What is this product?

Type-

Ordinary shares in a closed-ended investment company incorporated in Guernsey. Save for payments of dividends made in accordance with its dividend policy from time to time or other returns (e.g., on a winding up), the Company is not expecting to pay you and you are expected to generate returns through selling your shares through a bank or stockbroker.

Term-

The ordinary shares have no maturity date.

Objectives-

The Company's investment objective is to provide shareholders with long-term capital growth, through investing in a portfolio consisting primarily of equity or equity related investments in unquoted companies. The Company may borrow to purchase assets from time to time. This will magnify any gains or losses made by the Company.

Investment approach-

The company aims to achieve returns through investing in a portfolio consisting primarily of equity or equity-related investments in unquoted companies. The Company may borrow to purchase assets from time to time. This will magnify any gains or losses made by the Company.

Redemption policy-

Shares of the Company are bought and sold via the Main Market of the London Stock Exchange. Typically, at any given time on any given day, the price you pay for a share will be higher than the price at which you could sell it.

Intended Retail Investor-

The ordinary shares are listed on the Main Market of the London Stock Exchange and as such are intended for investors who understand and are willing to assume the potential risks of capital loss and that understand that there may be limited liquidity in the underlying assets of the Company.

What are the risks and what could I get in return?

Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will

lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 6 out of 7, which is the second-highest risk class. This rates the potential losses from future performance at a high level, and poor market conditions are very likely to impact the capacity to pay you.

The whole amount of your invested capital in the Company is at risk and there can be no guarantee that you will get back any or all of the amount invested on a sale of shares in the Company. The price at which shares in the Company are sold in the market has not historically tracked the Company's net asset value per share.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred when investing between 08/2021 and 01/2025.

Moderate scenario: This type of scenario occurred when investing between 07/2017 and 07/2022.

Favourable scenario: This type of scenario occurred when investing between 06/2016 and 06/2021.

What happens if Chrysalis Investments Limited is unable to pay out?

As a shareholder of Chrysalis Investment Company Limited, you would not be able to make a claim to the Financial Services Compensation Scheme nor any other compensation body about the Company in the event that the Company were unable to pay any dividends or other returns it may elect to pay from time to time, or if it were unable to pay any amounts due to you on a winding up at the end of its life. If you sell your shares on the London Stock Exchange, your bank or stockbroker will receive cash on delivery of your shares and should pass that to you.

REFERENCES TO THE COMPANY PAYING YOU MONEY ARE REQUIRED, WHILE YOU MAY RECEIVE SOME DIVIDENDS FROM THE COMPANY DURING YOUR INVESTMENT THE MAJORITY OF YOUR RETURN WILL LIKELY BE FROM THE BUYER OF YOUR SHARES WHEN YOU SELL.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- GBP 10 000 is invested.

Example Investment 10 000 GBP		
Scenarios	If you exit after 1 Year	If you exit after 5 years (recommended holding period)
Total Costs	82 GBP	391 GBP
Annual Cost impact (*)	0.8%	0.8% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be -0.5 % before costs and -1.4 % after costs.

Composition of costs
