BNY MELLON
INVESTMENT MANAGEMENT

BNY Mellon Sustainable Sterling Bond Fund

INSTITUTIONAL SHARES W (INCOME) (ISIN: GB00BF0WC932)

a sub-fund of BNY Mellon Investment Funds. This Fund is managed by BNY Mellon Fund Managers Limited

This Fund is due to close on 13 December 2023. No new subscriptions are being accepted at this time. Existing investors have been notified of the closure. If you have any questions, please call 0800 614 330/ +44 (0)20 3528 4002.

Objectives and Investment Policy

OBJECTIVE

To achieve income and capital growth over the medium term (3-5 years).

POLICY

The Fund will:

- invest at least 75% of the portfolio in fixed income securities (bonds) issued by governments, public entities and companies that meet the Investment Manager's sustainability criteria, where environmental, social and governance ("ESG") considerations are an integral part. The Investment Manager's sustainability criteria exclude companies that participate in certain activities and involve other general and company level ESG-related analysis of a company's activities. The bonds selected will be denominated in sterling or hedged back to sterling.

The Fund may:

- invest in money market instruments, deposits, cash and near cash;
- invest up to 50% in bonds rated below investment grade (BBB-) by Standard & Poor's (or equivalent recognised rating agency);
- invest more than 35% of its assets in government and public securities issued or guaranteed by a single state, local authority or public international body;
- invest in Contingent Convertible Securities (CoCo's);
- invest in derivatives (financial instruments whose value is derived from other assets) to help achieve the Fund's investment objective. The Fund will also use derivatives with the aim of risk or cost reduction or to generate additional capital or income; and

- invest up to 10% in other collective investment schemes (including but not limited to another Sub-Fund or Sub-Funds of the Company or other BNY Mellon funds).

Benchmark: The Fund will measure its performance against a composite index, comprising 1/3 ICE Bank of America Sterling Non-Gilt TR Index, 1/3 ICE Bank of America Global High Yield Constrained TR Index (hedged to Sterling) and 1/3 ICE Bank of America UK Gilts All-Stocks TR Index, as a comparator benchmark (the "Benchmark"). The Fund will use the Benchmark as an appropriate comparator because it includes a broad representation of the asset classes, credit quality, sectors and geographical areas in which the Fund predominantly invests.

The Fund is actively managed, which means the Investment Manager has discretion over the selection of investments subject to the investment objective and policies disclosed in the Prospectus. While the Fund's holdings may include constituents of the Benchmark, the selection of investments and their weightings in the portfolio are not influenced by the Benchmark. The investment strategy does not restrict the extent to which the Investment Manager may deviate from the Benchmark.

OTHER INFORMATION

Treatment of income: income from investments will be paid to shareholders quarterly on or before 28 February, 31 May, 31 August and 30 November.

Dealing: you can buy and sell your shares in the Fund between 9:00 and 17:00 (UK time) on each business day in England and Wales. Instructions received before 12:00 will receive the price quoted on that day. The minimum initial investment for this share class is GBP 500,000.

Risk and Reward Profile

Lower risk
Potentially lower reward

Higher risk
Potentially higher reward

1 2 3 **4** 5 6 7

We have calculated the risk and reward category, as shown above, using a method of calculation derived from EU rules. As this Fund has less than 5 years performance data available, it is based on simulated volatility and is not a guide to the future risk and reward category of the Fund. The category shown is not a target or guarantee and may shift over time. Even the lowest category 1 does not mean a risk-free investment.

This Fund is in category 4 because its simulated historical value has shown moderate volatility. With a Fund of category 4, you have a moderate risk of losing money but your chance for gains is also moderate.

THE FOLLOWING RISKS MAY NOT BE FULLY CAPTURED BY THE RISK AND REWARD INDICATOR:

- **Objective/Performance Risk:** There is no guarantee that the Fund will achieve its objectives.
- **Currency Risk:** This Fund invests in international markets which means it is exposed to changes in currency rates which could affect the value of the Fund.

- **Geographic Concentration Risk:** Where the Fund invests significantly in a single market, this may have a material impact on the value of the Fund.
- **Derivatives Risk:** Derivatives are highly sensitive to changes in the value of the asset from which their value is derived. A small movement in the value of the underlying asset can cause a large movement in the value of the derivative. This can increase the sizes of losses and gains, causing the value of your investment to fluctuate. When using derivatives, the Fund can lose significantly more than the amount it has invested in derivatives.
- **Changes in Interest Rates & Inflation Risk:** Investments in bonds/ money market securities are affected by interest rates and inflation trends which may negatively affect the value of the Fund.
- **Credit Ratings and Unrated Securities Risk:** Bonds with a low credit rating or unrated bonds have a greater risk of default. These investments may negatively affect the value of the Fund.
- **Credit Risk:** The issuer of a security held by the Fund may not pay income or repay capital to the Fund when due.
- **Charges to Capital:** The Fund takes its charges from the capital of the Fund. Investors should be aware that this has the effect of lowering the capital value of your investment and limiting the potential for future capital growth. On redemption, you may not receive back the full amount you initially invested.
- **CoCo's Risk:** Contingent Convertible Securities (CoCo's) convert from debt to equity when the issuer's capital drops below a pre-defined

level. This may result in the security converting into equities at a discounted share price, the value of the security being written down, temporarily or permanently, and/or coupon payments ceasing or being deferred.

- **Sustainable Funds Risk:** The Fund follows a sustainable investment approach, which may cause it to perform differently than funds that have a similar objective but which do not integrate sustainable investment criteria when selecting securities. The Fund will not

engage in stock lending activities and, therefore, may forego any additional returns that may be produced through such activities.

- **Counterparty Risk:** The insolvency of any institutions providing services such as custody of assets or acting as a counterparty to derivatives or other contractual arrangements, may expose the Fund to financial loss.

A complete description of risk factors is set out in the Prospectus in the section entitled "Risk Factors".
