### What is this product?

#### Type

The Trust is an investment company as defined in Section 833 of the Companies Act 2006 and operates as an investment trust in accordance with Section 1158 of the Corporation Tax Act 2010. The Company is subject to the UK Listing Authority Rules.

#### Objectives

The Company exploits global opportunities not normally readily accessible in one vehicle to provide long-term growth to shareholders via a diversified, international, multi-strategy portfolio which also offers access to specialist funds including hedge and private equity. The Company aims to outperform the FTSE World Total Return Index on a total return basis (a combination of income and capital growth) in Sterling terms. The portfolio comprises investments which are considered to have attractive medium to long-term (typically 5 years or more) return potential and are of a specialist or alternative asset focus. Specialist investments target particular geographies or sectors and alternative investments focus on the private equity, hedge and property asset classes. Investments may be made in listed or unlisted closed-ended investment funds, open-ended investment funds, listed or unlisted company shares and debt instruments, exchange traded funds, contracts for difference ("CFDs"), and warrants and related instruments. Borrowings and long-only CFDs' exposure shall not exceed 20% of the Company's net asset value on a combined.

#### Intended retail investor

Investors (retail, professional and eligible counterparties) with at least basic capital markets knowledge or experience of shares, who understand the Trust's risks, seeking capital growth from alternative assets, and intend to invest their money for at least five years. This Trust is designed to be used only as a component in a diversified investment portfolio and is not designed for investors who are unable to accept more than a minimal loss of their investment.

#### Terms of the PRIIP

This investment has no maturity date. There are no circumstances under which Janus Henderson would be entitled to terminate the Company unilaterally. There are no circumstances under which the Company can be automatically terminated.

### What are the risks and what could I get in return?

#### Risk Indicator

Lower Risk

 Higher Risk

**The Risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.**

**Details of all the relevant risks, including discount, gearing and regulatory risks are on the Company's website and in the latest Annual Report which can be found at [www.hendersoninvestmenttrusts.com](http://www.hendersoninvestmenttrusts.com)**

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets.

We have classified this product as 3 out of 7 which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level and poor market conditions are unlikely to impact the return from your investment.

This product does not include any protection from future market performance so you could lose some or all of your investment.

## Performance Scenarios

Investment £10,000				
Scenarios		1 year	3 years	5 years (Recommend holding period)
Stress scenario	What you might get back after costs	£8,490	£7,494	£6,856
	Average return each year	-15.10%	-9.17%	-7.27%
Unfavourable scenario	What you might get back after costs	£9,565	£9,783	£10,212
	Average return each year	-4.35%	-0.73%	0.42%
Moderate scenario	What you might get back after costs	£10,451	£11,402	£12,438

Favourable scenario	What you might get back after costs	£11,399	£13,266	£15,134
	Average return each year	13.99%	9.88%	8.64%

This table shows the money you could get back over the next 5 years, under different scenarios, assuming that you invest £10,000 for 5 years.

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product. The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

### What happens if Henderson Investment Funds is unable to pay out?

In the event of the default or liquidation of Henderson Investment Funds Limited, there would be no direct impact on investors. Investment trusts are not covered by the Financial Services Compensation Scheme.

### What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest £10,000. The figures are estimates and may change in the future.

### Costs over time

Investment £10,000 Scenarios	If you cash in after 1 year	If you cash in after 3 years	If you cash in after 5 years
Total costs	£332.00	£963.30	£1,553.38
Impact on return (RIY) per year	3.32%	3.32%	3.32%

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

### Composition of Costs

The table below shows:

- the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period;
- the meaning of the different cost categories.

This table shows the impact on return per year			
One-off costs	Entry costs	0%	The impact of the costs you pay when entering your investment.
	Exit costs	0%	The impact of the costs of exiting your investment when it matures.
Ongoing costs	Portfolio transaction costs	0.8%	The impact of the costs of us buying and selling underlying investments for the product.
	Other ongoing costs	2.52%	The impact of the costs that we take each year for managing your investments. This will include the costs of borrowing money to invest but not any income or capital benefits of doing so, the ongoing costs of running the company, stock lending (if any) but not the income derived from it, and the ongoing costs of any underlying investments in funds within the Company's portfolio.
Incidental costs	Performance fees	0%	No Performance Fees are applied.

## How long should I hold it and can I take money out early?

### Recommended holding period: 5 years

Investment trusts should be considered medium to long term investments. This means 5 years or more. There is no minimum holding period, however, and shares can be sold at any time after purchase. These transactions may be subject to dealing charges and taxes.
