Company Investment Objectives and Policy

The investment objective of the Company is to provide a total return for investors primarily through investments in equities and equity related investments, of companies which are based in, or which derive a significant proportion of their revenues from, the Asia Pacific region and which offer attractive yields.

Relevant risk as associated with this Company are shown overleaf and should be carefully considered before making any investment. The latest Annual Report includes the investment policy which you should read in conjunction with the KIID before investing, these are available on our Schroders website.

Past Performance is not a guide to future performance and may not be repeated. The value of investments and the income from them may go down as well as up and investors may not get back the amounts originally invested. Exchange rate changes may cause the value of any overseas investments to rise or fall.

Risk considerations

The Company can be exposed to different currencies. Changes in foreign exchange rates could create losses. The Company may be concentrated in a limited number of geographical regions, industry sectors, markets and/or individual positions. This may result in large changes in the value of the company, both up or down, which may adversely impact the performance of the company. The Company may borrow money to invest in further investments, this is known as gearing. Gearing will increase returns if the value of the investments purchased increase in value by more than the cost of borrowing, or reduce returns if they fail to do so.
