WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk indicator

Lower risk

Higher risk

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less than your initial investment.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as class 5 out of 7, which is a medium-high risk class.

This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact Barings capacity to pay you.

Market developments in the future cannot be accurately predicted. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower.

This table shows the money you could get back over the next 5 years, under different scenarios, assuming that you invest EUR 10 000 per year.

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products.

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment.

The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

WHAT HAPPENS IF BARINGS IS UNABLE TO PAY OUT?

The assets of the Company are segregated from those of Baring Fund Managers Limited. To that effect, if Baring Fund Managers Limited defaults, there will be no direct financial impact on the Company. You may face a financial loss if your broker or the entity from whom you purchased this product was to default.

As a shareholder of the Company, you may not be able to make a claim to the Financial Services Compensation Scheme.

WHAT ARE THE COSTS?

Costs over Time

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest 10,000 GBP. The figures are estimates and may change in the future.

Investment 10 000 GBP	If you cash in after 1 year	If you cash in after 3 years	If you cash in after 5 years
Total costs	195.48 GBP	626.6 GBP	1 116.01 GBP
Impact on return (RIY) per year	1.95 %	1.95 %	1.95 %

Composition of Costs

The table below shows:

* The impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period.

* What the different cost categories mean.

This table shows the impact on return per year			
One-Off costs	Entry costs	0.00%	The impact of the costs you pay when entering your investment. This is the most you will pay, and you could pay less
	Exit costs	0.00%	The impact of the costs of exiting your investment when it matures
Ongoing costs	Portfolio transaction costs	2.90%	The impact of costs of us buying and selling underlying investments for the product
	Other ongoing costs	1.50%	The impact of costs that we take each year for managing your investments
Incidental costs	Performance Fee	0.00%	This fund does not charge a performance fee.
	Carried interests	0.00%	This fund does not charge carried interest.
