What is this product?

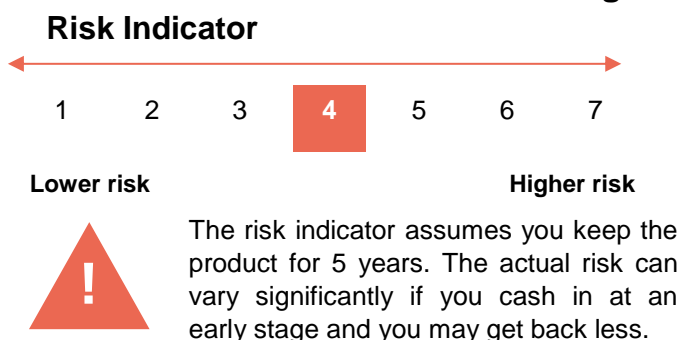

Type: This product is a physically backed exchange traded commodity. These are secured, limited recourse certificates.

Objectives: The Invesco Physical Gold P-ETC aims to provide the performance of the spot gold price through certificates collateralised with gold bullion. The base currency is USD.

Intended investor: This product is intended for investors who are willing to invest for a medium to long term and who plan to stay invested for at least 5 years. Investors should be prepared to take on a relatively high level of risk of loss to their original capital in order to get a higher potential return.

Maturity: This product is open ended. The Issuer has the right to terminate the product in a limited number of circumstances, as set out in the prospectus.

What are the risks and what could I get in return?

We have classified this product as 4 out of 7, which is “a medium” risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the ability for you to receive a positive return on your investment.

If the issuer cannot pay the specified return, the gold will be used to repay investors. Investors will have no claim on the other assets of the Issuer.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

This table shows the money you could get back over the next 5 years (recommended holding period), under different scenarios, assuming that you invest \$10,000. The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you. The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor.

The figures do not take into account your personal tax situation, which may also affect how much you get back.

What happens if Invesco Physical Markets is unable to pay out?

You may face a financial loss should the Manufacturer or custodian, JPMorgan Chase Bank, N.A., default on their obligations.

There is no compensation or guarantee scheme in place which may offset, all or any of, this loss.

What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs. The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest USD 10,000. The figures are estimates and may change in the future.

Table 1: costs over time

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Investment Scenarios (\$10,000)	If you cash in after 1 year	If you cash in after half recommended period of 5 years (after 3 years)	If you cash in after the recommended period of 5 years
Total costs	15.55	53.62	102.74
Impact on return (RIY) per year	0.16%	0.16%	0.16%

Table 2: composition of costs

The table below shows:

- The impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period.
- The meaning of the different cost categories.

One-off costs	Entry costs	0.00%	The impact of the costs you pay when entering your investment. This is the most you will pay, and you could pay less.
