### What is this product?

Type	<p>The Company was incorporated in England and Wales as a public company with an unlimited life under the Companies Act 2006. Shares in the Company are listed on the London Stock Exchange's main market for listed securities (premium listing).</p> <p>The Company is registered as an investment company under section 833 CA 2006 and is an investment trust under section 1158 CTA 2010. The Company has been established as a closed ended investment company with an indefinite life.</p>
Objectives	<p>The Company will invest mostly in operating UK wind farms. Over a long term horizon the Company's aim is to provide investors with an annual dividend per Ordinary Share that increases in line with RPI inflation while preserving the capital value of its investment portfolio in the long term on a real basis through reinvestment of excess cashflow.</p> <p>The Company will seek to acquire 100 per cent, majority or minority interests in individual wind farms. These will usually be held through Special Purpose Vehicles ("SPVs") which hold underlying wind farms. When investing in less than 100 per cent of the equity share capital of a wind farm SPV, the Company will secure its shareholder rights through shareholders' agreements and other transaction documents.</p> <p>The Company will invest in equity and associated debt instruments when making acquisitions in wind farms.</p> <p>The return on your investment is based on the price at which you are able to buy and sell the Company's shares as well as the dividends paid. The share price at any time may be above or below the net asset value of the Company's investments.</p>
Intended retail investor	<p>The shares are intended for sophisticated investors and private clients who are familiar with the risk of renewable energy generation projects such as wind farms, who understand and are willing to assume the potential risk of capital loss, and who understand that there may be limited buyers for the underlying investments of Greencoat UK Wind PLC. The shares are only intended for those investors for whom the shares form part of a diversified investment programme. The Company does not recommend a specific time period for holding the shares.</p>
Further information	<p>A holding period of 5 years has been used in preparing this KID. This is not a recommendation that you hold shares for strictly 5 years. There is no maturity date and the manufacturer is not entitled to unilaterally terminate the product.</p> <p>Shares of the Company are bought and sold via markets. Typically, at any given time on any given day, the price you pay for a share will be higher than the price at which you could sell it. If you have any queries regarding share issue costs then you should contact the relevant intermediary companies acting as brokers when buying and selling shares.</p>

## What are the risks and what could I get in return?

### Risk Indicator

Lower risk  .....  Higher risk

The risk indicator assumes you keep the product for 5 years. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor equity market conditions could impact the capacity of the Company to pay you. Returns are dependent on the net revenue generation of our investments and the ongoing attractiveness of wind-farm investments in general. See the prospectus for further details on risks. This product does not include any protection from future market performance so you could lose some or all of your investment.

### Investment performance information

The Company's aim is to provide investors with an annual dividend that increases in line with RPI inflation while preserving the capital value of its investment portfolio in the long term on a real basis through reinvestment of excess cash flow.

The substantial majority of the investment portfolio will be operating UK wind farms. The Company intends to maintain a balanced exposure to power prices. Aggregate group debt will not exceed 40% of gross asset value at drawdown.

The principal risks and factors that are likely to affect future returns for investors can be found in the Company's Annual Report, pre-investment disclosures and its latest Prospectus. Visit [www.greencoat-ukwind.com](http://www.greencoat-ukwind.com) or call +44 (0)20 7832 9400 for more information.

The Company is not benchmarked to an index. However, total shareholder return can be used as a performance indicator.

### What could affect my return positively?

- Higher than forecast and higher forecast power prices;
- Increasing inflation and higher dividends;
- Higher than forecast wind speed;
- Higher portfolio availability; and
- Longer asset life.

### What could affect my return negatively?

- Changes in government policy on renewable energy;
- Lower than forecast or lower forecast power prices;
- Higher debt costs;
- Lower than forecast wind speed; and
- Shorter asset life.

If the Company goes into liquidation the investments will be sold and you will receive your pro rata share of the proceeds after settlement of any liabilities, as detailed in the Prospectus. You would not be entitled to compensation from the Financial Services Compensation Scheme.

## What happens if Greencoat UK Wind PLC is unable to pay out?

A shareholder of the Company may sell its shares in the Company at any time.

### What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself and paid by the Company, for three different holding periods. The figures assume you invest £10,000. The figures are estimates and may change in the future.

### Costs over time

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.
