Objectives and Investment Policy

- ▶ The Fund aims to achieve a return on your investment, through a combination of capital growth and income on the Fund's assets, which reflects the return of the SPI® Select Dividend 20 Index (the Fund's benchmark index).
- ▶ The Fund aims to invest so far as possible and practicable in the equity securities (e.g. shares) that make up the benchmark index.
- ▶ The benchmark index measures the performance of shares of publicly traded Swiss companies with high dividend yields. It contains 20 shares selected from dividend paying shares of the Swiss Performance Index (SPI®), which show a certain liquidity as well as a sustainable dividend policy. The weightings of the individual shares in the benchmark index are based on their free float-adjusted market capitalisation and their dividend yield, but are additionally capped at 15% of the index. Market capitalisation is the share price of a company multiplied by the number of shares issued. Free float-adjusted market capitalisation means that only shares available to the public, rather than all of a company's issued shares, are used to calculate the benchmark index. Liquid shares mean that they can easily be bought or sold in the market in normal market conditions.
- ▶ The Fund intends to replicate the benchmark index by holding the equity securities, which make up the benchmark index, in similar proportions to it.
- ▶ The investment manager may use financial derivative instruments (FDIs) (i.e. investments the prices of which are based on one or more underlying assets) to help achieve the Fund's investment objective. The use of FDIs is expected to be limited.
- ▶ Recommendation: This Fund may not be appropriate for short-term investment.
- ▶ Your units will be distributing units (i.e. dividend income will be paid at least annually).
- ▶ The Fund's base currency is Swiss Franc.
- ▶ The Fund's units are listed and traded daily on the SIX Swiss Exchange. Investors can buy or sell units daily through an intermediary on such stock exchange.

For more information on the Fund, share/unit classes, risks and charges, please see the Fund's prospectus with integrated fund contract, available on the product pages at www.blackrock.com.

Charges

The charges are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

*Not applicable to secondary market investors. Investors dealing on a stock exchange will pay fees charged by their stock brokers or by their banks. Such charges can be obtained from the respective stock brokers or banks.

The ongoing charges figure is based on the fixed annualised fee charged to the Fund as set out in the Fund's prospectus. This figure excludes portfolio trade-related costs, except costs paid to the custodian and any entry/exit charge paid to an underlying collective investment scheme (if any).

** To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.

Exit Charge (max.)	3.00%*

This is the maximum that might be taken out of your money before it is invested or before proceeds of your investments are paid out.
