Amundi Global Equity Quality Income UCITS ETF GBP Hedged Acc
A Sub-Fund of the SICAV MULTI UNITS LUXEMBOURG

ISIN code: (A) LU1040688639

Managed by Amundi Luxembourg SA, a subsidiary of Amundi Group

Objectives and Investment Policy

The Fund is an index-tracking UCITS passively managed.

The investment objective of the Fund is to track both the upward and downward unlevered performance of the SG Global Quality Income NTR Index (net dividends reinvested) (the "Benchmark Index"), denominated in Euro (EUR) and representative of a panel of high quality stocks from a worldwide investment universe that are likely to distribute high level dividends, while minimizing the volatility of the difference between the return of the Fund and the return of the Benchmark Index (the "Tracking Error").

The anticipated level of Tracking Error in normal market conditions is indicated in the prospectus.

Additional information about the Benchmark Index can be found at www.solactive.com

The Benchmark Index is a net total return index.

A net total return index calculates the performance of the index constituents on the basis that any dividends or distributions are included in the index returns after withholding tax retention.

The Fund seeks to achieve its objective via indirect replication by entering into an over-the-counter swap contract (financial derivative instrument, the FDI").

The Fund may also invest in a diversified portfolio of international equities, whose performance will be exchanged against the performance of the benchmark Index via the FDI.

Updated composition of the Fund's holdings is available on www.amundietf.com

In addition, the indicative net asset value is published on the Reuters and Bloomberg pages of the Fund, and might also be mentioned on the websites of the stock exchanges where the Fund is listed.

In order to hedge the GBP currency risk, the Sub-Fund uses a daily hedging strategy which aims at reducing the impact of a change in the share class currency against the currency of the Benchmark index constituents.

The share currency is the British Pound (GBP).

Invested financial instruments: FDI, international equities.

Dividend Policy : the accumulation share automatically retains, and re-invests, all attributable income within the Sub-Fund; thereby accumulating value in the price of the accumulation shares.

The minimum recommended holding term is 5 years.

The Sub-Fund's shares are listed and traded on one or more stock exchanges. In normal circumstances, you may deal in shares during the trading hours of the stock exchanges, provided that the Market Makers can maintain market liquidity. Only authorised participants (e.g. selected financial institutions) may deal in shares directly with the Sub-Fund on the primary market. Further details are provided in the prospectus of the UCITS.
