

<b>Fund Name</b>	<b>UK Absolute Equity Fund</b> , a sub-fund of Polar Capital Funds plc
<b>Share Class</b>	Class I Hedged Euro Shares
<b>ISIN</b>	IE00BQLDRZ33

## Objectives and investment policy

### Objectives

The objective of the Fund is to achieve a positive absolute return over rolling 12-month periods by investing predominately in company shares and financial derivatives (complex instruments based upon the value of underlying assets). Absolute return means that the Fund seeks to generate a positive return in both rising and falling markets. There is no guarantee the fund will deliver a positive return over one, or any number of 12-month periods.

### Investment Policy

The Fund mainly invests in UK companies, and to a lesser degree European and Global equities which the Investment Manager believes are mispriced by the stock markets.

The Fund may, at any one time, be significantly invested in financial derivative instruments. The Fund may take synthetic long and short positions to achieve leverage (which may have the effect of multiplying gains or losses). The Fund may also take synthetic short positions to protect investors' capital when required. Leverage is not expected to exceed 250% of the net asset value of the Fund.

The Fund is actively managed and uses the 3 Month GBP London Interbank Offered Rate (LIBOR) (the "Benchmark") as a performance target to calculate the performance fee. The performance of the Fund is likely to differ significantly from the performance of the Benchmark. The Benchmark provides a cash hurdle that the Fund must achieve before earning a performance fee. The Benchmark does not reflect the investment universe of the Fund.

Any income which the Fund generates may be paid out in the form of an annual dividend at the sole discretion of the Directors.

You may sell your shares on days which banks are normally open for business in Dublin and London.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within five years. This Fund is appropriate for investors with an informed or expert level of financial knowledge.

## Risk and reward profile

### Why is this fund in category 7?

The Fund has a high risk rating because it invests in equities, the value of which can move up and down over time to a greater extent than some other investments.

**In addition to the risk captured by the indicator, the overall fund value may be considerably affected by:**

**Concentration Risk** - the Fund invests mainly in United Kingdom equities. This focused strategy can produce high gains but can also lead to significant losses. The Fund may be less diversified than other investment funds.

**Investment Risk** - the Fund invests primarily in equities, and share prices can rise or fall due to a number of factors affecting applicable stock markets.

**Derivative Risk** - Certain derivatives may result in gains or losses that are greater than the original amount invested. Derivatives also involve counterparty risk, which is the risk that a counterpart to the derivative contract cannot meet its contractual obligations. As the Fund can take synthetic short positions, some market effects could be amplified and result in higher losses. The investment in derivative instruments may increase the leverage of the Fund significantly. The use of leverage in a Fund gives an investor a larger exposure to underlying assets than the amounts actually invested and therefore may result in significant fluctuations in the

value of your investment.

**Currency Risk** - the Fund invests in assets denominated in currencies other than the Fund's base currency. Changes in exchange rates may have a negative impact on the Fund's investments.

### What do these numbers mean?

The risk indicator was calculated using historical data and may not be a reliable indication of the future risk profile of the Fund. The risk category shown is not guaranteed and may change over time. A category 1 fund is not a risk-free investment - the risk of losing your money is small, but the chance of making gains is also limited. With a category 7 fund, the risk of losing your money is high but there is also a chance of making high gains. The numerical scale is complex, for example, 2 is not twice as risky as 1.

### More about this rating:

For a more detailed explanation of risks, please refer to the **"Risk Factors"** section of the Prospectus.

## Charges

### One-off charges taken before or after you invest

Entry charge	Up to 5.00%
Exit charge	None

This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.

### Charges taken from the Fund over a year

Ongoing charge	1.16%
----------------	-------

### Charges taken from the Fund under certain specific conditions

Performance fee	20.00% a year of any returns the Fund achieves above the benchmark for these fees, the 3-month GBP LIBOR Index. In the year ending 31 December 2019 the performance fee amounted to 0.68%.
-----------------	--

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The **entry** and **exit charges** shown are maximum figures. In some cases you might pay less. You can find this out from your financial adviser or distributor.

The ongoing charges figure shown here is an estimate of the charges. The Fund's annual report for each financial year will include detail on the exact charges made.

You can find out more details about the charges by looking at the **"Fees and Expenses"** section of the Fund's prospectus, which is available at [www.polarcapital.co.uk](http://www.polarcapital.co.uk).

## Past performance

Past performance is not a reliable indicator of future performance.

The past performance shown does not take into account any entry, exit or switching charges but does take into account the ongoing charge, as shown in the **"Charges"** section.

The performance of this class is calculated in Euro.

The Fund launched on 29 September 2014. This class started to issue shares on 29 September 2014.

## Practical information

**Fund Depositary:** Northern Trust Fiduciary Services (Ireland) Limited.

### About the Fund:

The net asset value of the fund is calculated in British Pounds. The unit prices are published in Euro, on each business day. The prices will be made public at the office of the Administrator, notified to the Irish Stock Exchange without delay and published by the Investment Manager, Polar Capital LLP, on each valuation day on the Investment Manager's website ([www.polarcapital.co.uk](http://www.polarcapital.co.uk)).

This fund is subject to tax laws and regulations of Ireland. Depending on your home country of residence, this might have an impact on your investment. For further details, please speak to your financial adviser.

You are entitled to switch from one fund to another. Please refer to the **"Switching"** section of the Prospectus for further information.

### Find out more:
