

Key information document

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

You are about to purchase a product that is not simple and may be difficult to understand

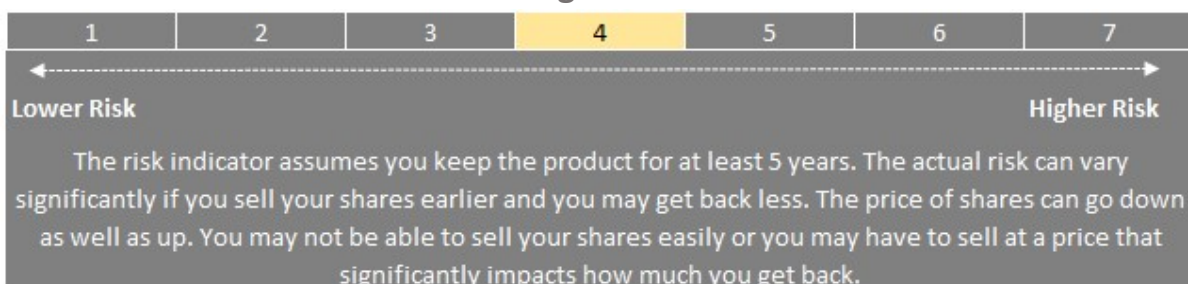

Product

Name of Product	Ordinary shares of no par value (" Ordinary Shares ") in River and Mercantile UK Micro Cap Investment Company Limited (the " Company ")
Name of PRIIP manufacturer	River and Mercantile UK Micro Cap Investment Company Limited
ISIN	GG00BZ8VFG05
Website for PRIIP manufacturer	https://microcap.riverandmercantile.com
Telephone number for more information	+44 (0)1534 679510
Competent Authority of the PRIIP manufacturer	Guernsey Financial Services Commission
Date of production of the KID	31 January 2019

What is this product?

Type	Ordinary shares in a closed-ended investment company incorporated in Guernsey. Save for payments of dividends or other returns (e.g. on a redemption of Ordinary Shares under the Company's compulsory redemption mechanism or on a winding-up), the Company is not expecting to pay you and you are expected to generate returns through selling your shares through a bank or stockbroker. Ordinary Shares are bought and sold via markets. Typically, at any given time on any given day, the price you pay for a share will be higher than the price at which you could sell it. The price at which you can sell your shares will vary depending on market conditions and will not necessarily reflect the net asset value of the Company.
Objectives	The Company aims to achieve long-term capital growth from investment in a diversified portfolio of UK "micro cap" companies, typically comprising companies with a free float market capitalisation of less than £100 million at the time of purchase.
Intended retail investor	This product is intended for UK retail investors who plan to hold their investment for the long term. Potential investors should fully understand the additional risks associated with this particular asset class, the potential risk of capital loss and that there may be limited liquidity in the Ordinary Shares. The Ordinary Shares are suitable for investors as part of a diversified investment portfolio and who are able to take a long-term view of any investment in the Company.

What are the risks and what could I get in return?

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. Save for payments of dividends or other returns, the Company is not expecting to pay you and you are expected to generate returns through selling your shares through a bank or stockbroker. We have classified this product as 4 out of 7 which is a medium risk class.

The product does not include any protection from future market performance, so you could lose some or all of your investment. The price at which the Ordinary Shares are sold in the market has not historically tracked the Company's net asset value per Ordinary Share.

Performance Scenarios

This table shows the money you could get back over the next 5 years under different scenarios, assuming that you invest £10,000. The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you will get will vary depending on how the market performs and how long you keep the investment.

The stress scenario shows what you might get back in extreme market circumstances and it does not take into account the situation where we are not able to pay you.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

Investment GBP 10,0000		1 Year	3 years	5 years
Stress scenario	What you might get back after costs	1,478 GBP	5,737 GBP	4,812 GBP
	Average return each year	-85.22%	-16.91%	-13.61%
Unfavourable scenario	What you might get back after costs	8,942 GBP	9,292 GBP	10,126 GBP
	Average return each year	-10.58%	-2.42%	0.25%
Moderate scenario	What you might get back after costs	11,065 GBP	13,377 GBP	16,173 GBP
	Average return each year	10.65%	10.19%	10.09%
Favourable scenario	What you might get back after costs	13,412 GBP	18,864 GBP	25,301 GBP
	Average return each year	34.12 %	23.56 %	20.40%

What happens if River and Mercantile UK Micro Cap Investment Company Limited is unable to pay out?

As a shareholder of River and Mercantile UK Micro Cap Investment Company Limited you would not be able to make a claim to the Financial Services Compensation Scheme about the Company in the event that the Company were unable to pay any dividends or other returns it may elect to pay from time to time, or if it were unable to pay any amounts due to you on a winding-up. If you sell your Ordinary Shares on the London Stock Exchange, your bank or stockbroker will receive cash on delivery of your shares and should pass that to you.

What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest £10,000. The figures are estimates and may change in the future.

Costs over time

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Investment Scenarios	If you cash in after 1 year	If you cash in after 3 years	If you cash in after 5 years
Total Costs	327 GBP	1,048 GBP	1,891 GBP
Impact on return (RIY) per year	3.27 %	2.78 %	2.40 %

Composition of costs

The table below shows:

- the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period;
- the meaning of the different cost categories.

This table shows the impact on return per year			
One-off costs	Entry costs	0.00%	The impact of the costs you pay when entering your investment.
	Exit costs	0.00%	The impact of the costs of exiting your investment when it matures.
Ongoing costs	Portfolio transaction costs	0.09%	The impact of the costs of us buying and selling underlying investments for the product.
	Other ongoing costs	1.30%	The impact of the costs that we take each year for managing your investment.
Incidental costs	Performance fees	2.37%	The impact of the performance fee. A performance fee equal to 15 per cent. of the amount by which the Company's NAV outperforms the total return on the Benchmark will be payable to the Portfolio Manager. Any performance fees due will only be paid when the Company implements the Redemption Mechanism and will only be payable if the Company's NAV has outperformed the Benchmark since the last time a performance fee was paid. For the avoidance of doubt, this means that if the Company has underperformed the Benchmark at the point of any exercise of the Redemption Mechanism, no performance fee would be payable and any underperformance must be made good before a performance fee can be paid to the Portfolio Manager on any future exercise of the Redemption Mechanism.
	Carried interests	0.00%	The impact of carried interests.

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

Listed funds are designed to be long term investments and the returns from them can be volatile during their life. You should plan to hold your shares for at least a five year investment horizon.

As the Company's shares are listed on the London Stock Exchange, you can expect to sell them at any time through your bank or stockbroker.

How can I complain?

If you have any complaints about the Company, you may lodge your complaint:

- via our website: <https://microcap.riverandmercantile.com>
- in writing to BNP Paribas Securities Services S.C.A. Guernsey Branch - BNP Paribas House, 1 St Julian's House, St Peter Port, GY1 1WA, Guernsey.

Other relevant information

We are required to provide you with further documentation, such as the Company's annual and interim reports. These documents and other information relating to the Company are available online at <https://microcap.riverandmercantile.com>.

The past performance of the Company is not a guide to future performance. The price of the Company's shares can go down as well as up. The cost, performance and risk calculations included in this Key Information Document follow the methodology prescribed by EU rules. In addition, the costs set out in the "composition of costs" table are carried by the Company and dividends paid to investors are net of these costs.
