# Allianz International Investment Funds - Allianz Emerging Markets Equity Fund Share Class A (Acc) (GBP)

Managed by Allianz Global Investors UK Limited, part of Allianz Global Investors

ISIN: GB00B0WDH725

## Objectives and Investment Policy

The investment objective of the Allianz Emerging Markets Equity Fund is to achieve capital growth in the long term by investing mainly in the equity markets of countries which are represented in the MSCI Emerging Markets Index (each an "Emerging Market Country" and together "Emerging Market Countries"), aiming to outperform (net of fees) the Target Benchmark, the MSCI Emerging Markets Total Return Net (in GBP) over a rolling 5 year period.

We will invest at least 80% of the Fund's assets in equities and securities equivalent to equities (e.g. American Depositary Receipts, Global Depositary Receipts, equity linked notes etc.) in the equity markets of Emerging Market Countries. The following may also be acquired and counted towards the 80% limit; warrants, index certificates, certificates on adequately diversified equity baskets that apply to at least 10 equities and other transferable securities.

Up to 30% of the Fund's assets may be invested into the Chinese A-Shares market either directly via Stock Connect or indirectly through all eligible instruments, as set out in the Fund's investment policy. Up to 20% of the Fund's assets may be invested outside Emerging Market Countries (as defined above) including developed economies and / or other Non-Developed Countries. We may also utilise deposits and money market instruments in the management of the portfolio and their value, together with money market funds, may make up to a maximum of 20% of the Fund's assets. The Fund may also invest up to a

maximum of 10% of the Fund's assets in other Funds managed by Allianz Global Investors and its group of companies and other collective investment schemes managed by third parties.

The Fund is actively managed although the Target Benchmark will restrain the assets in which the Fund may invest to the extent described in this investment policy. The ACD will construct the Fund's portfolio with reference to the benchmark (including with regards to the stock, sector and regional weightings of the Target Benchmark), but the ACD may deviate from the Target Benchmark when making investment decisions and can make investments in securities that are not included in the Target Benchmark (for instance in smaller cap companies). This means that the composition and weightings of the Fund's portfolio may differ materially to that of the Target Benchmark.

The Target Benchmark is the MSCI Emerging Markets Total Return Net (in GBP).

The Fund may use derivatives for efficient portfolio management (including for hedging).

You may redeem shares of the Fund usually on each business day by 12:00.

We reinvest income generated into the Fund.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within 5 years.
