## 1. GENERAL

Pictet (the "SICAV") is an Open-ended Investment Company ("*Société d'Investissement à Capital Variable*") governed by Luxembourg law, subject to the provisions of Part I of the amended law of December 17, 2010 governing Undertakings for Collective Investment in Transferable Securities (the "2010 Law").

The SICAV was incorporated for an indefinite period on September 20, 1991, under the name Pictet Umbrella Fund and its articles of incorporation were published in the "*Mémorial C, Recueil des Sociétés et Associations du Grand Duché de Luxembourg*" on October 29, 1991. The Articles of association were amended for the last time by notarial deed on January 18, 2024 and published in the "*Recueil des Sociétés et Associations du Grand Duché de Luxembourg*" on February 15, 2024.

The SICAV is registered in the Luxembourg Trade and Companies Register under No. B38034.

Pictet Asset Management (Europe) S.A., a public limited company (*société anonyme*) with registered office at 6B, rue du Fort Niedergruenewald, L-2226 Luxembourg, was appointed management company of the SICAV as of December 8, 2005. It is a management company within the meaning of chapter 15 of the 2010 Law.

## Significant events

A new prospectus came into force in March 2024. Subsequently, the following sub-funds were renamed with effect on March 21, 2024:

- Pictet - EUR Short Mid-Term Bonds was renamed to Pictet - EUR Income Opportunities
- Pictet - Quest Emerging Sustainable Equities was renamed to Pictet - Global Multi Asset Themes
- Pictet - Sustainable Emerging Debt Blend was renamed to Pictet - Emerging Debt Blend

The Board of Directors of the SICAV has decided to approve the merger between Pictet - Short-Term Emerging Local Currency Debt into Pictet – Emerging Debt Blend with effective date as of March 22, 2024.

A new sub-fund Pictet - Quest AI-Driven Global Equities has been launched on March 28, 2024.

The Board of Directors of the SICAV has decided to approve the merger between Pictet - Global Fixed Income Opportunities into Pictet – Absolute Return Fixed Income with effect as of July 30, 2024.

A new prospectus came into force in August 2024.

### Share classes

Classes of shares offered to investors are presented in the annexes of the prospectus of the SICAV.

All the sub-funds constitute the SICAV. The net assets of each sub-fund are represented by shares which may be divided into different share classes. All the shares representing the assets of a sub-fund form a class of shares. Where classes of shares are issued, their specificities are detailed in the annexes of the prospectus of the SICAV.

The Board of Directors of the SICAV may decide to create several share classes for each sub-fund, whose assets will be invested according to the specific investment policy of the relevant sub-fund, but where the share classes may differ by specific subscription and/or redemption fee structures, currency risk hedging policies, distribution policies and/or management or investment advisory fees or by any other particularities applicable to each class. Where applicable, this information is provided in the current prospectus of the SICAV.

### Master feeder structure

#### Pictet - Global Equities Diversified Alpha

The Pictet - Global Equities Diversified Alpha sub-fund acts as Feeder Fund for the Pictet TR - Diversified Alpha sub-fund (the "Master Fund") and invests at least 85% of its assets in Class I EUR shares in the Master Fund.

As at September 30, 2024, the percentage of ownership share of the Master Fund is 0.93%.

As at September 30, 2024, the annualised total expense ratios of the sub-fund Pictet - Global Equities Diversified Alpha are as follows:

| CLASS | ANNUALISED TER INCLUDING<br>PERFORMANCE FEES | ANNUALISED TER EXCLUDING<br>PERFORMANCE FEES | SYNTHETIC TER |
|-------|--|--|---------------|
| I EUR | 0.13%  | 0.13%  | 1.50%         |
| I CHF | 0.13%  | 0.13%  | 1.50%         |
| I USD | 0.11%  | 0.11%  | 1.50%         |
| Z EUR | 0.03%  | 0.03%  | 1.40%         |

The total expense ratio (including performance fees) of the share class I EUR of the Master Fund is 1.53%.

#### Pictet - Corto Europe Long Short

The Pictet - Corto Europe Long Short sub-fund acts as Feeder Fund for the Pictet TR - Corto Europe sub-fund (the "Master Fund") and invests at least 85% of its assets in Class M EUR shares in the Master Fund.

As at September 30, 2024, the percentage of ownership share of the Master Fund is 30.12%.

As at September 30, 2024, the annualised total expense ratios of the sub-fund Pictet - Corto Europe Long Short are as follows:

| CLASS | ANNUALISED TER INCLUDING PERFORMANCE FEES | ANNUALISED TER EXCLUDING PERFORMANCE FEES | SYNTHETIC TER |
|-------|---|---|---------------|
| P EUR | 1.68%                                     | 1.68%                                     | 1.88%         |
| I EUR | 1.19%                                     | 1.19%                                     | 1.39%         |
| R EUR | 2.09%                                     | 2.09%                                     | 2.29%         |

The total expense ratio (including performance fees) of the share class M EUR of the Master Fund is 0.21%.

### Pooling

The SICAV makes use of pooling for technical reasons linked to the accounting of the performance fees and the hedging of the exchange risk for its hedged share classes denominated in currencies other than the reference currency of the sub-funds. Such pooling is set-up as a "pool feeder" structure.

#### Technical pooling (performance fees and hedged share classes)

The investments, other net assets and operations (such as dividends, interest, realised results on investments, ...) common to all share classes are held in the sub-fund via the investments in the pool of investments, while items specific to each share class (such as depositary, service, management fees and performance fees) and items specific to hedged share classes (such as forward foreign exchange contracts and other contractual fees linked to the hedging) are recorded in dedicated "feeder" accounts.

Each "feeder" is allocated a portion of the pool (percentage participation) according to its initial contribution. Subsequently, the portion of the percentage participation of each feeder is determined on each NAV calculation based on the size of each feeder as converted in the reference currency of the pool at the exchange rate applicable on the NAV calculation date.

#### Presentation and impact of Pooling in the financial statements

The data recorded in the statement of operations and changes in net assets under "Net realised gain/loss on pool - pooling effect" represent the currency effect due to differences between the exchange rates used as at the closing date and those used at each NAV calculation.

During the year and as at year-end, investments held at the level of a specific pool are fully allocated to a specific sub-fund.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES

### General

The financial statements are prepared in accordance with generally accepted accounting principles and with the legal reporting requirements applicable in Luxembourg relating to undertakings for collective investment ("UCI").

### Formation expenses

Formation expenses have been amortised over a maximum period of five years.

## Conversion of foreign currencies for each sub-fund

Cash at banks, other net assets and the market value of the investment portfolio expressed in currencies other than the base currency of the sub-fund are converted into the base currency of the sub-fund at the exchange rate prevailing at the closing date.

Income and expenses expressed in currencies other than the base currency of the sub-fund are converted into the base currency of the sub-fund at the exchange rate applicable on the transaction date.

Resulting foreign exchange gains and losses are recorded in the statement of operations and changes in net assets.

## Combined financial statements of the SICAV

The combined financial statements of the SICAV are expressed in Euro and correspond to the sum of items in the financial statements of each sub-fund, converted into Euro at the exchange rate prevailing at the closing date.

## Valuation of assets of each sub-fund

1. Securities listed on an official stock exchange or another regulated market are valued at the last known price or snap shot and fair value price, provided this price is representative.
2. Securities not listed on such stock exchange or regulated market and listed securities for which the last known price is not representative are valued with prudence and in good faith by the Board of Directors of the SICAV on the basis of their foreseeable sale prices.
3. The value of companies not listed on a stock exchange or regulated market may be determined on the basis of a valuation method put forward with prudence and in good faith by the Board of Directors of the SICAV based on the last audited annual financial statements available, and/or based on recent events that could have an impact on the value of the security in question and/or on any other valuation available. The choice of method and means used for the valuation depends on the estimated relevance of the data available. The value may be corrected on the basis of any unaudited interim financial statements available. If the Board of Directors of the SICAV considers that the price thus obtained does not reflect the probable sale price of such a security, it shall then estimate the value of the security with prudence and in good faith on the basis of its probable selling price.
4. The value of futures contracts and options contracts traded on a stock exchange or another regulated market shall be based on the closing price or settlement price published by the stock exchange or by the other regulated market that as a general rule serves as the principal trading place for these contracts. Futures contracts and options contracts not traded on a stock exchange or another regulated market are valued at their liquidation value determined in accordance with the rules established with prudence and in good faith by the Board of Directors of the SICAV, in keeping with uniform criteria set out for each type of contract.
5. Units/shares issued by open-ended undertakings for collective investment are valued:
  - on the basis of the most recent NAV available to the Central Administration Agent, or;
  - on the basis of the estimated NAV on the date closest to the sub-fund's valuation day.
6. Money market instruments are valued according to the amortised cost method, at their nominal value plus any accrued interest, or using the "mark-to-market" method.
7. Contracts For Difference ("CFD") are valued on the basis of the difference between the price of their underlying on the valuation date and on the acquisition date.
8. The unrealised gains or losses resulting from outstanding forward foreign exchange contracts are determined on the valuation day on the basis of the forward foreign exchange prices applicable on this date and are recorded in the statement of net assets.
9. For the Interest Rate Swaps ("IRS"), expected future cash flows receivable and payable on swap contracts are valued at their present value.
10. Credit Default Swaps ("CDS") are revalued on the basis of replacement spreads provided by Bloomberg Valuation Services.

11. Total Return Swaps ("TRS") are valued on the basis of the difference between the price of their underlying on the valuation date and on the acquisition date.
12. The value of cash in hand or at bank, notes and bills payable at sight and accounts receivable, prepaid expenses, dividends and interest declared or due but not yet received, consists of the nominal value of these assets, unless it appears unlikely that this value will be received; in the latter case, the value is determined by deducting an amount the Board of Directors of the SICAV deems appropriate to reflect the real value of those assets.

If the Board of Directors of the SICAV considers it necessary, it may employ a valuation committee which will be entrusted with estimating the value of certain securities with prudence and in good faith.

The Board of Directors of the SICAV is authorised to apply any other suitable valuation principles to a sub-fund's assets where it would be impossible or inappropriate to use the above criteria.

### **The specific valuation of securities in certain sub-funds**

For the Short-Term Money Market (CHF, EUR, GBP, JPY and USD) and Sovereign Short-Term Money Market (EUR and USD) sub-funds, unlisted securities are valued using the "Marked-to-Model" method, taking into account the issuer spread and the risk-free rates. Securities for which a market quotation exists are valued using a "Mark to Market" method.

### **Valuation of non-listed investments**

Such securities are entered into the portfolio at acquisition cost. The valuation frequency depends on the occurrence of significant events affecting the security. In the absence of a significant event, valuations should be carried out at least twice per year. Examples of significant events triggering a valuation process include:

- Substantially higher/lower-than-expected profits;
- A new round of financing initiated by the company;
- A new transaction (initiated by a third party investor);
- Restructuring operations.

### **Recognition of futures contracts, options on futures contracts and CFD**

At the time of each NAV calculation, the margin call on futures contracts, options on futures contracts and CFD is recorded directly in the realised capital gains and losses accounts relating to forward contracts.

### **Accounting of futures contracts, options on futures contracts and CFD**

Unrealised appreciations and depreciations on futures contracts, options on futures contracts and CFD are settled daily through the reception/payment of a cash amount corresponding to the daily increase/decrease of the market value of each opened future, option on future contract or CFD. Such cash amount is recorded under the caption "Cash at banks" in the statement of net assets and the corresponding amount is recorded under the caption "net realised gain and loss on forward contracts" in the statement of operations and changes in net assets.

### **Accounting and valuation of repurchase agreements and reverse repurchase agreements**

A repurchase agreement ("repo") is the sale of a security with a commitment by the seller to buy the same security back from the purchaser at a specified price at a designated future date.

A reverse repurchase agreement ("reverse repo") is the purchase of a security with a commitment by the buyer to sell the same security back to the seller at a specified price at a designated future date. By convention, whether the transaction is called a repo, or a reverse repo agreement is determined by viewing the transaction from the perspective of the dealer (i.e. the fund counterparty).

A repurchase agreement is similar in effect to a loan by the SICAV to the seller collateralised by the securities. The SICAV does not record the purchase of the securities received but records the repurchase agreement as if it were a loan. The transaction is disclosed in the statement of net assets under "Receivable for repurchase agreements", including any interest receivable on such transaction. Because a repurchase agreement between the two specific parties involved is generally for a relatively short time and is not transferable, it has no active market. The SICAV carries repurchase agreements at cost, which, combined with accrued interest, approximates market value.

The interest income is recorded in the statement of operations and changes in net assets under "Interest income on repurchase agreements".

Under a reverse repo agreement, the SICAV sells a security to a buyer, usually a broker, for cash. The SICAV does not record a sale of the security and agrees to repay cash plus interest at a later date in exchange for the return (repurchase) of the same security. The transaction is thus similar in effect to borrowing by the SICAV collateralised by the securities. The proceeds are recorded in the statement of net assets under "Payable for reverse repurchase agreements", including any interest payable on such transaction. The securities are marked to market. The interest expense is recorded in the statement of operations and changes in net assets under "Interest expense on reverse repurchase agreements".

In this case, the SICAV is not subject to the risk of an impairment loss for the underlying assets. The repurchase/reverse repurchase agreements are respectively considered as borrowing and lending for the amount of cash received and/or paid.

### **Net realised gains or losses on sales of investments**

Net realised gain or loss on sales of investments is calculated on the basis of the weighted average cost of the investment sold.

### **Acquisition cost of investment securities**

Cost of investment securities denominated in currencies other than the base currency of the sub-fund is converted into the base currency of the sub-fund at the exchange rate applicable on the acquisition date.

### **Income**

Dividends are recorded net of withholding tax at the ex-date. Interest is recorded on an accrual basis.

### **Dividend distribution**

The Board of Directors of the SICAV reserves the right to introduce a distribution policy that may vary between sub-funds and sub-classes of shares in issue. In addition to the aforementioned distributions, the SICAV may decide to distribute interim dividends. The SICAV may distribute the net investment revenue, realised capital gains, unrealised capital gains and capital. Investors should thus be aware that distributions may effectively reduce the net value of the SICAV. No income is distributed if the SICAV's net assets after distribution fall below EUR 1,250,000. The SICAV may distribute free bonus shares within the same limits. Dividends and allotments not claimed within five years of their payment date lapse and revert to the sub-funds or to the relevant sub-class of shares in the sub-funds of the SICAV.

## Closing NAV

As at September 30, 2024, in the official NAVs (used as a basis for subscriptions and redemptions as at that date) and in the NAVs shown in these financial statements, investments in securities were valued as follows:

1) As at September 30, 2024, for the assets of the following sub-funds, the prices taken into consideration at the time of the calculation of the NAVs were those at close of trading on September 27, 2024:

- Pictet - Emerging Local Currency Debt
- Pictet - Multi Asset Global Opportunities
- Pictet - Global Dynamic Allocation
- Pictet - Emerging Markets Multi Asset
- Pictet - Short-Term Money Market CHF
- Pictet - Short-Term Money Market USD
- Pictet - Short-Term Money Market EUR
- Pictet - Short-Term Money Market JPY
- Pictet - Short-Term Money Market GBP
- Pictet - Sovereign Short-Term Money Market USD
- Pictet - Sovereign Short-Term Money Market EUR

2) For the assets of the following sub-funds, the prices taken into consideration at the time of the calculation of the NAVs were those at intra-day on September 30, 2024:

- Pictet - USD Government Bonds
- Pictet - Global Emerging Debt
- Pictet - Global Bonds
- Pictet - USD Short Mid-Term Bonds
- Pictet - Global High Yield
- Pictet - Global Sustainable Credit
- Pictet - Emerging Corporate Bonds
- Pictet - Short Term Emerging Corporate Bonds
- Pictet - Absolute Return Fixed Income
- Pictet - Emerging Debt Blend
- Pictet - Strategic Credit
- Pictet - Climate Government Bonds
- Pictet - Family
- Pictet - Emerging Markets
- Pictet - Quest Europe Sustainable Equities
- Pictet - Digital
- Pictet - Biotech
- Pictet - Premium Brands
- Pictet - Water
- Pictet - Indian Equities
- Pictet - Japanese Equity Opportunities
- Pictet - Asian Equities Ex Japan
- Pictet - China Equities
- Pictet - Japanese Equity Selection
- Pictet - Health
- Pictet - Security
- Pictet - Clean Energy Transition
- Pictet - Russian Equities
- Pictet - Timber
- Pictet - Nutrition
- Pictet - Global Megatrend Selection
- Pictet - SmartCity

- Pictet - Quest Global Sustainable Equities
- Pictet - Robotics
- Pictet - Global Thematic Opportunities
- Pictet - Human
- Pictet - Positive Change
- Pictet - ReGeneration
- Pictet - China Environmental Opportunities

3) For all other sub-funds, the official NAVs (used as a basis for subscriptions and redemptions as at that date) and the NAVs shown in these financial statements were determined on the basis of the valuation of the underlying assets at close of trading on September 30, 2024.

Had the Board of Directors of the SICAV decided to use, for the preparation of those Financial Statements, closing prices as at September 30, 2024, the NAVs of the following sub-funds would have been different as follows:

| SUB-FUND                                     | CURRENCY | OFFICIAL NAVS<br>AS AT 30.09.2024 | NAV CALCULATED ON THE BASIS OF<br>CLOSING PRICES AS AT 30.09.2024 | DIFFERENCE |
|--|----------|-----------------------------------|---|------------|
| PICTET - GLOBAL BONDS                        | EUR      | 72,391,783.70                     | 72,357,076.91   | -0.05%     |
| PICTET - EMERGING LOCAL CURRENCY DEBT        | USD      | 2,381,079,429.21                  | 2,376,269,397.24  | -0.20%     |
| PICTET - EMERGING CORPORATE BONDS            | USD      | 772,322,234.32                    | 772,301,939.77  | 0.00%      |

The Money Market Instruments sub-funds are not disclosed in the table above due to the low volatility of their investments.

## Transaction fees

Transaction fees represent the costs incurred by each sub-fund in relation to the purchases and sales of investments. They include brokerage fees, bank charges, taxes, deposit fees and other transaction costs and are included in the statement of operations and changes in net assets for the year ended September 30, 2024.

## Capital gain tax

The Management Company and/or the Investment Managers reserve the right to book tax accruals on capital gains, thus impacting the valuation of the relevant Funds. With the uncertainty of whether and how certain capital gains are to be taxed, any provision for taxation made by the Management Company and/or the Investment Managers may be excessive or inadequate to meet final tax liabilities on capital gains. Such Tax accrual is recorded under the caption "Other fees payables" in the statement of net assets.

## 3. "TAXE D'ABONNEMENT"

The SICAV is subject to a subscription tax (taxe d'abonnement) levied at the rate of 0.05% per annum based on its net asset value at the end of the relevant quarter, calculated and paid quarterly. This subscription tax will however be reduced to 0.01% for:

- sub-funds or classes of shares reserved to Institutional Investors, or
- sub-funds whose sole objective is the collective investment in money market instruments and the placing of deposits with credit institutions.

A subscription tax exemption is applicable to:

- the portion of any sub-fund's assets invested in other Luxembourg investment funds subject to the subscription tax;
- any sub-fund (i) whose shares are reserved to institutional investors, and (ii) whose sole objective is the collective investment in money market instruments and the placing of deposits with credit institutions, and (iii) the weighted residual portfolio maturity does not exceed 90 days, and (iv) that has obtained the highest possible rating from a recognised rating agency. If there are several classes of shares within the relevant sub-fund, the exemption is only applicable to the classes of shares reserved to institutional investors;
- any sub-fund whose shares are reserved to (i) institutions for occupational retirement provision, or similar investment vehicles, set up on one or more employers' initiative for the benefit of their employees; and (ii) companies of one or more employers investing funds they hold in order to provide retirement benefits to their employees;
- any sub-fund whose investment policy provides that at least 50% of their assets shall be invested in one or several microfinance institutions; and
- any sub-fund (i) listed or traded on at least one stock exchange or another regulated market, operating regularly, and recognised and open to the public, and (ii) whose exclusive object is to replicate the performance of one or more indexes. If there are several classes of shares within the relevant sub-fund, the exemption is only applicable to the classes of shares meeting condition (i) above.

## Belgian annual tax

The SICAV is registered with the Belgium Financial Services and Markets Authority in accordance with the Article 154 of the Act of August 3, 2012 relating to financials markets. Funds registered for public distribution in Belgium are subject to an annual tax of 0.0925% on the NAV of share distributed in Belgium via Belgian intermediaries as at December 31 of the previous year.

This tax is recorded in the caption "Professional fees, audit fees and other expenses" of the statement of operations and other changes in net assets.

#### 4. MANAGEMENT FEES

The SICAV has entrusted the management function to the Management Company, which has delegated it to one or more Investment Managers for each sub-fund.

Subject to prior approval by the Management Company, the Investment Managers may appoint one or more investment sub-managers, which may or may not be part of the Pictet Group, to provide all or part of the management of certain sub-funds, as specified in the annexes of the current prospectus of the SICAV.

The Management Company may be assisted by one or more Investment Advisors internal or external of the Pictet Group for the purpose of advising the Management Company on investment opportunities for the SICAV.

The Management Company receives management fees from the sub-funds for the purpose of remunerating the Investment Managers, the Investment Sub-Managers, the Investment Advisors and the Distributors, where applicable. These fees are levied on each sub-fund and on the classes of shares prorata to their net assets.

The maximum annual rates applicable for the year ended September 30, 2024, are as follows:

The Board of Directors of the SICAV has decided to present the rates for the classes launched and not yet launched as at September 30, 2024.

When a sub-fund invests a significant portion of its assets in the units of other UCITS and/or other UCIs managed directly or by delegation by the same management company or by any other company with which the management company is linked through common management or control or through a substantial direct or indirect equity holding, the maximum percentage of the fixed management fees that may be obtained at the level of the target UCITS and/or UCIs will be 1.6%, to which, if applicable, a fee may be added at a maximum of 20% of the performance of the NAV per share.

On June 14, 2017, The European Parliament and The Council of the European Union released the Regulation 2017/1131 on money market funds (the "MMF Regulation") with effect as of July 20, 2018.

As at September 30, 2024, the following sub-funds of the SICAV are qualified as short-term variable net asset value money market funds and are in the scope of the article 16.4 of the MMF Regulation, but invest less than 10% of their assets in other money market funds:

- Pictet - Short-Term Money Market CHF
- Pictet - Short-Term Money Market EUR
- Pictet - Short-Term Money Market JPY
- Pictet - Short-Term Money Market USD
- Pictet - Short-Term Money Market GBP
- Pictet - Sovereign Short-Term Money Market EUR
- Pictet - Sovereign Short-Term Money Market USD

## 5. SERVICE FEES

An annual service fee calculated on the average NAVs of each sub-fund is paid, depending on the terms of the agreement, to the Management Company in remuneration for the services that it provides to the SICAV. This fee also enables the Management Company to remunerate FundPartner Solutions (Europe) S.A. for its transfer agent, administrative agent and paying agent services. The maximum rates applicable for the year ended September 30, 2024, are as follows:

## 6. OTHER FEES PAYABLE

As at September 30, 2024, other fees payable mainly include service, capital gain tax and depositary fees.

## 7. SUBSCRIPTION, REDEMPTION AND/OR CONVERSION PRICE

The issue price for shares in each sub-fund is equal to the NAV of each share in the sub-fund in question, calculated on a forward pricing basis as at the relevant valuation day. This price may be increased by fees paid to financial intermediaries, which will not exceed up to 5% of the NAV per share for the sub-fund in question and will be paid to financial intermediaries and/or distributors (excluding the Management Company) involved in the distribution of the SICAV's shares. Front- and back-end load for intermediaries will vary according to the sub-class of share. This issue price will be increased to cover any duties, taxes and stamp duties due.

The redemption price for shares (or sub-class of shares) of each sub-fund is equal to the NAV of each share (or each sub-class of shares) in the sub-fund in question, calculated on a forward pricing basis as of the applicable valuation day. A commission paid to financial intermediaries and/or distributors may be deducted from this amount, representing up to 1% of the NAV per share, may be deducted from this amount and paid to financial intermediaries and/or distributors (excluding the Management Company). Front- and back-end load for intermediaries will vary according to the sub-class of share. The redemption price will be reduced to cover any duties, taxes and stamp duties to be paid.

In certain exceptional circumstances such as, for example:

- significant trading volumes,
- and/or market disturbances,
- and in any other cases when the Board of Directors of the SICAV deems, at its sole discretion, that the interest of the existing shareholders (concerning issues/switches) or of the remaining shareholders (concerning redemptions/switches) might be negatively affected.

The Board of Directors of the SICAV will be authorised to charge a "Dilution Levy" for a maximum of 2% of the value of the NAV.

\*\*\* Since March 28, 2024 (launch date)

The Board of Directors of the SICAV will be authorised to apply corrections to the NAV as described in the section "How to calculate NAV" of the current Prospectus.

## 8. SWING PRICING

A swing pricing mechanism has been put in place in order to protect the existing shareholders, at the time of subscriptions and/or redemptions received for a given valuation day. As a general principle, investors entering or shareholders exiting generally bear the costs incurred by trading activity. These costs estimated at a flat rate or effective value may be invoiced separately or by adjusting the net asset value of a concerned sub-fund either down or up.

The swing pricing mechanism may be applied across all sub-funds with the exception of certain share classes of the indexed funds. The extent of the price adjustment is set by the Board of Directors of the SICAV. The amount of the adjustment may vary from sub-fund to sub-fund and will not exceed 2% as general principal of the original NAV per share. Exceptions, if any, are disclosed in the sub-fund annexes.

For each sub-fund with a swing pricing mechanism, a pre-defined swing threshold has been defined set as a percentage of the sub-fund's net asset value ("NAV"). This pre-defined swing threshold might be equal to 0% (the terminology "full swing" is then used) or different to 0% (the terminology "partial swing" is then used).

If for a given valuation day:

- the net inflow into a sub-fund exceeds the pre-defined threshold, then the NAV per share will be swung up. The shareholders subscribing into the sub-fund will thus bear the costs incurred by the trading activities triggered by their subscriptions by paying a higher NAV.
- the net outflow into a sub-fund exceeds the pre-defined threshold, then the NAV per share will be swung down. The redeeming shareholders of the sub-fund will thus bear the costs incurred by the trading activities triggered by their redemptions by receiving a lower NAV.

The Board of Directors of the SICAV may decide to increase the maximum adjustment limit (invoiced separately or charged by adjusting the net asset value) stated in the Prospectus in exceptional circumstances and on a temporary basis, to protect Shareholders' interests.

The following sub-funds used the swing pricing mechanism during the year ended September 30, 2024:

## 9. PERFORMANCE FEES

Within the SICAV, performance fees have been implemented for two sub-funds and are intended to remunerate the investment managers of these sub-funds.

The performance fee is calculated as follows:

The investment manager receives a performance fee for all shares of the sub-fund, except for "X" shares, accrued for every valuation day and paid annually, based on the NAV, equivalent to the rate mentioned in the below table of the performance of the NAV per share (measured against the high water mark) versus the index shown in the table below for each class of shares since the last payment of the performance fee.

|   | PICTET - MULTI ASSET GLOBAL OPPORTUNITIES              | PICTET - GLOBAL FIXED INCOME OPPORTUNITIES*              |
|---|--|--|

| Hedged share classes denominated in GBP | Sterling Overnight Interbank Average Rate (SONIA) + 3% | Sterling Overnight Interbank Average Rate (SONIA) + 1.5% |

\*until July 30, 2024, (date of merger)

The performance fee is calculated on the basis of the NAV per Share after deduction of all expenses, liabilities, and management fees (but not performance fee), and is adjusted to take account of all subscriptions and redemptions.

Any first calculation period (a period is at least 12 months) shall start on the launch date of the relevant Class and terminate as at the last Valuation Day of the current fiscal year. The subsequent calculation periods shall start as at the last Valuation Day at the end of the previous calculation period and terminate as at the last Valuation Day of each following fiscal year.

The crystallisation frequency is yearly.

The performance fee is calculated by reference to the outperformance of the NAV per share, adjusted for subscriptions into and redemptions out of the relevant classes during the calculation period. No performance fee is due if the NAV per share before the performance fee turns out to be below the high water mark for the calculation period in question.

For the above sub-funds, the high water mark is defined as the greater of the following two values:

- The last highest NAV per share for which a performance fee was paid; and
- The initial NAV per share.

The dividends paid to shareholders are deducted from the high water mark.

The reference period corresponds to the SICAV's financial year.

A detail of the performance fee calculation appears in the current prospectus.

For the year ended September 30, 2024, the performance fees amounted to:

|------------------------------|----------|---------------|----------------|-----------------|---------------|
| MSCI Daily Net TR World Euro | EUR      | 28,570.00     | ESTRON + 0.46% | MSDEWIN         | 24/02/2025    |

The net unrealised gain on this Total Return Swap contract as at September 30, 2024 was EUR 302,022.04 and is included in the statement of net assets.

## 15. CREDIT DEFAULT SWAPS ("CDS")

A CDS is a bilateral financial agreement whereby a counterparty (the protection buyer) pays a premium for the commitment of the protection seller to pay a certain amount if the reference issuer experiences a credit event as provided for by the agreement.

The protection buyer acquires the right to sell a specific bond issued by the reference issuer at its nominal value (or at another reference value or execution price) when a credit risk arises. Credit event generally includes bankruptcy, insolvency, judicial settlement/compulsory liquidation, deferral, or non-payment of outstanding debts.

The SICAV had the following CDS outstanding as at September 30, 2024:

### Pictet - EUR Bonds

| PROTECTION | UNDERLYING                                | CURRENCY | NOMINAL VALUE | RATE PAYABLE | RATE RECEIVABLE | MATURITY DATE |

The sub-funds receive a remuneration on these lending transactions. This remuneration is presented in the statement of operations and changes in net assets in the section entitled "Interest on securities lending". A fee amounting to a maximum of 20% of the interest received is perceived by the Depositary Bank, Bank Pictet & Cie (Europe) AG, *succursale de Luxembourg*, for the services that it provides to the SICAV in the framework of securities lending contracts.

In the framework of these lending transactions, the sub-funds of the SICAV receive a guarantee (in the form of bonds issued or guaranteed by a government or by a regional or local government in a member state of the OECD, or issued or guaranteed by local, regional or international branches of supranational institutions or organisations that have a rating of at least AA and/or bonds issued or guaranteed by leading issuers offering adequate liquidity), whose value at the time of concluding the securities lending contract should be with a target of 105% of the total market value of the securities lent.

## 18. DIVIDENDS DISTRIBUTED

On October 26, 2023, the Board of Directors of the SICAV decided to distribute dividends to the following share classes:

|   |     |      |           |
|---|-----|------|-----------|

## 21. RUSSIA UKRAINE CONFLICT

The onset of the conflict between Russia and Ukraine in February 2022 has impacted financial markets performance, further compounded by sanctions, dislocated markets and poor liquidity particularly around Russian and Ukrainian securities making it impossible to trade or value the majority of Russian securities (onshore securities i.e., in RUB, UAH) or repatriate any proceeds of sales into hard currency from any S-account.

As reference to the context described above

- the Russian securities in local and hard currency have been valued at zero by the Board of Directors of the SICAV.
- The RUB cash account and deposits have been valued at zero by the Board of Directors

This may be subject to change because of the evolution of the situation.

The Management Company continues to monitor existing exposures to Russia and Ukraine and the effects of the Ukraine / Russia conflict. In the context of the regular Valuation Committee and Risk Committee meetings in particular, decisions are made considering the current situation and its evolution. These decisions are subject to regular review. Key considerations include, but are not limited to:

- Direct and indirect exposures, and spill-over effects likely to have a negative impact on sub-funds.
- Markets, and asset valuation.
- Portfolio Compliance considering capital restrictions and sanctions imposed as an outcome of the Russia / Ukraine conflict.

The Board of Directors of the SICAV is confident that the SICAV operations will continue as a going concern and is carefully following the current crisis.

### Specific to Pictet - Russian Equities

In the context described above, The Board of Directors of the SICAV decided to suspend the calculation of the net asset value, the subscriptions, the redemptions of shares of the sub-fund Pictet - Russian Equities as of February 28, 2022 (as mentioned in the Shareholder notice dated February 25, 2022) and to waive the management fees until further notice.

The Board of Directors of the SICAV will regularly review the suspension and all reasonable steps will be taken to bring the Suspension Period to an end as soon as possible, having regard to the best interest of shareholders.

Under the current situation, it is not possible to determine for how long the suspension of official NAV calculation (including issue, redemption, and conversion of shares) will last. The accounting information and net asset value related to the sub-fund, presented in the current financial statements, have been established and calculated according to the accounting principles described in note 2. This net asset value is a technical and unpublished one.

Any subsequent decision that changes this status will be communicated to the investors as and when required.

### Other sub-funds impacted.

With the exception of Pictet - Russian Equities, the following sub-funds' exposure to Russia has been calculated based on a theoretical market price (non-tradable market prices) to Russian securities and to the exposition on the RUB as of September 30, 2024, in percentage of the sub-fund's NAV, is as follows. This for indicative purposes only.

- Pictet - Emerging Markets Index: 2.04%
- Pictet - Global Multi Asset Themes: 8.42%
- Pictet - Emerging Markets Multi Asset\*: 0.47%

\* Which includes the last official NAV of Pictet - Russian Equities HZ EUR.

## 22. REVERSE REPURCHASE AGREEMENTS

During the year ended September 30, 2024, the Fund entered into reverse repurchase agreements transactions. For the following sub-funds, the value of the reverse repurchase agreements as at September 30, 2024 amount to:

### Pictet - Short-Term Money Market CHF

|                 | QUANTITY      | INTEREST RATE | MATURITY DATE |
|-----------------|---------------|---------------|---------------|
| Euroclear REPOC | 85,000,000.00 | 0.45%         | 01/10/2024    |

The amount of collateral on these contracts as at September 30, 2024 was CHF 86,578,061.29.

The amount of collateral on these contracts as at September 30, 2024 was EUR 372,328,040.40.

**23. EVENTS AFTER THE YEAR-END**

A new Prospectus came into force in October 2024.

The Board of Directors of the SICAV has decided to approve the merger between Pictet Sicav II - Dynamic Asset Allocation Fund into Pictet - Dynamic Allocation Fund with effective date as of October 15, 2024.

Pursuant to the "Guidelines on the calculation and disclosure of the total expense ratio ("TER") of collective investment schemes" of May 16, 2008 (version of August 5, 2021) of the Asset Management Association Switzerland ("AMAS"), the SICAV is obliged to publish a TER for the latest 12-month period ("AMAS TER").

The TER is defined as the ratio between the total operating expenses (Operating charges primarily consist of management and investment advisory fees, depositary fees, bank charges and interest, service fees, performance fees, taxes and duties) and the relevant sub-fund's / share class' average NAV (calculated on the basis of the daily average of the total net assets for the relevant period) expressed in its reference currency.

The SICAV also discloses the Securities Lending TER having the same calculation method as the one used for the AMAS TER, but including the income from interests on securities lending.

Moreover, for the new share classes launched during the period, operating fees were annualised as stated in point 8 of the Guidelines. The amounts were annualised whereas certain fixed costs were not split equally over the period.

As much as the sub-funds invest more than 10% of their assets in other investment funds, a synthetic TER is calculated:

- by adding to the TER the sum of the TER of underlying funds weighted according to their share in the net assets of the related sub-fund at the reference date. If one of the target funds does not publish any TER, no synthetic TER will be calculated for this fraction of investment,
- by subtracting the impact of the retrocession received calculated by dividing the amount of retrocessions by the average assets.

For the year from October 1, 2023 to September 30, 2024, the TER were:

| CLASS                                | CURRENCY | SECURITIES<br>LENDING TER | AMAS TER INCLUDING<br>PERFORMANCE FEES | AMAS TER EXCLUDING<br>PERFORMANCE FEES | SYNTHETIC TER |
|--------------------------------------|----------|---------------------------|--|--|---------------|
| <b>Pictet - EUR Bonds</b>            |          |                           |  |  |               |
| I                                    | EUR      | 0.60%                     | 0.60%                                  | 0.60%                                  | -             |

The performance per share class was calculated by comparing the net assets per share as at September 30, 2024, with the net assets per share as at September 30, 2023 in accordance with SFAMA Guidelines.

For share classes that distributed a dividend (cf. note 18), the dividend amount was reintegrated into the net assets as at September 30, 2024, in order to compute the performance including dividends.

The performance data do not take account of the commissions and costs incurred on the issue and redemption of shares.

As at September 30, 2024, performances were the following:

| ISIN CODE                            | CLASS      | CURRENCY | PERFORMANCE<br>FOR THE FINANCIAL YEAR<br>ENDED SEPTEMBER 30, 2024 | PERFORMANCE<br>FOR THE FINANCIAL YEAR<br>ENDED SEPTEMBER 30, 2023 | PERFORMANCE<br>FOR THE FINANCIAL YEAR<br>ENDED SEPTEMBER 30, 2022 |

## 1. INDEX-TRACKING UCITS

The SICAV is comprised of the following 7 index sub-funds as at September 30, 2024:

| Sub-fund                            | Benchmark             | Currency | Ex post TE (1) | Sub-fund's Performance (2) | Benchmark's Performance |
|-------------------------------------|-----------------------|----------|----------------|----------------------------|-------------------------|
| Pictet - Europe Index (3)           | MSCI EUROPE           | EUR      | 0.21%          | 19.07%                     | 18.80%                  |
| Pictet - USA Index                  | S&P 500 Comp          | USD      | 0.03%          | 35.68%                     | 35.76%                  |
| Pictet - Japan Index                | MSCI JAPAN            | JPY      | 0.05%          | 16.47%                     | 16.52%                  |
| Pictet - Pacific Ex Japan Index     | MSCI PACIFIC EX JAPAN | USD      | 0.08%          | 28.09%                     | 28.20%                  |
| Pictet - Emerging Markets Index (4) | MSCI EM               | USD      | 0.24%          | 25.21%                     | 26.05%                  |
| Pictet - Euroland Index (5)         | MSCI EMU              | EUR      | 0.26%          | 20.68%                     | 20.31%                  |
| Pictet - China Index (6)            | MSCI CHINA            | USD      | 0.25%          | 23.83%                     | 23.89%                  |

(1) Ex post tracking error (TE) is reported as a standard deviation percentage difference. This measure reports the difference between the return the investor receives and that of the benchmark.

(2) The performance of the sub-fund is calculated on the basis of a daily frequency and on the basis of a gross return after transactions fees but before other fees.

(3) The positive deviation relative to the benchmark also corresponds to dividends that are less taxed than what is assumed by MSCI in its index calculation. While MSCI applies country specific corporate tax rates these might differ from the actual tax rate of the individual companies. The fund's largest stock, industrial and country weight deviations were kept below 0.06%. The portfolio holds 219 stocks in the benchmark, with one of the MSCI EMU Index constituents being discarded to abide by the group restrictions directive on weapons and ammunition.

(4) Since the India introduction of a Capital Gain tax in 2018 (15% over the short term and 10% over the long term applicable on all Indian stocks), Pictet has introduced a daily provision applicable on the NAV of the fund. This provision materialises upon subscriptions and redemptions for entering/exiting investors. Russian securities held in the portfolio (2.2% as at 25.02.2022) have been valued at 0 after 25.02.2022, whereas MSCI removed Russia from its indexes on 09.03.2022.

(5) The positive deviation relative to the benchmark also corresponds to dividends that are less taxed than what is assumed by MSCI in its index calculation. While MSCI applies country specific corporate tax rates these might differ from the actual tax rate of the individual companies.

(6) The relative performance volatility of the Pictet-China index versus its benchmark is due to a currency mismatch in the valuation of Chinese local shares: The fund NAV uses the CNY/USD rate in its calculation while the index provider uses the CNH/USD in that of the benchmark. The largest weight deviations between the fund and the benchmark originates from securities that had been excluded from the investment universe based on internal sustainability criteria.

## 2. REMUNERATION OF THE MEMBERS OF THE MANAGEMENT COMPANY

### Remuneration policy

Pictet Asset Management (Europe) S.A. ("The Management Company") has adopted a remuneration policy which is in accordance with the principles established by the European Directive 2014/91/UE, relating to Undertakings for Collective Investment in Transferable Securities Directive ("UCITS V") and the transposition into Luxembourg Law dated May 10, 2016, amending the Law of December 17, 2010 ("The UCITS Law"), as well as the Guidelines on sound remuneration policies issued by the European Securities and Markets Authority under the UCITS Directive (the "ESMA Guidelines").

More details about this remuneration policy, which describes, but not limited to, how remuneration and benefits are determined, are available on the following website:

<https://www.am.pictet/en/luxembourg/global-articles/ucits-remuneration-disclosure>

A paper copy is also made available free of charge upon request at the Management Company's registered office.

## Quantitative elements

Figures below relate to Pictet Asset Management (Europe) S.A. (including its branches) based on apportionment of Assets Under Management ("AUM") represented by the SICAV in respect of the financial year ended September 30, 2024.

| (IN CHF, 000S)           | FIXED REMUNERATION | VARIABLE REMUNERATION | TOTAL REMUNERATION | NUMBER OF BENEFICIARIES |
|--------------------------|--------------------|-----------------------|--------------------|-------------------------|
| The Staff                | 9,006              | 5,378                 | 14,384             | 100                     |
| The Key Identified Staff | 3,885              | 3,084                 | 6,699              | 27                      |
| <b>TOTAL</b>             | <b>12 891</b>      | <b>8,462</b>          | <b>21,353</b>      | <b>127</b>              |

For additional context, the Management Company manages 17 Alternative Investment Funds and 3 UCITS, with a combined AUM as at September 30, 2024, of CHF 140,195,009,895.

The aggregate 2024 total remuneration paid to Key Identified Staff of delegates is CHF 19,770,490.

### Disclosure notes:

- Fixed remuneration is an aggregated salary, pension, and benefits paid for the year from October 1, 2023 to September 30, 2024 for Management Company staff in Luxembourg and for the staff of the European branches.
- Variable remuneration is aggregated target, discretionary, and parts remunerations paid for the year from October 1, 2023 to September 30, 2024.
- Total fixed and variable remuneration disclosed is based on apportionment of AUM represented by the SICAV. Beneficiaries are current and past employees that received a fixed and variable remuneration during the respective period.
- The 127 headcounts of the Management Company and its European branches as at September 30, 2024 is composed of:
  - 27 people identified as Key identified staff ("The Key Identified Staff") of the Management Company and its European branches as per the AIFM Directive and ESMA Guidelines.
    - > 6 members of the Board of Directors of the Management Company. Only 2 member of the Board of Directors of the Management Company receives an emolument from the Management Company.
    - > 7 conducting officers, members of the Management committee of the Management Company
    - > conducting officers and 1 internal auditor and 2 senior members of the Management Company.
    - > 11 Heads of Distribution, Investment, Marketing, Intermediaries, Operations and Business development in the Management Company's European branches.
  - 100 employees from the Management Company and its European branches ("The staff").
- For 2024, delegates are counterparties to which portfolio management has been formally delegated, in line with the latest ESMA guidance. The figure is based on a prorated basis for the part of the SICAV assets which are managed by the identified staff within the delegates.

## 3. ELIGIBLE FOR THE PEA OR PLAN D'ÉPARGNE EN ACTIONS (FRENCH EQUITY SAVINGS PLAN)

French tax resident investors should be aware that the sub-fund listed below is eligible to be held within a "plan d'épargne en actions" ("PEA") in France. The SICAV undertakes that the sub-funds are investing at least 75% of their assets on a permanent basis in securities or rights eligible to the PEA.

As at September 30, 2024, the below sub-fund had the following percentage of their assets invested in eligible PEA assets:

- Pictet - Euroland Index: 96.85%

#### 4. ALFI CODE OF CONDUCT

The Board of Directors of the Fund has adopted the Principles of the ALFI Code of Conduct dated June 2013, and further amended in June 2022 (the "Code"), which sets out a framework of high level principles and best practice recommendations for the governance of Luxembourg investment funds. The Board of Directors of the Fund considers that it has been in compliance with the Principles of the Code in all material respects for the year ended September 30, 2024.

#### 5. INFORMATION ON RISK MEASUREMENT

As of September 30, 2024 the following sub-funds of Pictet use the Value-at-Risk (VaR) approach to monitor their global risk exposure. All other sub-funds of Pictet use the commitment approach to monitor the global risk exposure.

The VaR may be calculated either using the absolute VaR approach or using the relative VaR approach. The treatment and presentation of VaR figures will differ, taking into account the approach used (relative or absolute).

##### Absolute VaR approach

The absolute VaR approach limits the maximum VaR that a sub fund can have relative to its Net Asset Value. It is measured against a regulatory limit of 20%.

The leverage level is included as well. It has been calculated as the sum of the notionals of the financial derivative instruments used (CESR/10-788 - Box 25). The presented figure is based on an average of the monthly observations covering the period from October 1, 2023 to September 30, 2024.

| SUB-FUND NAME                                | AVERAGE LEVERAGE | MINIMUM VAR | MAXIMUM VAR | AVERAGE VAR |
|--|------------------|-------------|-------------|-------------|
| Pictet - EUR Bonds                           | 147%             | 4.46%       | 7.42%       | 5.46%       |
| Pictet - USD Government Bonds                | 7%               | 3.84%       | 4.60%       | 4.27%       |

## Relative VaR approach

The relative VaR approach is used for sub-funds where a reference portfolio is defined reflecting their investment strategy. The relative VaR of a sub-fund is expressed as a multiple of the VaR of the reference portfolio (benchmark) and is limited by regulation to no more than twice the VaR of its benchmark.

The daily VaR observations (from October 1, 2023 to September 30, 2024) for the sub-funds have been systematically measured against the VaR observations for their benchmark. The ratio obtained is called the VaR limit utilization ratio.

As an example, the limit utilization ratio for Pictet EUR Short Term High Yield equaled 115.36% on one occasion. On this day the following figures were calculated:

- Sub-fund VaR 4.58%
- Benchmark VaR 3.97 %
- VaR limit utilization 115.36%

This ratio has to be put into perspective with the maximum limit allowed by the Law, which is 200% of the VaR of the Benchmark.

| SUB-FUND NAME                              | AVERAGE LEVERAGE | MINIMUM VAR | MAXIMUM VAR | AVERAGE VAR |
|--|------------------|-------------|-------------|-------------|
| Pictet - EUR High Yield                    | 19%              | 106%        | 120%        | 92%         |
| Pictet - Global High Yield                 | 43%              | 87%         | 117%        | 65%         |
| Pictet - EUR Short Term High Yield         | 22%              | 129%        | 142%        | 113%        |
| Pictet - Emerging Corporate Bonds          | 23%              | 135%        | 155%        | 116%        |
| Pictet - Emerging Debt Blend               | 268%             | 116%        | 136%        | 90%         |
| Pictet - Global Equities Diversified Alpha | 496%             | 108%        | 126%        | 93%         |

## Sub-funds' benchmarks

| SUB-FUND NAME                              | SUB-FUND BENCHMARK   |
|--|--|
| Pictet - EUR High Yield                    | ICE BofA Euro High Yield Constrained (EUR)                             |
| Pictet - Global High Yield                 | ICE Developed Markets High Yield Hedged to USD (from 01/08/2024)       |

| Pictet - Emerging Corporate Bonds          | JP Morgan CEMBI Broad Diversified (USD)                                |
| Pictet - Emerging Debt Blend               | JP Morgan ESG EMD Sovereign HC/LC Blended (USD)                        |
| Pictet - Global Equities Diversified Alpha | MSCI World (EUR)   |

## General comments

All VaR measures are determined on the basis of the following parameters:

- 1 month holding horizon;
- 99% confidence interval (this means that there is a 1% probability that the value of the portfolio could have a monthly decline larger than the percentage displayed);
- Monte Carlo simulations, and;
- 3.5 years of weekly data history to determine the risk factors. Except the ones for Pictet Chinese Local CCY Debt that use a 1 year daily horizon window exponentially decayed.

## 6. SECURITIES FINANCING TRANSACTIONS REGULATION ("SFTR")

As at September 30, 2024, the following sub-funds entered into Total Return Swaps transactions :

- Pictet - Emerging Local Currency Debt
- Pictet - Asian Local Currency Debt
- Pictet - Global Equities Diversified Alpha

As at September 30, 2024, the following sub-funds entered into reverse repurchase agreements ("Reverse Repos") transactions :

- Pictet - Short-Term Money Market CHF
- Pictet - Short-Term Money Market USD
- Pictet - Short-Term Money Market EUR
- Pictet - Short-Term Money Market GBP
- Pictet - Sovereign Short-Term Money Market USD
- Pictet - Sovereign Short-Term Money Market EUR

And the following sub-funds entered into securities lending transactions as type of instrument under the scope of the Regulation (EU) 2015/2365 of the European Parliament and of the Council of November 2015 on transparency of SFTR and amending Regulation (EU) No 648/2012:

- Pictet - EUR Corporate Bonds
- Pictet - EUR High Yield
- Pictet - Global High Yield
- Pictet - Global Sustainable Credit
- Pictet - EUR Short Term High Yield
- Pictet - EUR Short Term Corporate Bonds
- Pictet - Strategic Credit
- Pictet - Europe Index
- Pictet - Japan Index
- Pictet - Pacific Ex Japan Index
- Pictet - Premium Brands
- Pictet - Japanese Equity Opportunities
- Pictet - Japanese Equity Selection
- Pictet - Euroland Index
- Pictet - Nutrition
- Pictet - Global Megatrend Selection
- Pictet - SmartCity
- Pictet - Multi Asset Global Opportunities

With respect to total return swaps contracts, the total market values disclosed hereafter are the sum of the absolute value of the unrealised gain or loss of each contracts. This is applicable to all sections mentioned below.

## Global Data

As at September 30, 2024, all securities lending and TRS are treated as open maturity.

**Guarantee by collateral**

In the framework of lending transactions, the sub-fund of the SICAV receives a guarantee by collateral (in the form of bonds issued or guaranteed by a government or by a regional or local government in a member state of the OECD, or issued or guaranteed by local, regional or international branches of supranational institutions or organisations that have a rating of at least AA and/or bonds issued or guaranteed by leading issuers offering adequate liquidity).

## Guarantee on repo

Repurchase transactions are by their nature Collateralised (in the form of cash or Bonds forming part of the Investment Strategy of the Fund).

## Data on return and cost

The sub-funds receive a remuneration on these lending transactions. This remuneration is presented in the statement of operations and changes in net assets in the section entitled "Interest on securities lending". A fee amounting to 20% of the interest received is perceived by the Depositary Bank, Bank Pictet & Cie (Europe) AG, *succursale de Luxembourg*, for the services that it provides to the SICAV in the framework of securities lending contracts.

In the framework of these lending transactions, the sub-funds of the SICAV receive a guarantee (in the form of bonds issued or guaranteed by a government or by a regional or local government in a member state of the OECD, or issued or guaranteed by local, regional or international branches of supranational institutions or organisations that have a rating of at least AA and/or bonds issued or guaranteed by leading issuers offering adequate liquidity), whose value at the time of concluding the securities lending contract should be with a target of 105% of the total market value of the securities lent.

During the year ended September 30, 2024, the Fund entered into Repo and Reverse Repo transactions.

These operations are mainly executed for financing operation i.e. acquiring securities and / or raising cash. As such the Fund might receive a remuneration on the repo transactions and might pay a remuneration on the repo transactions.

The received/paid remuneration is presented either in the caption "Interest received on reverse repurchase agreements", or in the caption "Interest paid on repurchase agreements" in the statement of operations and changes in net assets.

## Data on reuse of collateral

The sub-funds may, in connection with certain reverse repurchase transactions, receive securities as collateral and may reinvest up to a maximum of 10% of such securities received as collateral, into repurchase agreements in order to offset associated transaction costs.

There were no collateral Repo, collateral securities and cash collateral reused during the year ended September 30, 2024.

On November 27, 2019, Regulation (EU) 2019/2088 of the European Parliament and of the Council on sustainability-related disclosures in the financial services sector was published (the "SFDR"). The SFDR aims to increase the harmonization of, and transparency towards the end investors with regard to, the integration of sustainability risks, the consideration of adverse sustainability impacts, the promotion of environmental or social characteristics and sustainable investment by requiring pre-contractual and ongoing disclosures to end investors.

The SFDR provides high-level definitions and distinguishes between several categorizations of products including "Article 8 products" which are financial products that promote, among other characteristics, environmental or social characteristics, or a combination of those characteristics, provided that the companies in which the investments are made follow good governance practices ("SFDR Article 8 Products") and "Article 9 products" which are products that have sustainable investment as their objective ("SFDR Article 9 Products").

The following sub-funds are categorized as financial products falling under the scope of the following SFDR articles as at September 30, 2024:

| SUB-FUND                                     | CURRENT SFDR CATEGORIZATION AS AT 30.09.2024 |

Within the meaning of SFDR (regulation EU 2019/2088 of November 27, 2019 on sustainability-related disclosures in the financial services sector), the other sub-funds do not promote environmental and/or social characteristics nor have a sustainable investment as its objective.

For the purpose of the "taxonomy" regulation (regulation EU 2020/852 of June 18, 2020 on the establishment of a framework to facilitate sustainable investment, and amending the EU regulation 2019/2088), the investments underlying the sub-funds do not take into account the EU criteria for environmentally sustainable economic activities.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - EUR Bonds**

Legal entity identifier: **5493000B06Q6PX1XRQ35**

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE? |  |   |                                     |  |    |
|---|--|---|-------------------------------------|--|----|
| <input checked="" type="radio"/>                                    | <input type="checkbox"/>   | Yes   | <input checked="" type="radio"/>    | <input checked="" type="checkbox"/>  | No |
| <input type="checkbox"/>  | It made <b>sustainable investments with an environmental objective</b> : ____% |   | <input checked="" type="checkbox"/> | It promoted <b>Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of <b>43.60%</b> of sustainable investments |    |
|   | <input type="checkbox"/>   | in economic activities that qualify as environmentally sustainable under the EU Taxonomy        | <input checked="" type="checkbox"/> | with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy   |    |
|   | <input type="checkbox"/>   | in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy | <input checked="" type="checkbox"/> | with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy  |    |
|   |  |   | <input checked="" type="checkbox"/> | with a social objective  |    |
| <input type="checkbox"/>  | It made <b>sustainable investments with a social objective</b> : ____%         |   | <input type="checkbox"/>            | It promoted E/S characteristics, but <b>did not make any sustainable investments</b>   |    |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this fund included:

- **Positive tilt:**

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, the securities it holds had a better environmental, social and governance (ESG) profile than the reference index. The Bloomberg Euro-Aggregate index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- **Norms- and values-based exclusions:**

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

#### Company Exclusions based on Controversial Activities and Revenue thresholds

| Activity                | Revenue thresholds |
|-------------------------|--------------------|
| <b>Energy</b>           |                    |
| Thermal Coal Extraction | 25%                |

#### Company Exclusions based on Controversial Activities and Revenue thresholds

|   |          |
|---|----------|
| Thermal Coal Power Generation                       | 25%      |
| Oil Sands Extraction                                | 25%      |
| Shale Energy Extraction                             | 25%      |
| Off-shore Arctic Oil & Gas Exploration              | 10%      |
| <b>Weapons</b>                                      |          |
| Production of controversial weapons[1]              | Excluded |
| Military Contracting Weapons                        | 10%      |
| Small Arms Civilian Customers (Assault Weapons)     | 10%      |
| Small Arms Civilian Customers (Non-Assault Weapons) | 10%      |
| Small Arms Military/Law Enforcement Customers       | 25%      |
| Small Arms Key Components                           | 25%      |
| <b>Addictive Products</b>                           |          |
| Tobacco Products Production                         | 10%      |
| Adult Entertainment Production                      | 10%      |
| Gambling Operations                                 | 10%      |

#### Company Exclusions based on Breaches of International Norms

|   |          |
|---|----------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded |
|---|----------|

#### Country Exclusions

|   |              |
|---|--------------|
| Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs) | Excluded[3]  |
| Countries (i) listed under “high alert” or “very high alert” in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank   | Excluded[3]  |
| Countries (i) listed under “alert” on the Fragile State Index or (ii) subject to export related sanctions by the EU   | Watchlist[4] |

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] “State Sponsors of Terrorism” is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management’s Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund engaged with the management of selected companies on material ESG issues.

#### ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

##### • Overall ESG profile

The fund’s weighted average ESG score was better than that of the reference index.

The fund’s weighted average ESG score was 7.67 against 7.63 for the reference index. A higher score means a lower risk. Scores range from 0 to 10, 10 being the best.

##### • Principle Adverse Impact (PAI)

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management’s Responsible Investment policy.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 1.38     | 0.77                |
| Weapons                         | 0.03     | 0.05                |
| Other controversial activities  | 0.04     | 0.21                |
| Eligible:                       | 46.64    | 37.68               |
| Covered:                        | 97.86    | 99.69               |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.  
Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Engagement

The fund engaged with 26 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 37.26%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 6.34%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors

relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts were addressed through a combination of:

(i) portfolio management decisions

The investment team assessed its corporate holdings according to an analysis of Environmental, Social & Governance risks as part of the fund's investment framework. Investment managers, informed by internal and third-party research, including quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's analysis was a key component of the compartment's portfolio construction process, determining target weights in the portfolio to achieve a positive tilt in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls in collaboration with other investment teams and external third parties. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons or (iii) countries subject to international sanctions see also detailed information on exclusions in Pictet Asset Management's Responsible Investment policy.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

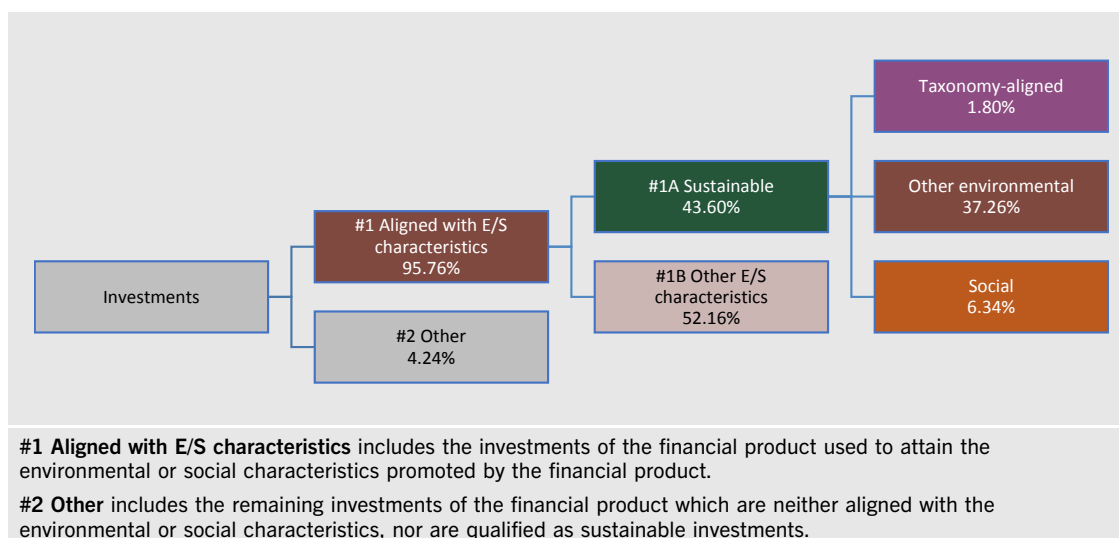

## What was the proportion of sustainability-related investments?

43.60%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 95.76% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 4.24% invested in Other (#2 Other). 43.60% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. “#1A Sustainable”, “Other Environmental” and “Social” investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management’s proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

Source: Pictet Asset Management, Sustainalytics, Factset RBICS, MSCI.

Comparison of the asset allocation to previous period:

| Asset allocation                    | 01.10.2022 - 30.09.2023 | 01.10.2023 - 30.09.2024 |
|-------------------------------------|-------------------------|-------------------------|
| #1 Aligned with E/S characteristics | 94.98%                  | 95.76%                  |
| #2 Other                            | 5.02%                   | 4.24%                   |
| #1A Sustainable                     | 27.51%                  | 43.60%                  |
| #1B Other E/S characteristics       | 67.47%                  | 52.16%                  |
| Taxonomy-aligned                    | 0.92%                   | 1.80%                   |
| Other environmental                 | 20.43%                  | 37.26%                  |

### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

### ● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

☒ Yes:

☒ In fossil gas ☒ In nuclear energy

☐ No

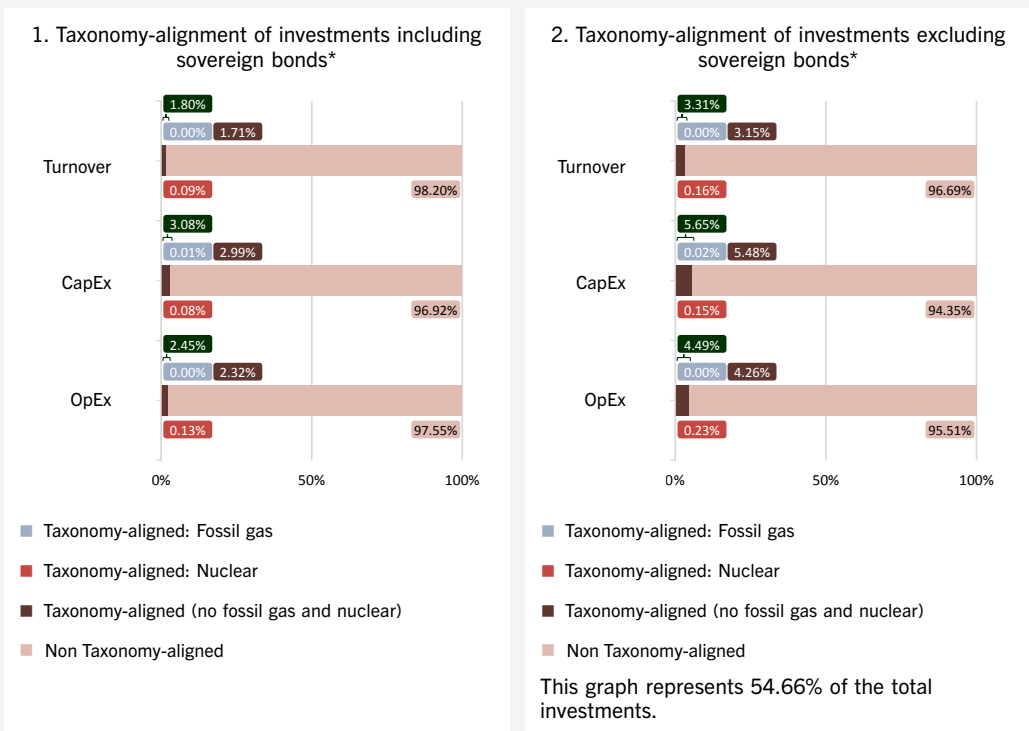

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Source: Pictet Asset Management, MSCI.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: 0.16%
- Enabling activities: 1.18%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 0.92% versus 1.80% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

37.26%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

6.34%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management’s Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- exclusions of countries subject to international sanctions
- a better ESG profile than the investment universe
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 26 companies as of 30.09.2024.

**How did this financial product perform compared to the reference benchmark?**

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- **How did the reference benchmark differ from a broad market index?**  
Not applicable.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**  
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**  
Not applicable.
- **How did this financial product perform compared with the broad market index?**  
Not applicable.

The Information may not be used for, nor does it constitute, an offer to buy or sell, or a promotion or recommendation of, any security, financial instrument or product, trading strategy, or index, nor should it be taken as an indication or guarantee of any future performance. Some funds may be based on or linked to MSCI indexes, and MSCI may be compensated based on the fund's assets under management or other measures. MSCI has established an information barrier between index research and certain Information. None of the Information in and of itself can be used to determine which securities to buy or sell or when to buy or sell them. The Information is provided "as is" and the user assumes the entire risk of any use it may make or permit to be made of the Information. No MSCI Party warrants or guarantees the originality, accuracy and/or completeness of the Information and each expressly disclaims all express or implied warranties. No MSCI Party shall have any liability for any errors or omissions in connection with any Information herein, or any liability for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages.

In addition to the terms and conditions of any license agreement for MSCI information, services or products ("MSCI Products") entered into with MSCI Inc. and/or its affiliates ("MSCI") by customers ("Customer(s)"), each Customer must comply with the terms and conditions required by third party suppliers ("Supplier(s)") regarding Customer's use of Supplier content, data, software and other materials ("Materials") within MSCI Products. Customers may also be required to pay additional fees associated with Supplier Materials. If a Customer does not comply with a Supplier's terms, a Supplier may enforce such terms and/or require MSCI to terminate Customer's access to that Supplier's Materials, without any remedy to Customer.

Additional terms and conditions required by Suppliers with respect to its Materials are provided in the expanders below. If Customer receives Materials from a Supplier not listed below via MSCI Products, additional terms and conditions related to such Materials may apply. Notwithstanding anything to the contrary set forth below, none of the additional terms and conditions of MSCI Suppliers shall supersede (nor shall MSCI waive) any MSCI proprietary and/or intellectual property rights in MSCI Products.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - EUR Corporate Bonds**

Legal entity identifier: **549300BPK7857G4FHG58**

**ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?  |  |

| <input type="checkbox"/> It made <b>sustainable investments with a social objective</b> : ____%                          | <input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>  |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- **Positive tilt:**  
The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The Bloomberg Euro-Aggregate Corporate index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- **Norms- and values-based exclusions:**  
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

| Company Exclusions based on Controversial Activities and Revenue thresholds |                    |
|---|--------------------|
| Activity  | Revenue thresholds |
| Energy  |                    |
| Thermal Coal Extraction   | 25%                |

#### Company Exclusions based on Controversial Activities and Revenue thresholds

|   |          |
|---|----------|
| Thermal Coal Power Generation                       | 25%      |
| Oil Sands Extraction                                | 25%      |
| Shale Energy Extraction                             | 25%      |
| Off-shore Arctic Oil & Gas Exploration              | 10%      |
| <b>Weapons</b>                                      |          |
| Production of controversial weapons[1]              | Excluded |
| Military Contracting Weapons                        | 10%      |
| Small Arms Civilian Customers (Assault Weapons)     | 10%      |
| Small Arms Civilian Customers (Non-Assault Weapons) | 10%      |
| Small Arms Military/Law Enforcement Customers       | 25%      |
| Small Arms Key Components                           | 25%      |
| <b>Addictive Products</b>                           |          |
| Tobacco Products Production                         | 10%      |
| Adult Entertainment Production                      | 10%      |
| Gambling Operations                                 | 10%      |

#### Company Exclusions based on Breaches of International Norms

|   |          |
|---|----------|
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises | Excluded |
|---|----------|

#### Country Exclusions

|   |              |
|---|--------------|
| Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs) | Excluded[3]  |
| Countries (i) listed under “high alert” or “very high alert” in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank   | Excluded[3]  |
| Countries (i) listed under “alert” on the Fragile State Index or (ii) subject to export related sanctions by the EU   | Watchlist[4] |

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] “State Sponsors of Terrorism” is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management’s Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund engaged with the management of selected companies on material ESG issues.

#### ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

##### • Overall ESG profile

The fund’s weighted average ESG score was better than that of the reference index.

The fund’s weighted average ESG score was 8.21 against 8.07 for the reference index. A higher score means a lower risk. Scores range from 0 to 10, 10 being the best.

##### • Principle Adverse Impact (PAI)

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management’s Responsible Investment policy.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 3.17     | 3.06                |
| Weapons                         | 0.04     | 0.05                |
| Other controversial activities  | 0.06     | 0.21                |
| Eligible:                       | 87.68    | 100.00              |
| Covered:                        | 99.15    | 99.18               |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.  
Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Engagement

The fund engaged with 6 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 18.00%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 19.27%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors

relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS                         | SECTOR                 | % ASSETS | COUNTRY                  |

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

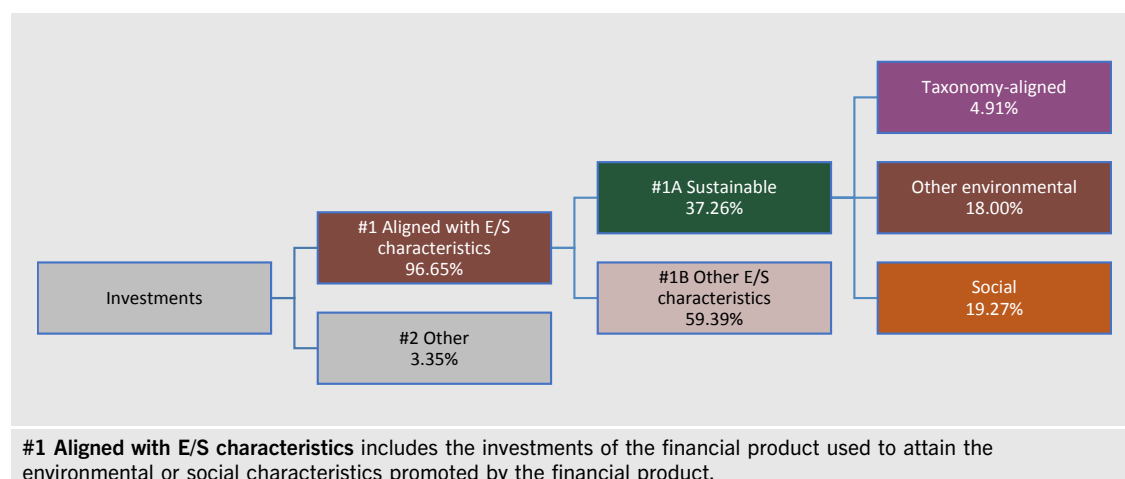

## What was the proportion of sustainability-related investments?

37.26%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 96.65% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 3.35% invested in Other (#2 Other). 37.26% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

### ● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

☒ Yes:

☒ In fossil gas ☒ In nuclear energy

☐ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

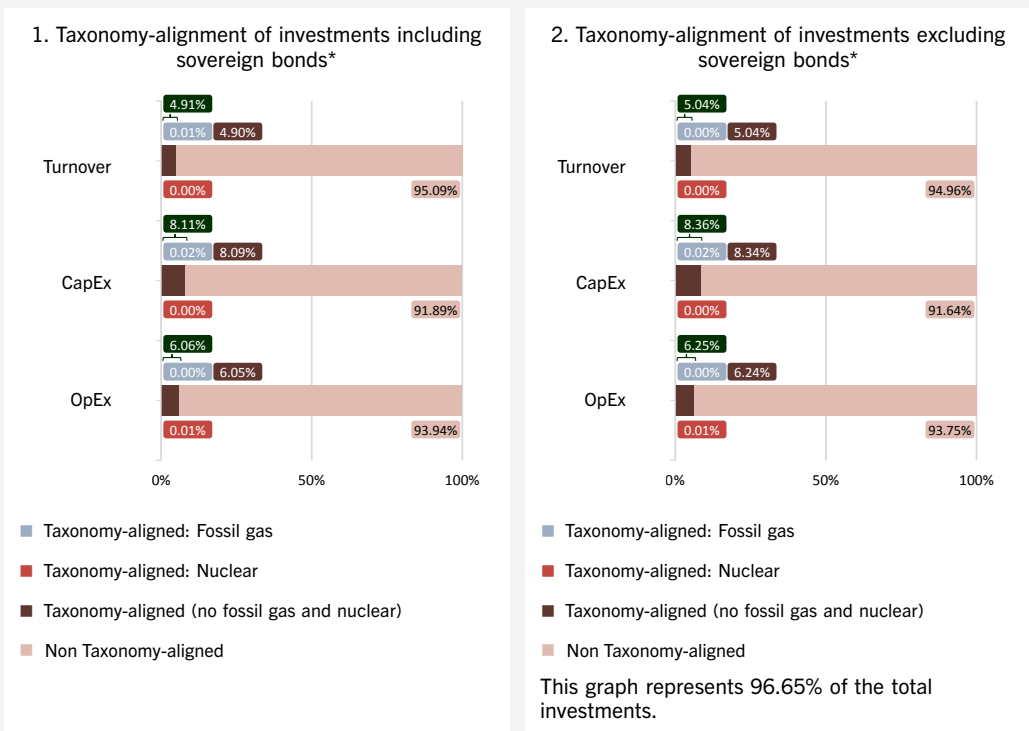

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

Source: Pictet Asset Management, MSCI.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: 0.25%
- Enabling activities: 2.39%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 3.12% versus 4.91% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

18.00%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

19.27%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management’s Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 6 companies as of 30.09.2024.

**How did this financial product perform compared to the reference benchmark?**

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

**How did the reference benchmark differ from a broad market index?**

Not applicable.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**  
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**  
Not applicable.
- **How did this financial product perform compared with the broad market index?**  
Not applicable.

In addition to the terms and conditions of any license agreement for MSCI information, services or products ("MSCI Products") entered into with MSCI Inc. and/or its affiliates ("MSCI") by customers ("Customer(s)"), each Customer must comply with the terms and conditions required by third party suppliers ("Supplier(s)") regarding Customer's use of Supplier content, data, software and other materials ("Materials") within MSCI Products. Customers may also be required to pay additional fees associated with Supplier Materials. If a Customer does not comply with a Supplier's terms, a Supplier may enforce such terms and/or require MSCI to terminate Customer's access to that Supplier's Materials, without any remedy to Customer.

Additional terms and conditions required by Suppliers with respect to its Materials are provided in the expanders below. If Customer receives Materials from a Supplier not listed below via MSCI Products, additional terms and conditions related to such Materials may apply. Notwithstanding anything to the contrary set forth below, none of the additional terms and conditions of MSCI Suppliers shall supersede (nor shall MSCI waive) any MSCI proprietary and/or intellectual property rights in MSCI Products.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Global Emerging Debt**

Legal entity identifier: **549300A8YN6U8D2CFX77**

**ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?   |   |
|---|---|
| <input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> Yes  | <input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No   |

| <input type="checkbox"/> It made <b>sustainable investments with a social objective: ____%</b>  | <input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>   |

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- **Best-in-class / best effort:**  
The fund invested in securities of issuers with low and/or decreasing sustainability risks while avoiding those with high and/or increasing sustainability risk, reducing the investment universe by at least 20%. The investment universe is composed of sovereign and corporate bonds from emerging countries. No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.
- **Labelled bonds:**  
The fund partially invested in environmental and/or social labelled bonds.
- **Norms- and values-based exclusions:**  
The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

## Company Exclusions based on Controversial Activities and Revenue thresholds

| Activity  | Revenue thresholds |
|---|--------------------|
| <b>Energy</b>   |                    |
| Thermal Coal Extraction   | 25%                |
| Thermal Coal Power Generation   | 25%                |
| Oil Sands Extraction  | 25%                |
| Shale Energy Extraction   | 25%                |
| Off-shore Arctic Oil & Gas Exploration  | 10%                |
| <b>Weapons</b>  |                    |
| Production of controversial weapons[1]  | Excluded           |
| Military Contracting Weapons  | 10%                |
| Small Arms Civilian Customers (Assault Weapons)   | 10%                |
| Small Arms Civilian Customers (Non-Assault Weapons)   | 10%                |
| Small Arms Military/Law Enforcement Customers   | 25%                |
| Small Arms Key Components   | 25%                |
| <b>Addictive Products</b>   |                    |
| Tobacco Products Production   | 10%                |
| Adult Entertainment Production  | 10%                |
| Gambling Operations   | 10%                |
| <b>Company Exclusions based on Breaches of International Norms</b>  |                    |
| Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises   | Excluded           |
| <b>Country Exclusions</b>   |                    |
| Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs) | Excluded[3]        |
| Countries (i) listed under "high alert" or "very high alert" in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank   | Excluded[3]        |
| Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU   | Watchlist[4]       |

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund engaged with selected sovereigns on ESG topics over the reference period.

### ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:

14.96%

- Exposure to green and/or social labelled bond

During the reference period, the fund had 9.01% exposure to labelled bonds.

Labelled bonds include environmental, social and sustainability bonds. Classification of labelled bonds is provided by the bond issuer and may not reflect our internal view

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

- **Reduction of the investment universe based on ESG factors**

The fund reduced its investment universe by removing at least 20% of issuers with the highest sustainability risks and/or principle adverse impacts on society or the environment.

Sustainability risks are ESG related risk or conditions that could cause a material negative impact on the value of investments if they were to occur. Sustainability risks included but were not limited to the following: climate transition risk, climate physical risk, environmental risk, social risk, governance risk. Periodic reviews and risk controls are in place to monitor implementation.

Principal adverse impacts are negative, material, or likely to be material effects on sustainability factors that are caused, compounded by, or directly linked to investment decisions and advices. Such principle adverse impacts included among others, GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/ radioactive waste, social & employee matters and corruption & bribery.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

The fund mainly invests in government bonds during the reference period. In case of investments in non-sovereign bonds and in line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment Policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

|                                 | Fund (%) | Reference Index (%) |
|---------------------------------|----------|---------------------|
| Fossil fuels and nuclear energy | 0.19     | 5.74                |
| Weapons                         | 0.01     | 0.01                |
| Other controversial activities  | 0.00     | 0.07                |
| Eligible:                       | 13.36    | 18.47               |
| Covered:                        | 73.31    | 98.80               |

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **Engagement**

The fund engaged with 3 sovereigns on ESG topics (data as of 30.09.2024).

Source: Pictet Asset Management.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● ...and compared to previous periods?

Comparison of the sustainability indicators to previous period:

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 12.26%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 2.70%.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-party providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

- *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## **How did this financial product consider principal adverse impacts on sustainability factors?**

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

- (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including

data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions and collaborative institutional investor initiatives.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons or (iii) countries subject to international sanctions see also detailed information on exclusions in Pictet Asset Management's responsible investment policy.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

| LARGEST INVESTMENTS                         | SECTOR          | % ASSETS | COUNTRY             |

## What was the proportion of sustainability-related investments?

14.96%

### What was the asset allocation?

The fund was 97.97% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 2.03% invested in Other (#2 Other). 14.96% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

Asset allocation describes the share of investments in specific assets.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.

Source: Pictet Asset Management, Sustainability, Factset RBICS.

Comparison of the asset allocation to previous period:

| Asset allocation                    | 01.10.2022 - 30.09.2023 | 01.10.2023 - 30.09.2024 |
|-------------------------------------|-------------------------|-------------------------|
| #1 Aligned with E/S characteristics | 93.30%                  | 97.97%                  |
| #2 Other                            | 6.70%                   | 2.03%                   |
| #1A Sustainable                     | 10.93%                  | 14.96%                  |

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.

- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.

- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

■ Taxonomy-aligned: Fossil gas  
■ Taxonomy-aligned: Nuclear  
■ Taxonomy-aligned (no fossil gas and nuclear)  
■ Non Taxonomy-aligned

2. Taxonomy-alignment of investments excluding sovereign bonds\*

■ Taxonomy-aligned: Fossil gas  
■ Taxonomy-aligned: Nuclear  
■ Taxonomy-aligned (no fossil gas and nuclear)  
■ Non Taxonomy-aligned  
This graph represents 14.54% of the total investments.

\* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

● What was the share of investments made in transitional and enabling activities?

Not applicable.

Enabling activities directly enable other activities to make a substantial

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**  
Not applicable.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

12.26%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

2.70%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.

- severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- exclusions of countries subject to international sanctions
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

The fund engaged with 3 sovereigns on ESG topics (data as 30.09.2024).

#### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

#### ● How did the reference benchmark differ from a broad market index?

Not applicable.

#### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

#### ● How did this financial product perform compared with the reference benchmark?

Not applicable.

#### ● How did this financial product perform compared with the broad market index?

Not applicable.

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.
