Energy</b>   |                    |
| Thermal Coal Extraction   | 10%                |
| Thermal Coal Power Generation                                     | 10%                |
| Oil & Gas Production  | 10%                |
| Oil Sands Extraction  | 10%                |
| Shale Energy Extraction   | 10%                |
| Off-shore Arctic Oil & Gas Exploration                            | 10%                |
| Nuclear Power Generation  | 50%                |
| <b>Weapons</b>  |                    |
| Production of controversial weapons[1]                            | Excluded           |
| Production of nuclear weapons from countries signatory to the NPT | Excluded           |
| Military Contracting Weapons                                      | 10%                |
| Military Contracting Weapon-Related Products and/or Services      | 10%                |
| Small Arms Civilian Customers (Assault Weapons)                   | 10%                |
| Small Arms Civilian Customers (Non-Assault Weapons)               | 10%                |
| Small Arms Military/Law Enforcement Customers                     | 10%                |
| Small Arms Key Components   | 10%                |
| <b>Addictive Products</b>   |                    |
| Alcoholic Beverages Production                                    | 10%                |
| Tobacco Products Production                                       | 10%                |
| Adult Entertainment Production                                    | 10%                |
| Gambling Operations   | 10%                |
| Gambling Specialised Equipment                                    | 10%                |
| <b>Agriculture</b>  |                    |
| Genetically Modified Plants and Seeds Development                 | 10%                |
| Genetically Modified Plants and Seeds Growth                      | 10%                |
| Pesticides Production   | 10%                |
| Pesticides Retail   | 10%                |
| Palm Oil Production and Distribution                              | 10%                |

**Company Exclusions based on Breaches of International Norms**

|   |             |
|---|-------------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded    |
| High controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises                   | Excluded[2] |

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] Applies only to Sustainable Investments.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B). Note that our exclusion framework has been updated during 2024.

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- **Active ownership:**

The fund methodically exercised its voting rights and engaged with the management of selected companies on material ESG issues.

## ● **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:**

82.22%

- **Overall ESG profile**

The fund's weighted average ESG score was better than that of the reference index.

The fund's weighted average ESG score was 0.38 against 0.02 for the reference index. A higher score means a lower risk. Scores range from -2 to 1, 1 being the best.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 0.46     | 3.53                |
| Weapons                         | 0.10     | 0.97                |
| Other controversial activities  | 0.03     | 0.84                |
| Eligible:                       | 98.27    | 100.00              |
| Covered:                        | 100.00   | 99.65               |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.  
Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **Voting rights**

During the reference period, the fund voted at 48 general assembly meetings out of 48 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 45.83% of meetings.

In respect to Environmental and/or Social issues we voted for 4 out of 4 management resolutions and for 35 out of 53 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

- **Engagement**

The fund engaged with 22 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 39.76%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 42.46%.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for

human rights, anti-corruption and anti-bribery matters.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*
- The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS          | SECTOR                 | % ASSETS | COUNTRY                  |
|------------------------------|------------------------|----------|--------------------------|
| Visa Inc-Class A Shares      | Financials             | 3.97     | United States of America |
| Microsoft Corp               | Information Technology | 3.63     | United States of America |
| Thermo Fisher Scientific Inc | Health Care            | 3.57     | United States of America |

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

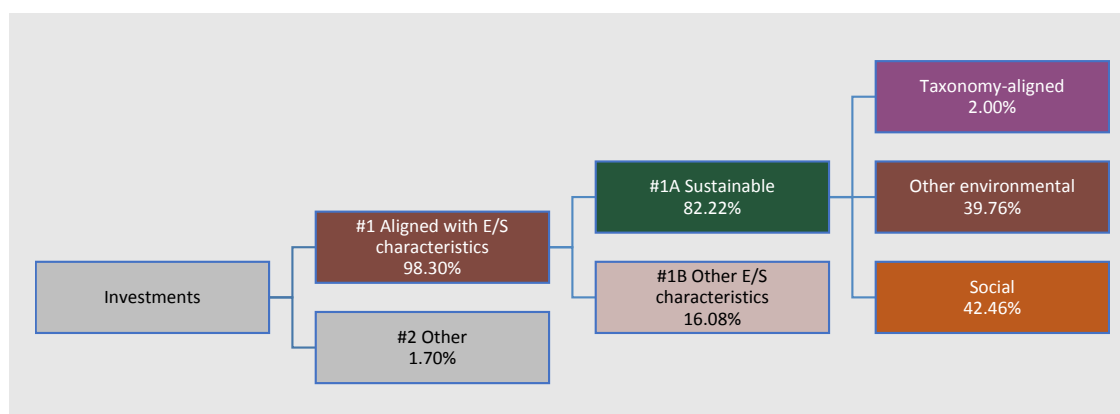

## What was the proportion of sustainability-related investments?

82.22%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 98.30% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 1.70% invested in Other (#2 Other). 82.22% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

To what extent were the sustainable investments with an environmental objective aligned

### with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

#### ● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.

- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.

- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

■ Taxonomy-aligned: Fossil gas  
■ Taxonomy-aligned: Nuclear  
■ Taxonomy-aligned (no fossil gas and nuclear)  
■ Non Taxonomy-aligned

2. Taxonomy-alignment of investments excluding sovereign bonds\*

■ Taxonomy-aligned: Fossil gas  
■ Taxonomy-aligned: Nuclear  
■ Taxonomy-aligned (no fossil gas and nuclear)  
■ Non Taxonomy-aligned

This graph represents 98.30% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: 0.00%
- Enabling activities: 0.60%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 1.31% versus 2.00% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

39.76%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

42.46%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- at least 51% of sustainable investments, i.e. investments in companies that have a significant exposure to activities such as products and services supporting the energy transition, circular economy, energy efficiency, water quality and supply, sustainable forestry, sustainable cities,

nutrition, human health and therapeutics, personal self-fulfilment and security and other relevant economic activities (as measured by revenue, enterprise value, earnings before interest and tax, or similar)

- exclusion of issuers that:
  - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and extraction, conventional oil and gas production, nuclear power generation, military contracting weapons, weapon-related products and services, small arms, alcoholic beverages, tobacco production, adult entertainment production, gambling operations and specialised equipment, genetically modified organisms development and growth, pesticides production and retail, and palm oil production and distribution. Please refer to Pictet Asset Management's Responsible Investment policy for further details on excluded sectors and exclusion thresholds.
  - severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 22 companies as of 30.09.2024.

#### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

#### • How did the reference benchmark differ from a broad market index?

Not applicable.

#### • How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

#### • How did this financial product perform compared with the reference benchmark?

Not applicable.

#### • How did this financial product perform compared with the broad market index?

Not applicable.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Human**

Legal entity identifier: **222100ORR1PU9L15K502**

**ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?  |  |
|--|--|
| <input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> Yes                           | <input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No  |
| <input type="checkbox"/> It made <b>sustainable investments with an environmental objective</b> : ____%                  | <input checked="" type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of <b>72.42%</b> of sustainable investments |

|  | <input checked="" type="checkbox"/> with a social objective  |
| <input type="checkbox"/> It made <b>sustainable investments with a social objective</b> : ____%                          | <input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>  |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- **Positive impact:**  
The fund achieved a positive social impact by investing mainly in companies that help individuals to adapt to the demographic and technological shifts that have transformed lives. These companies help individuals to lead more fulfilling lives through services that enable life-long learning, provide care services and the services to enjoy themselves.  
The fund invested mainly in companies whose significant proportion of their activities are related to services in education, distance learning, career development, support services, retirement homes, entertainment and other relevant economic activities.  
No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

**Company Exclusions based on Controversial Activities and Revenue thresholds**

| Activity  | Revenue thresholds |
|---|--------------------|
| <b>Energy</b>   |                    |
| Thermal Coal Extraction   | 10%                |
| Thermal Coal Power Generation                                     | 10%                |
| Oil & Gas Production  | 10%                |
| Oil Sands Extraction  | 10%                |
| Shale Energy Extraction   | 10%                |
| Off-shore Arctic Oil & Gas Exploration                            | 10%                |
| Nuclear Power Generation  | 50%                |
| <b>Weapons</b>  |                    |
| Production of controversial weapons[1]                            | Excluded           |
| Production of nuclear weapons from countries signatory to the NPT | Excluded           |
| Military Contracting Weapons                                      | 10%                |
| Military Contracting Weapon-Related Products and/or Services      | 10%                |
| Small Arms Civilian Customers (Assault Weapons)                   | 10%                |
| Small Arms Civilian Customers (Non-Assault Weapons)               | 10%                |
| Small Arms Military/Law Enforcement Customers                     | 10%                |
| Small Arms Key Components   | 10%                |
| <b>Addictive Products</b>   |                    |

| Adult Entertainment Production                                    | 10%                |
| Gambling Operations   | 10%                |
| Gambling Specialised Equipment                                    | 10%                |
| <b>Agriculture</b>  |                    |
| Genetically Modified Plants and Seeds Development                 | 10%                |
| Genetically Modified Plants and Seeds Growth                      | 10%                |
| Pesticides Production   | 10%                |
| Pesticides Retail   | 10%                |
| Palm Oil Production and Distribution                              | 10%                |

**Company Exclusions based on Breaches of International Norms**

|   |             |
|---|-------------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded    |
| High controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises                   | Excluded[2] |

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] Applies only to Sustainable Investments.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B). Note that our exclusion framework has been updated during 2024.

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of selected companies on material ESG issues.

## ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- **The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:**

72.42%

- **Overall ESG profile**

The fund's weighted average ESG score was better than that of the reference index.

The fund's weighted average ESG score was 0.44 against 0.02 for the reference index. A higher score means a lower risk. Scores range from -2 to 1, 1 being the best.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 0.00     | 3.53                |
| Weapons                         | 0.00     | 0.97                |
| Other controversial activities  | 0.19     | 0.84                |
| Eligible:                       | 99.28    | 100.00              |
| Covered:                        | 100.00   | 99.65               |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.  
Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **Voting rights**

During the reference period, the fund voted at 32 general assembly meetings out of 32 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 43.75% of meetings.

In respect to Environmental and/or Social issues we voted for 2 out of 2 management resolutions and for 6 out of 12 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

- **Engagement**

The fund engaged with 5 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 4.68%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 67.73%.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for

human rights, anti-corruption and anti-bribery matters.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*
- The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS     | SECTOR                 | % ASSETS | COUNTRY                  |
|-------------------------|------------------------|----------|--------------------------|
| Welltower Inc           | Real Estate            | 5.13     | United States of America |
| Booking Holdings Inc    | Consumer Discretionary | 5.06     | United States of America |
| Recruit Holdings Co Ltd | Industrials            | 4.92     | Japan                    |
| Relx Plc                | Industrials            | 4.92     | United Kingdom           |
| Netflix Inc             | Communication Services | 4.82     | United States of America |
| Zoetis Inc              | Health Care            | 4.69     | United States of America |
| Intuit Inc              | Information Technology | 4.53     | United States of America |
| Wolters Kluwer          | Industrials            | 4.41     | Netherlands              |
| Unitedhealth Group Inc  | Health Care            | 4.39     | United States of America |
| Compass Group Plc       | Consumer Discretionary | 3.91     | United Kingdom           |
| Idexx Laboratories Inc  | Health Care            | 3.88     | United States of America |

## What was the proportion of sustainability-related investments?

72.42%

Asset allocation describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 99.28% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 0.72% invested in Other (#2 Other). 72.42% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented

policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.

Source: Pictet Asset Management, Sustainalytics, Factset RBICS.

Comparison of the asset allocation to previous period:

| Asset allocation                    | 01.10.2022 - 30.09.2023 | 01.10.2023 - 30.09.2024 |
|-------------------------------------|-------------------------|-------------------------|
| #1 Aligned with E/S characteristics | 97.80%                  | 99.28%                  |
| #2 Other                            | 2.20%                   | 0.72%                   |
| #1A Sustainable                     | 76.14%                  | 72.42%                  |
| #1B Other E/S characteristics       | 21.66%                  | 26.86%                  |
| Taxonomy-aligned                    | 0.00%                   | 0.00%                   |
| Other environmental                 | 4.65%                   | 4.68%                   |
| Social                              | 71.49%                  | 67.73%                  |

### ● In which economic sectors were the investments made?

| SECTOR LEVEL 1         | SECTOR LEVEL 2                               | % ASSETS |
|------------------------|--|----------|
| Communication Services | Media & Entertainment                        | 16.86    |
| Consumer Discretionary | Consumer Discretionary Distribution & Retail | 0.28     |
| Consumer Discretionary | Consumer Services                            | 18.75    |

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

Not applicable.

### ● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

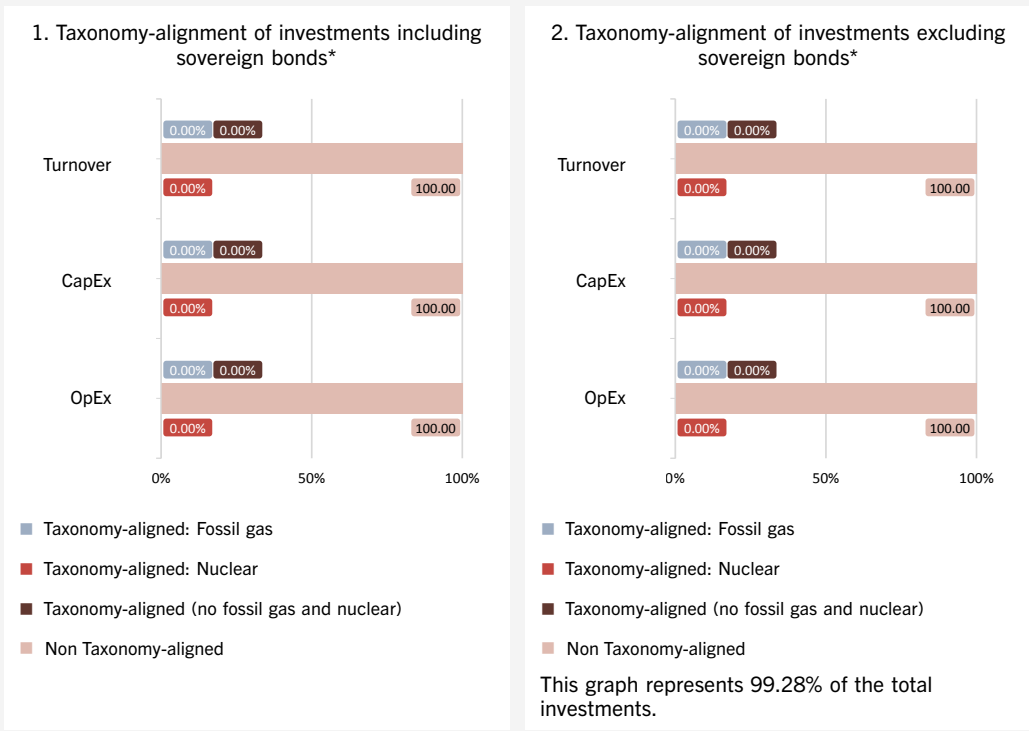

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

\* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**  
Not applicable.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**  
Not applicable.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

4.68%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the**

**What was the share of socially sustainable investments?**

67.73%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- at least 51% of sustainable investments, i.e. investments in companies that have a significant exposure to activities such as services in education, distance learning, career development, support services, retirement homes, entertainment and other relevant economic activities (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- exclusion of issuers that:
  - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and extraction, conventional oil and gas production, nuclear power generation, military contracting weapons, weapon-related products and services, small arms, alcoholic beverages, tobacco production, adult entertainment production, gambling operations and specialised equipment, genetically modified organisms development and growth, pesticides production and retail, and palm oil production and distribution. Please refer to Pictet Asset Management's Responsible Investment policy for further details on excluded sectors and exclusion thresholds.
  - severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 5 companies as of 30.09.2024.

**How did this financial product perform compared to the reference benchmark?**

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

**How did the reference benchmark differ from a broad market index?**

Not applicable.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**  
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**  
Not applicable.
- **How did this financial product perform compared with the broad market index?**  
Not applicable.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Positive Change**

Legal entity identifier: **213800S7IB4ML8TXCN91**

**ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| <input type="checkbox"/> It made <b>sustainable investments with a social objective: ____%</b>  | <input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>  |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- **Best-in-class / best effort:**  
The fund invested in securities of issuers with low and/or decreasing sustainability risks while avoiding those with high and/or increasing sustainability risk, reducing the investment universe by at least 20%. The MSCI AC World index was used to measure the universe reduction; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- **Improving impact:**  
The fund achieved a positive environmental and social impact through improving alignment with globally accepted frameworks or principles.
- **Norms- and values-based exclusions:**  
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

## Company Exclusions based on Controversial Activities and Revenue thresholds

| Activity  | Revenue thresholds |
|---|--------------------|
| <b>Energy</b>   |                    |
| Thermal Coal Extraction   | 25%                |
| Thermal Coal Power Generation   | 25%                |
| Oil Sands Extraction  | 25%                |
| Shale Energy Extraction   | 25%                |
| Off-shore Arctic Oil & Gas Exploration  | 10%                |
| <b>Weapons</b>  |                    |
| Production of controversial weapons[1]  | Excluded           |
| Military Contracting Weapons  | 10%                |
| Small Arms Civilian Customers (Assault Weapons)   | 10%                |
| Small Arms Civilian Customers (Non-Assault Weapons)   | 10%                |
| Small Arms Military/Law Enforcement Customers   | 25%                |
| Small Arms Key Components   | 25%                |
| <b>Addictive Products</b>   |                    |
| Tobacco Products Production   | 10%                |
| Adult Entertainment Production  | 10%                |
| Gambling Operations   | 10%                |
| <b>Company Exclusions based on Breaches of International Norms</b>  |                    |
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded           |

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of selected companies on material ESG issues.

### ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- **The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:**

55.95%

- **Extent of alignment with SDGs**

The compartment used a proprietary systematic indicator based on natural language processing technology to estimate the alignment of the products and services of each issuer to all relevant SDGs. The output of this indicator is provided in strategy level reporting documentation.

- **Reduction of the investment universe based on ESG factors**

The fund reduced its investment universe by removing at least 20% of issuers with the highest sustainability risks and/or principle adverse impacts on society or the environment.

Sustainability risks are ESG related risk or conditions that could cause a material negative impact on the value of investments if they were to occur. Sustainability risks included but were not limited to the following: climate transition risk, climate physical risk, environmental risk, social risk, governance risk. Periodic reviews and risk controls are in place to monitor implementation.

Principal adverse impacts are negative, material, or likely to be material effects on sustainability factors that are caused, compounded by, or directly linked to investment decisions and advices. Such principle adverse impacts included among others, GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/ radioactive waste, social & employee matters and corruption & bribery.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 2.62     | 3.53                |
| Weapons                         | 0.20     | 0.97                |
| Other controversial activities  | 0.00     | 0.84                |
| Eligible:                       | 99.45    | 100.00              |
| Covered:                        | 100.00   | 99.65               |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete. Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **Voting rights**

During the reference period, the fund voted at 48 general assembly meetings out of 48 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 39.58% of meetings.

In respect to Environmental and/or Social issues we voted for 2 out of 2 management resolutions and for 15 out of 31 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

- **Engagement**

The fund engaged with 18 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) The fund used a proprietary indicator based on natural language processing to provide a systematic and independent assessment of the alignment of the products and services of each issuer to all relevant SDGs. Individual issuer outputs were combined, on a sector relative basis, to provide a portfolio assessment of SDG alignment – showing aggregate positive, negative and average alignment to the 14 relevant SDGs. Portfolio level SDG alignment is shown on a quarterly basis in the compartment reporting documentation. Due to the detail provided, SDG alignment is not suitable to be shown in this document.

(\*\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

#### Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 31.51%.

#### Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 24.44%.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-party providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

- *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

### (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund’s scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team’s scoring process was a key component of the compartment’s portfolio construction process, determining target weights in the portfolio.

### (ii) proxy voting

The fund followed Pictet Asset Management’s voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

### (iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

### (iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management’s Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS   | SECTOR                 | % ASSETS | COUNTRY                  |
|-----------------------|------------------------|----------|--------------------------|
| Microsoft Corp        | Information Technology | 5.76     | United States of America |
| Republic Services Inc | Industrials            | 4.67     | United States of America |

## What was the proportion of sustainability-related investments?

55.95%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 99.45% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 0.55% invested in Other (#2 Other). 55.95% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

- Pictet Asset Management used a proprietary framework to define sustainable investments. "1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by

revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

## To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

### ● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 99.45% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: 0.00%
- Enabling activities: 0.28%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 2.38% versus 3.92% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

31.51%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

24.44%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 18 companies as of 30.09.2024.

### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

#### ● How did the reference benchmark differ from a broad market index?

Not applicable.

#### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

#### ● How did this financial product perform compared with the reference benchmark?

Not applicable.

#### ● How did this financial product perform compared with the broad market index?

Not applicable.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - ReGeneration**

Legal entity identifier: **213800OU5V7XZIMGDV31**

**SUSTAINABLE INVESTMENT OBJECTIVE**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?   |   |
|---|---|
| <input checked="" type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> Yes                           | <input checked="" type="radio"/> <input type="radio"/> <input type="checkbox"/> No  |
| <input checked="" type="checkbox"/> It made <b>sustainable investments with an environmental objective: 59.85%</b>                  | <input type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments |
| <input checked="" type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy        | <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy   |
| <input checked="" type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy | <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy  |
|   | <input type="checkbox"/> with a social objective  |
| <input checked="" type="checkbox"/> It made <b>sustainable investments with a social objective: 38.27%</b>                          | <input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>   |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent was the sustainable investment objective of this financial product met?**

Main ways in which the fund achieved its sustainable objective:

- **Positive impact:**  
The fund achieved a positive environmental and/or social impact by mainly investing in companies with a low environmental footprint that contribute with their products and services to solving two closely linked environmental challenges: biodiversity and the circular economy.  
No reference index has been designated for the purpose of attaining the sustainable investment objective.  
The fund invested mainly in companies whose significant proportion of their activities are related to, but not limited to, renewable resources, ecological design, optimized production, biological cycle, smart consumption, waste repurposing and other relevant economic activities.  
Eligible securities included equities issued by companies with a significant proportion of activities (as measured by revenue, EBIT, enterprise value or similar metrics) derived from such economic activities.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

**Company Exclusions based on Controversial Activities and Revenue thresholds**

| Activity  | Revenue thresholds |
|---|--------------------|
| <b>Energy</b>   |                    |
| Thermal Coal Extraction   | 10%                |
| Thermal Coal Power Generation                                     | 10%                |
| Oil & Gas Production  | 10%                |
| Oil Sands Extraction  | 10%                |
| Shale Energy Extraction   | 10%                |
| Off-shore Arctic Oil & Gas Exploration                            | 10%                |
| Nuclear Power Generation  | 50%                |
| <b>Weapons</b>  |                    |
| Production of controversial weapons[1]                            | Excluded           |
| Production of nuclear weapons from countries signatory to the NPT | Excluded           |
| Military Contracting Weapons                                      | 10%                |
| Military Contracting Weapon-Related Products and/or Services      | 10%                |
| Small Arms Civilian Customers (Assault Weapons)                   | 10%                |
| Small Arms Civilian Customers (Non-Assault Weapons)               | 10%                |
| Small Arms Military/Law Enforcement Customers                     | 10%                |

| <b>Addictive Products</b>   |                    |
| Alcoholic Beverages Production                                    | 10%                |
| Tobacco Products Production                                       | 10%                |
| Adult Entertainment Production                                    | 10%                |
| Gambling Operations   | 10%                |
| Gambling Specialised Equipment                                    | 10%                |
| <b>Agriculture</b>  |                    |
| Genetically Modified Plants and Seeds Development                 | 10%                |
| Genetically Modified Plants and Seeds Growth                      | 10%                |
| Pesticides Production   | 10%                |
| Pesticides Retail   | 10%                |
| Palm Oil Production and Distribution                              | 10%                |

**Company Exclusions based on Breaches of International Norms**

|   |             |
|---|-------------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded    |
| High controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises                   | Excluded[2] |

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] Applies only to Sustainable Investments.

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- **Active ownership:**

The fund methodically exercised its voting rights. The fund also engaged with the management of selected companies on material ESG issues.

- **Sustainable Investments:**

Pictet Asset Management used a proprietary framework as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

#### Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 59.85%.

#### Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 38.27%.

#### ● **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:**

98.12%

- **Overall ESG profile**

The fund's weighted average ESG score was better than that of the reference index.

The fund's weighted average ESG score was 0.58 against 0.02 for the reference index. A higher score means a lower risk. Scores range from -2 to 1, 1 being the best.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

**Sustainability indicators** measure how the sustainable objectives of this financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment as detailed below:

Controversial activities (weighted average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 0.01     | 3.53                |
| Weapons                         | 0.03     | 0.97                |
| Other controversial activities  | 0.06     | 0.84                |
| Eligible:                       | 98.12    | 100.00              |
| Covered:                        | 100.00   | 99.65               |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.  
Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Voting rights

During the reference period, the fund voted at 53 general assembly meetings out of 53 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 54.72% of meetings.

In respect to Environmental and/or Social issues we voted for 3 out of 3 management resolutions and for 2 out of 5 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

#### • Engagement

The fund engaged with 22 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

## ● How did the sustainable investments not cause significant harm to any sustainable investment objective?

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were excluded.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in

the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also act as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as well as the exposure to sustainable investments as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers to address either significant ESG concerns, improve companies' sustainability practices or engage on positive impact topics to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS          | SECTOR                 | % ASSETS | COUNTRY                  |
|------------------------------|------------------------|----------|--------------------------|
| Intuit Inc                   | Information Technology | 3.98     | United States of America |
| Cadence Design Sys Inc       | Information Technology | 3.94     | United States of America |
| Bank Rakyat Indonesia Perser | Financials             | 3.26     | Indonesia                |
| Republic Services Inc        | Industrials            | 3.17     | United States of America |
| Kla Corp                     | Information Technology | 3.14     | United States of America |
| Tetra Tech Inc               | Industrials            | 3.02     | United States of America |
| Copart Inc                   | Industrials            | 3.00     | United States of America |
| Asml Holding Nv              | Information Technology | 2.85     | Netherlands              |
| Equinix Inc                  | Real Estate            | 2.80     | United States of America |
| Nu Holdings Ltd/Cayman Isl-A | Financials             | 2.63     | Brazil                   |
| Ecolab Inc                   | Materials              | 2.54     | United States of America |
| Schneider Electric Se        | Industrials            | 2.38     | France                   |

| Packaging Corp Of America    | Materials              | 2.25     | United States of America |
| Nxp Semiconductors Nv        | Information Technology | 2.24     | China                    |

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

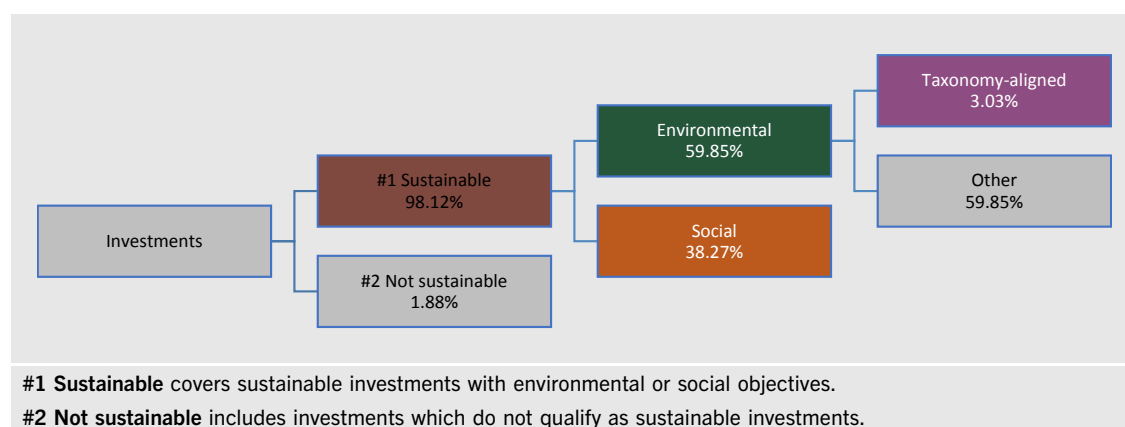

## What was the proportion of sustainability-related investments?

98.12%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund allocated 98.12% of its assets to Sustainable investments (#1 Sustainable) and 1.88% to Not sustainable investments (#2 Not sustainable). 59.85% of its assets is allocated to environmental objectives and 38.27% to social objectives.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

Source: Pictet Asset Management, Factset RBICS, MSCI.

Comparison of the asset allocation to previous period:

| Asset allocation   | 16.12.2022 - 30.09.2023 | 01.10.2023 - 30.09.2024 |
|--------------------|-------------------------|-------------------------|
| #1 Sustainable     | 95.69%                  | 98.12%                  |
| #2 Not sustainable | 4.31%                   | 1.88%                   |
| Environmental      | 58.69%                  | 59.85%                  |
| Social             | 37.00%                  | 38.27%                  |
| Taxonomy-aligned   | 3.33%                   | 3.03%                   |
| Other              | 58.69%                  | 59.85%                  |

#### ● In which economic sectors were the investments made?

| SECTOR LEVEL 1         | SECTOR LEVEL 2                               | %<br>ASSETS |
|------------------------|--|-------------|
| Consumer Discretionary | Consumer Durables & Apparel                  | 1.23        |

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

☐ Taxonomy-aligned: Fossil gas  
☐ Taxonomy-aligned: Nuclear  
☐ Taxonomy-aligned (no fossil gas and nuclear)  
☐ Non Taxonomy-aligned

2. Taxonomy-alignment of investments excluding sovereign bonds\*

☐ Taxonomy-aligned: Fossil gas  
☐ Taxonomy-aligned: Nuclear  
☐ Taxonomy-aligned (no fossil gas and nuclear)  
☐ Non Taxonomy-aligned

This graph represents 98.12% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: 0.00%
- Enabling activities: 1.27%

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 3.33% versus 3.03% in the current reference period.  
Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

59.85%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

**What was the share of socially sustainable investments?**

38.27%

**What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “not sustainable” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to attain the sustainable investment objective during the reference period?**

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- at least 80% of sustainable investments, i.e. investments in companies that have a significant exposure to activities such as renewable resources, ecological design, optimized production, biological cycle, smart consumption, waste repurposing and other relevant economic activities (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- exclusion of issuers that:
  - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium

- derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and extraction, conventional oil and gas production, nuclear power generation, military contracting weapons, weapon-related products and services, small arms, alcoholic beverages, tobacco production, adult entertainment production, gambling operations and specialised equipment, genetically modified organisms development and growth, pesticides production and retail, and palm oil production and distribution. Please refer to Pictet Asset Management's Responsible Investment policy for further details on excluded sectors and exclusion thresholds
- severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 22 companies as of 30.09.2024.

## How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the sustainable investment objective.

### • How did the reference benchmark differ from a broad market index?

Not applicable.

### • How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

### • How did this financial product perform compared with the reference benchmark?

Not applicable.

### • How did this financial product perform compared with the broad market index?

Not applicable.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - China Environmental Opportunities**

Legal entity identifier: **2138005SU67AUB1RXC79**

**SUSTAINABLE INVESTMENT OBJECTIVE**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?   |   |
|---|---|
| <input checked="" type="checkbox"/> <input checked="" type="radio"/> Yes  | <input type="checkbox"/> <input checked="" type="radio"/> No  |
| <input checked="" type="checkbox"/> It made <b>sustainable investments with an environmental objective: 77.79%</b>                  | <input type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments |
| <input checked="" type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy        | <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy   |
| <input checked="" type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy | <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy  |
|   | <input type="checkbox"/> with a social objective  |
| <input checked="" type="checkbox"/> It made <b>sustainable investments with a social objective: 17.99%</b>                          | <input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>   |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent was the sustainable investment objective of this financial product met?**

Main ways in which the fund achieved its sustainable objective:

- **Positive impact:**  
This fund achieved a positive environmental and/or social impact by investing mainly in Chinese companies with a low environmental footprint that contribute to solving global environmental challenges by providing products and services in the environmental value chain. These products and services are needed to support the transition towards a lower carbon economy, a circular economy model, monitor and prevent pollution or for example protect scarce resources such as water.  
No reference index has been designated for the purpose of attaining the sustainable investment objective.  
The fund invested mainly in companies whose significant proportion of their activities are related to, but not limited to, renewable energy, green transportation, industrial decarbonization, resource efficiency, environmental protection.  
Eligible securities included equities issued by companies with a significant proportion of activities (as measured by revenue, EBIT, enterprise value or similar metrics) derived from such economic activities.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

**Company Exclusions based on Controversial Activities and Revenue thresholds**

| Activity  | Revenue thresholds |
|---|--------------------|
| <b>Energy</b>   |                    |
| Thermal Coal Extraction   | 10%                |
| Thermal Coal Power Generation                                     | 10%                |
| Oil & Gas Production  | 10%                |
| Oil Sands Extraction  | 10%                |
| Shale Energy Extraction   | 10%                |
| Off-shore Arctic Oil & Gas Exploration                            | 10%                |
| Nuclear Power Generation  | 50%                |
| <b>Weapons</b>  |                    |
| Production of controversial weapons[1]                            | Excluded           |
| Production of nuclear weapons from countries signatory to the NPT | Excluded           |
| Military Contracting Weapons                                      | 10%                |
| Military Contracting Weapon-Related Products and/or Services      | 10%                |
| Small Arms Civilian Customers (Assault Weapons)                   | 10%                |
| Small Arms Civilian Customers (Non-Assault Weapons)               | 10%                |
| Small Arms Military/Law Enforcement Customers                     | 10%                |
| Small Arms Key Components   | 10%                |
| <b>Addictive Products</b>   |                    |
| Alcoholic Beverages Production                                    | 10%                |
| Tobacco Products Production                                       | 10%                |
| Adult Entertainment Production                                    | 10%                |
| Gambling Operations   | 10%                |
| Gambling Specialised Equipment                                    | 10%                |
| <b>Agriculture</b>  |                    |
| Genetically Modified Plants and Seeds Development                 | 10%                |
| Genetically Modified Plants and Seeds Growth                      | 10%                |
| Pesticides Production   | 10%                |
| Pesticides Retail   | 10%                |
| Palm Oil Production and Distribution                              | 10%                |

**Company Exclusions based on Breaches of International Norms**

|   |             |
|---|-------------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded    |
| High controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises                   | Excluded[2] |

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] Applies only to Sustainable Investments.

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- **Active ownership:**

The fund methodically exercised its voting rights. The fund also engaged with the management of selected companies on material ESG issues.

- **Sustainable Investments:**

Pictet Asset Management used a proprietary framework as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

#### Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 77.79%.

#### Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 17.99%.

#### ● **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:**

95.78%

- **Overall ESG profile**

The fund's weighted average ESG score was better than that of the reference index after removing the bottom 20% of issuers with the weakest ESG scores.

The fund's weighted average ESG score was 0.60 against 0.09 for the reference index . A higher score means a lower ESG risk. Scores range from -2 to 1, 1 being the best.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

**Sustainability indicators** measure how the sustainable objectives of this financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment as detailed below:

Controversial activities (weighted average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 0.00     | 3.25                |
| Weapons                         | 0.00     | 0.25                |
| Other controversial activities  | 0.04     | 0.01                |
| Eligible:                       | 95.78    | 100.00              |
| Covered:                        | 98.42    | 99.82               |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.  
Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Voting rights

During the reference period, the fund voted at 86 general assembly meetings out of 86 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 40.70% of meetings.

In respect to Environmental and/or Social issues we voted for 0 out of 0 management resolutions and for 2 out of 2 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

#### • Engagement

The fund engaged with 2 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

## ● How did the sustainable investments not cause significant harm to any sustainable investment objective?

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were excluded.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in

the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also act as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as well as the exposure to sustainable investments as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers to address either significant ESG concerns, improve companies' sustainability practices or engage on positive impact topics to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS          | SECTOR                 | % ASSETS | COUNTRY |
|------------------------------|------------------------|----------|---------|
| Beijing-Shanghai High Spe-A  | Industrials            | 5.12     | China   |
| Nari Technology Co Ltd-A     | Industrials            | 5.09     | China   |
| Haier Smart Home Co Ltd-A    | Consumer Discretionary | 4.22     | China   |
| Infore Environment Technol-A | Industrials            | 4.01     | China   |
| Hangzhou First Applied Mat-A | Information Technology | 4.01     | China   |
| Byd Co Ltd -A                | Consumer Discretionary | 3.67     | China   |
| Delta Electronics Inc        | Information Technology | 3.65     | Taiwan  |
| Contemporary Amperex Techn-A | Industrials            | 3.47     | China   |
| Flat Glass Group Co Ltd-H    | Information Technology | 3.40     | China   |
| Supcon Technology Co Ltd-A   | Information Technology | 3.32     | China   |
| Beijing Huafeng Test & Con-A | Information Technology | 3.21     | China   |

| Shandong Sinocera Function-A | Materials              | 2.85     | China   |
| Xinyi Energy Holdings Ltd    | Utilities              | 2.74     | China   |

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

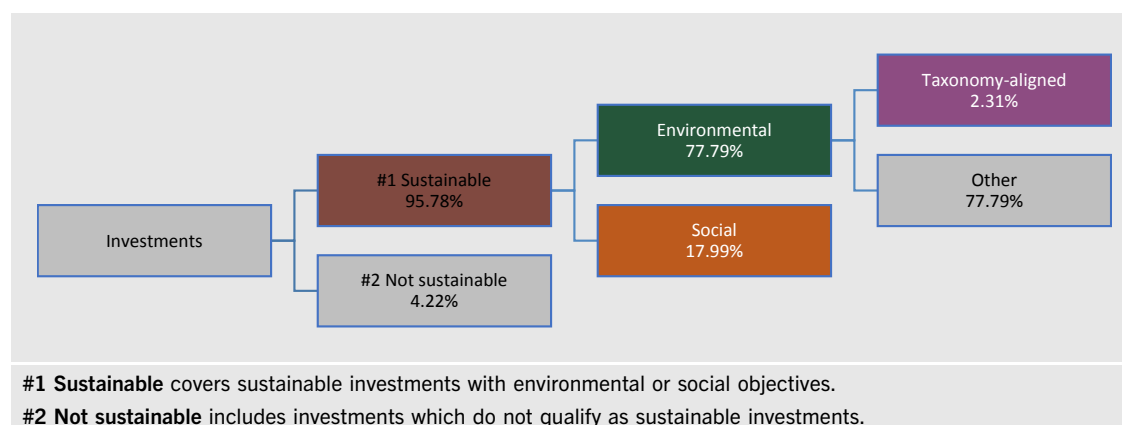

## What was the proportion of sustainability-related investments?

95.78%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund allocated 95.78% of its assets to Sustainable investments (#1 Sustainable) and 4.22% to Not sustainable investments (#2 Not sustainable). 77.79% of its assets is allocated to environmental objectives and 17.99% to social objectives.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented

policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.

- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

Source: Pictet Asset Management, Factset RBICS, MSCI.

Comparison of the asset allocation to previous period:

| Asset allocation   | 31.03.2023 - 30.09.2023 | 01.10.2023 - 30.09.2024 |
|--------------------|-------------------------|-------------------------|
| #1 Sustainable     | 96.76%                  | 95.78%                  |
| #2 Not sustainable | 3.24%                   | 4.22%                   |
| Environmental      | 78.93%                  | 77.79%                  |
| Social             | 17.84%                  | 17.99%                  |
| Taxonomy-aligned   | 1.48%                   | 2.31%                   |
| Other              | 78.93%                  | 77.79%                  |

#### ● In which economic sectors were the investments made?

| SECTOR LEVEL 1         | SECTOR LEVEL 2                           | % ASSETS |
|------------------------|--|----------|
| Consumer Discretionary | Automobiles & Components                 | 3.67     |
| Consumer Discretionary | Consumer Durables & Apparel              | 4.33     |
| Health Care            | Health Care Equipment & Services         | 1.22     |
| Industrials            | Capital Goods                            | 34.10    |
| Industrials            | Commercial & Professional Services       | 1.70     |
| Industrials            | Transportation                           | 5.12     |
| Information Technology | Semiconductors & Semiconductor Equipment | 15.92    |
| Information Technology | Software & Services                      | 6.39     |
| Information Technology | Technology Hardware & Equipment          | 12.30    |
| Materials              | Materials                                | 5.08     |
| Utilities              | Utilities                                | 5.95     |

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

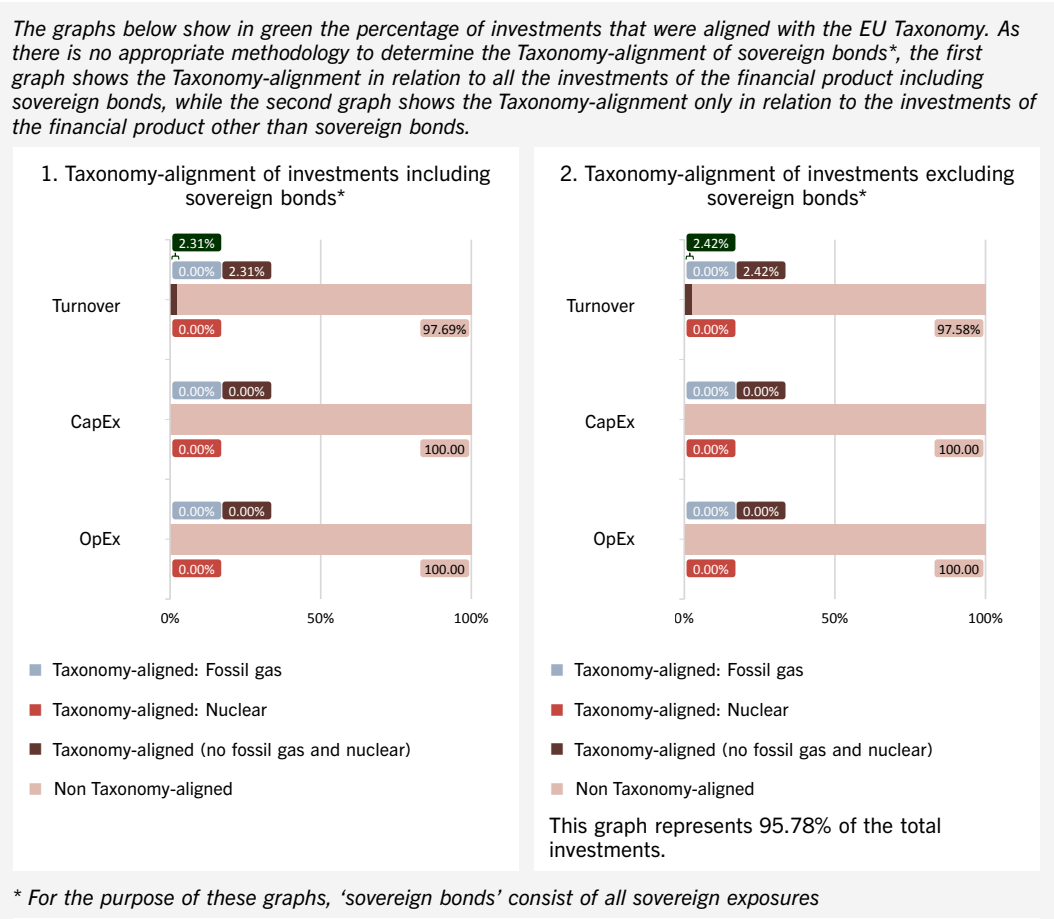

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

- **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**
- ☐ Yes:
- ☐ In fossil gas    ☐ In nuclear energy
- ☒ No

Source: Pictet Asset Management, MSCI.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

- **What was the share of investments made in transitional and enabling activities?**
- The share of investments made in:
- Transitional activities: 0.00%
  - Enabling activities: 0.00%

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 1.48% versus 2.31% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

77.79%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

**What was the share of socially sustainable investments?**

17.99%

**What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “not sustainable” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to attain the sustainable investment objective during the reference period?**

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- at least 80% of sustainable investments, i.e. investments in companies that have a significant exposure to activities such as renewable energy, green transportation, industrial decarbonization, resource efficiency, environmental protection (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- exclusion of issuers that:
  - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and extraction, conventional oil and gas production, nuclear power generation, military contracting weapons, weapon-related products and services, small arms, alcoholic beverages, tobacco production, adult entertainment production, gambling operations and specialised equipment, genetically modified organisms development and growth, pesticides production and retail, and palm oil production and distribution. Please refer to Pictet Asset Management's Responsible Investment policy for further details on excluded sectors and exclusion thresholds
  - severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index after removing the bottom 20% of issuers with the weakest ESG characteristics

- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 2 companies as of 30.09.2024.

#### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the sustainable investment objective.

- **How did the reference benchmark differ from a broad market index?**

Not applicable.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

- **How did this financial product perform compared with the reference benchmark?**

Not applicable.

- **How did this financial product perform compared with the broad market index?**

Not applicable.

28.03.2024 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Quest AI-Driven Global Equities**

Legal entity identifier: **391200SLZ7AH7WTKMU11**

**ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?   |  |   |  |
|---|--|---|--|
| <input checked="" type="radio"/> <input checked="" type="radio"/> Yes |  | <input checked="" type="radio"/> <input type="radio"/> No |  |
| <input type="checkbox"/>  | It made <b>sustainable investments with an environmental objective</b> : ____%   | <input checked="" type="checkbox"/>                       | It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of <b>44.62%</b> of sustainable investments |
|   | <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy        | <input checked="" type="checkbox"/>                       | with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy   |
|   | <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy | <input checked="" type="checkbox"/>                       | with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy  |
|   |  | <input checked="" type="checkbox"/>                       | with a social objective  |
| <input type="checkbox"/>  | It made <b>sustainable investments with a social objective</b> : ____%   | <input type="checkbox"/>                                  | It promoted E/S characteristics, but <b>did not make any sustainable investments</b>   |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- Positive tilt:  
The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The MSCI World index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- Norms- and values-based exclusions:  
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

**Company Exclusions based on Controversial Activities and Revenue thresholds**

| Activity                | Revenue thresholds |
|-------------------------|--------------------|
| Energy                  |                    |
| Thermal Coal Extraction | 25%                |

**Company Exclusions based on Controversial Activities and Revenue thresholds**

|   |          |
|---|----------|
| Thermal Coal Power Generation                       | 25%      |
| Oil Sands Extraction                                | 25%      |
| Shale Energy Extraction                             | 25%      |
| Off-shore Arctic Oil & Gas Exploration              | 10%      |
| <b>Weapons</b>                                      |          |
| Production of controversial weapons[1]              | Excluded |
| Military Contracting Weapons                        | 10%      |
| Small Arms Civilian Customers (Assault Weapons)     | 10%      |
| Small Arms Civilian Customers (Non-Assault Weapons) | 10%      |
| Small Arms Military/Law Enforcement Customers       | 25%      |
| Small Arms Key Components                           | 25%      |
| <b>Addictive Products</b>                           |          |
| Tobacco Products Production                         | 10%      |
| Adult Entertainment Production                      | 10%      |
| Gambling Operations                                 | 10%      |

**Company Exclusions based on Breaches of International Norms**

|   |          |
|---|----------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded |
|---|----------|

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of selected companies on material ESG issues.

- **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Overall ESG profile**

The fund's weighted average ESG score was better than that of the reference index.

The fund's weighted average ESG score was 7.98 against 7.95 for the reference index. A higher score means a lower risk. Scores range from 0 to 10, 10 being the best.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 3.84     | 3.45                |
| Weapons                         | 0.29     | 1.03                |
| Other controversial activities  | 0.10     | 0.88                |
| Eligible:                       | 99.60    | 100.00              |
| Covered:                        | 99.66    | 99.66               |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.  
Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Voting rights

During the reference period, the fund voted at 190 general assembly meetings out of 197 votable meetings (96.45%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 41.62% of meetings.

In respect to Environmental and/or Social issues we voted for 43 out of 47 management resolutions and for 41 out of 67 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

#### • Engagement

The fund engaged with 63 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

Source: Pictet Asset Management, Sustainalytics.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

#### ● ...and compared to previous periods?

Not applicable.

#### ● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation

- Efficiency & Circularity
  - Natural Capital Management
- Such investments represented 17.21%.

#### Social

- Healthy Life
  - Water, Sanitation & Housing
  - Education & Economic Empowerment
  - Security & Connectivity
- Such investments represented 27.40%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

#### ● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-party providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

#### ● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

#### ● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

*The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.*

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

### (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

### (ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

### (iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

### (iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 28.03.2024 - 30.09.2024

| LARGEST INVESTMENTS        | SECTOR                 | % ASSETS | COUNTRY                  |
|----------------------------|------------------------|----------|--------------------------|
| Apple Inc                  | Information Technology | 4.86     | United States of America |
| Microsoft Corp             | Information Technology | 4.80     | United States of America |
| Nvidia Corp                | Information Technology | 4.29     | United States of America |
| Amazon.Com Inc             | Consumer Discretionary | 2.47     | United States of America |
| Meta Platforms Inc-Class A | Communication Services | 1.67     | United States of America |
| Alphabet Inc-Cl A          | Communication Services | 1.57     | United States of America |
| Eli Lilly & Co             | Health Care            | 1.43     | United States of America |

| LARGEST INVESTMENTS    | SECTOR                 | % ASSETS | COUNTRY                  |
|------------------------|------------------------|----------|--------------------------|
| Alphabet Inc-CI C      | Communication Services | 1.27     | United States of America |

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

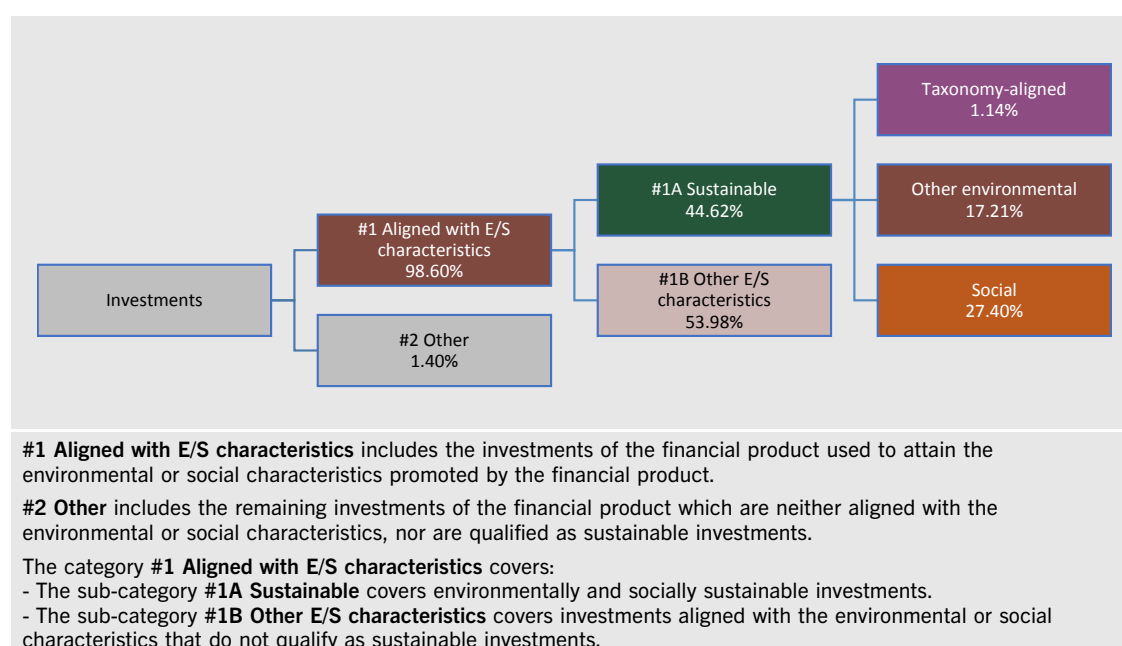

## What was the proportion of sustainability-related investments?

44.62%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 98.60% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 1.40% invested in Other (#2 Other). 44.62% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

- Pictet Asset Management used a proprietary framework to define sustainable investments. "1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by

revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

## To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

### ● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

☒ Yes:

☐ In fossil gas ☒ In nuclear energy

☐ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 98.60% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: 0.03%
- Enabling activities: 0.83%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

17.21%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

27.40%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons

- derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
- severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 63 companies as of 30.09.2024.

## How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

### ● How did the reference benchmark differ from a broad market index?

Not applicable.

### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

### ● How did this financial product perform compared with the reference benchmark?

Not applicable.

### ● How did this financial product perform compared with the broad market index?

Not applicable.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Multi Asset Global Opportunities**

Legal entity identifier: **549300Y6STSCWOUIIU46**

**ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?   |  |
|---|--|
| <input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> Yes  | <input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No  |
| <input type="checkbox"/> It made <b>sustainable investments with an environmental objective: ____%</b><br><br><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy<br><br><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy | <input checked="" type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of <b>34.88%</b> of sustainable investments<br><br><input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy<br><br><input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy<br><br><input checked="" type="checkbox"/> with a social objective |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- **Positive tilt:**  
The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the investment universe.  
No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- **Norms- and values-based exclusions:**  
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

**Company Exclusions based on Controversial Activities and Revenue thresholds**

| Activity                | Revenue thresholds |
|-------------------------|--------------------|
| Energy                  |                    |
| Thermal Coal Extraction | 25%                |

#### Company Exclusions based on Controversial Activities and Revenue thresholds

|   |          |
|---|----------|
| Thermal Coal Power Generation                       | 25%      |

#### Company Exclusions based on Breaches of International Norms

|   |          |
|---|----------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded |
|---|----------|

#### Country Exclusions

|   |              |
|---|--------------|
| Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs) | Excluded[3]  |
| Countries (i) listed under “high alert” or “very high alert” in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank   | Excluded[3]  |
| Countries (i) listed under “alert” on the Fragile State Index or (ii) subject to export related sanctions by the EU   | Watchlist[4] |

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] “State Sponsors of Terrorism” is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management’s Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- **Active ownership:**

The fund methodically exercised its voting rights and engaged with the management of selected companies on material ESG issues.

The proxy voting and engagement process were mainly led by investment professionals across several investment teams at Pictet Asset Management, with the support of a central ESG team.

- **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Overall ESG profile**

The fund’s weighted average ESG score was better than that of the investment universe.

The fund’s weighted average ESG score was 5.21 against 5.00 for the investment universe. A higher score means a lower risk. Scores range from 0 to 10, 10 being the best.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 1.45     | N/A                 |
| Weapons                         | 0.09     | N/A                 |
| Other controversial activities  | 0.11     | N/A                 |
| Eligible:                       | 52.50    | N/A                 |
| Covered:                        | 97.25    | N/A                 |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **Voting rights**

During the reference period, the fund voted at 1388 general assembly meetings out of 1392 votable meetings (99.71%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 42.17% of meetings.

In respect to Environmental and/or Social issues we voted for 130 out of 135 management resolutions and for 264 out of 433 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

- **Engagement**

The fund engaged with 246 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

## Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 21.18%.

## Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 13.70%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

### ● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-party providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

### ● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

### ● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

*The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.*

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

### (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

### (ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognised global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

### (iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

The proxy voting and engagement process were mainly led by investment professionals across several investment teams in Pictet Asset Management, with the support of a central ESG team.

### (iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's responsible investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

| LARGEST INVESTMENTS                   | SECTOR     | % ASSETS | COUNTRY                  |

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

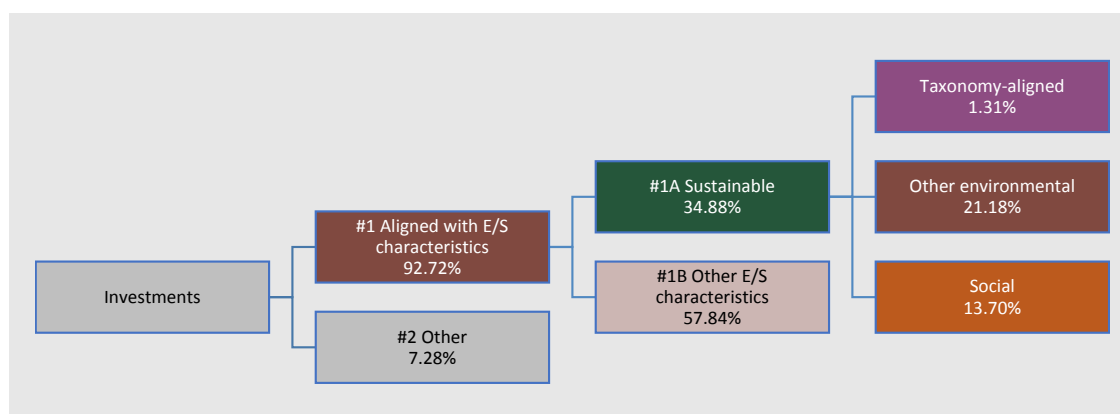

## What was the proportion of sustainability-related investments?

34.88%

### What was the asset allocation?

The fund was 92.72% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 7.28% invested in Other (#2 Other). 34.88% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable

investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

### ● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

☒ Yes:

☒ In fossil gas ☒ In nuclear energy

☐ No

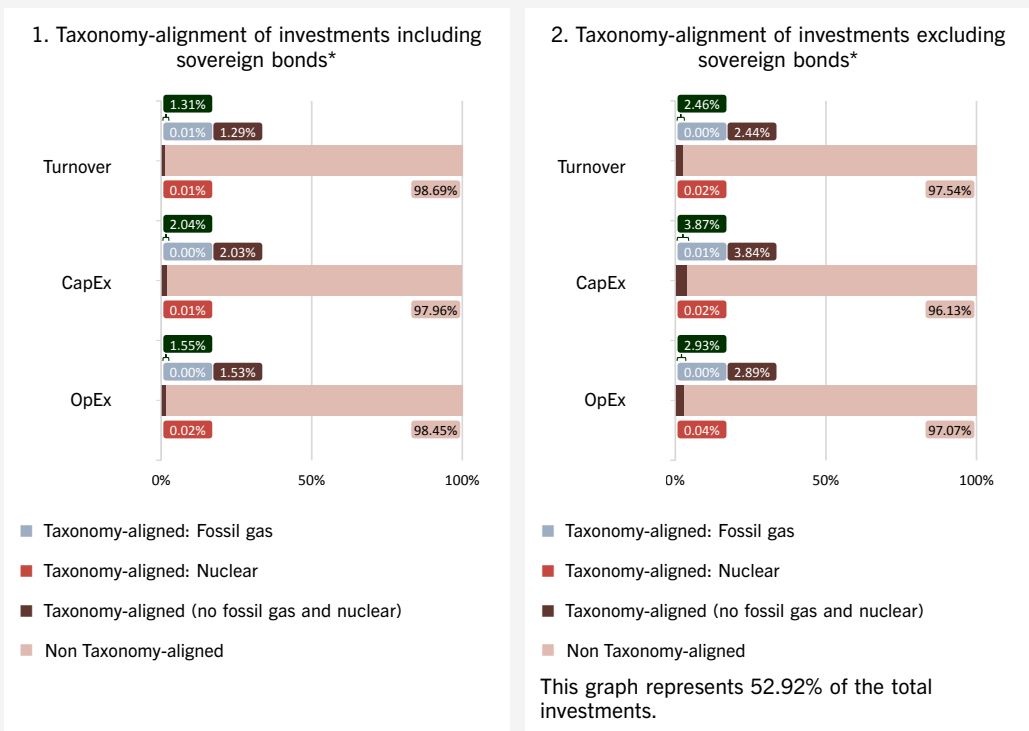

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Source: Pictet Asset Management, MSCI.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: 0.07%
- Enabling activities: 0.70%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 0.74% versus 1.31% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

21.18%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

13.70%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management’s Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- exclusions of countries subject to international sanctions
- a better ESG profile than the investment universe
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 246 companies as of 30.09.2024.

**How did this financial product perform compared to the reference benchmark?**

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- **How did the reference benchmark differ from a broad market index?**  
Not applicable.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**  
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**  
Not applicable.
- **How did this financial product perform compared with the broad market index?**  
Not applicable.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Short-Term Money Market CHF**

Legal entity identifier: **549300B0XJ1QTRUQE61**

**ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE? |  |   |  |  |    |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- Positive tilt:  
The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks, resulting in a better environmental, social and governance (ESG) profile than a neutral portfolio. A neutral portfolio would have an average ESG Risk rating of “medium”. No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- Norms- and values-based exclusions:  
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

**Company Exclusions based on Controversial Activities and Revenue thresholds**

| Activity                | Revenue thresholds |
|-------------------------|--------------------|
| Energy                  |                    |
| Thermal Coal Extraction | 25%                |

#### Company Exclusions based on Controversial Activities and Revenue thresholds

|   |          |
|---|----------|
| Thermal Coal Power Generation                       | 25%      |
| Oil Sands Extraction                                | 25%      |
| Shale Energy Extraction                             | 25%      |
| Off-shore Arctic Oil & Gas Exploration              | 10%      |
| <b>Weapons</b>                                      |          |
| Production of controversial weapons[1]              | Excluded |
| Military Contracting Weapons                        | 10%      |
| Small Arms Civilian Customers (Assault Weapons)     | 10%      |
| Small Arms Civilian Customers (Non-Assault Weapons) | 10%      |
| Small Arms Military/Law Enforcement Customers       | 25%      |
| Small Arms Key Components                           | 25%      |
| <b>Addictive Products</b>                           |          |
| Tobacco Products Production                         | 10%      |
| Adult Entertainment Production                      | 10%      |
| Gambling Operations                                 | 10%      |

#### Company Exclusions based on Breaches of International Norms

|   |          |
|---|----------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded |
|---|----------|

#### Country Exclusions

|   |              |
|---|--------------|
| Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs) | Excluded[3]  |
| Countries (i) listed under “high alert” or “very high alert” in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank   | Excluded[3]  |
| Countries (i) listed under “alert” on the Fragile State Index or (ii) subject to export related sanctions by the EU   | Watchlist[4] |

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] “State Sponsors of Terrorism” is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management’s Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund engaged with the management of selected companies on material ESG issues.

#### ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

##### • Overall ESG profile

The fund's exposure was 50.32% versus 0.00% for the neutral portfolio.

Exposure range from -100% to 100%, 100% being the best. To achieve a positive tilt the fund's exposure should always be greater than 0%.

##### • Principle Adverse Impact (PAI)

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 0.17     | N/A                 |
| Weapons                         | 0.01     | N/A                 |
| Other controversial activities  | 0.01     | N/A                 |
| Eligible:                       | 71.62    | N/A                 |
| Covered:                        | 96.96    | N/A                 |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.  
Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Engagement

The fund engaged with 7 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 7.36%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 8.45%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors

relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS                     | SECTOR    | % ASSETS | COUNTRY                  |

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

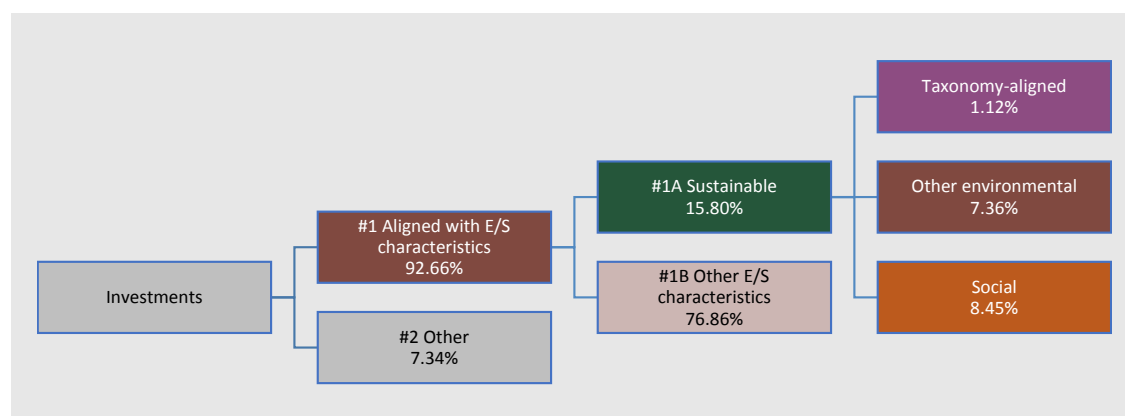

## What was the proportion of sustainability-related investments?

15.80%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 92.66% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 7.34% invested in Other (#2 Other). 15.80% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

Source: Pictet Asset Management, Sustainalytics, Factset RBICS, MSCI.

Comparison of the asset allocation to previous period:

| Asset allocation                    | 01.10.2022 - 30.09.2023 | 01.10.2023 - 30.09.2024 |
|-------------------------------------|-------------------------|-------------------------|
| #1 Aligned with E/S characteristics | 93.71%                  | 92.66%                  |
| #2 Other                            | 6.29%                   | 7.34%                   |
| #1A Sustainable                     | 13.96%                  | 15.80%                  |
| #1B Other E/S characteristics       | 79.75%                  | 76.86%                  |
| Taxonomy-aligned                    | 1.16%                   | 1.12%                   |
| Other environmental                 | 2.13%                   | 7.36%                   |
| Social                              | 11.83%                  | 8.45%                   |

#### ● In which economic sectors were the investments made?

| SECTOR LEVEL 1         | SECTOR LEVEL 4   | %<br>ASSETS |
|------------------------|------------------|-------------|
| Automobile             |                  | 4.22        |
| Basic Industries       |                  | 0.27        |
| Consumer Non-Cyclicals |                  | 1.87        |

| Utilities              |                  | 1.05        |

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

☒ Yes:

☐ In fossil gas ☒ In nuclear energy

☐ No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 71.62% of the total investments.

\* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: 0.03%
- Enabling activities: 0.79%

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 1.16% versus 1.12% in the current reference period.  
Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

7.36%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

8.45%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- overweight securities with low sustainability risks

- ESG criteria analysis of eligible securities that covers at least 80% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 7 companies as of 30.09.2024.

#### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

#### ● How did the reference benchmark differ from a broad market index?

Not applicable.

#### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

#### ● How did this financial product perform compared with the reference benchmark?

Not applicable.

#### ● How did this financial product perform compared with the broad market index?

Not applicable.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Short-Term Money Market USD**

Legal entity identifier: **549300TT7REUYX78XS84**

**ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?   |  |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- **Positive tilt:**  
The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks, resulting in a better environmental, social and governance (ESG) profile than a neutral portfolio. A neutral portfolio would have an average ESG Risk rating of “medium”. No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- **Norms- and values-based exclusions:**  
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

| Company Exclusions based on Controversial Activities and Revenue thresholds |                    |
|---|--------------------|
| Activity  | Revenue thresholds |
| Energy  |                    |
| Thermal Coal Extraction   | 25%                |

#### Company Exclusions based on Controversial Activities and Revenue thresholds

|   |          |
|---|----------|
| Thermal Coal Power Generation                       | 25%      |
| Oil Sands Extraction                                | 25%      |
| Shale Energy Extraction                             | 25%      |
| Off-shore Arctic Oil & Gas Exploration              | 10%      |
| <b>Weapons</b>                                      |          |
| Production of controversial weapons[1]              | Excluded |

| Gambling Operations                                 | 10%      |

#### Company Exclusions based on Breaches of International Norms

|   |          |
|---|----------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded |
|---|----------|

#### Country Exclusions

|   |              |
|---|--------------|
| Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs) | Excluded[3]  |
| Countries (i) listed under “high alert” or “very high alert” in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank   | Excluded[3]  |
| Countries (i) listed under “alert” on the Fragile State Index or (ii) subject to export related sanctions by the EU   | Watchlist[4] |

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] “State Sponsors of Terrorism” is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management’s Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund engaged with the management of selected companies on material ESG issues.

#### ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

##### • Overall ESG profile

The fund's exposure was 52.55% versus 0.00% for the neutral portfolio.

Exposure range from -100% to 100%, 100% being the best. To achieve a positive tilt the fund's exposure should always be greater than 0%.

##### • Principle Adverse Impact (PAI)

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 0.09     | N/A                 |
| Weapons                         | 0.01     | N/A                 |
| Other controversial activities  | 0.01     | N/A                 |
| Eligible:                       | 71.65    | N/A                 |
| Covered:                        | 98.61    | N/A                 |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.  
Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Engagement

The fund engaged with 13 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

| <b>Engagement</b>   | 17     |                 | 13     |                 |  |

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 4.64%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 5.71%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors

relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS                     | SECTOR    | % ASSETS | COUNTRY                  |

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

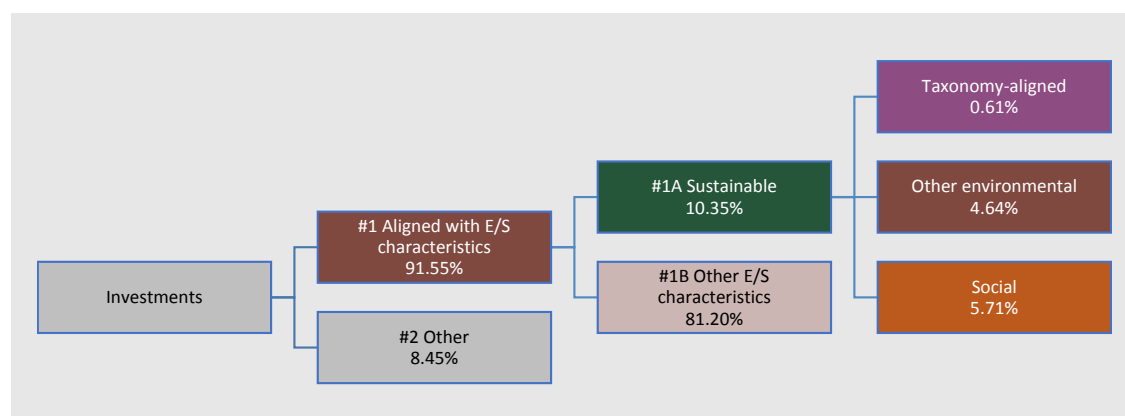

## What was the proportion of sustainability-related investments?

10.35%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 91.55% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 8.45% invested in Other (#2 Other). 10.35% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

| Utilities              | 0.53        |

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

## To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

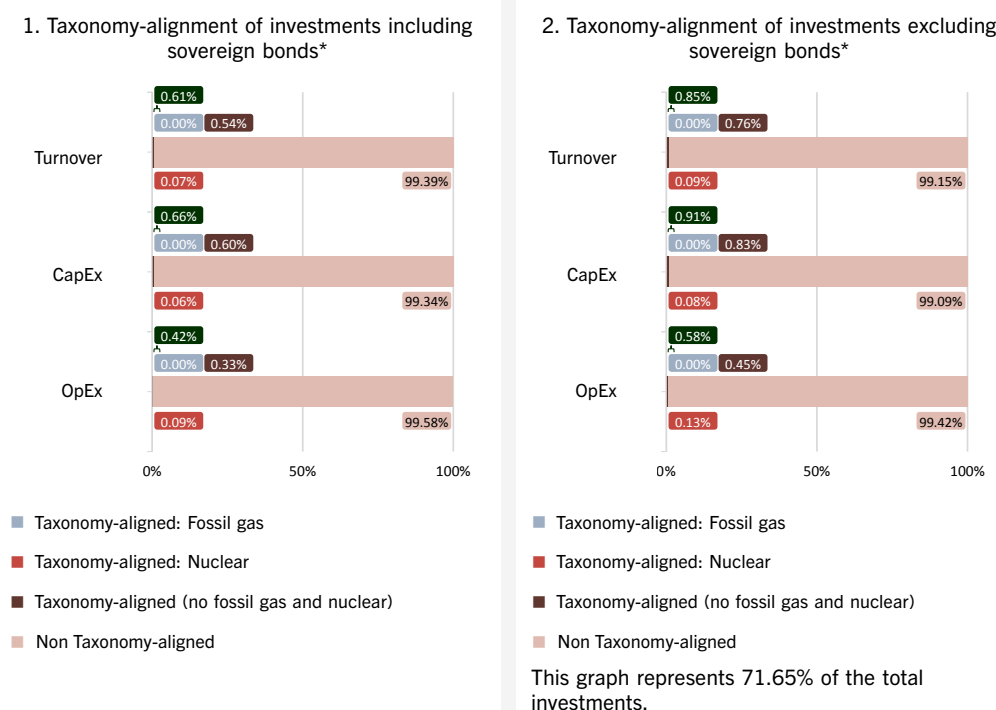

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

☒ Yes:

☐ In fossil gas ☒ In nuclear energy

☐ No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

\* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: 0.07%
- Enabling activities: 0.33%

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 0.33% versus 0.61% in the current reference period.  
Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

4.64%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

5.71%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- overweight securities with low sustainability risks

- ESG criteria analysis of eligible securities that covers at least 80% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 13 companies as of 30.09.2024.

#### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- **How did the reference benchmark differ from a broad market index?**

Not applicable.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

- **How did this financial product perform compared with the reference benchmark?**

Not applicable.

- **How did this financial product perform compared with the broad market index?**

Not applicable.

In addition to the terms and conditions of any license agreement for MSCI information, services or products ("MSCI Products") entered into with MSCI Inc. and/or its affiliates ("MSCI") by customers ("Customer(s)"), each Customer must comply with the terms and conditions required by third party suppliers ("Supplier(s)") regarding Customer's use of Supplier content, data, software and other materials ("Materials") within MSCI Products. Customers may also be required to pay additional fees associated with Supplier Materials. If a Customer does not comply with a Supplier's terms, a Supplier may enforce such terms and/or require MSCI to terminate Customer's access to that Supplier's Materials, without any remedy to Customer.

Additional terms and conditions required by Suppliers with respect to its Materials are provided in the expanders below. If Customer receives Materials from a Supplier not listed below via MSCI Products, additional terms and conditions related to such Materials may apply. Notwithstanding

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

anything to the contrary set forth below, none of the additional terms and conditions of MSCI Suppliers shall supersede (nor shall MSCI waive) any MSCI proprietary and/or intellectual property rights in MSCI Products.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Short-Term Money Market EUR**

Legal entity identifier: **549300M2254XJ2ZJD015**

**ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?   |  |
|---|--|
| <input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> Yes  | <input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No  |
| <input type="checkbox"/> It made <b>sustainable investments with an environmental objective: ____%</b><br><br><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy<br><br><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy | <input checked="" type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of <b>10.85%</b> of sustainable investments<br><br><input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy<br><br><input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy<br><br><input checked="" type="checkbox"/> with a social objective |
| <input type="checkbox"/> It made <b>sustainable investments with a social objective: ____%</b>  | <input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>  |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- **Positive tilt:**  
The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks, resulting in a better environmental, social and governance (ESG) profile than a neutral portfolio. A neutral portfolio would have an average ESG Risk rating of “medium”. No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- **Norms- and values-based exclusions:**  
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

**Company Exclusions based on Controversial Activities and Revenue thresholds**

| Activity                | Revenue thresholds |
|-------------------------|--------------------|
| <b>Energy</b>           |                    |
| Thermal Coal Extraction | 25%                |

#### Company Exclusions based on Controversial Activities and Revenue thresholds

|   |          |
|---|----------|
| Thermal Coal Power Generation                       | 25%      |
| Oil Sands Extraction                                | 25%      |
| Shale Energy Extraction                             | 25%      |
| Off-shore Arctic Oil & Gas Exploration              | 10%      |
| <b>Weapons</b>                                      |          |
| Production of controversial weapons[1]              | Excluded |
| Military Contracting Weapons                        | 10%      |
| Small Arms Civilian Customers (Assault Weapons)     | 10%      |
| Small Arms Civilian Customers (Non-Assault Weapons) | 10%      |
| Small Arms Military/Law Enforcement Customers       | 25%      |
| Small Arms Key Components                           | 25%      |
| <b>Addictive Products</b>                           |          |
| Tobacco Products Production                         | 10%      |
| Adult Entertainment Production                      | 10%      |
| Gambling Operations                                 | 10%      |

#### Company Exclusions based on Breaches of International Norms

|   |          |
|---|----------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded |
|---|----------|

#### Country Exclusions

|   |              |
|---|--------------|
| Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs) | Excluded[3]  |
| Countries (i) listed under “high alert” or “very high alert” in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank   | Excluded[3]  |
| Countries (i) listed under “alert” on the Fragile State Index or (ii) subject to export related sanctions by the EU   | Watchlist[4] |

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] “State Sponsors of Terrorism” is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management’s Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund engaged with the management of selected companies on material ESG issues.

#### ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

##### • Overall ESG profile

The fund's exposure was 54.51% versus 0.00% for the neutral portfolio.

Exposure range from -100% to 100%, 100% being the best. To achieve a positive tilt the fund's exposure should always be greater than 0%.

##### • Principle Adverse Impact (PAI)

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 0.09     | N/A                 |
| Weapons                         | 0.01     | N/A                 |
| Other controversial activities  | 0.01     | N/A                 |
| Eligible:                       | 73.94    | N/A                 |
| Covered:                        | 98.58    | N/A                 |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.  
Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Engagement

The fund engaged with 12 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

| <b>Engagement</b>   | 12     |                 | 12     |                 |  |

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 5.37%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 5.48%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors

relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS                      | SECTOR          | % ASSETS | COUNTRY     |

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

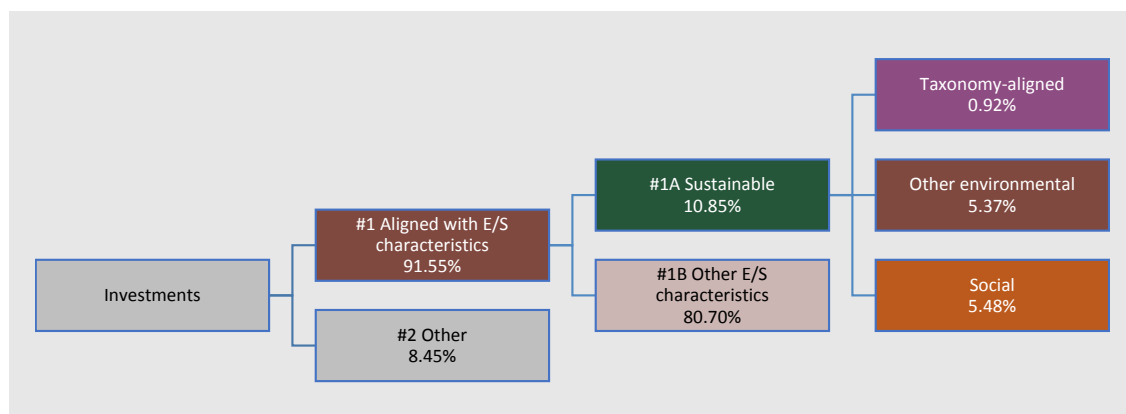

## What was the proportion of sustainability-related investments?

10.85%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 91.55% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 8.45% invested in Other (#2 Other). 10.85% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

☒ Yes:

☐ In fossil gas ☒ In nuclear energy

☐ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 73.94% of the total investments.

\* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: 0.22%
- Enabling activities: 0.36%

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 0.72% versus 0.92% in the current reference period.  
Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

5.37%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

5.48%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- overweight securities with low sustainability risks

- ESG criteria analysis of eligible securities that covers at least 80% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 12 companies as of 30.09.2024.

#### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

#### ● How did the reference benchmark differ from a broad market index?

Not applicable.

#### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

#### ● How did this financial product perform compared with the reference benchmark?

Not applicable.

#### ● How did this financial product perform compared with the broad market index?

Not applicable.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Short-Term Money Market JPY**

Legal entity identifier: **549300184SDM88N97072**

**ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?  |  |
|--|--|
| <input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> Yes                           | <input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No  |
| <input type="checkbox"/> It made <b>sustainable investments with an environmental objective</b> : ____%                  | <input checked="" type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of <b>20.08%</b> of sustainable investments |
| <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy        | <input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy   |
| <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy | <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy  |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- **Positive tilt:**  
The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks, resulting in a better environmental, social and governance (ESG) profile than a neutral portfolio. A neutral portfolio would have an average ESG Risk rating of “medium”. No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- **Norms- and values-based exclusions:**  
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

**Company Exclusions based on Controversial Activities and Revenue thresholds**

| Activity                | Revenue thresholds |
|-------------------------|--------------------|
| Energy                  |                    |
| Thermal Coal Extraction | 25%                |

#### Company Exclusions based on Controversial Activities and Revenue thresholds

|   |          |
|---|----------|
| Thermal Coal Power Generation                       | 25%      |
| Oil Sands Extraction                                | 25%      |
| Shale Energy Extraction                             | 25%      |
| Off-shore Arctic Oil & Gas Exploration              | 10%      |
| <b>Weapons</b>                                      |          |
| Production of controversial weapons[1]              | Excluded |
| Military Contracting Weapons                        | 10%      |
| Small Arms Civilian Customers (Assault Weapons)     | 10%      |
| Small Arms Civilian Customers (Non-Assault Weapons) | 10%      |
| Small Arms Military/Law Enforcement Customers       | 25%      |
| Small Arms Key Components                           | 25%      |
| <b>Addictive Products</b>                           |          |
| Tobacco Products Production                         | 10%      |
| Adult Entertainment Production                      | 10%      |
| Gambling Operations                                 | 10%      |

#### Company Exclusions based on Breaches of International Norms

|   |          |
|---|----------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded |
|---|----------|

#### Country Exclusions

|   |              |
|---|--------------|
| Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs) | Excluded[3]  |
| Countries (i) listed under “high alert” or “very high alert” in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank   | Excluded[3]  |
| Countries (i) listed under “alert” on the Fragile State Index or (ii) subject to export related sanctions by the EU   | Watchlist[4] |

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] “State Sponsors of Terrorism” is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management’s Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund engaged with the management of selected companies on material ESG issues.

#### ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

##### • Overall ESG profile

The fund's exposure was 57.27% versus 0.00% for the neutral portfolio.

Exposure range from -100% to 100%, 100% being the best. To achieve a positive tilt the fund's exposure should always be greater than 0%.

##### • Principle Adverse Impact (PAI)

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 0.09     | N/A                 |
| Weapons                         | 0.04     | N/A                 |
| Other controversial activities  | 0.00     | N/A                 |
| Eligible:                       | 55.78    | N/A                 |
| Covered:                        | 98.75    | N/A                 |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*  
Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Engagement

The fund engaged with 5 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

| <b>Principle Adverse Impact (PAI) - Controversial activities (weighted average company revenues, in %) (**):</b> | <b>Fund</b>                        | <b>Reference Index</b> | <b>Fund</b>                        | <b>Reference Index</b> |  |  |
| <i>Fossil fuels and nuclear energy</i>   | 0.10%                              | N/A                    | 0.09%                              | N/A                    | (*)  |  |
| <i>Weapons</i>   | 0.04%                              | N/A                    | 0.04%                              | N/A                    | (*)  |  |
| <i>Other controversial activities</i>  | 0.00%                              | N/A                    | 0.00%                              | N/A                    | (*)  |  |

| Principle Adverse Impact (PAI) - Controversial activities (weighted average company revenues, in %) (**): | Fund   | Reference Index | Fund   | Reference Index |  |
|---|--------|-----------------|--------|-----------------|--|
| <i>Eligible (**):</i>   | 65.88% | N/A             | 55.78% | N/A             |  |
| <i>Covered (**):</i>  | 92.94% | N/A             | 98.75% | N/A             |  |
| <b>Engagement</b>   | 6      |                 | 5      |                 |  |

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 14.72%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 5.36%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors

relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS                  | SECTOR          | % ASSETS | COUNTRY                  |
|--------------------------------------|-----------------|----------|--------------------------|
| Japan T-Bill Zero% 04.04.2024 Sr     | Government      | 2.42     | Japan                    |

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

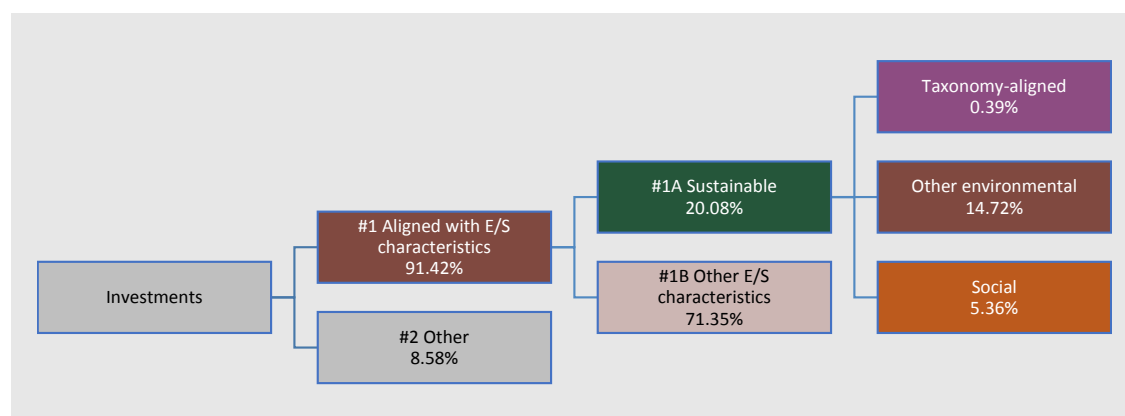

## What was the proportion of sustainability-related investments?

20.08%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 91.42% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 8.58% invested in Other (#2 Other). 20.08% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

Comparison of the asset allocation to previous period:

| Asset allocation                    | 01.10.2022 - 30.09.2023 | 01.10.2023 - 30.09.2024 |
|-------------------------------------|-------------------------|-------------------------|
| #1 Aligned with E/S characteristics | 95.93%                  | 91.42%                  |
| #2 Other                            | 4.07%                   | 8.58%                   |
| #1A Sustainable                     | 17.13%                  | 20.08%                  |
| #1B Other E/S characteristics       | 78.80%                  | 71.35%                  |
| Taxonomy-aligned                    | 0.97%                   | 0.39%                   |
| Other environmental                 | 3.81%                   | 14.72%                  |
| Social                              | 13.32%                  | 5.36%                   |

#### ● In which economic sectors were the investments made?

| SECTOR LEVEL 1         | %<br>ASSETS |
|------------------------|-------------|
| Automobile             | 3.37        |
| Basic Industries       | 0.28        |
| Consumer Cyclicals     | 0.62        |
| Consumer Non-Cyclicals | 1.83        |
| Financial              | 44.51       |
| Government             | 32.20       |
| Quasi-Sovereign        | 1.92        |
| Sovereign              | 4.89        |
| Transportation         | 1.19        |
| Utilities              | 0.62        |

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 55.78% of the total investments.

\* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: 0.01%
- Enabling activities: 0.26%

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 0.97% versus 0.39% in the current reference period.  
Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

14.72%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

5.36%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- overweight securities with low sustainability risks

- ESG criteria analysis of eligible securities that covers at least 80% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 5 companies as of 30.09.2024.

#### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

#### ● How did the reference benchmark differ from a broad market index?

Not applicable.

#### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

#### ● How did this financial product perform compared with the reference benchmark?

Not applicable.

#### ● How did this financial product perform compared with the broad market index?

Not applicable.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Short-Term Money Market GBP**

Legal entity identifier: **213800CW9SXFKGOKVW83**

**ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?   |   |
|---|---|
| <input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> Yes  | <input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No   |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- **Positive tilt:**  
The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks, resulting in a better environmental, social and governance (ESG) profile than a neutral portfolio. A neutral portfolio would have an average ESG Risk rating of “medium”. No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- **Norms- and values-based exclusions:**  
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

**Company Exclusions based on Controversial Activities and Revenue thresholds**

| Activity                | Revenue thresholds |
|-------------------------|--------------------|
| Energy                  |                    |
| Thermal Coal Extraction | 25%                |

#### Company Exclusions based on Controversial Activities and Revenue thresholds

|   |          |
|---|----------|
| Thermal Coal Power Generation                       | 25%      |
| Oil Sands Extraction                                | 25%      |
| Shale Energy Extraction                             | 25%      |
| Off-shore Arctic Oil & Gas Exploration              | 10%      |
| <b>Weapons</b>                                      |          |
| Production of controversial weapons[1]              | Excluded |
| Military Contracting Weapons                        | 10%      |
| Small Arms Civilian Customers (Assault Weapons)     | 10%      |
| Small Arms Civilian Customers (Non-Assault Weapons) | 10%      |
| Small Arms Military/Law Enforcement Customers       | 25%      |
| Small Arms Key Components                           | 25%      |
| <b>Addictive Products</b>                           |          |
| Tobacco Products Production                         | 10%      |
| Adult Entertainment Production                      | 10%      |
| Gambling Operations                                 | 10%      |

#### Company Exclusions based on Breaches of International Norms

|   |          |
|---|----------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded |
|---|----------|

#### Country Exclusions

|   |              |
|---|--------------|
| Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs) | Excluded[3]  |
| Countries (i) listed under “high alert” or “very high alert” in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank   | Excluded[3]  |
| Countries (i) listed under “alert” on the Fragile State Index or (ii) subject to export related sanctions by the EU   | Watchlist[4] |

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] “State Sponsors of Terrorism” is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management’s Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund engaged with the management of selected companies on material ESG issues.

#### ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

##### • Overall ESG profile

The fund's exposure was 52.56% versus 0.00% for the neutral portfolio.

Exposure range from -100% to 100%, 100% being the best. To achieve a positive tilt the fund's exposure should always be greater than 0%.

##### • Principle Adverse Impact (PAI)

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 0.06     | N/A                 |
| Weapons                         | 0.02     | N/A                 |
| Other controversial activities  | 0.00     | N/A                 |
| Eligible:                       | 75.89    | N/A                 |
| Covered:                        | 99.33    | N/A                 |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.  
Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Engagement

The fund engaged with 9 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 3.96%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 5.71%.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

(i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.

(ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-party providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for

human rights, anti-corruption and anti-bribery matters.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*
- The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

- (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund’s scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team’s scoring process was a key component of the compartment’s portfolio construction process, determining target weights in the portfolio.

- (ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

- (iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management’s Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

**What were the top investments of this financial product?**

The list includes the investments constituting the greatest proportion of

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

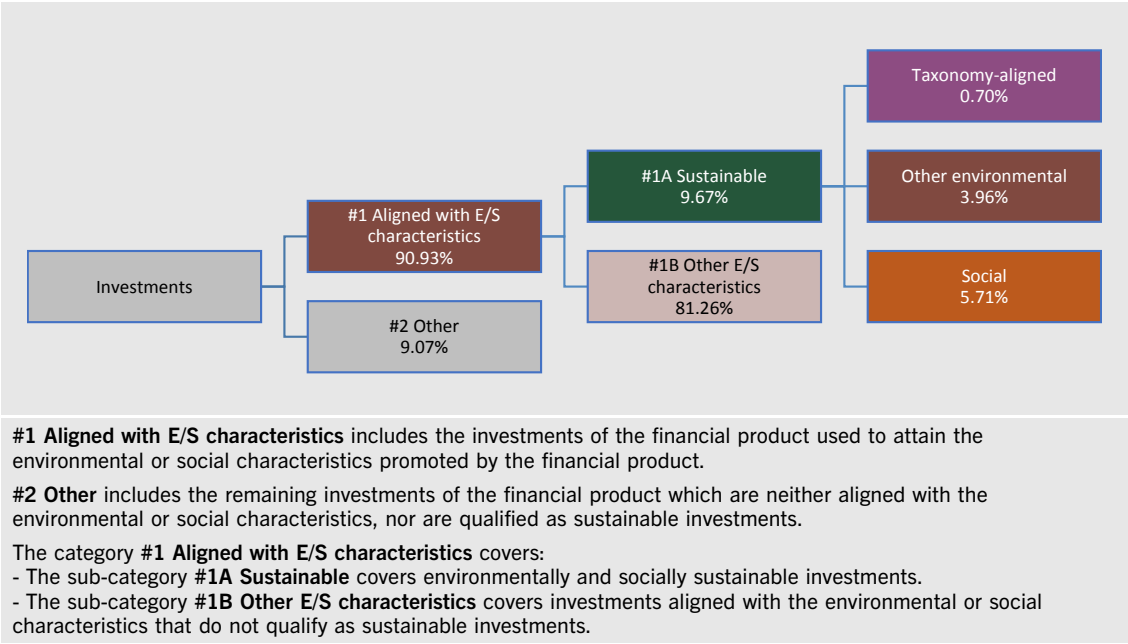

What was the proportion of sustainability-related investments?

9.67%

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

The fund was 90.93% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 9.07% invested in Other (#2 Other). 9.67% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

- Pictet Asset Management used a proprietary framework to define sustainable investments. "1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented

policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.

- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

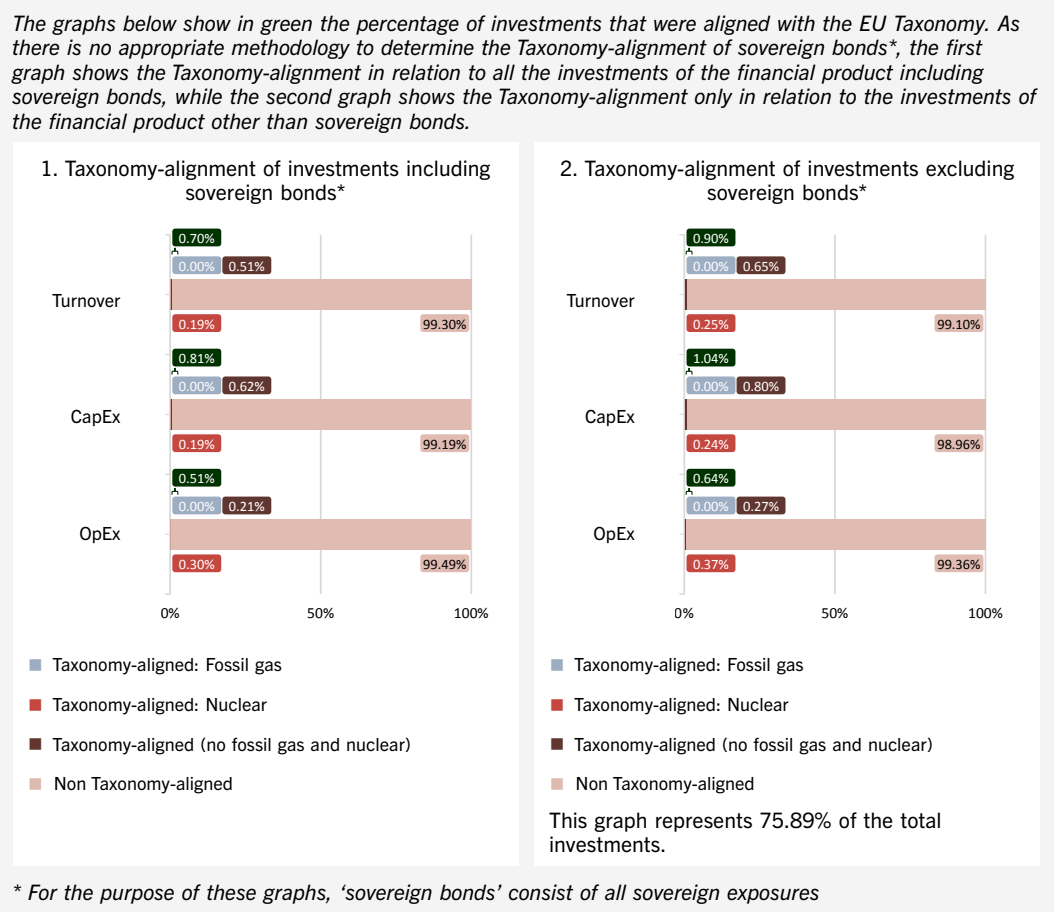

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

- ☒ Yes:
- ☐ In fossil gas    ☒ In nuclear energy
- ☐ No

Source: Pictet Asset Management, MSCI.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

- The share of investments made in:
- Transitional activities: 0.21%
  - Enabling activities: 0.11%

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 0.34% versus 0.70% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

3.96%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

5.71%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- overweight securities with low sustainability risks
- ESG criteria analysis of eligible securities that covers at least 80% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 9 companies as of 30.09.2024.

## How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- **How did the reference benchmark differ from a broad market index?**  
Not applicable.
- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**  
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**  
Not applicable.
- **How did this financial product perform compared with the broad market index?**  
Not applicable.

Notwithstanding anything to the contrary set forth below, none of the additional terms and conditions of MSCI Suppliers shall supersede (nor shall MSCI waive) any MSCI proprietary and/or intellectual property rights in MSCI Products.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Sovereign Short-Term Money Market USD**

Legal entity identifier: **549300RS8D1NP2GNN063**

**ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?  |  |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- Best-in-class:  
The fund invested in securities of issuers with low sustainability risks while avoiding those with high sustainability risks, reducing the investment universe by at least 20%. The investment universe is composed of investment grade sovereign bonds.  
No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- Norms- and values-based exclusions:  
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

**Company Exclusions based on Controversial Activities and Revenue thresholds**

| Activity                | Revenue thresholds |
|-------------------------|--------------------|
| Energy                  |                    |
| Thermal Coal Extraction | 25%                |

#### Company Exclusions based on Controversial Activities and Revenue thresholds

|   |          |
|---|----------|
| Thermal Coal Power Generation                       | 25%      |
| Oil Sands Extraction                                | 25%      |
| Shale Energy Extraction                             | 25%      |
| Off-shore Arctic Oil & Gas Exploration              | 10%      |
| <b>Weapons</b>                                      |          |
| Production of controversial weapons[1]              | Excluded |
| Military Contracting Weapons                        | 10%      |
| Small Arms Civilian Customers (Assault Weapons)     | 10%      |
| Small Arms Civilian Customers (Non-Assault Weapons) | 10%      |
| Small Arms Military/Law Enforcement Customers       | 25%      |
| Small Arms Key Components                           | 25%      |
| <b>Addictive Products</b>                           |          |
| Tobacco Products Production                         | 10%      |
| Adult Entertainment Production                      | 10%      |
| Gambling Operations                                 | 10%      |

#### Company Exclusions based on Breaches of International Norms

|   |          |
|---|----------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded |
|---|----------|

#### Country Exclusions

|   |              |
|---|--------------|
| Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs) | Excluded[3]  |
| Countries (i) listed under “high alert” or “very high alert” in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank   | Excluded[3]  |
| Countries (i) listed under “alert” on the Fragile State Index or (ii) subject to export related sanctions by the EU   | Watchlist[4] |

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] “State Sponsors of Terrorism” is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management’s Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

No engagements have been conducted during the reference period.

#### ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

##### • Reduction of the investment universe based on ESG factors

The fund reduced its investment universe by removing at least 20% of issuers with the highest sustainability risks and/or principle adverse impacts on society or the environment.

Sustainability risks are ESG related risk or conditions that could cause a material negative impact on the value of investments if they were to occur. Sustainability risks included but were not limited to the following: climate transition risk, climate physical risk, environmental risk, social risk, governance risk. Periodic reviews and risk controls are in place to monitor implementation.

Principal adverse impacts are negative, material, or likely to be material effects on sustainability factors that are caused, compounded by, or directly linked to investment decisions and advices. Such principle adverse impacts included among others, GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/ radioactive waste, social & employee matters and corruption & bribery.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

The fund mainly invests in government bonds during the reference period. In case of investments in non-sovereign bonds and in line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment Policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 0.00     | N/A                 |
| Weapons                         | 0.00     | N/A                 |
| Other controversial activities  | 0.00     | N/A                 |
| Eligible:                       | 36.13    | N/A                 |
| Covered:                        | 100.00   | N/A                 |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.  
Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

- **...and compared to previous periods?**

Comparison of the sustainability indicators to previous period:

| Sustainability indicators  | 01.10.2022 - 30.09.2023 |                        | 01.10.2023 - 30.09.2024 |                        | Commitments 01.10.2022 - 30.09.2023 | Commitments 01.10.2023 - 30.09.2024 |
|--|-------------------------|------------------------|-------------------------|------------------------|-------------------------------------|-------------------------------------|
| Reduction of the investment universe based on ESG factors  | Yes                     |                        | Yes                     |                        | 20.00%                              | 20.00%                              |

| <i>Covered (**):</i>   | 100.00%                 | N/A                    | 100.00%                 | N/A                    |                                     |                                     |

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 20.33%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 0.29%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?**

The fund mainly invests in government bonds during the reference period.

In case of investments in non-sovereign bonds, the fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's responsible investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons or (iii) countries subject to international sanctions see also detailed information on exclusions in Pictet Asset Management's responsible investment policy.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

## What was the proportion of sustainability-related investments?

20.61%

### What was the asset allocation?

The fund was 93.37% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 6.63% invested in Other (#2 Other). 20.61% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.

Source: Pictet Asset Management, Sustainability, Factset RBICS.

Comparison of the asset allocation to previous period:

| Asset allocation                    | 01.10.2022 - 30.09.2023 | 01.10.2023 - 30.09.2024 |
|-------------------------------------|-------------------------|-------------------------|
| #1 Aligned with E/S characteristics | 95.78%                  | 93.37%                  |
| #2 Other                            | 4.22%                   | 6.63%                   |

| Supranational  | 9.53        |

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● What was the share of investments made in transitional and enabling activities?  
Not applicable.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?  
Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

20.33%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the**

**What was the share of socially sustainable investments?**

0.29%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- exclusions of countries subject to international sanctions
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

**How did this financial product perform compared to the reference benchmark?**

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

**How did the reference benchmark differ from a broad market index?**

Not applicable.

**How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did this financial product perform compared with the reference benchmark?**  
Not applicable.
- **How did this financial product perform compared with the broad market index?**  
Not applicable.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Sovereign Short-Term Money Market EUR**

Legal entity identifier: **549300VAPISFDQ8EQ771**

**ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?  |  |
|--|--|
| <input checked="" type="radio"/> <input checked="" type="radio"/> Yes  | <input checked="" type="radio"/> <input type="radio"/> No  |
| <input type="checkbox"/> It made <b>sustainable investments with an environmental objective</b> : ____%                  | <input checked="" type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of <b>15.42%</b> of sustainable investments |

| <input type="checkbox"/> It made <b>sustainable investments with a social objective</b> : ____%                          | <input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>  |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- Best-in-class:  
The fund invested in securities of issuers with low sustainability risks while avoiding those with high sustainability risks, reducing the investment universe by at least 20%. The investment universe is composed of investment grade sovereign bonds.  
No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- Norms- and values-based exclusions:  
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

**Company Exclusions based on Controversial Activities and Revenue thresholds**

| Activity                | Revenue thresholds |
|-------------------------|--------------------|
| Energy                  |                    |
| Thermal Coal Extraction | 25%                |

#### Company Exclusions based on Controversial Activities and Revenue thresholds

|   |          |
|---|----------|
| Thermal Coal Power Generation                       | 25%      |
| Oil Sands Extraction                                | 25%      |
| Shale Energy Extraction                             | 25%      |
| Off-shore Arctic Oil & Gas Exploration              | 10%      |
| <b>Weapons</b>                                      |          |
| Production of controversial weapons[1]              | Excluded |
| Military Contracting Weapons                        | 10%      |
| Small Arms Civilian Customers (Assault Weapons)     | 10%      |
| Small Arms Civilian Customers (Non-Assault Weapons) | 10%      |
| Small Arms Military/Law Enforcement Customers       | 25%      |
| Small Arms Key Components                           | 25%      |
| <b>Addictive Products</b>                           |          |
| Tobacco Products Production                         | 10%      |
| Adult Entertainment Production                      | 10%      |
| Gambling Operations                                 | 10%      |

#### Company Exclusions based on Breaches of International Norms

|   |          |
|---|----------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded |
|---|----------|

#### Country Exclusions

|   |              |
|---|--------------|
| Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs) | Excluded[3]  |
| Countries (i) listed under “high alert” or “very high alert” in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank   | Excluded[3]  |
| Countries (i) listed under “alert” on the Fragile State Index or (ii) subject to export related sanctions by the EU   | Watchlist[4] |

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] “State Sponsors of Terrorism” is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management’s Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

No engagements have been conducted during the reference period.

#### ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

##### • Reduction of the investment universe based on ESG factors

The fund reduced its investment universe by removing at least 20% of issuers with the highest sustainability risks and/or principle adverse impacts on society or the environment.

Sustainability risks are ESG related risk or conditions that could cause a material negative impact on the value of investments if they were to occur. Sustainability risks included but were not limited to the following: climate transition risk, climate physical risk, environmental risk, social risk, governance risk. Periodic reviews and risk controls are in place to monitor implementation.

Principal adverse impacts are negative, material, or likely to be material effects on sustainability factors that are caused, compounded by, or directly linked to investment decisions and advices. Such principle adverse impacts included among others, GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/ radioactive waste, social & employee matters and corruption & bribery.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

The fund mainly invests in government bonds during the reference period. In case of investments in non-sovereign bonds and in line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment Policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 0.00     | N/A                 |
| Weapons                         | 0.00     | N/A                 |
| Other controversial activities  | 0.00     | N/A                 |
| Eligible:                       | 32.66    | N/A                 |
| Covered:                        | 100.00   | N/A                 |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.  
Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

- **...and compared to previous periods?**

Comparison of the sustainability indicators to previous period:

| <i>Covered (**):</i>   | 100.00%                 | N/A                    | 100.00%                 | N/A                    |                                     |                                     |

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental objectives such as:

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 15.42%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-party providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?**

Not applicable.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund’s scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team’s scoring process was a key component of the compartment’s portfolio construction process, determining target weights in the portfolio.

(ii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management’s responsible investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons or (iii) countries subject to international sanctions see also detailed information on exclusions in Pictet Asset Management’s responsible investment policy.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS                   | SECTOR        | % ASSETS | COUNTRY        |

## What was the proportion of sustainability-related investments?

15.42%

### What was the asset allocation?

The fund was 91.99% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 8.01% invested in Other (#2 Other). 15.42% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

- Pictet Asset Management used a proprietary framework to define sustainable investments. "1A Sustainable" and "Other Environmental" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.

| Supranational  | 9.52        |

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

#### Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 32.66% of the total investments.

\* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

- **What was the share of investments made in transitional and enabling activities?**  
Not applicable.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**  
Not applicable.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

15.42%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

0.00%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons

- derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
- severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- exclusions of countries subject to international sanctions
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio
