COMPANY OVERVIEW

Type of Company:

VT Munro Smart-Beta Fund ("the Company") is an authorized open- ended investment company with variable capital ("ICVC") further to a Financial Services Authority ("FSA") (predecessor of the FCA) authorization order dated 18 July 2007. The Company is incorporated under registration number IC000551. It is a UCITS scheme complying with the investment and borrowing powers rules in the Collective Investment Schemes sourcebook ("COLL") issued by the Financial Conduct Authority ("FCA").

The Company has been set up as an umbrella company. The Company has currently one Sub-fund available for investment, VT Munro Smart-Beta UK Fund ("the Sub-fund").

The shareholders are not liable for the debts of the Company.

The Instrument of Incorporation can be inspected at the office of the AFM.

The Company has no directors other than the AFM.

The base currency of the Company is UK sterling.

Copies of the Prospectus and Key Investor Information Document are available free of charge from the AFM

STATEMENT OF THE AUTHORISED FUND MANAGER'S (AFM's) RESPONSIBILITIES

The rules of the Financial Conduct Authority's Collective Investment Schemes Sourcebook require the Authorised Fund Manager to prepare financial statements for each accounting period which give a true and fair view of the financial position of the Company at the end of the financial period and its net revenue and net capital losses for the period. In preparing these financial statements the Authorised Fund Manager is required to:

- > comply with the Prospectus, the Statement of Recommended Practice for Authorised Funds issued by the Investment Association in May 2014, the Instrument of Incorporation, generally accepted accounting principles and applicable accounting standards, subject to any material departures which are required to be disclosed and explained in the financial statements.
- > select suitable accounting policies and then apply them consistently.
- > make judgements and estimates that are reasonable and prudent.
- > prepare the financial statements on a going concern basis unless it is inappropriate to presume that the Company will continue in operation for the foreseeable future.

The Authorised Fund Manager is required to keep proper accounting records and to manage the Company in accordance with the COLL regulations, the Instrument of Incorporation, and the Prospectus. The Authorised Fund Manager is responsible for taking reasonable steps for the prevention and detection of fraud and other irregularities.

DIRECTOR'S STATEMENT

In accordance with the requirements of the Financial Conduct Authority's Collective Investment Scheme's Sourcebook, we hereby certify the interim report.

David E. Smith CA

Valu-Trac Investment Management Limited Authorised Fund Manager

Date

SUB-FUND OVERVIEW

Name of Sub-fund VT Munro Smart-Beta UK Fund

Size of Sub-fund £32,853,782

Launch date 22 July 2007

Sub-fund objective and policy The objective of the VT Munro Smart-Beta UK Fund (the "Sub-fund") is to maximise

the overall return by seeking to replicate the performance of the Elston Smart-

Beta UK Dividend Index.^

The Sub-fund will invest mainly in UK securities listed on the London Stock Exchange. The Sub-fund will be constructed on the basis of the underlying fundamental financial attributes of the companies listed on the London Stock Exchange rather on their market capitalisation. The weight of each company in the Sub-fund will be determined by the proportion that its forecast total dividend will be expected to make of the total income of all the companies held in the Sub-fund.

The Sub-fund may also invest in other transferable securities, bonds, collective investment schemes, money market instruments, cash and deposits.

It is the AFM's intention that derivatives be used for hedging purposes using efficient portfolio management style techniques.

The AFM does not intend to have an interest in any immovable property or tangible movable property.

The Sub-fund will be managed in a manner that maintains eligibility for the stocks and shares component of a personal equity plan or individual savings account.

31 January

Last day of each month

Annual income allocation date Interim income allocation dates 31 March

Last day of each month

Individual Savings Account (ISA)

The Company is a qualifying investment for inclusion in an ISA.

Minimum investment*

Lump sum subscription: X Class Income/Accumulation Shares = £250

Top-up: X Class Income/Accumulation Shares = £100

Holding: X Class Income/Accumulation Shares = £250

Redemption: X Class Shares = Nil

*The AFM may at its discretion accept subscriptions lower than the minimum amount.

AFM's preliminary charge X Class Income/Accumulation = nil

Annual management charges The management

The management charge in respect of the X Class Shares is 0.50% per annum of the Net Asset Value of the X Class Shares.

^The Freedom Smart-Beta UK Dividend index is a Sterling based total return index, comprising approximately 300 of the largest dividend paying stocks (excluding Investment Trusts) that are quoted on the London Stock Exchange.

While the full universe is initially determined by market capitalisation, the investible universe is reweighted based on expected dividend pay-out. The Sub-fund aims to replicate the performance of the Freedom Smart-Beta UK Dividend index but will not necessarily be invested in all the constituents.

INVESTMENT MANAGER'S REVIEW

Investment Activities

The fund is managed to replicate the Elston Smart-Beta UK Dividend Index as closely as possible, having regard for costs. At the end of the period, it was invested in companies which accounted for 99.8% of the forecast dividend income of the Index. The fund continues to follow the process of investing in large and medium sized companies listed on the London Stock Exchange, excluding investment trusts, in line with each stock's contribution to the total forecasted dividend payout for the group as a whole. Elston Consulting is the benchmark administrator of this Index.

The investment management process is designed to minimize trading and exploit volatility. New money is allocated to securities which are underweight relative to their position in the index.

Subscriptions to the fund of £12,629,597 exceeded redemptions of £3,572,631 to give a net inflow of £9,056,966. The fund did decrease by £1,079,438 from investment activities, overall, the fund increased in size by £8,541,758, from £24,312,028 to £32.853,782.

During the period the fund distributed £694,405 to investors. This was a large increase on the £196,009 distributed in the same period last year, largely down to the increased fund size. The yield on the X Income share class at the period end was 4.97% which compares to 5.32% at the end of July 2022, this reduction is due to continued strength in asset prices.

Throughout this period the cash position held by the fund was kept as low as possible following full deployment of investor inflows and allowing for accrued income held in the fund.

Purchases totalling £12,566,091 were made into 221 companies, the top 20 are listed on page 12.

Redemptions, and corporate actions, and changes to the index caused the fund to sell shares in 77 names totalling £3,080,006. The top 20 sales are also listed on page 12.

Trading was therefore confined to investing new funds as per the index and accepting takeover offers and raising cash to meet redemptions.

Investment Performance

Over the period under review the X Accumulation shares decreased in value by -1.44%. This is below the fall of -0.76% in the Elston Smart-Beta UK Dividend Index which it seeks to replicate, giving a gross underperformance of -0.68%. However, the cost of running the fund is 0.80% (for the X Accumulation shares) meaning that in gross terms it outperformed the benchmark by +0.12%. In the period, direct transaction costs were 0.24% effectively delivering a relative outperformance of +0.36% over the period.

The performance of the fund and strategy performed broadly in line with traditional UK Equity benchmarks, and the UK Equity Income peer group.

As mentioned above, the current dividend yield of the fund is 4.97% which would place it at the top of the UK All Companies Sector, according to Trustnet.

The concept of smart-beta indexing is to use an alternative index weighting scheme that is different to the traditional market-capitalisation weighted approach. The aim of using an alternative weighting scheme is to capture the returns of an asset class ("beta"), in this case the UK stock market, but with some additional return potential by utilising an alternative ("smart") weighting scheme, for example by emphasising a particular factor exposure. The factor focus for this index and fund is yield factor from dividends which in the UK market is also a proxy for value factor. For several years, when a value bias was out of favour, the return of this index was below that of the broader UK equity market as growth-oriented stocks benefitted from ultra-low interest rates and quantitative easing that pushed money into riskier assets. In an above-target inflationary regime, value/yield factors have been back in favour.

INVESTMENT MANAGER'S REVIEW (Continued)

Investment Strategy

There was no change in the investment strategy of the fund which is to track the Elston Smart-Beta UK Dividend Index. This index methodology allocates weights to shares in proportion to their contribution to the total cash dividend forecast for this index. This alternative weighting scheme is why it is considered a "smart-beta" based approach, when compared to traditional "beta", characterised by market-capitalisation weighting schemes.

The fundamental dividend tracking process captures this effect by focusing solely on forecast dividend flows and ignoring capital values. As far as we know this makes it unique.

A passive fund is relatively straightforward and relatively cost-effective to run, as most of the complexity takes place within the index methodology. Many of the costs at this stage are fixed and this makes it very well placed to take advantage of economies of scale as the fund grows. The manager and sponsor are keen to pass those benefits through to the investor and intends to reduce the AMC and/or the OCF as the fund grows in size. The OCF has therefore reduced significantly over the last two years, as the fund has scaled.

Valu-Trac Investment Management Limited Investment Manager of the Sub-fund 25th September 2023

^The report for the year ending 31 January 2023 stated stamp duty forms part of the fund OCF. This is incorrect and should have stated forms part of direct transaction costs.

PERFORMANCE RECORD (Continued)

Financial Highlights (Continued)

- 1. The operating charges per share figure is calculated by applying the operating charges percentage to the average net asset valuation per share throughout the period.
- 2. The operating charges percentage is based on the expenses incurred during the period annualised, as a proportion of the average net asset value of the Sub-fund plus the costs of the underlying trust holdings.

Risk Profile

Based on past data, the Sub-fund is ranked a '6' on the synthetic risk and reward indicator scale (of 1 to 7) as described fully in the Key Investor Document (31 January 2023: ranked 6). The Sub-fund is ranked 6 because weekly historical performance data indicates that it has experienced significant rises and falls in market prices historically. The higher the rank, the greater the potential reward but the greater the risk of losing money

STATEMENT OF CHANGES IN NET ASSETS ATTRIBUTABLE TO SHAREHOLDERS

For the six months ended 31 July (unaudited)

	2023 £	2022 £
Opening net assets attributable to shareholders	24,312,028	5,937,548
Amounts receivable on creation of shares	12,629,597	4,000,642
Amounts payable on cancellation of shares	(3,572,631)	(1,684,454)
Accumulation dividends retained	550,478	64,860
Dilution levies	13,748	2,410
Changes in net assets attributable to shareholders from investment activities (see above)	(1,079,438)	(231,639)
Closing net assets attributable to shareholders	32,853,782	8,089,367

The Investment Association SORP requires comparatives are shown for the above report. As comparatives should be for the comparable interim period the net asset value at the end of the period will not agree to the net asset value at the start of the period. The company net asset value as at 31 January 2023 was £24,312,028.

INFORMATION FOR INVESTORS

Taxation

The Company will pay no corporation tax on its profits for the period to 31 July 2023 and capital gains within the Company will not be taxed.

Individual shareholders

Income tax: Tax-free annual dividend allowance now standing at £1,000 (2023/24). UK resident shareholders are now subject to new, higher rates of tax on dividend income in excess of the annual allowance. UK resident shareholders are subject to tax on dividend income in excess of the annual allowance.

Capital gains tax: Individual shareholders resident in the UK for tax purposes may be liable to capital gains tax on realisation of their shares as with other chargeable assets. However, the first £6,000 (2023/24) of gains each year are presently tax free for individuals. Gains in excess of that amount are charged at the rate of tax applicable to the individual tax payer.

Corporate shareholders

Companies resident for tax purposes in the UK which hold shares should note that OEIC distributions are streamed into both franked and unfranked income. The unfranked income element will be treated as an annual payment which has been subject to income tax at a rate of 20% and will be liable to tax accordingly. On realisation of their shares, UK resident companies may be liable to pay corporation tax on any capital gains.

The above information on taxation is only a general summary, and shareholders should consult their own tax advisors in relation to their own circumstances. Shareholders should also note that the position as outlined may change to reflect future changes in tax legislation.

Debts of the ICVC fund

Unit holders of the ICVC are not liable for the debts of the ICVC.

Issue and redemption of shares

Valu-Trac Investment Management Limited is the AFM and Registrar. Valu-Trac Investment Management Limited will receive requests for the purchase or sale of shares at any time during 8.30am to 5.30pm. Instructions may be given by email to the below email address or by sending an application form to the Registrar. Application forms are available from the Registrar.

(E-mail:Smartbeta@valu-trac.com).

The price of shares will be determined by reference to a valuation of the Company's net assets at 12 noon on each dealing day.

The AFM has the right to reject, on reasonable grounds relating to the circumstances of the applicant, any application for shares in whole or part, and in this event the AFM will return any money sent, or the balance of such monies, at the risk of the applicant. In addition the AFM may reject any application previously accepted in circumstances where the applicant has paid by cheque and that cheque subsequently fails to be cleared.

Any subscription monies remaining after a whole number of shares has been issued will not be returned to the applicant. Instead, smaller denomination shares will be issued in such circumstances.

A contract note giving details of the shares purchased and the price used will be issued by the Registrar by the end of the business day following the valuation point by reference to which the purchase price is determined.

Ownership of shares will be evidenced by an entry on the Company's Register of Shareholders. Certificates will not be issued. Statements in respect of periodic distributions of revenue will show the number of shares held by the recipient in respect of which the distribution is made. Individual statements of a shareholder's shares will also be issued at any time on request by the registered holder.

Where shares are redeemed, payment will be made not later than the close of business on the fourth business day following the next valuation point after receipt by the AFM of a request for redemption. The AFM may at its discretion accept subscriptions lower than the minimum amount.

The most recent issue and redemption prices are available from the AFM.
