Aegon Ethical Corporate Bond Fund

a sub-fund of Aegon Asset Management UK ICVC

Sterling Class B - Accumulation shares (ISIN: GB00B018K352)

This fund is managed by Aegon Asset Management UK plc ("the authorised corporate director (ACD)").

Objectives and investment policy

Objective: to provide a combination of income and capital growth over any 7 year period.

Policy: The Fund operates an ethical screen which means that the Fund may not invest in particular industries and sectors. In all cases, the investments of the Fund will meet the Fund's predefined ethical criteria.

The Fund will invest at least 80% in a portfolio of investment grade corporate bonds issued anywhere in the world.

Investment grade corporate bonds are bonds issued by companies whose credit rating is deemed to be investment grade, defined as Baa3 or higher by Moody's Investor Services (Moody's) BBB- or higher by Standard & Poor's (S&P) or BBB- or higher by Fitch, or their respective successors or equivalents.

The Fund may also invest up to 10% in high yield corporate bonds issued anywhere in the world.

High yield corporate bonds are considered by the investment manager to be bonds issued by companies whose credit rating is defined as Ba1 or below by Moody's or BB+ or below by Standard and Poor's or BB+ or below by Fitch or their respective successors or equivalents. High yield bonds also include non-rated instruments.

Bond investments will be denominated in Sterling.

The Fund is actively managed and the ACD adjusts the Fund's credit exposure and duration (interest rate risk) based on an analysis of the prevailing economic and market conditions.

Subject to its custom-defined ethical criteria, the Fund will also seek to achieve diversification across individual issuers and sectors when constructing the portfolio.

To the extent that the Fund is not fully invested as set out above, the Fund may also invest in other transferable securities, collective investment schemes (up to 10% of Net Asset Value and which may include schemes managed by the ACD or its affiliates), money market instruments, deposits and cash and near cash. It is intended that investment in any other collective investment schemes will be predominately in approved money market instruments.

Risk and reward profile

1	2	**3**	4	5	6	7

Lower risk / potentially lower rewards — **Higher risk / potentially higher rewards**

The risk/reward profile shows the risk of investing in the Fund, based on the rate at which its value has changed in the past. This Fund has the above risk/reward rating because bond prices can be affected by political or economic events, changes in exchange rates, and changes in interest rates.

The Fund's category is not guaranteed and may change over time. It is calculated using historical data, which may not be a reliable indication for the future. Category 1 does not mean 'risk free'.

The following risks, which are not, or are not fully, reflected in the risk/reward profile are also relevant to the Fund:

Credit: An issuer of bonds may be unable to make payments due to the Fund (known as a default). The value of bonds may fall as default becomes more likely. Both default and expected default may cause the Fund's value to fall. High yield bonds generally offer higher returns because of their higher default risk and investment grade bonds generally offer lower returns because of their lower default risk.

Liquidity: The Fund's value may fall if bonds become more difficult to trade or value due to market conditions or a lack of supply and demand. This risk increases where the Fund invests in high yield bonds.

Interest Rate Risk: Bond values are affected by changes in interest rates. When interest rates rise, the value of the Fund is likely to fall.

Full details of risks are disclosed in the section 'Risk Factors' in the Prospectus.
