Amundi MSCI Semiconductors UCITS ETF Acc
A Sub-Fund of the SICAV MULTI UNITS LUXEMBOURG
ISIN code: (A) LU1900066033

Managed by Amundi Luxembourg SA, a subsidiary of Amundi Group

Objectives and Investment Policy

The Sub-Fund is a financial product that promotes among other characteristics ESG characteristics pursuant to Article 8 of the Disclosure Regulation.

The Fund is an index-tracking UCITS passively managed.

The investment objective of the Fund is to track both the upward and the downward evolution of MSCI ACWI Semiconductors & Semiconductor Equipment ESG Filtered Net Total Return Index (the "Benchmark Index") denominated in US Dollars, while minimizing the volatility of the difference between the return of the Fund and the return of the Benchmark Index (the Tracking Error"). The anticipated level of Tracking Error in normal market conditions is indicated in the prospectus.

The Benchmark Index aims to represent the performance of a select set of companies from the semiconductors and semiconductor equipment industries that excludes companies which are Environmental, Social and Governance ("ESG") laggards based on an ESG rating.

The ESG rating methodology is based on ESG key issues including but not limited to water stress, carbon emissions, labor management or business ethics. The Benchmark Index uses a "Best-in-class" approach, i.e., bottom quartile companies by ESG industry-adjusted rating are excluded from the theme universe. Limits of the methodology of the Benchmark Index are described in the prospectus of the Fund through risk factors, such as the market risk linked to controversies and the risks linked to ESG methodologies and to ESG score computation.

MSCI's website (www.msci.com) contains more detailed information about the MSCI indexes.

The Benchmark Index is a net total return index. A net total return index calculates the performance of the Benchmark Index constituents on the basis that any dividends or distributions are included in the Benchmark Index returns after withholding tax retention.

The exposure to the Index will be achieved through a Direct Replication, mainly by making direct investments in transferable securities and/or other eligible assets representing the Index constituents in a proportion extremely close to their proportion in the Index.The Investment Manager will be able to use derivatives in order to deal with inflows and outflows and also if it allows a better exposition to an Index constituent. In order to generate additional income to offset its costs, the Sub-Fund may also enter into securities lending operations.

Updated composition of the Fund holdings is available on www.amundietf.com.

In addition, the indicative net asset value is published on the Reuters and Bloomberg pages of the Fund, and might also be mentioned on the website of the stock exchanges where the Fund is listed.

Information on how the Index is consistent with environmental, social and governance characteristics is available in the prospectus.

The share currency is the Euro (EUR).

Dividend Policy : the accumulation share automatically retains, and re-invests, all attributable income within the Sub-Fund; thereby accumulating value in the price of the accumulation shares.

The minimum recommended holding term is 5 years.

The Sub-Fund's shares are listed and traded on one or more stock exchanges. In normal circumstances, you may deal in shares during the trading hours of the stock exchanges, provided that the Market Makers can maintain market liquidity. Only authorised participants (e.g. selected financial institutions) may deal in shares directly with the Sub-Fund on the primary market. Further details are provided in the prospectus of the UCITS.
