

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## FRAMLINGTON EQUITIES

# AXA Framlington Managed Balanced Fund

Unit class : AXA Framlington Managed Balanced Fund Z Income GBP (ISIN: GBO0B7MQY793)

This Fund is managed by AXA Investment Managers UK Limited, part of the AXA IM Group

## Objective and Investment Policy

### Investment Objective

The aim of this Fund is to provide long-term capital growth.

### Investment Policy

The Fund invests in shares (equities) of listed companies which the fund manager believes will provide above-average returns. The Fund invests in companies of any size and based anywhere in the world. The fund manager seeks to reduce the impact on the Fund of fluctuations in value of equity markets by investing in bonds issued by companies or governments. The Fund's typical asset mix ranges between 60 – 85% in shares, with the remainder being mainly in bonds and cash. The fund manager selects shares and bonds based upon analysis of a company's financial status, quality of its management, expected profitability and prospects for growth. Where bonds are denominated in a currency other than UK Pound Sterling, the Fund reduces the impact of changes in its value as a result of movements in exchange rates between the currency and Sterling through the use foreign exchange hedging techniques (which involves the use of derivatives (financial instruments which derive their value from the value of other assets)).

### Income

Income from investments in the Fund may be paid out to you directly if you hold income units.

### Fund Currency

The reference currency of the Fund is Sterling.

### Investment Horizon

This Fund may not be suitable for investors who plan to withdraw their contribution within five years.

### Processing of subscription and redemption orders

Your orders to buy, sell or transfer units in the Fund must be received by the Administrator by 12 noon on any working day, to receive that day's Fund price. Please note that if your order is placed by an intermediary or Financial Adviser they may require extra processing time.

The Net Asset Value of this Fund is calculated on a daily basis.

Minimum initial investment: £100,000

Minimum subsequent investment: £5,000

## Risk and Reward Profile

The risk category is calculated using historical performance data and may not be a reliable indicator of the Fund's future risk profile.

The risk category shown is not guaranteed and may shift over time

The lowest category does not mean risk free.

### Why is this Fund in this category?

The capital of the Fund is not guaranteed. The Fund is invested in financial markets and uses techniques and instruments which are subject to some levels of variation, which may result in gains or losses.

### Additional Risks

**Emerging Market Risks:** emerging markets or less developed countries may face more political, economic or structural challenges than developed countries. As a result, investments in such countries may cause greater fluctuations in the Fund's value than investments in more developed countries. In addition the reliability of trading, settlement and custody systems in some emerging market countries may not be equal to more developed countries and result in greater operational and liquidity risk.

**Credit Risk:** the risk that an issuer of bonds will default on its obligations to pay income or repay capital, resulting in a decrease in Fund value. The value of a bond (and, subsequently, the Fund) is also affected by changes in market perceptions of the risk of future default. Investment grade issuers are regarded as less likely to default than issuers of high yield bonds.

**Currency Risk:** the Fund holds investments denominated in currencies other than the base currency of the Fund. As a result, exchange rate movements may cause the value of investments (and any income received from them) to fall or rise affecting the Fund's value.

**Interest Rate Risk:** fluctuations in interest rates will change the value of bonds, impacting the value of the Fund. Generally, when interest rates rise, the value of the bonds fall and vice versa. The valuation of bonds will also change according to market perceptions of future movements in interest rates.

Further explanation of the risks associated with an investment in this Fund can be found in the prospectus.

## AXA Framlington Managed Balanced Fund

## Charges

The charges you pay are used to pay the cost of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

**One-off charges taken before or after you invest**

Entry charge	none
Exit charge	none
This is the maximum that might be taken out of your money before it is invested.	

**Charges taken from the fund over a year**

Ongoing charges	0.70%
-----------------	-------

**Charges taken from the fund under certain specific conditions**

Performance fee	none
-----------------	------

The entry and exit charges shown are maximum figures. In some cases, you might pay less - you can find this out from your Financial Adviser.

The ongoing charges figure is based on expenses for the twelve month period ending December 2018. This figure may vary from year to year. It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

For more information about charges, please refer to AXA IM website: <https://retail.axa-im.co.uk/fund-charges-and-costs> as well as the Fees and Expenses section of the prospectus which is available at [www.axa-im.com](http://www.axa-im.com).

## Past performance

Past performance is not a reliable indicator of future results.

Past performance is shown after the deduction of ongoing charges. Any entry/exit fees are excluded from the calculation.

The Fund was launched on 31/12/1992 and the unit in 1992.

Past performance has been calculated in Sterling and is expressed as a percentage change of the Fund's Net Asset Value at each year end.
