What is this product?

Type: The Company is a closed-ended investment fund domiciled in England and Wales and is listed on the Specialist Fund Market (the "SFS") of the Main Market of the London Stock Exchange (the "LSE") on 21 July 2017. The Company has an unlimited life and there is no maturity date for the ordinary shares. There is no recommended holding period for the ordinary shares (although a holding period of 5 years has been used for the purposes of the calculations in this document). The return from an investment in the ordinary shares will be driven by the price at which the ordinary shares are sold compared to the original purchase price, and by any dividends paid by the Company to the investors in its ordinary shares during the holding period. The price at which any investor may dispose of ordinary shares will depend on the prevailing secondary market price, which may, or may not, reflect the prevailing net asset value per ordinary share.

Investment Objective: The Company's investment objective is to provide its shareholders with an attractive level of income together with the potential for capital growth by investing in a portfolio of supermarket real estate assets in the UK. The Company invests in principally freehold and long leasehold operational properties let to UK supermarket operators, which benefit from long-term growing income streams.

The Company will acquire assets with long unexpired lease terms, targeting a portfolio average unexpired lease term of more than 15 years, with index-linked or fixed rental uplifts in order to provide investors with income security and considerable inflation protection. The Company expects the majority of its tenants to consist of the four largest UK supermarket operators by market share. The Company may also invest in assets let to other supermarket operators, where it believes the covenant is consistent with the overarching objective of providing regular and sustainable income as well as the potential for some capital value uplift over the longer term.

Intended Retail Investor: An investment in the Company is intended for institutional investors and professionally-advised or knowledgeable retail investors. It is suitable for investors who are capable of evaluating the risks and merits of such an investment and who have sufficient resources to bear the economic risk of a substantial or entire loss of their investment and who can accept that there may be limited liquidity in the shares.

Maturity Date: The Company has an unlimited life and there is no maturity date for the ordinary shares.

What are the risks and what could I get in return?

Risk indicator

This table shows the money you could get back over the next 5 years, under different scenarios, assuming that you initially invest in £10,000 from the outset. The scenarios shown illustrate how your investments could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get back will vary depending on how the market performs and how long you keep the investment. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you. The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What happens if Supermarket Income REIT Plc is unable to pay out?

The Company is not required to make any payment to you in respect of your investment. If the Company were liquidated, you would be entitled to receive a distribution equal to your share of the Company's assets, after payment of all of its creditors. There is no compensation or guarantee scheme in place that applies to the Company and, if you invest in the Company, you should be prepared to assume the risk that you could lose all of your investment.

What are the costs?

Costs over time

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.
