This product is an unsecured debt instrument governed by English law.

Objectives

Underlyings

GlaxoSmithKline PLC; GSK LN; London Stock Exchange; www.gsk.com
Royal Dutch Shell PLC; RDSA LN; London Stock Exchange; www.shell.com
Tesco PLC; TSCO LN; London Stock Exchange; www.tesco plc.com

Objectives:

This product is designed to provide a defined return when the product is redeemed (either at maturity or when redeemed early). It is possible for the product to be automatically redeemed early based on pre-defined conditions. If the product is not redeemed early, the capital redemption amount is linked to the performance of the Reference Underlying. Your capital will be fully at risk when investing in this product. The Reference Underlying is the Underlying with the lowest observed level on the relevant observation.

Automatic Early Redemption :

On any Early Redemption Observation Date, if the level of the Reference Underlying is at or above the Early Redemption Barrier, the product will be redeemed early and you will receive:
100% of the Nominal Value plus the Early Redemption Coupon multiplied by the number of years the product has elapsed since inception.

Final Redemption :

On the Maturity Date, provided that the product has not been redeemed early, you will receive a final redemption amount.

If the Final Level of the Reference Underlying is at or above the Final Barrier, you will receive:

100% of the Nominal Value plus the Final Coupon.

Otherwise, you will receive the Final Level of the Reference Underlying multiplied by the Nominal Value. In this scenario, you will suffer a partial or total loss of your invested amount.

Additional Information:

The level of each Underlying corresponds to its value expressed as a percentage of its Initial Value.

The Initial Value of each Underlying is its value observed on the Initial Observation Date.

The Final Level of the Reference Underlying is its level observed on the Final Observation Date.

Issue Date: 28/03/2013

Initial Observation Date: 19/04/2013

Final Observation Date: 23/04/2019

Coupon: 11.50%

Final Coupon: 69.00%

Early Redemption Barrier (1): 100%

Early Redemption Barrier (2): 100%

Early Redemption Barrier (3): 90%

Early Redemption Barrier (4): 80%

Early Redemption Barrier (5): 70%

Final Barrier: 60%

Early Redemption Observation Dates (i from 1 to 5): 22/04/2014; 20/04/2015; 19/04/2016; 19/04/2017; 19/04/2018

The Performance scenarios and costs of the product are presented over its Recommended holding period (which is less than one year). They are not comparable with Performance scenarios and costs of other product having a different Recommended holding period and being calculated on annualized basis.

Intended Retail Investor

The product is aimed at investors who:

- have specific knowledge or experience of investing in similar products and in financial markets, and have the ability to understand the product and its risks and rewards.
 - seek a product offering capital growth and have an investment horizon equal to the recommended holding period stated below.
 - are able to bear total loss of their investment and accept the risk that the Issuer / Guarantor could fail to pay the capital and any potential return.
 - are willing to accept a level of risk to achieve a potential return that is consistent with the summary risk indicator shown below
- (*) "capital" here means Nominal Value and not invested amount

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Summary Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 6 out of 7, which is the second-highest risk class.

This rates the potential losses from future performance at a high level, and poor market conditions are very unlikely to impact our capacity to pay you.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

Investment GBP 10,000.00		3 months 15 days (Recommended holding period)
Scenarios		
Stress scenario	What you might get back after costs Percentage Return	3,144.42 GBP -68.56%
Unfavourable scenario	What you might get back after costs Percentage Return	4,366.16 GBP -56.34%
Moderate scenario	What you might get back after costs Percentage Return	5,288.60 GBP -47.11%
Favourable scenario	What you might get back after costs Percentage Return	15,437.17 GBP 54.37%

This table shows the money you could get back over the next 3 months 15 days, under different scenarios, assuming that you invest GBP 10,000.00.

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products.

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the product.

The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

This product cannot be easily cashed in. This means it is difficult to estimate how much you would get back if you cash in before the end of the recommended holding period or maturity. You will either be unable to cash in early or you will have to pay high costs or make a large loss if you do so. The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

WHAT HAPPENS IF SOCIÉTÉ GÉNÉRALE IS UNABLE TO PAY OUT?

If the Issuer defaults you may only claim any unpaid amount from Société Générale (the Guarantor). Should Société Générale default or file for bankruptcy, you may suffer a partial or total loss of the invested amount. If the Issuer and/or the Guarantor becomes subject to resolution measures in the form of the bail-in tool ("bail-in"), your claim may be reduced to zero, converted into equity or its maturity may be postponed. Please be aware that your Investment is not covered by any investor compensation or guarantee scheme.

Please find the ratings of Société Générale at <https://www.societegenerale.com/en/measuring-our-performance/investors/debt-investors/ratings>.

WHAT ARE THE COSTS?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for different holding periods. They include potential early exit penalties. The figures assume you invest GBP 10,000.00. The figures are estimates and may change in the future.

Costs over Time

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Investment GBP 10,000.00	
Scenarios	If you cash in at the end of the Recommended Holding Period
Total costs	-43.22 GBP
Impact on return (RIY)	-0.43%

Composition of Costs

The table below shows:

- the impact of the different types of costs on the investment return you might get at the end of the recommended holding period;
- the meaning of the different cost categories.

This table shows the impact on return

One-off costs	Entry costs	-0.43%	The impact of the costs you pay when entering your investment. The impact of the costs already included in the price.
	Exit costs	0.00%	The impact of the costs of exiting your investment when it matures.
Ongoing costs	Portfolio transaction costs	0.00%	The impact of the costs of us buying and selling underlying investments for the product.
	Other ongoing costs	0.00%	The impact of the costs that we take for managing your investments and the costs presented in Section II.

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended Holding Period: 3 months 15 days, which corresponds to the product maturity.

Under normal market conditions, Société Générale or an entity of its group ensures a daily secondary market during the life of the product with a maximum bid-offer spread of 1%. If you want to sell this product before the Maturity Date, the price of the product will depend on market parameters at the time you wish to sell and you may sustain a partial or total capital loss. In unusual market condition, the resale of the product may be temporarily suspended.

HOW CAN I COMPLAIN?

Any complaint regarding the person advising on, or selling, the product can be submitted directly to that person. Any complaint regarding the product or the conduct of the product manufacturer can be submitted to Société Générale at the following address: SOCIÉTÉ GÉNÉRALE, Regulatory Information Department, 17 cours Valmy, 92987 PARIS LA DEFENSE CEDEX, FRANCE - SG-complaints-kid@sgcib.com (<http://kid.sgmarkets.com>).
