What is this product?

Type

The Company's shares are listed on the premium segment of the Official List of the UK Listing Authority ('UKLA') and are admitted to trading on the main market of the London Stock Exchange.

Objectives

The Company aims to maximise total return to shareholders from a diversified portfolio of investments in Emerging Europe (including Russia), Middle East and Africa.

Intended retail investor

The Company is offered to investors who may have basic or no knowledge and experience of investing in financial markets and also experienced investors and is intended for long-term investment. Investors should understand the risks involved, including the risk of losing all capital invested and must evaluate The Company's objective and risks in terms of whether they are consistent with their own investment goals and risk tolerances. Shares in The Company are not intended as a complete investment plan.

The Company has been established with an unlimited life.

What are the risks and what could I get in return?

Risks

 The risk indicator assumes you keep the product for 5 year(s).

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.
We have classified this product as 6 out of 7, which is the second-highest risk class.

This classification is based on historical data (in line with the prescribed calculation methodology) but investors should be mindful

of the current geopolitical situation in Ukraine/Russia and the impact this has had on the assets of The Company. Some of The Company's assets are illiquid and are subject to fair value measures, please refer to recent announcements made on the London Stock Exchange for more details including the latest net asset value per share and share price of The Company. These are available on The Company's website at www.jpmeemeasecurities.com

This figure rates the likelihood of losing money in the future, based on historic prices as having a high level risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the fund performance. Please refer to the Annual Report in the documents section at www.jpmmam.co.uk/investmenttrust.

All data is sourced by J.P. Morgan Asset Management and is correct as at the date of this commentary unless otherwise stated.

Investment performance information

The performance of the Company is likely to be driven by a variety of factors, whether macro (e.g. political, economic growth, inflation) or the performance of individual corporate issuers. The Company may utilise gearing (borrowing) which will exaggerate market movements both up and down. The Company does not have a benchmark but will use the S&P Emerging Europe, Middle East and Africa Index (in sterling terms) for comparison purposes and has the objective as stated in the "What is this product" section. There is no guarantee that the Company will meet its objective or achieve any particular level of performance. For further details of the risk factors which may impact the performance of the Company please refer to the Company's annual report which is available at www.jpmmam.co.uk/investmenttrust.

What could affect my return positively?

Factors such as strong economic growth, low inflation and/or strong corporate earnings are likely to impact the return of the Company positively.

What could affect my return negatively?

Conversely, low economic growth, high inflation, poor corporate earnings and/or the default of issuers are likely to impact the return of the Company negatively.

Outcome the investor may expect where shares in the Company are encashed under severely adverse market conditions

Shareholders are more likely to experience a negative return should shares be encashed under severely adverse market conditions.

What happens if JPMorgan Funds Limited is unable to pay out?

The Manager is responsible for administration and management of The Company, and does not typically hold assets of The Company (assets that can be held by a depositary are, in line with applicable regulations, held with a depositary in its custody network). The Manager, as the manufacturer of this product has no obligation to pay out since the product design does not contemplate any such payment being made. However, investors may suffer loss if The Company or the depositary is unable to pay out. Investors in The Company are not eligible to claim under the UK Financial Services Compensation Scheme.

What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest 10000 GBP. The figures are estimates and may change in the future.

Costs over time

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Investment £ 10,000	if you exit after 1 year	if you exit after 3 years	if you exit after 5 years (Recommended Holding Period)
Total Costs	£ 394.00	£ 564.18	£ 444.46
Impact on Return (RIY) per year	3.94%	3.94%	3.94%

Composition of costs

The table shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and the meaning of the different cost categories.

This table shows the impact on return per year
