Ordinary shares in abrdn UK Smaller Companies Growth Trust plc

ISIN: GB0002959582

Telephone: 0808 500 0040

Website: www.abrdnuksmallercompaniesgrowthtrust.co.uk

Document published: 01/08/2022

This product is managed by abrdn Fund Managers Limited, a firm authorised and regulated by the Financial Conduct Authority in the United Kingdom.

What is this product?

Type

Ordinary shares in abrdn UK Smaller Companies Growth Trust plc, an actively managed investment company registered in Scotland, and listed on the London Stock Exchange. Shares of abrdn UK Smaller Companies Growth Trust plc (the "Company") are bought and sold via markets. At any time, the price you would pay to acquire a share will normally be higher than the price at which you could sell it. The price may be at a premium or discount to the net asset value of the Company.

Term

The Company does not have a fixed life but may be wound up with shareholder approval, subject to compliance with relevant legal and regulatory requirements. abrdn Fund Managers Limited may not unilaterally terminate the Company.

Objectives

The Company's investment objective is to achieve long-term capital growth by investment in a diversified portfolio consisting of around 50 individual holdings which will be mainly UK-quoted smaller companies. No holding within the portfolio should exceed 5% of total assets at the time of acquisition. The Company can borrow to invest and will operate between holding between 5% net cash and 25% of net gearing (at the time of drawdown) in normal market conditions. The Company borrows in order to purchase assets, and this may magnify any gains or losses.

The Directors have set additional guidelines in order to reduce the risk borne by the portfolio:

- Companies with a market capitalisation of below GBP50m should not represent more than 5% of total assets.
- Companies involved in 'Blue Sky' products should not represent more than 5% of total assets.
- No more than 50% of the portfolio can be invested in companies that are constituents of the FTSE AIM Index.

Intended Retail Investor

Investors with basic investment knowledge. Investors who understand the basics of buying and selling shares in stockmarket listed companies and the way these shares are valued. Investors who can accept large short term losses. Investors wanting a return (growth) over the longer term (5 years or more). The Company has specific and generic risks with a risk rating as per the risk indicator. The Company is intended for general sale to retail and professional investors through all distribution channels with or without professional advice.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you sell it at an earlier stage. The value of investments and the income from them can go down as well as up, and you may get back less than you invested.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the Company is not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact our capacity to pay you.

Further information on risks is detailed in the Company's annual report available in the literature library on www.standardlifeuksmallercompaniestrust.co.uk/en/literature-library.

This product does not include any protection from future market performance so you could lose some or all of your investment.

The Company borrows/ may borrow in order to purchase assets, and this may magnify gains or losses. Shares in the Company may trade at a discount to their Net Asset Value, which may adversely affect the value of your investment, particularly when you come to sell your shares.

Performance Scenarios
Investment of 10,000 GBP

Scenarios		1 year	3 years	(Recommended holding period) 5 years
Stress scenario	What you might get back after costs	300 GBP	3,620 GBP	2,560 GBP
	Average return each year	-97%	-29%	-24%
Unfavourable scenario	What you might get back after costs	7,420 GBP	6,190 GBP	5,560 GBP
	Average return each year	-26%	-15%	-11%
Moderate scenario	What you might get back after costs	10,340 GBP	10,970 GBP	11,630 GBP
	Average return each year	3%	3%	3%
Favourable scenario	What you might get back after costs	14,230 GBP	19,190 GBP	24,010 GBP
	Average return each year	42%	24%	19%

This table shows the money you could get back over the next 5 years, under different scenarios, assuming that you invest 10,000 GBP.

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products.

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product.

The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

Market developments in the future cannot be accurately predicted. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your broker, adviser or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What happens if the Company is unable to pay out?

As a shareholder of the Company you would not be able to make a claim to the Financial Services Compensation Scheme in the event that the Company is unable to pay any dividends due to you, or if it were unable to pay any amounts due to you on the winding up of the Company.

What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs. The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest 10,000 GBP. The figures are estimates and may change in the future. The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Costs over time
Investment 10,000 GBP

	If you cash in after 1 year	If you cash in after 3 years	If you cash in after 5 years
Total costs	103 GBP	347 GBP	652 GBP
Impact on return (RIY) per year	1.03%	1.03%	1.03%

Composition of costs

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and, what the different cost categories mean.

One-off costs	Entry costs	0.00%	The impact of the costs you pay when entering your investment.
	Exit costs	0.00%	The impact of the costs of exiting your investment when it matures.
Ongoing costs	Portfolio transaction costs	0.00%	The impact of the costs of us buying and selling underlying investments for the product.
	Other ongoing costs	1.01%	The impact of the costs that we take each year for managing your investments.

Incidental costs	Performance fees	0.00%	The impact of a performance fee, where applicable.
	Carried interests	0.00%	The impact of carried interests, where applicable.

The 'Other ongoing costs' set out above represent the costs of the Company and includes the management fee and administrative expenses. In addition, the figure includes the impact of the interest cost paid to third-party lenders for borrowing money to invest in the portfolio (0.13%) but not any income or capital benefit from so doing.

How long should I hold it and can I take money out early?

Recommended holding period: 5 years.

This product has no required minimum holding period but is designed for long-term investment; you should have an investment horizon of at least 5 years.

As the shares are listed on the London Stock Exchange, you may buy or sell shares on any normal business day that the London Stock Exchange is open for business.

How can I complain?

If you have any complaints about the Company, the KID or the conduct of the manufacturer, you can refer to the 'Contact Us' section of the Manager's website www.invt trusts.co.uk or you may lodge your complaint by writing to us at The Complaints Team, abrdn Investment Trusts, PO Box 11020 Chelmsford CM99 2DB. Complaints regarding the conduct of the person(s) advising on or selling the product should be addressed to the person(s) or to their organisation.

Other relevant information

The cost, performance and risk calculations included in this KID are based on the methodologies prescribed by EU rules. The data used in these calculations and the specific methodology applied may change in the future. The performance scenarios are based on share price total returns with all dividends reinvested. Further information on the Company's investment policies, the types of assets in which the Company may invest, the markets in which it invests, borrowing limits as well as details of its management, administration and depositary arrangements can be found in the Company's Annual Report and Pre-Investment Disclosure Document on the Company's website www.abrdnuksmallercompaniesgrowthtrust.co.uk. Paper copies of these documents are available on request, free of charge, via the contact details above.

Depending on how you buy these shares you may incur other costs, including broker commission, platform fees and Stamp Duty. The distributor will provide you with additional documents where necessary.

Please refer to www.abrdnuksmallercompaniesgrowthtrust.co.uk for further information including previous performance scenario calculations. At this time, there is insufficient data to provide a useful indication of past performance for this product but the website will be updated when there is data for one full calendar year.
