# Architas BirthStar® Target Date 2015-20

a Sub-Fund of **Architas Multi-Manager Global Solutions ICVC**  
**Share Class R Net Accumulation (GB00BP8Y4W80)**

*This Fund is managed by Architas Multi-Manager Limited, part of the AXA Group*

## Objectives and Investment Policy

The Fund seeks to achieve capital growth and, gradually over time, to reduce the risk of capital erosion for investors planning to withdraw all or substantial portions of their investment in the Fund during or after the Target Date Range (which is 2015-20).

The Fund is an actively managed fund of funds.

The Fund invests at least 70% of its assets in other funds (underlying funds), including funds which are traded on stock exchanges (investment trusts and exchange traded funds), other closed-ended funds and funds managed by Architas or its associates.

The underlying funds will invest globally (including in emerging markets) in a range of asset classes and financial instruments including shares, debt instruments (bonds) including those which can easily be converted into cash (money market instruments), freely transferable rights to buy other investments at a future date (warrants), financial contracts that derive their values from those of other investment instruments or indices (derivatives) and deposits.

The underlying funds will wherever practicably possible be passive funds, meaning they seek to track investment indices.

Underlying funds are selected on the basis of their efficiency at tracking the performance of certain investment indices which relate to particular types of assets.

The Fund may also invest directly in the above asset classes and financial instruments when there are specific benefits in doing so.

Further, the Fund may also obtain indirect exposure to property through investment in Real Estate Investment Trusts (REITs) and shares in property investment companies, and may engage in stock-lending and borrowing.

When required to manage liquidity, or the Fund's risk, the Fund may hold its assets in cash or deposits and money market instruments.

The Fund may use derivatives to help achieve the investment objective (investment purposes) as well as to reduce risk or to manage the Fund more efficiently (often referred to as "efficient portfolio management"). Currently the Fund is not intending to use derivatives.

The Fund's investments will change over time, becoming increasingly conservative on the approach to the Target Date Range and thereafter, by increasing its investment in money market instruments, cash, and other lower risk assets.

The Fund does not have a benchmark.

We will automatically include income from the Fund's investments in the value of your shares.

You may sell your investment on a daily basis.

The base currency of the Fund is GBP.

## Risk and Reward Profile

This risk indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

The lowest category does not mean risk free.

The risk and reward category may shift over time and is not guaranteed.

Your investment in the Fund is not guaranteed. The Fund is invested in financial assets and instruments and uses financial techniques that are subject to levels of variation, that may result in gains or losses.

Funds of category 4 have shown in the past a low to medium volatility. The volatility describes how much the value of the fund went up and down in the past. The shares of a fund of category 4 might be subject to low to medium price fluctuations based on the historical volatility observed.

The following are additional risks not covered by the risk and reward category:

**Investment Manager/Sub-Investment Manager Risk:** The Fund relies upon the performance of one or more investment managers. If the investment managers perform poorly, the value of the Fund and your investment is likely to be adversely affected.

**Index Tracking Risk:** The underlying funds' performance may not exactly track that of their Indices. This may result from: market fluctuations; changes in the composition of the Indices; sampling techniques used; transaction costs; or other administrative expenses.

**Fund of Funds - Liquidity Risk:** The Fund invests in other funds and its liquidity depends upon the liquidity of those underlying funds. If underlying funds suspend or defer the payment of redemption proceeds, the Fund's ability to meet redemption requests may also be affected.

**Credit Risk - Bonds:** The Fund may invest in bonds which provide a fixed or variable return and which are a form of loan, the value of which depends on the issuer being able to make its payments. There is a risk that the issuer will fail to do so. Although the Fund generally invests in bonds with high ratings, a high rating does not guarantee an issuer's ability to pay.

**Counterparty Risk:** The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.

More information in relation to risks in general may be found in the "Risk Factors" section of the prospectus.

## Charges

The charges you pay are used to pay the cost of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

### One-off charges taken before or after you invest

Entry charge	none
Exit charge	none

This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge).

### Charges taken from the Fund over a year

Ongoing charge	0.55%
----------------	-------

### Charges taken from the Fund under certain specific conditions

Performance fee	none
-----------------	------

The entry and exit charges shown are maximum figures. In some cases, you might pay less - you can find this out from your financial adviser or distributor.

The ongoing charges figure is based on the expenses for the twelve month period ending 31st December 2019. This figure may vary from year to year. It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another fund.

There is a charges cap in place for this share class. Architas will not permit the ongoing charges figure to exceed 0.55% without first giving notice to the investors.

**For more information about charges, please see the section entitled "Fees and Expenses" in the Fund's prospectus which is available on request free of charge from the manager.**

## Past Performance

Past performance is not a reliable indicator of future performance.

The past performance shown here takes account of ongoing charges. The entry/exit fees are excluded from the calculation of past performance.

The Fund started to issue shares in November 2014.

Past performance has been calculated in GBP and is expressed as a percentage change of the Fund's net asset value per share at each year end.
