

Key Information Document

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

| | |
|-------------|--|
| Fund Name | PCGH ZDP plc (the "Company") |
| | Polar Capital Global Healthcare Trust plc (the "Parent Company") |
| Share Class | Zero Dividend Preference Shares (the "Shares") |
| ISIN | GB00BDHXP963 |

The product is manufactured by Polar Capital LLP (the "Manager"). This Key Information Document is issued and approved by the Manager. The Manager is authorised and regulated in the UK by the Financial Conduct Authority. Further information is available at www.polarcapitalhealthcaretrust.co.uk or by calling 020 7227 2700. This key information is accurate as at 28 February 2018.

What is this product?

Type

This product is an Alternative Investment Fund (AIF) incorporated as a public limited company in England and Wales. The Company's Shares have a standard listing and are traded on the London Stock Exchange.

Objectives

The Company is a wholly owned subsidiary of the Parent Company, created for the sole purpose of issuing Zero Dividend Preference Shares, the issue proceeds of which form the assets of a loan agreement with the Parent Company which shall mature on the 19 June 2024.

Intended investor

Shares in the Company are offered to investors who are prepared to risk their capital up to the amount invested in the fund. Investors should be prepared to stay invested for the long term. Shares in the Company should be held as part of a diversified portfolio of investments.

Term

The Company has a limited life and will be placed into voluntary liquidation at the general meeting of the Company which the directors shall be required to convene on 19 June 2024 for the purposes of proposing to liquidate the Company.

What are the risks and what could I get in return?

The summary risk indicator below is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

The risk indicator assumes you keep the product for five years. The actual risk can vary significantly if you sell your Shares at an early stage and you may get back less than you invested. You may not be able to sell your Shares easily or you may have to sell at a price that significantly impacts on how much you get back.

We have classified this product as 1 out of 7, which is "the lowest" risk class. This rates the potential losses from future performance at a very low level, and poor market conditions are very unlikely to impact the ability for you to receive a positive return on your investment.

For other risks materially relevant to the product which are not taken into account in the summary risk indicator, read the product's Annual Report available at www.polarcapitalhealthcaretrust.co.uk

The value of your investment can go down as well as up. This product does not provide any protection from future market conditions and regulatory changes, so you could lose some or all of your investment. If we are not able to pay you what is owed you could lose your entire investment.

What are the risks and what could I get in return? (continued)

Assuming you invest £10,000, this table shows how your investment could perform and what you could get back over the next five years (the recommended holding period) under different scenarios. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past but are not exact indicators. What you get will depend on how the market performs and how long you keep the investment. The "stress scenario" shows what you might get back in extreme market circumstances, and it does not take into consideration the situation where we are not able to pay you.

The figures shown include all the costs of the product itself, where applicable, but do not include any costs that you may pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

Performance Scenarios

Investment GBP 10,000

| Scenarios | | 1 year | 3 years | 5 years (Recommended holding period) |
|--------------|-------------------------------------|------------|------------|---|
| Stress | What you might get back after costs | £9,542.45 | £9,768.97 | £9,698.77 |
| | Average return each year | -4.58% | -0.78% | -0.61% |
| Unfavourable | What you might get back after costs | £10,250.32 | £10,843.16 | £11,487.11 |
| | Average return each year | 2.50% | 2.74% | 2.81% |
| Moderate | What you might get back after costs | £10,305.07 | £10,951.20 | £11,637.85 |
| | Average return each year | 3.05% | 3.08% | 3.08% |
| Favourable | What you might get back after costs | £10,372.24 | £11,073.27 | £11,804.38 |
| | Average return each year | 3.72% | 3.46% | 3.37% |

Performance figures have been produced in line with the regulation using relevant data from the past five years. Due to the long-term cyclical nature of the market the past five years may not be representative of the future and investors should consider all risk warnings before investing.

What happens if the Company is unable to pay out?

As a shareholder in the Company, you are not able to make a claim to the Financial Services Compensation Scheme about the Company in the event that the Company is unable to pay out.

The depository, HSBC Bank plc, is responsible for the safekeeping of your assets. You may face a financial loss if HSBC Bank plc defaults on its obligations. There is no compensation or guarantee scheme in place to offset all, or any of, this loss.

What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs. The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest £10,000. The figures are estimates and may change in the future.

Table 1: Costs over time

The person selling you and/or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Costs over time

| Investment Scenarios | If you cash in after 1 year | If you cash in after 3 years | If you cash in after 5 years |
|---------------------------------|-----------------------------|------------------------------|------------------------------|
| Total costs | £0.00 | £0.00 | £0.00 |
| Impact on return (RIY) per year | 0.00% | 0.00% | 0.00% |

What are the costs? (continued)

Table 2: Composition of costs

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period, and the meaning of the different costs categories.

This table shows the impact on return per year

| | | | |
|------------------|-----------------------------|-------|---|
| One-off costs | Entry costs | 0.00% | The impact of the costs you pay when entering your investment. (This is the most you will pay, and you could pay less). |
| | Exit costs | 0.00% | The impact of the costs of exiting your investment when it matures. |
| Recurring costs | Portfolio transaction costs | 0.00% | The impact of the costs of us buying and selling underlying investments for the product. |
| | Other ongoing costs | 0.00% | The impact of the costs that we take each year for managing your investments*. |
| Incidental costs | Performance fees | 0.00% | Information about performance fees can be found in the product's prospectus. |
| | Carried interests | 0.00% | This product does not have any carried interests. |

*This figure is based on estimated costs, often referencing historic data, and therefore actual costs paid may differ.

How long should I hold it and can I take my money out early?

Recommended holding period: 5 years

This product has no required minimum holding period but is designed for long term investment. You can buy or sell your Shares on the secondary market on any day which the banks are normally open for business in the UK.

How can I complain?

For complaints about the Company or the Key Information Document you can either write to Polar Capital, 16 Palace Street, London SW1E 5JD, email investor-relations@polarcapital.co.uk, or call 020 7227 2700.

As a shareholder of the Company you do not have the right to complain to the Financial Ombudsman Service about the management of the Company.

Other relevant information

The cost, performance and risk calculations included in this Key Information Document follow the methodology prescribed by EU rules. The data used in these calculations and the specific methodology applied may change in the future. Depending on how you buy your Shares, you may incur other costs including broker commission, platform fees and stamp duty.

You can find the latest Annual Report, Half Year Report and other information about the Company on the website www.polarcapitalhealthcaretrust.co.uk
