The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

EQUITY

AXA World Funds - Sustainable Equity QI

A Sub-Fund of AXA World Funds SICAV

Share class: AXA World Funds - Sustainable Equity F Capitalisation GBP (ISIN : LU2084872642)

This Sub-Fund is managed by AXA Investment Managers Paris, part of the AXA IM Group

Objective and Investment Policy

Investment Objective

To seek to achieve a long-term return above that of the MSCI World Total Return Net Index (the "Benchmark"), with lower volatility and to apply an ESG approach.

Investment Policy

The Sub-Fund is actively managed in reference to the Benchmark and seeks to achieve its financial goal by primarily investing in a well-diversified basket of equity securities of issuers that comprise the Benchmark. The investment universe of the Sub-Fund may extend to equity securities listed in countries of the Benchmark that are not constituents of the Benchmark. The investment manager may take, based on its investment convictions, overweight or underweight positions compared to the Benchmark, meaning that deviation from the Benchmark is likely to be significant. However, in certain market conditions, the Sub-Fund's performance may be close to the Benchmark. This could occur, for example, when share performances are closely aligned to earnings growth, there is a low level of macroeconomic risk and the performance of the equity market aligns closely with the performance of the low volatility and quality factors targeted by the investment manager.

The portfolio construction will focus on fundamental drivers of risk and returns assessed through the use of a proprietary quantitative process.

The Sub-Fund invests in equities and equity-related securities of companies of any capitalisation, with a minimum of investment of 51% of net assets in equities, at all times. The Sub-Fund may invest up to 5% of net assets in Money Market Instruments. Within a limit of 200% of the Sub-Fund's net assets, the investment strategy may be achieved by direct investments and/or through derivatives. Derivatives may be used for efficient portfolio management and hedging purposes.

The Sub-Fund promotes environmental and/or social characteristics by investing in securities that have implemented good practices in terms of environmental impacts, governance and social (ESG).

Firstly, the Sub-Fund bindingly applies at all times AXA IM's Sectorial Exclusion and ESG Standards Policies www.axa-im.com/responsible-investing/sector-investment-guidelines. Secondly, in selecting individual securities, the investment manager applies an ESG 'scoring upgrade' approach which requires the ESG scoring of the Sub-Fund to be higher than the rating of the investment universe after removing at least the 20% worst ESG scores and uses a proprietary quantitative process designed to identify fundamental drivers of risk and return while seeking to significantly improve the Sub-Fund's ESG profile compared to that of the Benchmark by considering each stock's factor exposure alongside its ESG scores and carbon intensity (measured in CO2 Tonnes/Million \$ revenue) and/or water intensity. This process tilts the portfolio toward stocks with higher ESG scores and lower carbon intensity and/or water intensity while maintaining the desired factor exposure.

The ESG data used are based on methodologies relying in part on third party data and in some cases are internally developed, are subjective and may change over time. The lack of harmonised definitions can make ESG criteria heterogeneous. As such, the different strategies using ESG criteria and ESG reporting are difficult to compare with each other. Strategies incorporating ESG criteria and those incorporating sustainable development criteria may use data that appear similar but which should be distinguished because their calculation method may be different. AXA IM's ESG different methodologies described herein may evolve in the future to take into account any improvements in data availability and reliability, or any developments of regulations or other external frameworks or initiatives -among others.

The Sub-Fund is a financial product that promotes environmental and/or social characteristics within the meaning of article 8 of the Regulation (EU) 2019/2088 of 27 November 2019 on sustainability-related disclosures in the financial sector.

Income

For Capitalisation share classes (Cap), the dividend is reinvested.

Sub-Fund Currency

The reference currency of the Sub-Fund is USD.

Investment Horizon

This Sub-Fund may not be suitable for investors who plan to withdraw their contribution within 5 years.

Processing of subscription and redemption orders

The subscription, conversion or redemption orders must be received by the Registrar and Transfer Agent on any Valuation Day no later than 3 p.m. Luxembourg time. Orders will be processed at the Net Asset Value applicable to such Valuation Day. The investor's attention is drawn to the existence of potential additional processing time due to the possible involvement of intermediaries such as Financial Advisers or distributors.

The Net Asset Value of this Sub-Fund is calculated on a daily basis.

Risk and Reward Profile

The risk category is calculated using historical performance data and may not be a reliable indicator of the Sub-Fund's future risk profile.

The risk category shown is not guaranteed and may shift over time.

The lowest category does not mean risk free.

Why is this Sub-Fund in this category?

The capital of the Sub-Fund is not guaranteed. The Sub-Fund is invested in financial markets and uses techniques and instruments which may be subject to sudden and significant variation, which may result in substantial gains or losses.

Additional Risks (risks materially relevant to the fund which are not adequately captured by the indicator)

Counterparty Risk: Risk of bankruptcy, insolvency, or payment or delivery failure of any of the Sub-Fund's counterparties, leading to a payment or delivery default.

Risk linked to Method and Model: attention is drawn to the fact that the Sub-Fund's strategy is based on the utilisation of a proprietary share selection model. The effectiveness of the model is not guaranteed and the utilisation of the model may not result in the investment objective being met.

Operational Risk: Risk that operational processes, including those related

to the safekeeping of assets may fail, resulting in losses.

EQUITY

AXA World Funds - Sustainable Equity QI

Charges

The charges you pay are used to pay the cost of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry Charge	2.00%
Exit Charge	none
This is the maximum that might be taken out of your money before it is invested.	

Charges taken from the fund over a year

Ongoing charge	0.46%
----------------	-------

Charges taken from the fund under certain specific conditions

Performance fees	none
------------------	------

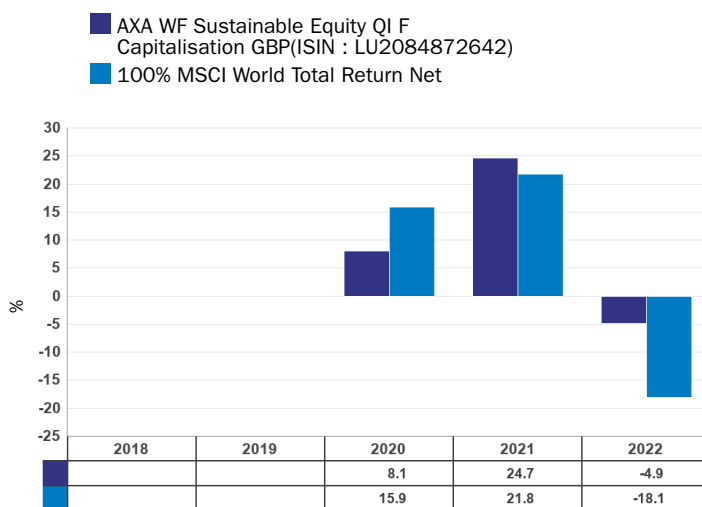

The entry and exit charges shown are maximum figures. In some cases, you might pay less - you can find this out from your Financial Adviser.

The ongoing charges figure is based on expenses for the twelve month period ending December 2022. This figure is adjusted with implemented budget changes for 2022. This figure may vary from year to year. It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Sub-Fund when buying or selling units in another collective investment undertaking

For more information about charges, please refer to the Fees and Expenses section of the prospectus which is available at www.axa-im.com.

Past Performance

Past performance is not a reliable indicator of future results.

Past performance is shown after the deduction of ongoing charges. Any entry/exit fees are excluded from the calculation.

The Sub-Fund was launched on 25/07/2013 and the share class in 2019.

Past performance has been calculated in GBP and is expressed as a percentage change of the Sub-Fund's Net Asset Value at each year end.

The performance of the Sub-Fund is not tracking the benchmark index.

For the different shareclasses of the Sub-Fund, the performance of the benchmark is displayed in the "Past Performance" section either as converted to the currency of the relevant shareclass or hedged against the reference currency of the Sub-fund in the case of hedged shareclasses ("hedged benchmark"). For some cases where the hedged benchmark is not available, the benchmark is displayed in the reference currency of the Sub-Fund, thus the performance of the displayed benchmark may deviate from the one of the relevant shareclass due to the performance differential inherent within the currency hedging activity not reflected in the benchmark.

Practical Information

Custodian:

State Street Bank International GmbH, Luxembourg Branch
49, Avenue J.F. Kennedy
L-1855 Luxembourg

Further Information:

More detailed information on this Sub-Fund, such as the prospectus as well as the latest annual and semi-annual report, can be obtained free of charge, in English, German, French, Spanish and Italian from the Sub-Fund Management Company, the central administrator, the Sub-Funds' distributors or online at <https://funds.axa-im.com/>.
