

Key Information Document

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

Name: Value and Income Trust PLC ("the Company")

PRIP Manufacturer: Value and Income Services Limited ("The Manager")

Competent authority: The Financial Conduct Authority (FCA)

ISIN: GB0008484718

Contact number: 0141 306 7400

This key information document is accurate as at **31 January 2018**

What is this product?

Type	The Company is a closed-ended investment company whose shares are listed on the London Stock Exchange and is an alternative investment fund under the Alternative Investment Fund Managers Directive. The Company's Ordinary Shares are therefore available to the general public. The Company's website can be found at www.olim.co.uk and www.olimproperty.co.uk
Objectives	The Company's objective is to provide shareholders with long-term returns in excess of the FTSE All-Share Index by investing in higher yielding, less fashionable areas of the UK commercial property and quoted equity markets, particularly in medium and smaller sized companies. The Company will pursue its investment objective by investing primarily in quoted UK equities, UK commercial property and cash or near cash securities.
Intended retail investor	The intended retail investor in the Company is a retail investor who is seeking long-term (at least 5 years) real growth in dividends and capital value from investing in a portfolio of predominantly UK based equities and UK commercial property.
Gearing	The Company has the ability to borrow and to charge its assets as security. The Company has incurred gearing which has varied between 25% and 40% of the total portfolio value. The Company does not intend to raise new borrowings if total net borrowings would then exceed 50% of the total assets. As the Company has borrowed to purchase assets this will magnify any gains or losses made by the Company.
Bid / Offer spread	The Ordinary Shares in the Company are bought and sold via markets. Typically, at any given time on any given day, the price you pay for a share will be higher than the price at which you could sell it.
Duration	Under the Articles of Association, the Company has a fixed life until 31 March 2027 save that the Board may propose a continuation vote in 2024 that would release the Board from its obligation to propose the liquidation resolution if the shareholders approve the continuation of the Company and the Board implement the alternative proposals that include a cash exit at close to NAV.

What are the risks and what could I get in return?

Risk Indicator

Lower risk ◀ ▶ Higher risk

The risk indicator assumes you keep the product for 5 years. If you sell your product earlier you may have to sell at a price that significantly impacts how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity of the Company to pay you. This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

This table shows the money you could get back over the next 5 years, under different scenarios, assuming that you invest £10,000. The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the product. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you. The figures shown include all the costs of the product itself, but may not include all the costs that you pay your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

Investment: £10,000		1 year	3 years	5 years
Stress scenario	What you might get back after costs (£)	5,166	6,017	5,114
	Average return each year	-48.3%	-15.6%	-12.6%
Unfavourable scenario	What you might get back after costs (£)	9,518	10,471	11,928
	Average return each year	-4.8%	1.5%	3.6%
Moderate scenario	What you might get back after costs (£)	11,098	13,655	16,801
	Average return each year	11.0%	10.9%	10.9%
Favourable scenario	What you might get back after costs (£)	12,918	17,777	23,625
	Average return each year	29.2%	21.1%	18.8%

What happens if Value and Income Trust PLC is unable to pay out?

As a shareholder of the Company you would not be able to make a claim to the Financial Services Compensation Scheme in the event that the Company is unable to pay out.

What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest £10,000. The figures are estimates and may change in the future.

Costs over time

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Investment: £10,000 If you cash in after...	1 year	3 years	5 years
Total Costs (£)	441	1,694	3,616
Impact on return (RIY) per year (%)	4.41%	4.41%	4.41%

Composition of costs

The table below shows:

- the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period;
- the meaning of the different cost categories.

This table shows the impact on return per year			
One – off costs	Entry costs	0.00%	This product does not have any entry costs.
	Exit costs	0.00%	This product does not have any exit costs.
Ongoing costs	Portfolio transaction costs	0.49%	The impact of the costs of buying and selling underlying investments for the Company.
	Other ongoing costs	3.78%	The impact of the costs incurred each year for managing your investments.
Incidental costs	Performance fees	0.14%	The impact of performance fees. We take these from your investment if the product outperforms the FTSE All-Share Index share price over a three year period.
	Carried interests	0.00%	This product does not charge any carried interest.

How long should I hold it and can I take money out early?

Recommended required minimum holding period: 5 years

The product has no required minimum holding period but is designed for long-term investment; you should have an investment horizon of at least 5 years. The recommended minimum holding period of 5 years has been selected, for illustrative purposes only, as the Company's Ordinary Shares are designed to be held over the long term and may not be suitable as short-term investments

There is no guarantee that any appreciation in the value of the Company's investments will occur and investors may not get back the full value of their investments. The value of the Ordinary Shares and the income derived from them (if any) may go down as well as up. Although the Ordinary Shares are traded on the Main Market, it is possible that there may not be a liquid market in the shares and investors may have difficulty selling them. Accordingly, investors may be unable to realise their shares at the quoted market price (or at the prevailing net asset value per share), or at all.

There are no additional fees or penalties incurred on exit however the price you receive on the open market may not reflect the underlying NAV of the shares.

How can I complain?

As a shareholder of the Company you do not have the right to complain to the Financial Ombudsman Service (FOS) about the management of the Company. Complaints about the Company or the key information document should be directed to the Compliance Officer, James Ferguson, of Value and Income Services Limited.

More information can be found by telephoning 0141 306 7400.

You can submit your complaint via post to James Ferguson, Compliance Officer, Value and Income Services Limited, c/o Maven Capital Partners UK LLP, 1st Floor Kintyre House, 205 West George Street, Glasgow G2 2LW

Other relevant information

The latest annual report and accounts for the Company can be found at www.olim.co.uk and www.olimproperty.co.uk. Please contact the Manager through the Company's company secretary, Maven Capital Partners UK LLP on 0141 306 7400 for further information. The cost, performance and risk calculations included in this KID follow the methodology prescribed by EU rules. Depending on how you buy these shares you may incur other costs, including broker commission, platform fees and Stamp Duty. The distributor will provide you with additional documents where necessary.
