

# Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## Baillie Gifford UK Equity Focus Fund - Class B Shares

Accumulation Shares - ISIN GB00BZ3G2696 (also representative of Income Shares - ISIN GB00BZ3G2704)

This Fund is a sub-fund of Baillie Gifford UK & Balanced Funds ICVC which is an Investment Company with Variable Capital. Baillie Gifford & Co Limited is the Authorised Corporate Director of the Fund and is wholly owned by Baillie Gifford & Co.

### Objectives and investment policy

#### Objective

- The Fund aims to outperform (after deduction of costs) the FTSE All-Share Index by at least 1.5% per annum over rolling five-year periods.

#### Policy

- The Fund will invest at least 80% in shares of UK companies of any size and in any sector.
- UK companies are companies which are incorporated, domiciled or conduct a significant portion of their business in the UK.
- The Fund may also invest in companies which are listed, traded or quoted in the UK.
- The Fund will be actively managed.

#### Other Information

- You can sell some or all of your shares on any business day in the United Kingdom by contacting our Dealing Department by phone or post. Where properly completed documentation is received by post, shares will be sold at the next valuation point following receipt of the instruction.
- For Accumulation shares income will be re-invested. No further shares will be purchased but the reinvestment will be reflected in the price of your existing accumulation shares. You are, however, deemed to have received the income for tax purposes.
- For Income shares any income due to you will be paid into your bank or building society account, paid on the dates specified in the Prospectus.
- For further explanation and information see the investment objective and policy section of the Prospectus, which is available by contacting us.
- Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within five years.

### Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

- Please note that even the lowest risk class can lose you money and that extreme adverse market circumstances can mean you suffer severe losses in all cases.
- The Fund is classified in the category above because it invests in company shares which generally provide higher rewards and higher risks than other investments such as bonds or cash. Where no share price history is available for any part of the last five years (and thus no returns), the returns of the Fund's comparative index are used in its place to calculate the Risk and Reward Indicator.
- The indicator does not take into account the following relevant material risks:
  - Investment markets can go down as well as up and market conditions can change rapidly. The value of an investment in the Fund, and any income from it, can fall as well as rise and you may not get back the amount invested.
  - The Fund's exposure to a single market may increase share price movements.
  - Where possible, charges are taken from the Fund's revenue. Where there is insufficient revenue, the remainder will be taken from capital. This will reduce the capital value of the Fund.

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

### One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

### Charges taken from the Fund over a year

Ongoing charges	0.49%
-----------------	-------

### Charges taken from the Fund under specific conditions

Performance fee	NONE
-----------------	------

- The ongoing charges figure is based on the last year's expenses and may vary from year to year. It excludes the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).
- For the ongoing charges, the figure is for Accumulation shares and is at 31/07/2021.
- Portfolio transaction costs, which are not included in the calculation of the ongoing charges figure but are incurred by the Fund when buying or selling investments, may have an impact on performance and are paid from the assets of the Fund.
- The Fund's annual report for each financial year will include detail on the exact charges made.
- You can find further details about the charges in Part 5 of the Prospectus.
