TRUST OVERVIEW

 Size of Trust
 £27,773,598

 Launch date
 31 October 2019

Type of Trust VT Gravis UK Listed Property (Feeder) Fund (the "Trust") is a standalone

authorised unit trust authorised by the Financial Conduct Authority (PRN:913629) pursuant to an authorisation order dated 17 September 2019 and established by a

trust deed dated 24 September 2019. The Trust has an unlimited duration.

The Trust is a non-UCITS retail scheme and is a standalone fund. The Trust will be managed so that it is a feeder fund for the PAIF Fund (Property Authorised Investment Fund, VT Gravis UK Listed Property (PAIF) Fund). The PAIF Fund is an open-ended investment company constituted as a non-UCITS retail scheme and, as at the date of this report, qualifying as a PAIF.

The Trust is intended to enable companies and other investors who are not eligible or able to invest directly into the PAIF Fund to do so indirectly.

Unitholders are not liable for the debts of the Trust.

A unitholder is not liable to make any further payment to the Trust after the unitholder has paid the price on purchase of the units.

Trust objective and policy The investment objective is to achieve income and capital growth through

investment in the VT Gravis UK Listed Property (PAIF) Fund.

The Trust will invest all or substantially all of its assets in the Class F shares of the VT Gravis UK Listed Property (PAIF) Fund. To the extent that the Trust is not fully invested in the VT Gravis UK Listed Property (PAIF) Fund, the Trust will hold its

remaining assets in cash.

Benchmark The Trust does not have a specific benchmark. The performance of the Trust can

be measured by considering whether the objective is achieved (i.e. whether there is

1

capital growth over the medium to long term).

Manager Valu-Trac Investment Management Limited.

Ex-distribution dates 31 March, 30 June, 30 September, 31 December

Distribution dates 30 April, 31 July, 31 October, 31 January

Individual Savings Account (ISA) The Trust is a qualifying investment for inclusion in an ISA.

Unit classes: F (£), F (€) (Hedged), F (\$) (Hedged) – Net Income

F (£), F (€) (Hedged), F (\$) (Hedged) – Net Accumulation

G (\pounds) – Net Income, G (\pounds) – Net Accumulation

Minimum investment*

Lump sum subscription: Class F = £100

Class G = £10,000,000

Top-up: Class F = £100

Class G = £10,000

Holding: Class F = £100

Class G = £10,000,000

Redemption and switching: N/A (provided minimum holding is maintained)

Initial charges* Class F: 4% Class G: 4%

01033 0. 47

Redemption and switching charges Ni

*The Manager may waive the minimum levels (and initial charge) at its discretion.

TRUST OVERVIEW (Continued)

Manager charges

The annual management charge is as follows:

In respect of the Class F units it is equal to 0.70% per annum of the net asset value of the Class F units.

In respect of the Class G units it is equal to 0.65% per annum of the net asset value of the Class G units.

The Investment Adviser has, with the agreement of the Manager, undertaken that if the total ongoing charges figure (OCF) of the Trust (as calculated at the end of the relevant accounting period but excluding underlying fund holding charges) exceeds 0.70% in the case of Class F units and 0.65% in the case of Class G units, the Investment Adviser shall reimburse the Trust for an amount which, when deducted from the operating costs incurred by the Trust during the relevant accounting period, would result in the Trust having a total OCF equal to the stated annual management charge for each class in the relevant accounting period.

STATEMENT OF THE MANAGER'S RESPONSIBILITIES

The rules of the Financial Conduct Authority's Collective Investment Schemes Sourcebook require the Manager to prepare financial statements for each accounting period which give a true and fair view of the financial position of the Trust at the end of the financial period and its net revenue and net capital losses for the period. In preparing these financial statements the Manager is required to:

- > comply with the Prospectus, the Statement of Recommended Practice for Authorised Funds issued by the Investment Association in May 2014, the Instrument of Incorporation, generally accepted accounting principles and applicable accounting standards, subject to any material departures which are required to be disclosed and explained in the financial statements;
- > select suitable accounting policies and then apply them consistently;
- > make judgements and estimates that are reasonable and prudent;
- > prepare the financial statements on a going concern basis unless it is inappropriate to presume that the Trust will continue in operation for the foreseeable future;

The Manager is required to keep proper accounting records and to manage the Trust in accordance with the COLL Sourcebook, Investment Funds Sourcebook (FUND), the Instrument of Incorporation, and the Prospectus. The Manager is responsible for taking reasonable steps for the prevention and detection of fraud and other irregularities.

MANAGER'S STATEMENT

In accordance with the	e requirements	of the	Financial	Conduct	Authority's	Collective	Investment	Scheme's	Sourcebook	and
FUND, we hereby certif	y the interim re	port.								

David E. Smith CA

Valu-Trac Investment Management Limited Manager

Date:

INVESTMENT ADVISER'S REVIEW

The Feeder Fund invests solely in the VT Gravis UK Listed Property (PAIF) Fund. The investment adviser report from that Fund is as follows:

This report is a review of the performance of the VT Gravis UK Listed Property Fund (the "Fund") during the six months ending 30th June 2023.

The performance objectives of the Fund are:

> to provide some capital growth through market cycles (approximately 7 years) whilst delivering a periodic income.

The Fund seeks to achieve its objective by investing in a portfolio of transferable real estate securities such as real estate investment trusts (REITs) listed on the London Stock Exchange, real estate operating companies, bonds, and other equities. The Fund diversifies its investments across a range of specialist real estate companies that are likely to benefit from four strong socioeconomic mega trends: digitalisation (43.0% portfolio weight), generation rent (26.8% portfolio weight), ageing population (16.4% portfolio weight) and urbanisation (10.3% portfolio weight). The portfolio also minimises exposure to the challenging consumer trends continuing to affect retail real estate, notably shopping centres.

The A Accumulation Class shares were priced at 85.95p on 30th June 2023 representing a negative total return of 8.21% over the period. Meanwhile, the UK real estate index¹ declined by 8.77% in the same period, highlighting the favourable performance of the Fund in comparison.

REIT prices suffered during the first half of 2023, primarily due to the wider challenges faced by capital markets. The five-year swap rate, an important reference rate for real estate financing due to its influence on property valuation yields, began 2023 at around 4.10%2 and ended the period at a high of 5.09%. As a result of these challenges, the Continued solid operational performance of the Fund has had a limited impact on its price. At a sector level, REITs entered 2023 trading at a 30.7%3 discount to net asset value (NAV). However, this widened slightly to a discount of 34.3% by the end of June.

The Investment Adviser's approach to the Fund is centred on a top-down analysis of socio-economic megatrends combined with bottom-up fundamental research in order to identify the most attractive investment opportunities within each mega trend. This approach has proved itself profitable, with the Fund decreasing by 14.05% (A Acc GBP) since its launch at the end of October 2019 compared to the UK real estate index¹, which has decreased by 28.93% over the same period. The Fund has lost 4.05% (A Acc GBP) on an annualised basis since its inception.

To maintain their general tax-exempt status, UK REITs (with a 79.1% portfolio weighting) are required to distribute 90% of their rental profits. Over the course of the first half of the year, the Fund declared two distributions totalling 2.1827p (A Inc GBP), representing a year-on-year growth of 7%. In aggregate, the trailing 12-month distributions represent a yield of 5.19%.

Within secular megatrends, the Investment Adviser implements a long-term unconstrained approach to identifying the best REITs. During the period under review, the Fund was comprised of 23 investments, which is the same amount as the end of 2022, however the composition was slightly different in this period, with one outright sale and one REIT returning to the portfolio.

The investments in 23 specialist real estate companies provide diversified exposure to the four mega trends and in aggregate they own more than 5,000 individual properties that are leased to more than 100,000 individual tenants.

In terms of exposure, investment parameters cap any single position size at 9.5%. At the end of June 2023, the largest position in the Fund was Unite Group. Representing 9.3% of the Fund, they are the largest listed owner and operator of purpose-built student accommodation in the UK.

The Investment Adviser's approach to investing typically results in low portfolio turnover, even in times of elevated uncertainty associated with rising interest rates. The Adviser believes that a properly constructed portfolio will perform throughout market cycles and that excessive levels of portfolio turnover detract from performance. During the review period, portfolio turnover for the Fund was 1.59%⁵. Annualised portfolio turnover since inception remains low at 8.3%⁴.

The drivers of the selective purchases and sales were fund inflows and outflows respectively, together with a bid for a portfolio holding. First half purchases included re-initiating a position in LXi REIT (1.65% portfolio weight), the owner of a resilient and diversified portfolio of UK commercial property assets let on long-term, inflation-linked leases, to a wide range of strong tenant covenants across a diverse range of robust property sectors. On the back of strong rental growth, the largest increase in portfolio weight was Grainger (7.97% portfolio weight), the UK's largest listed residential landlord.

INVESTMENT ADVISER'S REVIEW (Continued)

The Fund did not participate in new placings during the review period.

During the first half of the year, the take-private trend resumed, with Blackstone, one of the world's largest-property owners, acquiring Industrials REIT (2.47% portfolio pre-bid announcement) in an all-cash transaction. Industrials REIT owned and managed a near unique collection of multi-let industrial (MLI) estates, typically comprising small sized warehouses, and sat within the digitalisation mega trend. It is the third time since the Fund's inception that Blackstone has bid for a Fund holding. The bid provides further evidence to support the rationale for the Fund's focus on investing in REITs that own high-quality assets in the best locations and have attractive financial characteristics.

Overarching the four investment mega trends is climate change, which is arguably the biggest long-term challenge facing humanity, and one that is becoming increasingly important in determining the investment prospects for real estate assets.

One of the Adviser's preferred measures of environmental performance is the Energy Performance Certificate (EPC). Mandated by the Government, EPCs rate properties on a scale running from A+ to G. These certificates have increasingly important investment implications for commercial real estate markets. The government has set a target of reaching a minimum B rating for commercial properties by 2030. As a result, lower rated properties not only represent a potential risk to the environment, but they are increasingly becoming an investment risk due to potentially lower occupancy levels and higher maintenance capex. This has caused the obsolescence risk of older buildings to increase.

The rewards for the owners of the most sustainable buildings are becoming clearer. Research from JLL, a leading global commercial real estate company, estimates that a single step improvement in the EPC rating of a building can cause an increase of 4.2% in rental income and an increase of 3.7% in capital values. Simply put, green is the new prime.

The Fund remains positioned on the right side of climate change. Since inception, the Fund has actively taken steps to minimise obsolescence risk by investing in companies that typically own higher EPC rated assets or have a clear strategy to improve the overall EPC rating of their portfolios. Based upon proprietary research the Adviser estimates that over 50% of the portfolio is rated B or higher, performing better than the 26.2%⁵ seen in the overall market. Reflecting the Fund's focus on higher quality buildings is the AAA ESG rating from MSCI.

In a world of rising interest rates, highly leveraged property portfolios are likely to be hit. Refinancing debt is becoming more expensive, and particularly so for brown buildings. Prudently, the Fund does not employ any leverage directly and the Investment Adviser actively controls the exposure to underlying leverage by managing individual position weights. The Fund benefits from the underlying debt having a weighted average remaining term to maturity of 6.1 years, 83% of which is debt fixed, or capped, at an affordable average cost of 3.2%.

Over the course of the second half of the year, the attractive combination of growing rental revenue and Continued high occupancy for the underlying property assets has created a favourable environment for sustained dividend growth from the Fund's portfolio of expertly managed, next generation real estate assets. Based on a blend of current management guidance coupled with consensus estimates, the Investment Adviser forecasts that the percentage growth in full year 2023 distributions could be mid to high single digits. This acts as a sign that investing in the right thematic real assets can provide investors with 'growth income' and not 'fixed income'.

PERFORMANCE RECORD (Continued)

- 1. The operating charges per unit figure is calculated by applying the operating charges percentage to the average net asset valuation per unit throughout the period.
- 2. The operating charges percentage is based on the expenses incurred during the period annualised, as a proportion of the average net asset value of the Trust plus the costs of the underlying holdings

Risk Profile

Based on past data, the Trust is ranked a '6' on the synthetic risk and reward indicator scale (of 1 to 7) as described fully in the Key Investor Information Document (31 December 2022: ranked 6). The Trust is ranked 6 because monthly historical performance data indicates that significant rises and falls in market prices would have occurred historically.

INFORMATION FOR INVESTORS

Individual unitholders

Income tax: Tax-free annual dividend allowance now standing at £1,000 (2023/24). UK resident shareholders are subject to new, higher rates of tax on dividend income in excess of the annual allowance. The actual rate depends on the individual's tax rate band.

Capital gains tax: Individual shareholders resident in the UK for tax purposes may be liable to capital gains tax on realisation of their shares as with other chargeable assets. However, the first £6,000 (2023/24) of gains each year are presently tax free for individuals. Gains in excess of that amount are charged at the rate of tax applicable to the individual tax payer.

Taxation

The Trust will pay no corporation tax on its profits for the period ended 30 June 2023. Capital gains within the Trust will not be taxed.

Corporate unitholders

Companies resident for tax purposes in the UK which hold units should note that AUT distributions are streamed into both franked and unfranked income. The unfranked income element will be treated as an annual payment which has been subject to income tax at a rate of 20% and will be liable to tax accordingly. On realisation of their units, UK resident companies may be liable to pay corporation tax on any capital gains.

The above information on taxation is only a general summary, and unitholders should consult their own tax advisors in relation to their own circumstances. Unitholders should also note that the position as outlined may change to reflect future changes in tax legislation.

Issue and redemption of units

Valu-Trac Investment Management Limited is the Manager and Registrar. Valu-Trac Investment Management Limited will receive requests for the purchase or sale of units at any time during normal business hours. Instructions may be given by email to (GULP@valu-trac.com) or by sending an application form to the Registrar. Application forms are available from the Registrar.

The price of units will be determined by reference to a valuation of the Trust's net assets at 12:00 noon on each dealing day.

The Manager has the right to reject, on reasonable grounds relating to the circumstances of the applicant, any application for units in whole or part, and in this event the Manager will return any money sent, or the balance of such monies, at the risk of the applicant.

Any subscription monies remaining after a whole number of units has been issued will not be returned to the applicant. Instead, smaller denomination units will be issued in such circumstances.

A contract note giving details of the units purchased and the price used will be issued by the Registrar by the end of the business day following the valuation point by reference to which the purchase price is determined.

Ownership of units will be evidenced by an entry on the Trust's Register of Unitholders. Certificates will not be issued. Statements in respect of periodic distributions of revenue will show the number of units held by the recipient in respect of which the distribution is made. Individual statements of a unitholder's units will also be issued at any time on request by the registered holder.

Where units are redeemed, payment will be made not later than the close of business on the fourth business day following the next valuation point after receipt by the Manager of a request for redemption. The minimum value of units that a unitholder may hold is £100 for all unit classes. The Manager may at its discretion accept subscriptions lower than the minimum amount.

The most recent issue and redemption prices are available from the Manager.
