iShares £ UltraShort Bond ESG SRI UCITS ETF

A sub-fund of iShares IV plc

GBP (Dist) Share Class

ISIN: IE00BJP26F04 Exchange Traded Fund (ETF)

Manager: BlackRock Asset Management Ireland Limited

Objectives and Investment Policy

- The Share Class is a share class of a Fund which aims to achieve a return on your investment, through a combination of capital growth and income on the Fund's assets, which reflects the return of the iBoxx MSCI ESG SRI GBP Liquid Investment Grade Ultrashort Index ("Index").
- The Share Class, via the Fund, is passively managed and aims to invest in the fixed income ("FI") securities (such as bonds) that make up the Index and comply with its credit rating requirements.
- The Index measures the performance of Sterling denominated, investment grade, ultrashort FI securities (including corporate bonds, quasi-sovereign bonds, subsovereign bonds and covered bonds) which are part of the iBoxx GBP Liquid Investment Grade Ultrashort Index (Parent Index)("Parent Index"). To be eligible for inclusion in the Index, the FI securities must have a time to maturity, at issuance, of at least one year, and at the time of their inclusion in the Index, a remaining time to maturity of less than or equal to one year for fixed coupon rate bonds and less than or equal to three years for floating rate notes.
- Issuers are excluded from the Index if they are involved in certain business lines/activities, as outlined in the Index description of the Fund in the Fund's Prospectus. Companies that are in violation of United Nations Global Compact principles or OECD Guidelines for Multinational Enterprises are also excluded from the Index.
- The Index also excludes companies based on their involvement in major ESG controversies or which have an MSCI ESG rating below BBB.
- The Index is market capitalisation weighted (with a cap on each issuer of 4%).
- The Fund uses optimising techniques to achieve a similar return to its index. These techniques may include the strategic selection of certain securities that make up the Index or other securities which provide similar performance to certain constituent securities. These may also include the use of financial derivative instruments ("FDIs") (i.e. investments the prices of which are based on one or more underlying assets). FDIs may be used for direct investment purposes.
- The Fund may obtain limited exposure to securities which do not satisfy the ESG criteria. The Fund adopts a best-in-class approach to sustainable investing. This means that it is expected that the Fund will invest in the best issuers from an ESG/SRI perspective (based on the ESG and SRI criteria of the Index) within each relevant sector of activities covered by the Index.
- The Fund's investment in FI securities will, at the time of purchase, comply with the credit rating and ESG requirements of the Index. Where securities no longer meet such requirements, the Fund may continue to hold them until they cease to form part of the Index and it is practicable to sell them.
- The Fund may also engage in short-term secured lending of its investments to certain eligible third parties to generate additional income to offset the costs of the Fund.
- Recommendation: This Fund is suitable for medium to long term investment, though the Fund may also be suitable for shorter term exposure to the Index.
- Your shares will be distributing shares (i.e. income will be paid on the shares quarterly).
- Your shares will be denominated in Sterling, the Fund's base currency.
- The shares are listed on one or more stock exchanges and may be traded in currencies other than their base currency. The performance of your shares may be affected by this currency difference. In normal circumstances, only authorised participants (e.g. select financial institutions) may deal in shares (or interests in shares) directly with the Fund. Other investors can deal in shares (or interests in shares) daily through an intermediary on stock exchange (s) on which the shares are traded. Indicative net asset value is published on relevant stock exchanges websites.

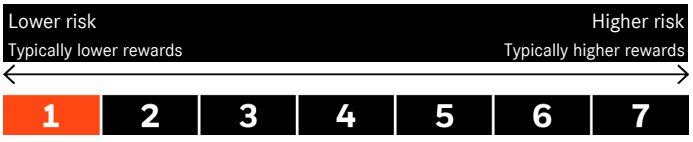
Risk and Reward Profile



- This indicator is based on historical data and may not be a reliable indication of the future risk profile of this Share Class.
- The risk category shown is not guaranteed and may change over time.
- The lowest category does not mean risk free.
- The Share Class is rated one due to the nature of its investments which include the risks listed below. These factors may impact the value of the Share Class or expose the Share Class to losses.
  - The benchmark index only excludes companies engaging in certain activities inconsistent with ESG criteria if such activities exceed the thresholds determined by the index provider. Such ESG screening may reduce the potential investment universe and this may adversely affect the value of the Fund's investments compared to a fund without such screening.
- Particular risks not adequately captured by the risk indicator include:
  - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Share Class to financial loss.
  - Credit Risk: The issuer of a financial asset held within the Fund may not pay income or repay capital to the Fund when due.
  - Liquidity Risk: Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily.

The benchmark is the intellectual property of the index provider. The Share Class is not sponsored or endorsed by the index provider. Please refer to the Fund's prospectus for full disclaimer.

Charges

The charges are used to pay the costs of running the Share Class, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

*Not applicable to secondary market investors. Investors dealing on a stock exchange will pay fees charged by their stock brokers. Such charges are publicly available on exchanges on which the shares are listed and traded, or can be obtained from stock brokers.

*Authorised participants dealing directly with the Fund will pay related transaction costs including, on redemptions, any applicable capital gains tax (CGT) and other taxes on underlying securities.

The ongoing charges figure is based on the fixed annualised fee charged to the Share Class in accordance with the Fund's prospectus. This figure excludes portfolio trade related costs, except costs paid to the depositary and any entry/exit charge paid to an underlying collective investment scheme (if any).

** To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.
