Alert

You are about to purchase a product that is not simple and may be difficult to understand.

Product: US Solar Fund Plc (the “Company”) – Ordinary Shares

ISIN: GB00BJCWFX49

SEDOL: BJCWFX4 (USD) and BHZ6410 (GBP)

Website: www.ussolarfund.co.uk

Tel: +44 (0)20 7409 0181

PRIIP manufacturer (for the purposes of this document only): New Energy Solar Manager Pty Limited

Competent Authority: Financial Conduct Authority.

Date of production of KID: 13 April 2021.

What is this product?

Type: The Company is an investment trust company incorporated in the United Kingdom. The ordinary shares are listed on the London Stock Exchange and traded in US Dollars and Sterling. The Company’s investment manager is New Energy Solar Manager Pty Limited. The Company has an unlimited life and there is no maturity date for the ordinary shares. There is no recommended holding period for the ordinary shares (although a holding period of 5 years has been used for the purposes of the calculations in this document). The return from an investment in the ordinary shares will be driven by the price at which the ordinary shares are sold compared to the original purchase price, and by any dividends paid by the Company to the investors in its ordinary shares during the holding period. The price at which any investor may dispose of ordinary shares will depend on the prevailing secondary market price, which may, or may not, reflect the prevailing net asset value per ordinary share.

Investment Objective: The Company’s investment objective is to provide its shareholders with attractive and sustainable dividends, with an element of capital growth, through investing in a diversified portfolio of Solar Power Assets located in North America and other OECD countries in the Americas.

The Company predominantly invests in Solar Power Assets in the United States, but it may also invest in Solar Power Assets in other OECD countries in the Americas.

The Company, directly or indirectly, will acquire, construct and operate the Solar Power Assets and will predominantly generate revenue by selling the electricity generated by, the electricity stored by, and /or the capacity delivered by such Solar Power Assets. It is the intention that the Solar Power Assets acquired will have PPAs or capacity contracts in place of at least 10 years’ duration from the commencement of operations (on a weighted average portfolio basis where multiple Solar Power Assets are acquired in a single transaction).

The Company will target construction-ready, in-construction, or operational Solar Power Assets that are designed and constructed to have an asset life of at least 30 years and are expected to generate stable electricity output and revenue over the lifespan of the asset.

Intended retail investor: The Shares are only suitable for investors: (i) who understand the potential risk of capital loss and that there may be limited liquidity in the underlying investments of the Company; (ii) for whom an investment in the Shares is part of a diversified investment portfolio; and (iii) who fully understand and are willing to assume the risks involved in such an investment portfolio. Typical investors in the Company are expected to be institutional and sophisticated investors, professional investors, high net worth investors and individual investors who understand the risks involved in investing in the Company and/or who have received advice from their fund manager, broker, solicitor, accountant or their appropriately authorised independent financial adviser regarding any investment in the Company.

Maturity Date: The Company has an unlimited life and there is no maturity date for the ordinary shares.

US SOLAR FUND PLC

product itself, for three different holding periods. The figures assume you invest US\$10,000. The figures are estimates and may change in the future.

Costs over time

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

	Exit costs	0.00%	No exit costs are payable when you dispose of ordinary shares, although you may be required to pay stamp duty, brokerage fees or commissions.
Ongoing costs	Portfolio transaction costs	0.16%	The impact of the costs of us buying and selling underlying investments for the Company, including Stamp Duty Land Tax.
	Other ongoing costs	1.63%	The impact of the costs taken each year for managing your investments, including the Company's investment manager and the fees and expenses of the Company's other service providers.
Incidental costs	Performance fees	0.00%	The Company does not pay performance fees.
	Carried interests	0.00%	The Company does not pay carried interest.

How long should I hold it and can I take money out early?

There is no required minimum holding period for the shares in the Company. It is designed for long-term investment with investors being able to sell their investment in the Company's shares on the London Stock Exchange. The recommended holding period in this document is for illustrative purposes only. The Company is not obliged to acquire any of the Company's shares. You may sell your shares in the Company on any day which is a dealing day on the London Stock Exchange. No fees or penalties are payable to the Company on the sale of your investment but you may be required to pay fees or commissions to any person arranging the sale on your behalf. The sale of shares may be at a discount to the Product's net asset value.

How can I complain?

As a shareholder of the Product you do not have a right to complain to the Financial Ombudsman Service about the management of the Product. Complaints about the Product or the key information document can be made can be directed to:
