

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

FTF Franklin UK Equity Income Fund

Class A (inc) • ISIN GB00B6VBM744 • A sub-fund of Franklin Templeton Funds
The management company is Franklin Templeton Fund Management Limited

Objectives and Investment Policy

FTF Franklin UK Equity Income Fund (the "Fund") primary aim is to generate an income that is higher than that of the FTSE All-Share Index, together with investment growth over a three to five-year period after all fees and costs are deducted.

The Fund invests at least two thirds (but typically significantly more) in the shares of companies listed on the London Stock Exchange. These companies are incorporated/domiciled in the UK or which have significant business operations in the UK.

The Fund can invest to a lesser extent in:

- equity securities of companies that are not included in the FTSE 100 Index
- other asset classes.

Typically, the number of holdings in the Fund will vary between 40 to 60 company shares and most of these will be the shares of large (such as those making up the FTSE 100 Index) companies

The Fund's managers try to help manage risk by making sure no single company share dominates the Fund's investments. Normally they try to keep shareholdings in any individual large company to no more than 5% of the Fund's total value, while a shareholding in any individual medium- and small-sized company would typically be no more than 2%.

The Fund can use derivatives for efficient portfolio management (managing the fund in a way that is designed to reduce risk or cost and/or generate extra income or growth).

You may request the sale of your shares on any UK business day.

For the income share class shown in this document, dividend income is distributed to investors.

For further information on the Objectives and Investment Policy of the Fund, please refer to the "Investment Objectives and Policies of the Funds" section of the current prospectus of Franklin Templeton Funds.

Terms to Understand

Equity securities: Securities that represent an ownership stake in a company.

FTSE 100 Index: This index comprises the 100 largest companies listed on the London Stock Exchange. The Index is used to assess the change in value of the securities which comprise it.

FTSE All Share Index: This index comprises almost every company listed on the London Stock Exchange and is generally considered to be the best performance measure of the overall London equity market.

Risk and Reward Profile

What does this indicator mean and what are its limits?

This indicator is designed to provide you with a measure of the price movement of this share class based on historical behavior.

Historical data may not be a reliable indication of the future risk profile of the Fund. The category shown is not guaranteed to remain unchanged and may shift over time.

The lowest category does not mean risk free.

Why is the Fund in this specific category?

The Fund invests mainly in equity securities listed on the London Stock Exchange, but may to a lesser extent also invest in debt securities or convertible securities of UK issuers. Such securities have historically been subject to price movements due to company-specific factors and movements in the equity and fixed income markets of the UK generally. As a result, the performance of the Fund can fluctuate considerably over time.

Risks materially relevant not adequately captured by the indicator:

Equity risk: prices of equities may be affected by factors such as economic, political, market, and issuer-specific changes. Such changes may adversely affect the value of the equities regardless of company-specific performance.

For a full discussion of all the risks applicable to this Fund, please refer to the "Risk Factors" section of the current prospectus of Franklin Templeton Funds.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	4.50%
Exit charge	Not applicable
<i>This is the maximum that might be taken out of your money before it is invested.</i>	

Charges taken from the Fund over a year

Ongoing charges	0.97%
------------------------	-------

Charges taken from the Fund under certain specific conditions

Performance fee	Not applicable
------------------------	----------------

The entry charges shown are maximum amounts; you may pay less in some cases. For more information, please see your financial adviser.

The ongoing charges are based on the expenses for the year ending 31 December 2020. This figure may vary from year to year.

For detailed information about charges, please refer to the "Fees and Charges" section of the current prospectus of Franklin Templeton Funds.

Past Performance

The FTF Franklin UK Equity Income Fund was launched on 17/10/11 to receive the assets of Rensburg UK Equity Income Trust. Past performance from the start of the performance chart until 17/10/11 has been simulated and is based on mid-price of the Trust.

- Past performance is not a guide to future performance.
- The past performance shown here includes all the ongoing charges but not the entry charge.
- Past performance is calculated in GBP
- The Fund was launched in 2011.
- We measure performance against the Fund's performance target the FTSE All-Share Index, as it is widely available and reflects investments in the UK stock market.
