Sarasin Thematic Global Equity (Sterling Hedged), a sub-fund of Sarasin Funds ICVC Class A Income Shares

ISIN:GB00B417P793

This Fund is managed by Sarasin Investment Funds Limited

Objectives and Investment Policy

Objective

We seek to grow the Fund (through increases in investment value and income) in Sterling terms over a rolling 5 year period after deducting fees and costs.

Investment Policy

We invest at least 80% of the Fund in the shares of large and medium sized companies from around the world. We may also invest in cash or bonds or units in funds (including those managed by Sarasin). The Fund will seek to reduce the impact of currency volatility by hedging the majority of its overseas currency exposure back to Sterling.

The fund is actively managed. We carefully select the Fund's investments and have free choice to select companies from any country/region, sector or industry. We identify the long-term investment themes that drive growth and lead to disruption in global economies and industries, and will shape the world in which we live and invest. We select companies based on our own analysis of which are most likely to benefit from our themes, and are well placed to grow their revenues and cash flows as a result of them.

We may only use derivatives to maintain the Fund's value, manage investment risk and to gain cost-effective access to investments. Derivatives are financial contracts whose value is linked to the price of another asset (e.g. indices, rates, share prices, currencies).

The Fund's performance can be assessed by reference to the MSCI All Countries World (Local Currency) Index (GBP) as it represents the performance of shares of companies from around the world in Sterling terms.

Distribution Policy

Any income due from your investment may be paid out to you.

Dealing Frequency

You can buy and sell shares in the Fund before 12 noon GMT on any business day in London.

Recommendation

This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

For full investment objectives and policy details please refer to the Prospectus.

Risk and Reward Profile

The Risk and Reward Indicator table demonstrates where the fund ranks in terms of its potential risk and return, calculated using the volatility of monthly returns over five years. As it is based upon how the fund has performed in the past, you should note that the fund may well perform differently in the future. The risk category shown is not guaranteed and may shift over time.

The higher the rank the greater the potential reward but the greater the risk of losing money.

The Fund is ranked at 5 reflecting observed historical returns. The fund is in this category because it has shown higher levels of volatility historically.

The following risks may not be fully captured by the Indicator:

- Counterparty and Settlement Risk: The fund may enter into derivative transactions in over-the-counter markets, which will expose the fund to the credit risk of their counterparties. The fund may be exposed to the risk of settlement default where the counterparty may default on its obligations to perform under the relevant contract. In the event of the bankruptcy or insolvency of a counterparty, the fund could experience delays in liquidating the position as well as significant losses, including declines in value during the period in which the fund seeks to enforce its rights.
- Derivatives can only be used to manage the fund more efficiently in an attempt to reduce the overall risk of its investments, reduce the costs of investing or generate additional capital or income. Although this may not be achieved and may create losses greater than the cost of the derivative.
- Emerging Market Risk: Emerging markets may face more political, economic or structural challenges than developed markets and shares may be less liquid, meaning that investments may not be sold quickly enough to prevent or minimize a loss; they may therefore involve a higher risk than investing in developed markets.
- The fund has charges deducted from capital. This may reduce the potential for growth.
- Currency Hedged Class: Hedging activities may not be entirely effective in achieving the purpose for which they have been entered into. Currency hedging can also reduce and may completely offset gains in market circumstances that would otherwise have been beneficial had the position not been hedged.

Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

| One-off charges taken before or after you invest | |
|---|-----------|
| Entry charge | No charge |
| Exit charge | No charge |
| The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser. | |
| Charges taken from the Fund over a year | |
| Ongoing charges | 1.71% |
| Charges taken from the Fund under certain specific conditions | |
| Performance fee | No charge |

The ongoing charges figure is based on expenses for the year ending 31.12.2019. This figure may vary from year to year. It excludes: portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling in another fund.

For more information about charges, please refer to the relevant sections of the Prospectus available at www.sarasinandpartners.com

Past Performance

- Past performance is not a guide to future performance, prices may fluctuate and you may not get back your original investment.
- The performance figures include all ongoing charges and exclude any entry charges or exit charges.
- The past performance was calculated in GBP on a net asset value basis with gross dividends reinvested.
- The Fund was launched on 12/05/2009
- This Share Class was launched on 15/01/2010
- The benchmark of this fund has changed over time. Please visit www.sarasinandpartners.com/docs/global/benchmarkhistory for a full history.
