

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Fidelity MoneyBuilder Growth Fund

a sub-fund of Fidelity Investment Funds

Y Income Shares (ISIN: GB00B6840Q15)

This fund is managed by FIL Investment Services (UK) Limited

Objectives and Investment Policy

- Aims to provide income and long-term capital growth.
- Invests primarily in the shares of UK companies with a likely bias towards larger companies.
- Can use derivatives with the aim of risk or cost reduction or to generate additional capital or income in line with the fund's risk profile.
- The fund has discretion in its choices of investments within its objectives and policies.
- Income is reinvested in additional shares or paid to shareholders on request.
- The annual management charge may be taken from your capital and not from the income generated by the fund. This means that any capital growth in the fund may be reduced by the charge. Your capital may reduce over time if the fund's growth does not compensate for it.
- Shares can usually be bought and sold each business day of the fund.
- Subject to the vote of the Shareholders of Fidelity MoneyBuilder Growth Fund, to be held at a Shareholder meeting on 20 May 2019, this fund will merge into the Fidelity UK Opportunities Fund, a sub-fund of Fidelity Investment Funds 2, on 21 June 2019 or such subsequent date as may be agreed in writing between Fidelity and the Depositary.

Risk and Reward Profile

- The risk category was calculated using historical performance data.
- The risk category may not be a reliable indication of the future risk profile of the fund, is not guaranteed and may change over time.
- The lowest category does not mean a "risk free" investment.
- The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the share class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.
- The value of your investment may fall as well as rise and you may get back less than you originally invested.
- The fund may invest in instruments denominated in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the value of your investment.
- Currency hedging may be used which aims to reduce the effect of such changes. However, the effects may not be completely eliminated to the degree expected.

Charges for this fund (ISIN: GB00B6840Q15)

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.
