AXA World Funds - ACT Social Progress

A Sub-Fund of AXA World Funds SICAV

Share class: AXA World Funds - ACT Social Progress F Capitalisation GBP (ISIN : LU1557119812)

This Sub-Fund is managed by AXA Investment Managers Paris, part of the AXA IM Group

Objective and Investment Policy

Investment Objective

To seek long-term growth in USD from a listed equity and equity related securities portfolio and a sustainable investment objective to advance the United Nations Sustainable Development Goals (SDGs) by investing into companies whose business models and/or operational practices are aligned with targets defined by one or more SDGs and create financial and societal value by fostering social progress.

Investment Policy

The Sub-Fund is actively managed to capture opportunities in the equity market, by investing at least 20% of net assets in equities of companies part of the MSCI AC World Total Return (Benchmark) universe. The investment manager has broad discretion over the Sub-Fund's portfolio and can take large overweight or underweight positions on the countries, sectors or companies compared to the Benchmark and/or take exposure to companies, countries or sectors not included in it. The deviation from the Benchmark is likely to be significant.

Investments may include companies of any sector and market capitalisation. The Sub-Fund may also invest up to 30% in money market instruments. Derivatives may be used for hedging and efficient portfolio management purposes.

The Sub-Fund seeks to deliver both a financial return, and a positive and measurable impact on society, and more specifically social issues. The Sub-Fund mainly invests in worldwide listed equities addressing the SDGs in their social dimension.

The Sub-Fund aims to support on the long run the SDGs established by the United Nations with a focus on the social themes. The Sub-Fund bindingly commits to have at all times at least 70% of assets invested in companies which have been assessed internally through the AXA IM's Impact approach <https://www.axa-im.com/who-we-are/impact-investing> according to which 5 key pillars are considered: intentionality, materiality, additionality, negative consideration and measurability. Firstly, the Sub-Fund bindingly applies at all times AXA IM's Sectorial Exclusion and ESG Standards Policies

<https://www.axa-im.com/our-policies> and a "Best-in-universe" (type of ESG selection consisting of giving priority to the issuers best rated from a non-financial viewpoint, irrespective of their sector of activity, and accepting sector biases, because the sectors which are considered more virtuous on the whole will be more heavily represented) selectivity approach consisting in selecting the best issuers in the investable universe based on a combination of AXA IM's Sectorial Exclusion and ESG Standards policies and SDGs alignment data. The Investment Manager also applies specific norm-based and value-based exclusions based on ethical criteria as described in the SFDR annex of the Sub-Fund. Secondly, the investment manager uses a combination of macro-economic, sector and company specific analysis that relies on rigorous analysis of the companies' business model, management quality, growth prospects and risk/return profile, with a focus on medium to long-term benefits from the companies which demonstrate a strong commitment to promote social progress. As an example, the ESG criteria may be housing and essential infrastructure, financial and technology

inclusion, healthcare solutions, well-being and safety, or education and entrepreneurship. The process also relies on responsible investments filters and analysis as well as impact appraisal, monitoring and measurement to verify and demonstrate that the desired outcome could be attained.

The ESG data used are based on methodologies relying in part on third party data and in some cases are internally developed, are subjective and may change over time. The lack of harmonised definitions can make ESG criteria heterogeneous. As such, the different strategies using ESG criteria and ESG reporting are difficult to compare with each other. Strategies incorporating ESG criteria and those incorporating sustainable development criteria may use data that appear similar but which should be distinguished because their calculation method may be different. AXA IM's ESG different methodologies described herein may evolve in the future to take into account any improvements in data availability and reliability, or any developments of regulations or other external frameworks or initiatives - among others.

The Sub-Fund is a financial product aiming to achieve a sustainable investment objective within the meaning of article 9 of the Regulation (EU) 2019/2088 of 27 November 2019 on sustainability-related disclosures in the financial sector.

AXA World Funds - ACT Social Progress

Charges

The charges you pay are used to pay the cost of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry Charge	2.00%
Exit Charge	none

This is the maximum that might be taken out of your money before it is invested.

Charges taken from the fund over a year

Ongoing charge	1.03%
----------------	-------

Charges taken from the fund under certain specific conditions

Performance fees	none
------------------	------

The entry and exit charges shown are maximum figures. In some cases, you might pay less - you can find this out from your Financial Adviser.

The ongoing charges figure is based on expenses for the twelve month period ending December 2023. This figure is adjusted with implemented budget changes for 2022. This figure may vary from year to year. It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Sub-Fund when buying or selling units in another collective investment undertaking

For more information about charges, please refer to the Fees and Expenses section of the prospectus which is available at www.axa-im.com.

Past Performance

Past performance is not a reliable indicator of future results.

Past performance is shown after the deduction of ongoing charges. Any entry/exit fees are excluded from the calculation.

The Sub-Fund was launched on 28/02/2017 and the share class in 2017.

Past performance has been calculated in GBP and is expressed as a percentage change of the Sub-Fund's Net Asset Value at each year end.

The performance of the Sub-Fund is not tracking the benchmark index.

For the different shareclasses of the Sub-Fund, the performance of the benchmark is displayed in the "Past Performance" section either as converted to the currency of the relevant shareclass or hedged against the reference currency of the Sub-fund in the case of hedged shareclasses ("hedged benchmark"). For some cases where the hedged benchmark is not available, the benchmark is displayed in the reference currency of the Sub-Fund, thus the performance of the displayed benchmark may deviate from the one of the relevant shareclass due to the performance differential inherent within the currency hedging activity not reflected in the benchmark.
