

The Fund

The multi-award-winning Fund has been managed since launch in November 2005 by Anthony Cross, who was joined by his co-manager Julian Fosh in 2008. The Fund aims to deliver capital growth over the long term (5 years or more) through using the Economic Advantage investment process. The process seeks to identify companies with a durable competitive advantage that allows them to defy industry competition and sustain a higher than average level of profitability for longer than expected. The Fund invests at least 90% of the portfolio in companies incorporated, domiciled or which conduct significant business in the United Kingdom (UK).

Key risks: Past performance is not a guide to future performance. Investment in the Fund carries the risk of potential total loss of capital. A proportion of the portfolio is invested in smaller companies and companies traded on the Alternative Investment Market. These stocks may be less liquid and the price swings greater than those in, for example, larger companies. Investment decisions should not be based on short-term performance.
